Pre-Tax Savings Plan - Auburn

We were engaged to audit the accompanying statement of net assets available for benefits and the statement of changes in net assets available for benefits of the Cooper-Standard Automotive Inc. Pre-Tax Savings Plan - Auburn (the Plan) as of and for the year ended December 31, 2009, and the supplemental schedule, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified or provided by Wystar Global Retirement Solutions, a division of Wachovia Bank, N.A., the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodian holds the Plan's investment assets and executes investment transactions. As disclosed in Note 3, the Plan Administrator has obtained a certification from the custodian regarding the completeness and accuracy of the investment information provided to the Plan Administrator by the custodian as of and for the year ended December 31, 2009.

Because of the significance of the information in the Plan's 2009 financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule as of and for the year ended December 31, 2009. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's *Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.*

We have audited the statement of net assets available for benefits of Cooper-Standard Automotive Inc. Pre-Tax Savings Plan - Auburn as of December 31, 2008, and in our report dated October 5, 2009, we expressed our opinion that such financial statement presents fairly, in all material respects, the net assets available for benefits of Cooper-Standard Automotive Inc. Pre-Tax Savings Plan - Auburn as of December 31, 2008, in conformity with accounting principles generally accepted in the United States of America.

PRE-TAX SAVINGS PLAN - AUBURN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

Note 1-Description of plan

The following description of Cooper-Standard Automotive Inc. Pre-Tax Savings Plan - Auburn (the "Plan"), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, as amended and restated effective January 1, 2005, is a defined contribution plan covering all hourly employees who have completed 30 days of continuous credited service and are covered by the collective bargaining agreement between the United Steelworkers of America Local #634 and Cooper-Standard Automotive, Inc. ("Plan Sponsor"). Certain net assets of the Plan are held in a Master Trust established by the Plan Sponsor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 15% of their pretax compensation. Participants direct their contributions to any of the Plan's investment fund options.

Participants whose initial employment date is prior to July 1, 2008 receive a "fixed matching contribution" of 33-1/3% on the first 6% of a participant's compensation. Participants whose initial employment date is on or after July 1, 2008 receive a "fixed matching contribution" equal to 100% of all pre-tax contributions up to 2% of participant's compensation.

The Plan Sponsor may also make an annual discretionary contribution at the discretion of the Plan Sponsor's Board of Directors, not to exceed 6% of each participant's compensation. For 2009, the Plan Sponsor made an annual discretionary contribution equal to 10% of the participant's contributions up to 5% of the participant's compensation.

Participant accounts

Individual accounts are maintained for each participant in the Plan. Each participant's account is credited with the participant's contributions, their allocation of the Plan Sponsor's contributions and Plan earnings.

Vesting

The participants are immediately vested in their contributions plus actual earnings thereon. The participants are vested in the Plan Sponsor's contributions after three years of continuous credited service.

Participant withdrawals

In the event of retirement, death, termination, permanent disability or other separation from service, participants are entitled to receive an amount equal to the value of the vested interest in their accounts. Payment of benefits may be taken in a lump sum distribution or in installments.

In the event of hardship, as defined, participants may make a partial or full distribution of their accounts, subject to certain tax withholdings.

Note 1-Description of plan–continued

Participant loans

Effective January 1, 2009, participants may borrow the lesser of 50 percent of the vested value of their entire account or $50,000. Only one outstanding loan is permitted at any time and the loan repayment schedule can be no longer than 59 months or for less than $500. Principal and interest is paid ratably through payroll deductions. Prior to January 1, 2009, loans were not allowed by the Plan.

Termination of the plan

Although it has not expressed any intent to do so, the Plan Sponsor has the right, under the Plan, to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Reorganization of the Plan Sponsor

On August 3, 2009, the Plan Sponsor filed voluntary petitions for reorganization under Chapter 11 of the U.S. Bankruptcy Code. The Plan Sponsor obtained a commitment of Debtor in Possession Financing in order to continue normal operations. Effective May 27, 2010, the Plan Sponsor's reorganization plan was approved and the Company successfully exited Chapter 11 bankruptcy. The Plan Sponsor does not believe the reorganization will have any impact on its ability to make required contributions to the Plan.

