1. DESCRIPTION OF THE PLAN

The following description of the Baker Concrete Construction, Inc. Retirement Savings Plan (the "Plan") is provided for general informational purposes only. Participants should refer to the Plan document for more complete information.

General — The Plan is a defined-contribution plan covering all eligible employees of Baker Concrete Construction, Inc. (the "Company") and certain subsidiaries and affiliates of the Company who have adopted the Plan, met certain age and service requirements, and are not represented by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions — Each year, participants may contribute a percentage of their eligible pretax annual compensation, as defined by the Plan, subject to certain Internal Revenue Code (IRC) limitations. The Company makes safe-harbor matching contributions to the Plan equal to 100% of the first 3%, plus 50% of the next 2% of eligible compensation that a participant contributes to the Plan. Additional amounts may be contributed at the discretion of the Company. No such additional discretionary contributions were made for the year ended December 31, 2009. Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans.

Participant Accounts — Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Company's safe-harbor matching contributions, the Company's discretionary contributions, and Plan earnings, and charged with withdrawals and an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments — Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers 26 mutual funds and a common collective trust as investment options for participants.

Vesting — Participants are immediately vested in their contributions and the Company's safe-harbor matching contributions, plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. A participant is 100% vested in the Company's discretionary contributions after five years of credited service.

Participant Loans — Participants may borrow from their fund accounts up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits — On termination of services due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a 5- to 15-year period. For termination of services for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures — Forfeited balances of terminated participants not used to pay administrative expenses of the Plan can be used to reduce Company contributions. As of December 31, 2009 and 2008, forfeited account balances totaled $21,460 and $20,688, respectively. During the year ended December 31, 2009, the Company did not use any forfeiture amounts to reduce employer contributions and administrative expenses of the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan utilizes various investment instruments, including mutual funds and investment contracts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition — The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. The stable value fund is stated at fair value and then adjusted to contract value as described below. Fair value of the stable value fund is the net asset value of its underlying investments, and contract value is principal plus accrued interest. Participant loans are valued at the outstanding loan balances, which approximates fair value.

The stable value fund is included at fair value in participant-directed investments in the statements of net assets available for benefits, and an additional line item is presented representing the adjustment from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation in the fair value of investments for such investments.

The Diversified Investment Advisors Stable Pooled Fund ("Stable Pooled Fund") is solely invested in the Wells Fargo Stable Return Fund G. This fund is a stable value fund, which is a commingled pool of the Wells Fargo Trust for Employee Benefit Plans. The fund may invest in fixed-interest insurance investment contracts, money market funds, corporate and government bonds, mortgage-backed securities, bond funds, and other fixed-income securities. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The Stable Pooled Fund imposes certain restrictions on the Plan, and the Stable Pooled Fund itself may be subject to circumstances that impact its ability to transact at contract value. Plan management believes that the occurrence of events that would cause the Stable Pooled Fund to transact at less than contract value is not probable.

In accordance with Accounting Standard Update (ASU) No. 2009-12, the Plan should include disclosures to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share as of December 31, 2009. The estimated fair value of the Stable Pooled Fund is net asset value. The use of net asset value as a fair value is deemed appropriate as the Stable Pooled fund does not have a finite life, unfunded commitments or significant restrictions on redemptions.

Administrative Expenses — Administrative expenses of the Plan not paid by the Company are paid by the Plan as provided in the Plan document.

Payment of Benefits — Benefit payments to participants are recorded upon distribution. There were no pending benefit payments as of December 31, 2009 and 2008.

New Accounting Standards Adopted — The accounting standards initially adopted in the 2009 financial statements described below affected note disclosures but did not impact the statements of net assets available for benefits or the statement of changes of net assets available for benefits.

Accounting Standards Codification — The Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC) became effective on July 1, 2009. At that date, the ASC became FASB's official source of authoritative U.S. generally accepted accounting principles (GAAP) applicable to all public and nonpublic nongovernmental entities, superseding existing guidance issued by the FASB, the American Institute of Certified Public Accountants (AICPA), the Emerging Issues Task Force (EITF) and other related literature. The FASB also issues Accounting Standards Updates. An ASU communicates amendments to the ASC. An ASU also provides information to help a user of GAAP understand how and why GAAP is changing and when the changes will be effective.

Subsequent Events — In May 2009, the FASB issued ASC 855 (originally issued as FASB Statement No. 165, *Subsequent Events*) to establish general standards of accounting for and disclosing events that occur after the balance sheet date, but prior to the issuance of financial statements. ASC 855 provides guidance on when financial statements should be adjusted for subsequent events and requires companies to disclose subsequent events and the date through which subsequent events have been evaluated. ASC 855 is effective for periods ending after June 15, 2009.

For the year ended December 31, 2009, subsequent events were evaluated through October 6, 2010, the date the financial statements were available to be issued.

Updates to Fair Value Measurements and Disclosures — In 2009, FASB Staff Position (FSP) 157-4, *Disclosures Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*, was

issued prospectively and later codified into ASC 820, *Fair Value Measurements and Disclosures*, which expanded disclosures and required that major category for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments.

