401(k) RETIREMENT SAVINGS PLAN FOR FIELD OPERATIONS**

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Washington Group International, Inc. 401(k) Retirement Savings Plan for Field Operations (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a complete description of the Plan.

General: In November 2007, Washington Group International, Inc. (the “Employer”) was acquired by URS Corporation, and is now referred to as the Energy & Construction business of URS.

The Plan is a defined contribution plan, generally covering designated hourly employees who (1) are eligible to work in the United States, and (2) are not covered by a collective bargaining agreement, unless such bargaining agreement specifically provides for coverage of the bargaining unit members under the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Participant accounts: A separate account is maintained for each Plan participant. Participant accounts include voluntary contributions and/or Employer contributions, if applicable, and an allocation of investment earnings based on the number of shares held in a participant’s account. The benefit to which a participant is entitled at any given time is 100% of their contribution, 100% of the Employer contributions, if any, and any earnings (losses) attributable to these contributions.

If under the Plan provisions a participant’s account is distributable and the Employer is unable to locate that participant or the beneficiary after taking such actions as are prudent, the benefit will be forfeited under the terms of the Plan. Forfeitures are first used to offset Employer contributions and are then allocated to active participants.

Participant contributions: Participants may contribute from 1 to 35 percent of their annual eligible compensation on a pre-tax basis, subject to certain Internal Revenue Code (“IRC”) limitations. Eligible compensation, as defined by the Plan, includes salaries, commissions, bonuses, and overtime pay. Participants age 50 or over may make additional “catch-up” contributions on a pre-tax basis, subject to certain IRC limitations. Participants may also contribute amounts representing distributions from other qualified IRC 401(a) defined contribution plans.

Employer contributions: The Employer contribution, if any, is based on the participant’s work location. For those work locations that offer an Employer match contribution, it is either a 100 or 50 percent match of the participant’s contribution, up to a specified limit.

Certain work locations contribute a specified amount to the Plan regardless if the employee makes a contribution. Below are the locations and their per-employee per-hour contribution amounts:

	<u>2009</u>	<u>2008</u>
Black Thunder	\$1.00	\$ 1.00
Conda	1.00	1.00
Perris Plant	--	.50

As of mid-August 2008, the Company sold the Perris Plant site and contributions to the Plan ceased.

Investment options: Participants direct the investment of their contributions in 1 percent increments into a variety of diversified investment fund options allowed by the Plan. Participants may change their investment options at any time throughout the Plan year. Employer-match, if applicable, follows employee contributions. If no investment selection is made by the participant and contributions are received, those contributions will be invested in the default fund. In 2009 and 2008, Employer contributions were invested in the Plan's default fund, T. Rowe Price Retirement Date Fund, with the target date closest to the year in which the employee turns 65.

Vesting: Participants vest immediately in individual accounts including earnings thereon.

Payment of benefits: Distribution of account balances will commence no later than 60 days following the end of the Plan year in which the participant terminates employment and requests a distribution. Additionally, a terminated participant's account may be distributed without request if the account balance is less than or equal to \$1,000 at the time of the distribution. Such account will be distributed in a lump sum within 90 days following the participant's separation from service date (or as soon as practicable thereafter). If a participant's account balance is more than \$1,000, the participant may retain the account balance in the Plan until age 65. A participant, upon attaining age 65 and if separated from service, must commence distribution of their account. Active participants may apply for a withdrawal from their account if they are over age 59 1/2 or show financial hardship.

Participant loans: Participants may borrow from \$1,000 to \$50,000 but not to exceed 50 percent of their salary deferral, rollover and prior employer account balances. Participant loans are secured by the balance in the participant's account. Interest rates are fixed for the term of the loan and are established based on prime plus one percent, updated quarterly. Principal and interest are repaid ratably through weekly and bi-weekly payroll deductions. The duration of the loan is not to exceed five years, except for a loan used to finance the purchase of a primary residence, which is not to exceed ten years. The loan may be paid off at any time without a penalty.

Plan termination: Although the Employer has expressed no intent to do so, the Plan gives the Employer the right to discontinue its contributions or to terminate the Plan at any time, subject to the provisions of ERISA. In the event of termination, after payment of the Plan's current obligation and expenses, all unallocated assets will be allocated proportionately to individual participant's accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting: The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Recently adopted accounting standards: In June 2009, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2009-01, *Topic 105-Generally Accepted Accounting Principles* and ASU 2009-02, *Omnibus Update, Amendments to Various Topics for Technical Corrections* (collectively the "Codification"). The Codification establishes FASB Accounting Standards Codification ("ASC") as the sole source of authoritative accounting principles generally accepted in the United States of America (GAAP) recognized by the FASB for nongovernmental entities. The Codification supersedes all existing non-Securities and Exchange Commission ("SEC") accounting and reporting standards. Upon issuance, all other non-grandfathered non-SEC accounting literature not included in the Codification became non-authoritative. The Codification became effective for the Plan's December 31, 2009 financial statements, and the disclosures contained herein are in compliance with the requirements of the Codification.