Note 2-Summary of significant accounting policies

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Participant withdrawals are recorded upon distribution.

Valuation of investments and income recognition

Money market funds are valued using amortized cost which approximates fair value. Participant loans are valued based on carrying amount, which approximates fair value. Mutual funds are valued at quoted market prices, which represent the net asset value ("NAV") of shares held by the Plan at year end.

The fair value of the Plan's interest in the Master Trust is based on the beginning of the year's value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements for the underlying assets of the Master Trust.

Note 2-Significant Accounting Policies–continued

Valuation of investments and income recognition–continued

The Plan also invests in fully benefit-responsive investments which include the ABN AMRO Income Plus Fund and various investment contracts. Financial Accounting Standards Board (FASB) guidance, "Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide" and "Defined-Contribution Health and Welfare and Pension Plans" require that investment contracts held by a defined-contribution plan are to be reported at fair value. However, contract value is the relevant measurement of attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FASB guidance, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. The fully benefit-responsive investment fund and investment contracts are recorded at fair value and adjusted to contract value. Contract value represents investment contracts at cost plus accrued interest income less amounts withdrawn to pay benefits.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest on participant loans is recorded in the investment option from which the loan originated. Net appreciation/depreciation includes gains and losses on investments bought and sold as well as held during the year.

Administrative expenses

The Plan Sponsor pays the administrative expenses of the Plan, unless the expenses relate to specific investment directions of the participant.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent events

The Plan Sponsor has evaluated all events subsequent to the balance sheet date of December 31, 2009, through October 6, 2010, which is the date these financial statements were issued, and has determined there are no subsequent events that require disclosure under the FASB Accounting Standards Codification (ASC) Topic, *Subsequent Events*, that have not been disclosed.

Note 3-Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2009, and net realized and unrealized appreciation in fair value of investments, interest, dividends and other for the year ended December 31, 2009, were obtained or derived from information supplied to the Plan Sponsor and certified by Wystar Global Retirement Solutions, a division of Wachovia Bank, N.A., as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information has not been examined by independent auditors.

Investments that exceed 5% of the Plan's net assets available for benefits at December 31, 2009 and 2008 are as follows:

	2009	2008
T. Rowe Price Retirement 2030	$ 897,070	$ *
T. Rowe Price Retirement 2020	665,341	*
Allegiant Large Cap Value Fund	609,626	492,164
T. Rowe Price Retirement 2025	558,445	*
ABN AMRO Pooled Trust Fund for Employee Benefit Plans	483,018	*
T. Rowe Price Retirement 2035	370,934	*
T. Rowe Price Retirement 2015	345,933	*
Artio International Equity	345,165	260,342
Investment Company of America Fund	*	439,361

** This investment did not have a balance in excess of 5% at year-end.*

During 2009, the Plan's investments (including investments purchased, sold as well as held during the year) appreciated in fair value as follows:

Mutual funds	$ 919,817
Interest in Master Trust	638,224
Common/collective trust	9,525
	$ 1,567,566

FASB ASC Topic 820, "Fair Value Measurements", defines fair value, establishes a framework on measuring fair value, establishes a fair value hierarchy on the quality of inputs used to measure fair value and enhances disclosure requirements for fair value measurements. The Plan accounts for certain financial assets at fair value under various accounting literature.

Note 3-Investments–continued

In accordance with the standard, the Plan has categorized its financial instruments, based on the priority of the inputs to the valuation technique, into the three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within the different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

Financial assets and liabilities recorded on the Statement of Net Assets Available for Benefits are categorized based on the inputs to the valuation techniques as follows:

Level 1. Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access.

