As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by State Street Bank and Trust Company and Merrill Lynch Trust Company, the trustees of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that State Street Bank and Trust Company held the Plan's investment assets and executed investment transactions from August 31, 2009 to December 31, 2009, and that Merrill Lynch Trust Company held the Plan's investment assets and executed investment transaction from January 1, 2008 through August 30, 2009. The plan administrator has obtained certifications from the trustees as of December 31, 2009 and 2008 and for the years then ended, that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

VML, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the VML, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan is a defined contribution plan sponsored by VML, Inc. (the "Company") for the benefit of its full-time employees who have three months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan amendment - Effective January 1, 2008, the Plan was amended to allow the use of forfeitures to offset the Plan's administrative costs first; any remaining forfeitures will be used to reduce the employer's contributions; and third, any remaining forfeitures will be allocated to participants.

Effective August 31, 2009, the Plan changed the record keeper to Diversified Investment Advisors and the trustee to State Street Bank and Trust Company. Also, the Plan was restated to comply with the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA). With the restatement, the Company elected to institute automatic enrollment. Effective September 1, 2009, new employees are automatically enrolled for elective deferrals of 3%.

Contributions - Participants may contribute up to 75% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan.

The Company's matching contribution is discretionary. The Company elected to match 50% of the first 6% of participants' contributions for the years ended December 31, 2009 and 2008. Additional amounts may be contributed at the option of the Company. No such additional discretionary contributions were made for the years ended December 31, 2009 and 2008. Contributions are subject to certain limitations.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers twenty-two mutual funds and a common collective trust as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VML, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan (continued)

Vesting - Participant's contributions plus actual earnings are 100% vested immediately. Employer contributions are subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vested %</u>
1	0%
2	20%
3	50%
4	75%
5	100%

Participant loans - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - On termination of service due to termination, retirement, or permanent disability, participants may receive the vested interest in their account in one lump sum payment or in a series of monthly, quarterly, or annual installments over a period not to exceed life expectancy or the joint life expectancy of the participant and designated beneficiary. Participants may also roll over their account to an Individual Retirement Account or another qualified employer plan or elect to defer distribution until age 65. If the vested interest in their account is less than \$1,000, participants will automatically receive a lump sum distribution. Upon death, distributions may be made to beneficiaries in installments or as a single lump sum.

Forfeited accounts - At December 31, 2009 and 2008, forfeited nonvested accounts totaled \$110,290 and \$50,347, respectively. These accounts will be used to offset the Plan's administrative costs and to reduce the employer's contributions. Also, in 2009, \$8,837 in plan expenses were paid from forfeited nonvested accounts. In 2008, employer contributions were reduced by \$57,407 from forfeited nonvested accounts.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

VML, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(2) Summary of significant accounting policies (continued)

Basis of accounting (continued) - The statements of net assets available for benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

New accounting pronouncements -

Fair Value Measurements - In April and September 2009, the Financial Accounting Standards Board ("FASB") issued guidance which (i) provided additional guidance for estimating fair value when the volume and level of activity for the asset or liability have significantly decreased, (ii) provided guidance on identifying circumstances that indicate a transaction is not orderly, (iii) permitted, as a practical expedient, entities to measure the fair value of certain investments based on the net asset value per share and (iv) expanded the required disclosures about fair value measurements. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits or the changes in net assets available for benefits.

Subsequent Events - In May 2009 and February 2010, the FASB issued guidance which established general standards of accounting for, and disclosure of, events that occur after the balance sheet date but before financial statements are issued or are available to be issued. In particular, this guidance established (i) the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure, (ii) the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date and (iii) the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits or the changes in net assets available for benefits.

FASB Codification - In June 2009, the FASB issued new codification standards (Accounting Standards Codification ("ASC")) which represent the source of authoritative U.S. generally accepted accounting principles ("GAAP") recognized by the FASB to be applied by non-governmental entities. Rules and interpretive releases of the Securities and Exchange Commission ("SEC") under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The codification supersedes all non-SEC accounting and reporting standards which existed prior to the codification. All other non-grandfathered, non-SEC accounting literature not included in the codification is non-authoritative. The new codification standards were effective for 2009.

VML, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(2) Summary of significant accounting policies (continued)

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits.

Reclassification - Certain items from the 2008 financial statements have been reclassified to conform to the 2009 presentation.

NOTES TO FINANCIAL STATEMENTS

(3) Investments (continued)

During 2009 and 2008 the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	Years Ended December 31,	
	2009	2008
Mutual funds	\$ 3,277,533	\$ (6,056,104)
Common collective trust	15,299	-
	<u>\$ 3,292,832</u>	<u>\$ (6,056,104)</u>

(4) Information prepared and certified by the trustees

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company and Merrill Lynch Trust Company, the trustees of the Plan, have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments:

- Investments at fair value
- Net appreciation (depreciation) in fair value of investments
- Interest and dividends
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(5) Fair value measurements

FASB ASC 820, (formerly SFAS No. 157), *Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

VML, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(5) Fair value measurements (continued)

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Participant loans: Valued at the their outstanding balance, which approximates fair value.

Common collective trust: Valued as determined by Wells Fargo Bank, N.A. See note 6.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

VML, INC. 401(K) PLAN

(6) **Common collective trust with Wells Fargo Bank N.A. and Merrill Lynch Trust Company**

The Plan currently holds an investment in the Wells Fargo Stable Return Fund, which is a common collective trust managed by Wells Fargo Bank, N.A. ("Wells Fargo"). In 2008, the Plan held an investment in the Merrill Lynch Retirement Preservation Fund, which is a common collective trust managed by Merrill Lynch Trust Company ("Merrill Lynch"). Wells Fargo and Merrill Lynch maintain the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment is included in the statements of net assets available for benefits at estimated fair value as provided by Wells Fargo and Merrill Lynch.

VML, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(6) **Common collective trust with Wells Fargo Bank N.A. and Merrill Lynch Trust Company (continued)**

The adjustment from fair value to contract value for the investment is based on the contract value as provided by Wells Fargo and Merrill Lynch. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

(7) **Related party transactions**

Certain plan investments are cash and cash equivalent managed by State Street Bank and Trust Company. State Street Bank and Trust Company is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. (8) **Plan termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

NOTES TO FINANCIAL STATEMENTS

(12) Tax status

The Internal Revenue Service has determined that the prototype 401(k) plan is designed in accordance with applicable sections of the Internal Revenue Code (the "IRC") and informed Diversified Investment Advisors, the record keeper of the Plan, of such in a letter dated March 31, 2008. The Plan administrator has adopted the prototype plan. The Plan has been amended since receiving the determination letter, however, the plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

(13) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. (14) Subsequent events

The Plan has evaluated subsequent events through October 7, 2010, which is the date the financial statements were available to be issued.

Effective July 1, 2010, the Company changed its discretionary matching contribution to 75% of the first 6% of participants' contributions.

Effective July 28, 2010, the Plan was amended to allow participants who have attained age 62 to request an in-service withdrawal from prior money purchase and prior employer 100% vested contributions.
