Contributions

Each year, participants may contribute up to $22,500 compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investments of their contributions into various investment options by the Plan. The Plan currently offers various mutual funds as investment options for participants. The Company may make matching contributions equal to a discretionary percentage to be determined by the employer of the first 10% of base compensation that a participant contributes to the Plan. Contributions are subject to certain limitations.

Participant Accounts

An allocated share of net income or loss of the Plan and an allocated share of employer contributions are credited to each participant's account. As defined by the Plan, allocations of employer matching contributions are based on participant contributions and, for profit sharing contributions, are based on participant salaries or wages.

Vesting of Matching and Profit Sharing Contributions by the Company

Each participant's interest shall become vested in the participant's accrued benefits according to the following schedule: 20% after two plan years in which the participant completes one thousand hours of service, with increases at the rate of 20% per plan year thereafter, until 100% is reached.

NOTE 1 DESCRIPTION OF THE PLAN (Continued)

Vesting of Employee Contributions

Each participant's contribution shall become 100% vested in the participant's accrued benefits when the employee contributions are made.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participants Notes fund. The loans are secured by the balance in the participant's account and bear interest of 2% above the prime rate published in The Wall Street Journal. The prime rate at December 31, 2009 was 3.25%. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

Upon termination of service, participants shall receive their vested portion of the trust fund which shall be distributed in accordance with the applicable provisions of the Plan.

Forfeited Accounts

Forfeited accounts are used to reduce administrative expenses and the remainder to reduce employer contributions. As of December 31, 2009, outstanding forfeitures available totaled $2,520 and are included in net assets available for benefits.

NOTE 2 ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared based on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States and present the net assets available for benefits and changes in net assets available for benefits.

NOTE 2 ACCOUNTING POLICIES (Continued)

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Plan Administration

The Employer is the Plan sponsor and the Plan administrator. The Plan administrator is responsible for carrying out the duties imposed under ERISA.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income and Loss Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Participant loans are stated at their current face value, which is a reasonable estimate of their fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the modified cash basis. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

NOTE 2 ACCOUNTING POLICIES (Continued)

The Plan's exposure to credit loss in the event of nonperformance by other parties to directly and indirectly own financial instruments is limited to the carrying value of such instruments. The Plan's concentrations of credit risk are dictated by the Plan's provisions as well as those of ERISA and participants' investment preference.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Substantially all out-of-pocket administrative expenses of the Plan are paid by the Employer.

Subsequent Events

The Plan evaluated subsequent events through September 27, 2010, the date the financial statements were available to be issued.

NOTE 3 INVESTMENTS AND CERTIFICATION BY CUSTODIAN

Unaudited Information Certified by the Plan Custodian

Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA states, in part, that any statement of information prepared and certified by the Plan's trustee or custodian need not be audited or reported on by an independent public accountant. Pursuant to that regulation, the Plan Sponsor has instructed the Plan's independent public accountants, Weiser & Weiser Accountancy Corporation, Inc., not to perform any auditing procedures with respect to information certified by the Plan's custodian.

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and the supplemental schedule, which was prepared by the Custodian, and furnished to the Company. The Company has obtained certifications from the Custodian as of December 31, 2009 and 2008, and for the year ended December 31, 2009 that such information is complete and accurate.

NOTE 4 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures* (SFAS 157, *Fair Value Measurements*) establishes a consistent framework for measuring fair value and expands disclosure requirements about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 (SFAS 157) are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

NOTE 4 FAIR VALUE MEASUREMENTS (Continued)

Stable Value accounts: Valued at contract value, which approximates fair value. Contract value represents contributions made under the contract plus compound interest earned less participant withdrawals and administrative expenses. Withdrawals taken prior to the end of the guarantee period may be subject to a market value adjustment.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

Assets at Fair Value as of December 31, 2009:

NOTE 5 TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 6 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by John Hancock Financial Corporation. John Hancock Financial Corporation is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Loans receivable from Plan participants and the related interest income are considered party-in-interest transactions.