Level 2. Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

a. Quoted prices for similar assets or liabilities in active markets;

b. Quoted prices for identical or similar assets or liabilities in non-active markets;

c. Pricing models whose inputs are observable for substantially the full term of the asset or liability; and

d. Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation of other means for substantially the full term of the asset or liability.

Level 3. Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3-Investments–continued

The following tables present the Plan's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis:

		Fair Value Measurements at December 31, 2009

Money market fund	150		150	
Total	$ 2,057,485	$ 1,814,896	$ 242,589	$ 0

Note 4-Master Trust

Wachovia Bank, N.A. is the custodian of the Cooper-Standard Automotive Inc. Master Savings Trust ("Master Trust"). Each participating retirement plan has an undivided interest in the Master Trust. The Plan's interest in the Master Trust is determined by the Plan's relative asset value to the Master Trust's total asset value at the end of the year. Although assets of participating Plans are commingled, supporting records for the purpose of allocating the net gain or loss of the investment account to the participating Plans are maintained. The net investment income (loss) and administrative expenses of the investment assets is allocated by the custodian to each participating Plan based on the relationship of the interest of each Plan to the total of the interests of the participating Plans.

Certain of the Plan's participants previously participated in plans that were sponsored by either Cooper Tire & Rubber Company or ITT Industries, Inc. Those plans permitted investments in funds containing the sponsors' common stock. The Plan does not permit contributions to these stock funds.

Note 4-Master Trust–continued

The following presents the values of the investments in the Master Trust:

	2009	2008
Investments, at fair value:		
Cooper Tire & Rubber Company common stock	$ 7,094,211	$ 2,817,541
ITT Industries Inc. common stock	1,711,454	2,344,386

Plan's investment in the Master Trust	$ 810,265	$ 2,286,192
Plan's percentage investment in the Master Trust	8.92%	5.51%

Investment income for the Master Trust for the year ended December 31, 2009 is as follows:

Interest and dividends	$ 178,632
Net appreciation of fair value of Cooper Tire & Rubber Company common stock	5,186,475
Net appreciation of ITT Industries Inc. common stock	79,085
	$ 5,444,192

Fair values of publicly traded common stocks are determined by obtaining quoted prices in active markets. Money market funds are valued using amortized cost which approximates fair value.

Note 4-Master Trust–continued

The following tables represent the balances of the Master Trust's assets measured at fair value by the levels described in Note 3 at December 31, 2009 and 2008:

Note 5-Fully benefit-responsive investment contracts

In December 2008, the Plan began investing in the Income Plus Fund, a sub-fund of the ABN AMRO Pooled Trust Fund for Employee Benefit Plans (ABN AMRO Fund), which is a fully benefit-responsive investment offered by the Plan and held outside the Master Trust. The ABN AMRO Fund has separately audited financial statements which provide additional information on this fully benefit-responsive investment fund. The ABN AMRO Fund invests primarily investment contracts such as guaranteed investment contracts (GICs), money market instruments, repurchase agreements, private placements, bank investment contracts and enters into wrapper contracts with underlying securities to create synthetic GICs. The ABN AMRO Fund is presented as the common/collective trust on the accompanying financial statements.

In a traditional GIC, the ABN AMRO Fund enters into a contract with an issuer (typically a bank or life insurance company), which provides for a stated rate of interest and a fixed maturity. In a synthetic GIC structure, the Fund owns fixed-income investment and enters into a wrap contract from high-quality insurance companies, banks or other financial services companies that serve to substantially offset the price fluctuations in the underlying investments caused by movements in interest rates.

Each wrap contract obligates the wrap provider to maintain the "contract value" of the underlying investments. The contract value is generally equal to the principal amounts invested in the underlying investments, plus interest accrued at a crediting rate established under the contract, less any adjustments for withdrawals (as specified in the wrap agreement).

