INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the Nagase Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Nagase Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of March 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended March 31, 2024, and the related notes to the financial statements.

Plan management, having determined it is permissible in the circumstances, has elected to have the audits of the Nagase Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Plan management has obtained certifications from qualified institutions as of March 31, 2024 and 2023, and for the year ended March 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that Plan management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Nagase Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Plan Management for the Financial Statements

Plan management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Plan management's election of the ERISA Section 103(a)(3)(C) audit does not affect Plan management's responsibility for the financial statements.

In preparing the financial statements, Plan management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Nagase Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Plan management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Nagase Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Plan management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Nagase Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of March 31, 2024 and Schedule H, Line 4(a) – Schedule of Delinquent Participant Contributions for the year ended March 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of Plan management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to or is derived from, in all material respects, the information prepared and certified by institutions that Plan management determined meet the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of the Nagase Retirement Plan (the "Plan") provides only general information. The Plan was originally effective February 1, 1994 and was most recently amended and restated effective July 1, 2022. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Nagase Holdings America Corporation (the "Company" or "Plan Sponsor") and the adopting employers: Nagase America LLC, Sofix LLC, PacTech USA Packaging Technologies, Inc., Nagase Specialty Materials NA LLC, Nagase ChemteX America Corporation, and Interfacial Consultants, LLC. Eligible employees must have attained the age of twenty-one and completed six months of service. Nonresident aliens, residents of Puerto Rico, leased employees and employees covered by a collective bargaining agreement are not eligible to participate in the Plan. Part-time, temporary, and seasonal employees are also prohibited from participating in the Plan unless they are credited with more than 1,000 hours of service during the Plan year or as otherwise permitted by law. Eligible employees can enter the Plan on the first day of each month upon meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Company has designated the 401(k) Investment Committee (the "Committee") to be the administrator of the Plan and, as such, the Committee carries out the duties imposed by ERISA. The Company has contracted with Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (collectively "Principal" or the "Custodians") to provide asset custodial services; an affiliate of Principal provides recordkeeping services to the Plan.

Contributions

Each year, eligible participants may elect to contribute a portion of their compensation, as defined, subject to certain Internal Revenue Code ("IRC") limitations. Contributions may be designated as Roth 401(k) contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants may change their investment options at any time. The Plan provisions include automatic enrollment for participants who do not complete a salary deferral agreement by their Plan entry date, provided that no contrary election is made; the participant will automatically defer 5% of eligible compensation for each payroll period to be contributed to the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan provides for a safe harbor matching employer contribution which is calculated each payroll period. The safe harbor matching employer contribution is 100% of the first 4% of an active participant's eligible compensation contributed to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's safe harbor matching employer contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

A participant, at all times, has a fully vested (100%) interest in their own contributions, rollover contributions, and the Company's safe harbor matching employer contributions, including actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50 percent of their vested account balances. The loans are secured by the balance in the

participant's account and bear interest at the prime rate of interest, as defined by the Plan document, plus one percentage point. Principal and interest are paid ratably through payroll deductions. Loan terms shall not extend beyond five years from the date of the loan, unless the loan is for the purchase of a participant's primary residence. Participants may only have one outstanding loan at a time. Outstanding participant loans as of March 31, 2024, bear interest at annual rates between 4.25% and 9.50%.

Payment of Benefits
On termination of service due to death, disability, retirement (age 65), or other reasons, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account or a partial payment. In circumstances when a terminated participant has a vested account balance less than $5,000, the participant's vested account balance shall be distributed in a lump sum. In the event of a mandatory distribution greater than $1,000, if the participant does not elect to have such distribution paid directly to an eligible retirement plan specified by the participant in a direct rollover or to receive the distribution directly, then the Plan administrator will pay the distribution in a direct rollover to an individual retirement account designated by the Plan administrator. Hardships and in-service distributions are also permitted from participant accounts, based on the terms of the Plan document.

2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan.

Basis of Accounting
The financial statements of the Plan are prepared using the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The financial statements include the fully benefit-responsive investment contract and its related activity on a contract value basis (see Note 5).

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions
Contributions from Plan participants and the safe harbor employer matching contributions are recorded in the year in which the employee contributions are withheld from compensation.

