Independent Auditors' Report

The Plan Administrator
ARFD LLP 401(K) Plan

We were engaged to audit the statement of net assets available for benefits of ARFD LLP 401(K) Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009 and the supplemental schedules of assets held and of reportable transactions for the year ended December 31, 2009. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Bank of America, the custodian of the Plan, except for comparing that information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes transactions. The Plan administrator has obtained a certification from the trustee, as of and for the years ended December 31, 2009 and 2008, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the aforementioned financial statements and supplemental schedules, taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following description of the ARFD LLP 401(K) Plan ("the Plan"), which commenced operations on January 25, 2002, provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering eligible employees employed by Aaronson Rappaport Feinstein & Deutsch, LLP ("the employer"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees are eligible to participate upon completion of twelve months of service from entry date and attainment of age 21. Investments are made by the Plan committee which is appointed by the employer's executive committee.

Contributions
Contributions made by participants are based upon a salary deferral agreement. Participants may elect to defer up to certain statutory limitations ($16,500 in 2009).

Employer contributions to the Plan are set each year by its governing body. Contributions made by the employer are subject to Plan Committee rules and certain statutory limitations. The Plan also gives the employer the discretion to decide whether to make a contribution to the Plan and to determine the amount of any such contribution. As of December 31, 2009, no contributions to the Plan have been made by the employer.

Participant Accounts
Each participant's account will be credited with the participant's contributions and allocations of the employer's contribution and Plan earnings or losses, and charged with an allocation of administrative expenses (see Plan Operating Expenses). Allocations are based on participants' account balances, in accordance with uniformly and consistently applied accounting methods adopted by the Plan Committee. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their voluntary contributions, employer contributions plus actual allocated earnings thereon.

Payment of Benefits
Amounts in the participant's account are available for distribution upon retirement, death, disability, termination of employment, attainment of age 59-1/2 or hardship.

Plan Operating Expenses
Plan operating expenses are paid by the Employer. Administrative charges for certain investments are paid by the Plan.

1. Description of the Plan (continued)

Plan Termination
Although it has not expressed any intent to do so, the employer has the right to terminate the Plan at any time without the establishment of another defined contribution plan.

Participant Loans
Loans are available to participants on a nondiscriminatory basis. The maximum loan amount is 50% of the participants' vested account balance. Generally, the term of the loan may not exceed five years. Loans bear interest and shall be repaid in level installments on a semi-monthly basis through payroll deductions. The amounts of interest and payments will be determined at the time of the loan. The loans are secured by the participants' account balances. Loan transactions are treated as transfers between the investment funds and the participant loan fund.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting and reflect all material receivables and payables, if any.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividends date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Cash Equivalents
The Plan considers cash on hand, deposits in bank, and money market accounts to be cash equivalents. Management believes the Plan is not subject to any significant credit risk related to such assets.

Benefit Payments
Benefits are recorded when paid.

3. Tax Status

The Company adopted a Prototype Standardized Profit Sharing Plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service (IRS) on November 19, 2001 which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan Committee and the Plan's legal counsel believe that the Plan is being operated in compliance with the requirements of law and regulations.

4. Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

6. Fair Value Measurements

Financial Accounting Standards Board Statement No. 157, *Fair Value Measurements* (FASB Statement No. 157), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described below:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2
Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;

6. Fair Value Measurements (continued)

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Money market fund: Valued at the NAV of shares held by the plan at year end.

Cash surrender value – life insurance: Value that the participants would receive if the insurance policies were surrendered or terminated.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009.

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds	$ 857,988	$ 857,988	$ -	$ -
Cash equivalents	18,485	18,485	-	-
Cash Surrender Value - life insurance	996,093	-	-	996,093
Total	$ 1,872,566	$ 876,473	$ -	$ 996,093

7. Life Insurance

Since 2002, life insurance premiums have been paid on behalf of certain participants of the Plan. These premiums were paid out of the Aaronson Rappaport Feinstein & Deutsch, LLP Profit Sharing Plan. That plan was terminated in 2003 and the insurance policies were reassigned to the ARFD LLP 401(K) Plan. As of December 31, 2009, the cash surrender value of the policies was $996,093 and is recorded as an asset of the Plan.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds issued by Bank of America. Bank of America is the Plan trustee.