Calculating the Interest Crediting Rate in Wrapper Contracts

The key factors that influence future interest crediting rates for a wrapper contract include:

- The level of market interest rates
- The amount and timing of participant contributions, transfers, and withdrawals into/out of the wrapper contract
- The investment returns generated by the fixed income investments that back the wrapper contract
- The duration of the underlying investments backing the wrapper contract

Wrapper contracts' interest crediting rates are typically reset on a monthly or quarterly basis. While there may be slight variations from one contract to another, most wrapper contracts use a formula that is based on the characteristics of the underlying fixed income portfolio.

Over time, the crediting rate formula amortizes the Fund's realized and unrealized market value gains and losses over the duration of the underlying investments.

Note 5-Fully benefit-responsive investment contracts–continued

Because changes in market interest rates affect the yield to maturity and the market value of the underlying investments, they can have a material impact on the wrapper contract's interest crediting rate. In addition, participant withdrawals and transfers from the Fund are paid at contract value but funded through the market value liquidation of the underlying investments, which also impacts the interest crediting rate. The resulting gains and losses in the market value of the underlying investments relative to the wrapper contract value are represented on the Fund's Statement of Assets and Liabilities as the "Adjustment from Fair Value to Contract Value". If the Adjustment from Fair Value to Contract Value is positive for a given contract, this indicates that the wrapper contract value is greater than the market value of the underlying investments. The embedded market value losses will be amortized in the future through a lower interest crediting rate than would otherwise be the case. And if the Adjustment from Fair Value to Contract Value figure is negative, this indicates that the wrapper contract value is less than the market value of the underlying investments. The amortization of the embedded market value gains will cause the future interest crediting rate to be higher than it otherwise would have been.

All wrapper contracts provide for a minimum interest crediting rate of zero percent. In the event that the interest crediting rate should fall to zero and the requirements of the wrapper contract are satisfied, the wrapper issuers will pay to the plan the shortfall needed to maintain the interest crediting rate at zero. This helps to ensure that participants' principal and accrued interest will be protected.

Events That Limit the Ability of the Fund to Transact at Contract Value

In certain circumstances, the amount withdrawn from the wrapper contract would be payable at fair value rather than at contract value. These events include termination of the plan, a material adverse change to the provisions of the plan, if the employer elects to withdraw from a wrapper contract in order to switch to a different investment provider, or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the wrapper contract issuer's underwriting criteria for issuance of a clone wrapper contract.

The events described above that could result in the payment of benefits at market value rather than contract value are not probable of occurring in the foreseeable future.

Issuer-Initiated Contract Termination

Examples of events that would permit a wrapper contract issuer to terminate a wrapper contract upon short notice include the plan's loss of its qualified status, un-cured material breaches of responsibilities, or material and adverse changes to the provisions of the plan. If one of these events was to occur, the wrapper contract issuer could terminate the wrapper contract at the market value of the underlying investments (or in the case of a traditional GIC, at the hypothetical market value based upon a contractual formula).

Rate Information

The average yield for the ABN AMRO Fund was approximately 2.40% for 2009. The ABN AMRO Fund crediting interest rate was approximately 2.37% and 4.57% at December 31, 2009 and 2008, respectively. The crediting interest rate reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets.

Note 6-Federal income tax status

The Plan has received a determination letter from the Internal Revenue Service dated July 2, 2003, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Note 7-Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8-Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 and 2008 to Form 5500:

	2009	2008
Net assets available for benefits per the financial statements	$ 5,966,435	$ 4,454,796
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	(10,144)	(18,065)
Net assets available for benefits per Form 5500	$ 5,956,291	$ 4,436,731

The following is a reconciliation of changes in net assets available for benefits per the financial statements at December 31, 2009 to Form 5500:

Net increase in net assets per the financial statements	$ 1,511,639
Change in adjustment from contract value to fair value for fully benefit-responsive investment contracts	7,921
Net income per Form 5500	$ 1,519,560
