See accompanying notes.

NOTE 1 - PLAN DESCRIPTION

The following description of the Oregon Healthcare Resources Employee Savings Plan (the Plan), provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution profit sharing plan which includes a salary deferral arrangement commonly referred to as a 401(k) plan. The Plan covers substantially all employees of Oregon Healthcare Resources, P.C. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Eligibility - Eligible employees for elective deferrals are those who have completed 30 days of consecutive employment and are at least 18 years of age. Eligibility for employer contributions are those who have completed at least 1,000 hours of service in a consecutive 12-month period and are at least 18 years of age.

Employee voluntary contributions - Employee contributions consist of the amount of salary deferral elected by each participant and may not exceed applicable federal income tax limitations. Contributions which exceed allowable limits are returned to the participants.

Company contributions - The Company's matching and profit sharing contributions to the Plan are determined annually at the discretion of the Board of Directors. The employer match is based upon employee deferrals with matching percentages determined each year. All contributions are limited to the applicable amounts as prescribed by the Internal Revenue Code.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative and custodian expenses. Allocations are based on participant earnings or account balances, as defined. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Employee voluntary contributions plus actual earnings are 100% vested at all times. Vested interest in the employer matching and profit sharing contributions plus actual earnings are calculated at 20% per year of service, beginning with the participant's second full year of service and reaching 100% at the end of six years of credited service.

Forfeitures - Profit sharing forfeitures are added to employer profit sharing contributions as defined in the Plan. Matching forfeitures are used to reduce the employer matching contributions only. Forfeitures totaled $16,982 in 2009. Total forfeitures available to reduce the Company's future matching contributions were $18,106 at December 31, 2009 ($19,518 at December 31, 2008).

NOTE 1 - PLAN DESCRIPTION (Continued)

Payment of benefits - On termination of service, a participant or beneficiary may elect to receive an amount equal to the value of the participants' vested interest in his or her account in a lump-sum distribution amount or in a single life or joint annuity. If termination is due to death, disability, or retirement at or beyond age 59 ½, a participant is considered to be 100% vested even if the participant has not been credited with six years of vesting service. If an account balance is less than $1,000 upon termination, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Plan termination - Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting - The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

FASB Codification - On July 1, 2009, the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) became the single authoritative source for nongovernmental U.S. generally accepted accounting principles (GAAP). The ASC supersedes all previous authoritative GAAP applicable to the Plan and is effective for interim and annual periods ended after September 15, 2009.

Investment valuation - Investments are generally stated at fair value as certified by the Plan's custodian, Charles Schwab Trust Company. Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Income recognition - Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Payment of benefits - Benefits are recorded when paid.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative expenses - The Plan pays most of the administrative and investment expenses in relation to plan operations; the Company covers the remainder.

Risk and uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Subsequent events - Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements were available to be issued.

The Plan has evaluated subsequent events through October 8, 2010, which is the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS (Continued)

During the year ended December 31, 2009, the Plan's investments (including gains and losses on investments purchased, sold, as well as held during the year) appreciated in fair value as follows:

Registered investment companies	$ 6,362,922
Common/collective trusts	812,749
Self-directed brokerage accounts	133,364
	$ 7,309,035

NOTE 4 - FAIR VALUE MEASUREMENTS

In accordance with authoritative guidance, the Plan classifies its investments based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly;

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Shares of registered investment company funds are valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within level 1 of the valuation hierarchy.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The Plan has investments in the Schwab Managed Retirement 2010, 2020, 2030, 2040 and 2050 Trust Funds which are collective investment trust funds. The Funds invest in a diversification of assets, including, but not limited, to Large Cap Equities, Mid Cap Equities, Small Cap Equities, International Equities, Fixed Income and Stable Value funds. The Funds seek to provide total return for investors retiring approximately at or near the years 2010, 2020, 2030, 2040, and 2050.

Units held in common/collective trusts are valued using the net asset value (NAV) of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The net asset value of a collective investment fund is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. Accordingly, the unit value for a collective investment fund is classified within level 2 of the valuation hierarchy.

The Schwab Stable Value Fund is designed to provide preservation of capital and returns that are consistent regardless of stock and bond market volatility. The Fund seeks to earn a high level of income consistent with those objectives. The Fund holds guaranteed investment contracts which typically have a fixed maturity. Each contract contains a provision that the issuer will, if required, repay principal at the stated contract value for the purpose of paying benefit payments (fully benefit-responsive).

The Schwab Stable Value Fund is presented at contract value which approximates fair value. Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, may limit the Plan's ability to transact at contract value with the issuer. The Plan administrator does not believe that the occurrence of such events, which would also limit the Plan's ability to transact at contract value with participants, is probable.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

NOTE 5 - INFORMATION CERTIFIED BY CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Trust Company, the custodian of the Plan, has certified to the completeness and accuracy of:

- Investments reflected on the accompanying statement of net assets available for benefits as of December 31, 2009 and 2008.

- Net appreciation in fair value of investments, dividends, and interest reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2009.

- Investments reflected on the supplemental schedule of assets (held at end of year).

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Charles Schwab Trust Company. Charles Schwab Trust Company is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Charles Schwab Trust Company totaled $7,461 for the year ended December 31, 2009.

NOTE 7 - TAX STATUS

The Plan obtained its latest determination letter on May 9, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the Plan administrator and management believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 8 - LATE CONTRIBUTIONS

As disclosed in the accompanying supplemental schedule, certain employee deferrals were not remitted to the Plan within the timeframe required by the Department of Labor. The Company has determined the amount of related lost earnings and has remitted these amounts to participants' accounts subsequent to year end.