In April 2009, the FASB issued FASB Staff Position No. FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*, which was codified in ASC 820, *Fair Value Measurements and Disclosures*. This guidance applies to all fair value measurements and provides additional clarification on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased, and also provides additional information on circumstances that may indicate that a transaction is not orderly. The guidance also expanded disclosures and required that major categories for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments. The Plan adopted this guidance for the year ended December 31, 2009 (see Note 4). The adoption of this guidance had no effect on the Statements of Net Assets Available for Benefits or the Statements of Changes in Net Assets Available for Benefits.

In May 2009, the FASB issued Statement of Financial Accounting Standards No. 165, *Subsequent Events*, which was codified in ASC 855, *Subsequent Events*, and provides guidance on subsequent events. This guidance sets forth: 1) the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements; 2) the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements; and 3) the disclosures that an entity should make about events or

transactions that occurred after the balance sheet date. The Plan adopted this guidance for the year ended December 31, 2009, and its adoption is reflected, where applicable, for the year ended December 31, 2009.

In September 2009, the FASB issued ASC Update 2009-12, *Fair Value Measurements and Disclosures (Topic 820) — Investment in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)* (“Update 2009-12”). ASU 2009-12 permits, as a practical expedient, a reporting entity to estimate the fair value of an investment within its scope using net asset value per share of the investment (or its equivalent) without adjustment, as long as the net asset value is calculated as of the reporting entity’s measurement date in a manner consistent with the measurement principles of FASB ASC Topic Financial Services – Investment Companies. ASU 2009-12 also requires certain disclosures about the attributes of investments measured at net asset value, such as the nature of any restrictions on the investor’s ability to redeem its investment at the measurement date or any unfunded capital commitments. The Plan has adopted this guidance for the year ended December 31, 2009 (see Note 4). The adoption of this guidance had no effect on the Statements of Net Assets Available for Benefits or the Statements of Changes in Net Assets Available for Benefits.

Valuation of investments and income recognition: The Plan’s investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from the income earned on those funds. Consequently, those charges are reflected as a reduction of investment return for such investments.

Transfers: The Employer also sponsors a 401(k) plan for all salaried employees and certain designated non-union and union, full-time hourly employees, as defined by that plan. If employees change their employment status during the year, fully vested account balances are transferred into the corresponding plan. For the years ended December 31, 2009 and 2008, Plan transfers to the 401(k) plan described above were \$0 and \$3,429, respectively, and Plan transfers received from the 401(k) plan described were \$48,340 and \$0, respectively.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Payment of benefits: Benefit payments are recorded upon distribution. As of December 31, 2009 and 2008, there were no elected distributions that were paid in the following year.

Administrative expenses: Administrative expenses related to the Plan were paid by the Employer during 2009 and 2008. The Employer provides accounting and other administrative services to the Plan at no charge.

Subsequent Events: The Plan has evaluated subsequent events through October 11, 2010, the date the financial statements were available to be issued.

Mutual funds	\$1,156,050	\$(1,784,311)
Collective trust funds	91,896	(216,501)

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs into three broad levels: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets; Level 2 inputs are quoted prices for similar assets in active markets or inputs that are observable for the asset, either directly or indirectly through market corroboration, for substantially the full term of the asset; and Level 3 inputs are unobservable and significant to the fair value measurement. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Following is a description of the hierarchy and valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Level 1: Shares of mutual funds are based on quoted prices of the fund in active markets and are classified within Level 1 of the fair value hierarchy.

Level 2: Collective trust funds, excluding the fully benefit-responsive contracts, are based on quoted market prices of the underlying assets, which represent the net asset value (NAV) of shares held by the Plan at year-end, and are classified within Level 2 of the fair value hierarchy.

