REPORT OF INDEPENDENT AUDITORS

The Administrative Committee
Aspen Systems Corporation Employee Stock Ownership Plan

We have audited the accompanying statement of net assets available for benefits of the Aspen Systems Corporation Employee Stock Ownership Plan (the Plan) as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2009 and 2008 and the changes in its net assets available for benefits for the year ended December 31, 2009, in conformity with accounting principles generally accepted in the United States.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying schedule of assets (held at end of year) as of December 31, 2009 and the schedule of reportable transactions for the year ended December 31, 2009 are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audit of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

1. Description of the Plan

General

Lockheed Martin Aspen Systems Corporation (the Corporation) established the Aspen Systems Corporation Employee Stock Ownership Plan (the Plan) effective as of January 1, 1993. The Plan is a profit sharing plan subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by an ESOP Administrative Committee appointed by the Corporation's board of directors. The Plan's assets are held in a trust (the Trust) under an agreement between the Corporation and Greatbanc Trust Company. The Corporation is the Plan Sponsor and the Plan Administrator.

On December 16, 2005, Aspen, the Trust and Lockheed Martin Services, Inc. (Lockheed Martin) entered into a Stock Purchase Agreement (SPA) whereby the Trust would sell to Lockheed Martin 100% of the issued and outstanding capital stock of the Corporation subject to certain closing conditions. The closing occurred on January 26, 2006. Consequently, all of the employer stock held within the Plan was converted to cash as of the closing and eighty percent (80%) of the proceeds from the sale were transferred to the Plan. In accordance with the SPA, the remaining proceeds were transferred into an escrow account to settle any potential claims arising from the purchase. These funds remained in the escrow account until the third anniversary date of the purchase or until all claims have been resolved, with periodic distributions to the Trust in the event that potential claims do not exceed scheduled distributions. In 2009, all amounts in the escrow account have been released.

Effective as of the day after the closing occurred, or January 27, 2006, the Plan was amended to change the Plan from an ESOP into a profit-sharing plan that is intended to be qualified under Section 401(a) of the Internal Revenue Code of 1986, as amended.

Effective as of the January 27, 2006, the Plan was amended so that no employee may become an eligible employee or participant under the Plan and also to prevent contributions to the Plan for any period ending after the closing and non-vested account balances on the date of the sale became 100% vested. Each participant was also permitted to take a plan distribution after the closing.

The Corporation reserves the right to terminate the Plan at any time, subject to Plan provisions. In the event of plan termination, participants will receive a payment equal to the total value of their accounts.

Participants should refer to the Summary Plan Description or the Plan document for a more complete description of the provisions of the Plan.

1. Description of the Plan (continued)

Payment of Benefits

On termination of service for any reason, the participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. If the total benefit is less than \$1,000 then an automatic distribution will be made. If the participant does not elect to have such distribution paid directly to an eligible retirement plan specified by the participant in a direct rollover or receive the distribution directly, then the Plan Administrator shall pay the distribution in a direct rollover to an individual retirement plan. Benefits paid to participants are recorded upon distribution.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States.

Investment Income

Interest income is recorded on the accrual basis. The Plan's investment in money market securities is recorded at cost which approximates fair value due to the short maturity of these investments.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, as well as disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued a standard to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. The standard also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities. The Plan adopted the guidance in the standard for the reporting period ended December 31, 2009. Adoption of the standard did not have a material effect on the Plan's Statements of Net Assets or its Statement of Changes in Net Assets.

2. Summary of Significant Accounting Policies (continued)

Recent Accounting Pronouncements (continued)

In May 2009, the FASB issued a standard related to accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. The standard was amended in February 2010. The Plan has adopted the standard, as amended.

In January 2010, the FASB issued an accounting standard update to clarify certain existing fair value disclosures and require additional disclosures related to fair value measurements. The guidance in the update clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. The update also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, the update introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in the update becomes effective for reporting periods beginning after December 15, 2009. Management is currently evaluating the effect that the provisions of the update will have on the Plan's financial statements.

The Plan is not currently affected by the issuance of additional accounting standards related to fair value mentioned above due to the Plan assets being invested in money market funds which are valued as Level 1 investments. Accordingly, the Plan has no changes related to modifications in investment classifications from the prior year financial statement.

3. Investments

Assets are invested in the Goldman Sachs Financial Square Prime Obligation Fund where the fund's objective is to maximize current income to the extent consistent with the preservation of capital and the maintenance of liquidity.

The Plan's investments as of December 31, 2009 and 2008, which represent 5% or more of the Plan's net assets available for benefits, are presented in the following table:

	<u>2009</u>	<u>2008</u>

4. Fair Value Measurements

The accounting standard for fair value measurements defines fair value, establishes a market-based framework or hierarchy for measuring fair value, and expands disclosures about fair value measurements. The standard is applicable whenever assets and liabilities are measured and included in the financial statements at fair value.

The fair value hierarchy established in the standard prioritizes the inputs used in valuation techniques into three levels as follows:

- Level 1 – Observable inputs – quoted prices in active markets for identical assets and liabilities;
- Level 2 – Observable inputs other than the quoted prices in active markets for identical assets and liabilities – includes quoted prices for similar instruments, quoted prices for identical or similar instruments in inactive markets, and amounts derived from valuation models where all significant inputs are observable in active markets; and
- Level 3 – Unobservable inputs – includes amounts derived from valuation models where one or more significant inputs are unobservable and require us to develop relevant assumptions.

At December 31, 2009, the Plan has no financial assets or liabilities that are categorized as Level 2 and Level 3. During 2009, the Plan had no financial assets or liabilities that were transferred in or out of the Level 2 and Level 3 categories.

The Plan's investment assets are stated at the fair value of the underlying net assets in the Plan. The Plan's investment assets, at fair value as of December 31, 2009 and December 31, 2008, totaled \$6,717,158 and \$10,476,999, respectively. All assets are invested in money market funds which are valued as Level 1 investments.

5. Income Tax Status

The Internal Revenue Service has determined and informed the Corporation by letter dated November 21, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

6. Party in interest transactions

There were no party-in-interest transactions in 2009.