Notes Receivable from Participants
Notes receivable from participants (participant loans for Form 5500 reporting purposes) are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payments of Benefits
Benefits are recorded when paid.

Administrative Expenses
All reasonable administrative expenses, including trustee, custodial and third-party administration fees necessary to operate and administer the Plan are paid by the Plan, unless otherwise paid by the Company. Plan expenses that are paid directly by the Company are excluded from these financial statements. A participant's account may be charged for expenses associated with a specific optional feature, including administration of participant loans, elected by that participant, and are included in administrative expenses. Certain investment-related expenses are included in the net appreciation in fair value of investments.

3. Information Certified by Qualified Institutions

The Plan administrator, having determined that it is permissible in the circumstances, elected to have the audits of the Plan performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information included in the accompanying financial statements and ERISA-required supplemental schedule of assets (held at end of year) was obtained or derived from information obtained by the Plan administrator and certified as complete and accurate by the Custodians, qualified institutions, in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

- Investments at fair value, fully benefit-responsive investment contract at contract value, and notes receivable from participants as shown in the statements of net assets available for benefits as of March 31, 2024 and 2023.
- Investment activity, including net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended March 31, 2024.
- The information for all mutual funds, collective investment trusts, guaranteed interest contract and participant loans listed in the schedule of assets (held at end of year) as of March 31, 2024, as shown in the ERISA-required supplemental schedules.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used as of March 31, 2024 and 2023.

Mutual funds (registered investment companies): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the United States Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective investment trusts: Valued at the NAV of units of the collective investment trusts held by the Plan at year end. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements as of March 31, 2024:

	Total	Level 1	Level 2	Level 3
Investments, at fair value:				
Mutual funds	$ 16,820,845	$ 16,820,845	$ -	$ -
Collective investment trusts (*)	22,064,212	-	-	-
Total	$ 38,885,057	$ 16,820,845	$ -	$ -

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements as of March 31, 2023:

	Total	Level 1	Level 2	Level 3
Investments, at fair value:				
Mutual funds	$ 13,408,715	$ 13,408,715	$ -	$ -
Collective investment trusts (*)	19,319,207	-	-	-
Total	$ 32,727,922	$ 13,408,715	$ -	$ -

*In accordance with fair value measurement guidance, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented as investments in the statements of net assets available for benefits.

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate NAV per share (or its equivalent) as of March 31, 2024 and 2023.

Investment Type	Fair Value March 31, 2024	Fair Value March 31, 2023	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective investment trusts	$ 22,064,212	$ 19,319,207	$ -	Daily	Daily

The Plan's investment options include collective investment trusts whose investment strategies are similar to target date funds and fixed income style funds. The objective of collective investment trusts with target date strategies is to provide an age-based investment mix of stocks, bonds and short-term investments. The objective of the collective investment trusts invested in fixed income is to seek the preservation of capital and to provide a competitive level of income over time that is consistent with the preservation of capital. These collective investment trusts are redeemable at NAV under agreements with the underlying collective investment trusts. However, it is possible that these redemption rights may be restricted by the collective investment trusts in the future in accordance with underlying trust agreements. Due to the nature of the investments held by the collective investment trusts, changes in market conditions and the economic environment may significantly impact the NAV of the collective investment trusts, and consequently, the fair value of the Plan's interest in the collective investment trusts. Furthermore, changes in the liquidity provisions of the collective investment trusts may significantly impact the fair value of the Plan's interest in the collective investment trusts.

5. Fully Benefit-Responsive Investment Contract

As of March 31, 2024 and 2023, the Plan has a guaranteed interest contract with Principal in the amount of $1,819,921 and $2,943,695, respectively. The Principal Fixed Income Guaranteed Option is a traditional investment contract and meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

Principal maintains the contributions in a general account. This is a guaranteed general account backed group annuity contract, issued by Principal Life Insurance Company. A rate of interest contractually guaranteed by Principal Life Insurance Company is credited to participant account balances. No redemption fees, early withdrawal charges, or market value adjustments are charged on participant transfers of assets into or out of the contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Principal Fixed Income Guaranteed Option at contract value daily. Direct transfers to competing investment options are not permitted. Any transfers out of the Principal Fixed Income Guaranteed Option must first go through a non-competing investment option and reside there for a minimum of ninety days before transferring to a competing investment option. An employer-level surrender of the Plan's interest or initiated transfer will be subject to either a twelve-month advance notice or a 5% surrender charge, whichever the Plan fiduciary chooses.