Level 3: Participant loans are valued at the outstanding loan balance and are classified within Level 3 of the fair value hierarchy. The Stable Value Fund is stated at fair value and then adjusted to contract value. Fair value is the NAV per unit based on the fair value of the underlying investments, primarily guaranteed investment contracts (GICs), synthetic investment contracts (SICs), and wrap contracts. Contract value is principal plus accrued interest. The fair value of the GICs is generally determined by discounting the scheduled future payments required under the contract; the fair value of the securities underlying SICs is generally reflected by market value at the close of business on the valuation date; and the fair value of wrap contracts reflects the discounted present value of the difference between the current wrap contract cost and its replacement cost based on issuer quotes.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value

The following table sets forth a summary of changes in fair value of the Plan's Level 3 assets for the years ended December 31, 2009 and 2008:

	Stable Value Fund	Participants Loans
Beginning balance January 1, 2008	\$ --	\$121,095
Net purchases, sales, issuances, and settlements	<u>--</u>	<u>39,708</u>
Ending balance December 31, 2008	--	160,803
Transfer to Level 3	100,098	
Realized and unrealized gains	5,980	--
Net purchases, sales, issuances, and settlements	<u>61,836</u>	<u>71,467</u>
Ending balance December 31, 2009	<u>\$167,914</u>	<u>\$232,270</u>

As referenced in Note 2, ASU 2009-12 clarifies the fair value classification for entities that calculate net asset value per share or its equivalent. The new guidance states that if a reporting entity cannot redeem its investment with the investee at net asset value per share (or its equivalent), the fair value measurement of the investment should be categorized as a level 3 fair

value measurement. The Plan previously classified an investment that calculates net asset value per share as a level 2 fair value measurement and reclassified this investment as a level 3 fair value measurement during 2009, resulting in a transfer of \$100,098.

The table below presents additional information for investments whose fair value is estimated using net asset value (NAV) per share as of December 31, 2009:

Common Trust Fund	Fair Value	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions
T. Rowe Price				
US Treasury Money Market Trust ^(a)	\$ 974,222	-	Daily	None
Equity Index Trust ^(b)	444,695	-	Daily	None
Stable Value Fund ^(c)	167,914	-	Daily	None
	<u>\$1,586,831</u>			

(a) Money market securities backed by the full faith and credit of the US Government, which seeks to maintain a stable \$1 unit price.

(b) Investments in stocks that make up the S&P 500® Index, which seeks long-term growth.

(c) Fixed income strategies that seeks to preserve the investor's principal investment, which seeks to maintain a stable \$1 unit price.

5. RISK AND UNCERTAINTIES

The Plan provides for various investment options in investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

6. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the amounts reported in the financial statements and in the Form 5500, as of and for the years ended December 31, 2009 and 2008:

	<u>2009</u>	<u>2008</u>
Net assets available for benefits per the financial statements	\$ 7,176,120	\$5,302,005
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	<u>5,042</u>	<u>(938)</u>
Net assets available for benefits per the Form 5500	<u>\$ 7,181,162</u>	<u>\$5,301,067</u>
Increase (decrease) in net assets available for benefits per financial statements	\$1,874,115	\$(741,698)
Adjustment from fair value to contract value for fully benefit-responsive investment contracts:		
December 31, 2009	5,042	--
December 31, 2008	938	(938)
Net transfers of assets (to) from this plan	<u>(48,340)</u>	<u>3,429</u>
Increase (decrease) in net assets available for benefits per the Form 5500	<u>\$1,831,755</u>	<u>\$(739,207)</u>

7. TAX STATUS

The Internal Revenue Service has determined and informed the Plan by a letter dated October 27, 2008, that the Plan, as amended through December 2006, and related trust were designed in accordance with applicable regulations of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. The Plan administrator believes the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. INFORMATION CERTIFIED BY PLAN TRUSTEE

The Plan administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, no audit procedures were performed with respect to the information certified by T. Rowe Price Trust Company, the trustee, as of and for the years ended December 31, 2009 and 2008, except to compare such information to the information included in the accompanying financial statements and supplemental schedule. Information certified by the trustee includes the fair value of the investments included in the accompanying Statements of Net Assets Available for Benefits; all interest and dividend income and net appreciation (depreciation) in the fair value of investments included in the accompanying Statements of Changes in Net Assets Available; information regarding investments in Note 3; all investments included in Schedule H, Line 4i Schedule of Assets (Held at End of Year).

9. RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by T. Rowe Price. T. Rowe Price is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

10. PLAN MERGER

On December 31, 2010, it is the Company's intent that the assets of the Plan will be transferred from the Trustee to a master trust at Fidelity Management Trust Company. Fidelity will serve as the trustee and record keeper for the Plan. The master trust, to be established December 31, 2010, by URS Corporation, will permit the commingling of trust assets with the assets of two other retirement savings plans sponsored by the parent company for investment and administrative purposes.

In 2011, it is the Company's intent to transfer the Plan's assets to the URS 401(k) Retirement Plan for Specified Contract Employees. Participants of the Plan will be eligible to participate in the new plan. Eligibility will include specified contract employees of the URS 401(k) Retirement Plan ("the URS Plan"), a plan sponsored by the parent company, as of January 1, 2011. Those participants will cease to be eligible in the URS Plan.