In September 2009, the FASB issued ASU No. 2009-12, *Fair Value Measurements and Disclosures: Investments in Certain Entities That Calculate Net Asset per Share (or Its Equivalent)* ("ASU 2009-12"), which amended ASC Subtopic 820-10, *Fair Value Measurements and Disclosures — Overall*. ASU No. 2009-12 is effective for the first reporting period ending after December 15, 2009. ASU No. 2009-12 expands the required disclosures for certain investments with a reported net asset value (NAV). ASU No. 2009-12 permits, as a practical expedient, an entity holding investments in certain entities that calculate net asset value per share or its equivalent for which the fair value is not readily determinable, to measure the fair value of such investments on the basis of that net asset value per share or its equivalent without adjustment. The ASU requires enhanced disclosures about the nature and risks of investments within its scope. Such disclosures include the nature of any restrictions on an investor's ability to redeem its investments at the measurement date, any unfunded commitments, and the investment strategies of the investee. The Plan has adopted ASU No. 2009-12 on a prospective basis for the year ended December 31, 2009. The effect of the adoption of the ASU had no impact on the statements of net assets available for benefits and statement of changes in net assets available for benefits.

New Accounting Standards to Be Adopted — ASU No. 2010-06, *Fair Value Measurements and Disclosures* — In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures* (ASU No. 2010-06), which amends ASC 820 (originally issued as FASB Statement No. 157, *Fair Value Measurements*), adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The Plan is currently evaluating the impact ASU No. 2010-06 will have on the financial statements.

ASU No. 2010-25 — In September 2010, the FASB issued ASU No. 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU No. 2010-25) to clarify how loans to participants should be classified and measured by defined contribution pension plans. The amendments in this update require that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. ASU No. 2010-25 is effective for fiscal years ending after December 15, 2010 and the amendments in ASU No. 2010-25 should be applied retrospectively to all prior periods presented. The Plan is currently evaluating the impact ASU No. 2010-25 will have on the financial statements.

3. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, established a single authoritative definition of fair value, set a framework for measuring fair value, and requires additional disclosures about fair value measurements. In accordance with ASC 820, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2009 and 2008.

In accordance with the update to ASC 820 (originally issued as FSP 157-4), the table below includes the major categorization for debt and equity securities on the basis of the nature and risk of the investments at December 31, 2009:

	Fair Value Measurements at December 31, 2009, Using			
	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds:				
Domestic stock funds	$ 8,407,160	$ -	$ -	$ 8,407,160
Balanced funds	3,531,630			3,531,630
International stock fund	6,413,178			6,413,178
Fixed income funds	4,722,038			4,722,038
Total mutual funds	23,074,006	-	-	23,074,006
Stable value fund		14,426,782		14,426,782
Participant loans		1,286,342		1,286,342
Total	$ 23,074,006	$ 15,713,124	$ -	$ 38,787,130

	Fair Value Measurements at December 31, 2008, Using			
	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds	$ 16,307,630	$ -	$ -	$ 16,307,630
Stable value fund		12,203,509		12,203,509
Participant loans		1,234,432		1,234,432
Total	$ 16,307,630	$ 13,437,941	$ -	$ 29,745,571

The valuation methods as described in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. INVESTMENTS

The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2009 and 2008, are as follows:

	2009	2008
Common collective trust — Stable Pooled Fund**	$ 14,426,782	$ 12,203,509
Mutual funds:		
PIMCO Total Return Fund Class A	4,264,972	3,225,206
American Funds Euro Pacific Growth Fund Class R3	3,177,885	2,081,518
Transamerica Premier Diversified Equity Fund**	2,110,688	*
Davis Funds New York Venture Fund Class A	1,976,734	1,523,370

* Less than 5% of the Plan's net assets available for benefits as of December 31.
** Party in interest.

During the year ended December 31, 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year ended December 31, 2009) appreciated in value as follows:

Common collective trust	$ 339,791
Mutual funds	4,156,406
Net appreciation in investments	$ 4,496,197

5. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds, which are managed by Diversified Investment Advisors ("Diversified"), including certain Transamerica mutual funds managed by Diversified, and shares of a common collective trust, which are managed by Massachusetts Fidelity Trust Company (MFTC). Diversified is the record keeper and MFTC is an Iowa Trust Company and an affiliated company of Diversified. MFTC is the trustee of the Diversified Investment Advisors Stable Pooled Fund, and therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for the investment management services were $17,633 for the year ended December 31, 2009.

The Company provides the Plan with certain accounting and administrative services for which no fees are charged.

6. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their account.

7. FEDERAL INCOME TAX STATUS

The Plan's most recent determination letter, dated September 24, 2002, from the Internal Revenue Service, stated that the Plan, as then designed, was in accordance with applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter and applied for a new determination letter during 2008. The Plan has not received a response to this request; however, the Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and that the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The following is a summary of the unaudited information regarding the Plan as of December 31, 2009 and 2008, included in the Plan's financial statements and supplemental schedule that was prepared by or derived from information prepared by the trustee of the Plan, and furnished to the Plan administrator.