Principal is contractually obligated to repay principal and interest at a specified interest rate that is guaranteed to the Plan. The interest crediting rate is set periodically and determined by taking the five-year U.S. Treasury Rate 12 months prior to the declaration of the interest crediting date by Principal, less 1.25% and rounded to the nearest 0.05%. In no case will the interest crediting rate be less than 1.0% or greater than 3.0%.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value. The Plan sponsor believes the occurrence of such events that would limit the Plan's ability to transact at contract value with Plan participants is remote. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

6. Tax Status

Effective July 1, 2022, the Plan was amended and restated with the adoption of the Principal Financial Group Pre-Approved Basic Savings Plan – Plus plan document ("Pre-Approved Plan Document"). The Internal Revenue Service ("IRS") issued an opinion letter, dated June 30, 2020, stating that the Pre-Approved Plan Document was designed in accordance with applicable IRC requirements as of that date. Although the Plan has been amended since receiving the opinion letter, management of the Plan believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes the Plan, as amended, is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

7. Related Party and Party-In-Interest Transactions

The Plan invests in mutual funds, collective investment trusts and a guaranteed interest contract managed by Principal and/or its affiliates. Principal and/or its affiliates also act as custodian and recordkeeper of the Plan. Custodial, recordkeeping and other administrative fees charged by Principal that are paid from Plan assets qualify as party-in-interest transactions. Therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA. Fees paid directly from participant accounts, including those for the administration of participant loans, are included in administrative expenses. Additionally, for participants who have elected to take a participant loan, the loans are secured by the respective participant's account balance.

During the 2022 Plan year, the Plan Sponsor failed to remit to the Plan's custodian certain loan repayments totaling $1,806, within the period prescribed by the Department of Labor regulations. During the 2025 Plan year, the Plan Sponsor made contributions to the affected participant accounts to compensate the participants for potential lost income. The Plan Sponsor believes that these transactions do not affect the tax status of the Plan and took action prescribed by the regulations to remedy such error.

During the 2023 Plan year, the Plan Sponsor failed to remit to the Plan's custodian certain employee contributions and loan repayments totaling $4,643, within the period prescribed by the Department of Labor regulations. During the 2024 Plan year, the Plan Sponsor corrected $2,846 of late remittances by making contributions to the affected participants' accounts to compensate those participants for the potential lost income. During the 2025 Plan year, the Plan Sponsor plans to correct the remaining $1,797 of late remittances by making contributions to the affected participants' accounts to compensate those participants for potential lost income due to the processing delays. The Plan Sponsor believes that these transactions do not affect the tax status of the Plan and has been taking actions prescribed by the regulations to remedy such error.

During the 2024 Plan year, the Plan Sponsor failed to remit to the Plan's custodian certain employee contributions and loan repayments totaling $27,024, within the period prescribed by the Department of Labor regulations. During the 2024 Plan year, the Plan Sponsor corrected $7,024 of late remittances by making contributions to the affected participants' accounts to compensate those participants for the potential lost income. During the 2025 Plan year, the Plan Sponsor plans to correct the remaining $20,000 of late remittances by making contributions to the affected participants' accounts to compensate those participants for potential lost income due to the processing delays. The Plan Sponsor believes that these transactions do not affect the tax status of the Plan and has been taking actions prescribed by the regulations to remedy such error.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts, including any Company contributions in which they are not already vested, and the net assets of the Plan would be distributed to Plan participants and beneficiaries in proportion to their respective account balances.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Plan Amendments

Effective April 1, 2023, the Plan was amended to include Interfacial Consultants, LLC as a participating employer and other general administrative changes.

11. Subsequent Events

Effective April 1, 2024, the Plan was amended to make general administrative changes.

Management evaluated subsequent events for the Plan through May 9, 2025, the date the financial statements were available to be issued.
