Independent Auditors' Report

To the Trustee of the
Martin/Martin, Inc. Stock Bonus Retirement Plan

We have audited the accompanying statements of net assets available for benefits of the Martin/Martin, Inc. Stock Bonus Retirement Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the year ended December 31, 2009 in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2009 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MARTIN/MARTIN, INC. STOCK BONUS RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Martin/Martin, Inc. Stock Bonus Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General – Martin/Martin, Inc. and its affiliate Martin Harper & Associates, Inc. (collectively known as the "Company") adopted the Plan effective as of January 1, 1997. The Plan is qualified under Section 401(a) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the "Code") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). A trust was established to fund the benefits under the Plan.

Eligibility – Employees of the Company and its Affiliate are eligible to participate in the Plan after one (1) year of service providing they worked at least one thousand (1,000) hours and are at least twenty-one (21) years of age during such Plan allocation year. Participants who do not have at least one thousand (1,000) hours of service during such Plan year or are not employed on the last working day of the Plan year are not eligible for an allocation of Company contributions for such year.

Contributions – Contributions to the Plan are discretionary. Employer contributions made on behalf of participants and forfeitures shall be allocated in proportion to their respective compensation for such Plan year. The contributions are funded annually.

Payment of Benefits – Distributions from the Plan are made when a participant retires, dies or otherwise terminates employment with the Company and its participating subsidiaries. Terminated participants with vested account balances in excess of $5,000 are allowed to defer their benefit distribution. Terminated participants with no vested amounts are deemed to have received a distribution of their account on the date of service termination, and their entire account balance is forfeited as of that date. Distributions are made in cash.

Participant Accounts – A stock bonus account is established on behalf of each participant. Each participant's account is credited with such participant's employer contribution, investment earnings, and forfeitures, less any expense, respectively, and are made on behalf of the participant.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Vesting – Participants or their beneficiaries become fully vested in their stock bonus account upon occurrence of any of the following:

1. The participant's attainment of normal retirement age while employed by the employer;

2. The participant's death while employed by the employer;

3. The participant's disability while employed by the employer; and

4. Termination or partial termination of the Plan affecting the participant.

Active participants are vested in their account balances based on the number of years of service according to the following schedule:

Number of Years of Service	Vested Percentage
One year	20%
Two years	40%
Three years	60%
Four years	80%
Five years or more	100%

Forfeitures – Amounts forfeited from the terminating participants' non-vested portion of their employer discretionary contribution and earnings on Company contributions are used to reduce expenses. Any remaining forfeitures shall be allocated among the remaining eligible participants. As of December 31, 2009, there were no forfeited non-vested accounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and changes therein. Actual results could differ from those estimates.

Non-Distributed Benefits – The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits were paid. Amounts to be paid to participants that have required distribution of benefits not yet been processed are included in benefits payable to participants at December 31, 2009 and 2008.

Subsequent Events – Subsequent events have been evaluated through October 11, 2010, the date the financial statements were available for issuance.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Valuation of Investments – All investments are carried at fair value or an approximation of fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date, and interest is accrued as earned. The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 3 – INVESTMENTS

The following table presents the fair values of investments at December 31, 2009 and 2008:

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2009 and 2008:

Common Stocks: These investments are valued by the Company and are based upon 125% of the net book value of the Company.

Money Market Funds: These investments are public investment securities valued using the Net Asset Value ("NAV") provided by the investment custodian. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

The following are the Plan's financial instruments carried at fair value categorized by the fair value hierarchy as of December 31, 2009 and 2008:

	Fair Value Measurements Using Input Type			
December 31, 2009	**Level 1**	**Level 2**	**Level 3**	**Total**

NOTE 5 – TAX STATUS

The Internal Revenue Service issued a determination letter on September 11, 2008, stating that the Plan, as designed, is in compliance with applicable requirements of the Internal Revenue Code. The trust established under the Plan is tax-exempt under the appropriate sections of the Code.

NOTE 6 – ADMINISTRATION OF PLAN ASSETS

The Plan's assets which consist principally of the Company's common stock are held by the trustee of the Plan.

Company contributions are held and managed by the trustee which invests cash received, interest and dividend income, if any, and makes distributions to participants.

NOTE 7 – PARTY-IN-INTEREST TRANSACTION

The Plan utilizes part of the contributions to purchase and hold Company common stock. During the year ended December 31, 2009, no stock was purchased by the Plan.

NOTE 8 – PLAN TERMINATION

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA.
