To the Trustees
Double D Express, Inc. Retirement Savings Plan
Peru, Illinois

We were engaged to audit the accompanying statements of net assets available for benefits of the Double D Express, Inc. Retirement Savings Plan (the Plan) as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 3 and 4, which was certified or provided by Principal Life Insurance Company (Principal), the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodian holds the Plan's investment assets and executes investment transactions. As disclosed in Note 3, the Plan Administrator has obtained certifications from the custodian regarding the completeness and accuracy of the investment information provided to the Plan Administrator by the custodian as of and for the year ended December 31, 2009, and as of December 31, 2008.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following description of the Double D Express, Inc. Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by Double D Express, Inc. (the Company) for the exclusive benefit of its employees and their beneficiaries. The Plan covers employees who have completed one year of service and are age 21 or older. One year of service is defined as having a minimum of 500 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to reduce their salary and have that amount contributed to the Plan. The elective deferral amount may not be more than the lesser of (a) 100% of pretax annual compensation, (b) the maximum dollar limit allowed under the requirements of the Internal Revenue Code ($16,500 for 2009), or (c) such lesser amount as determined by the discrimination tests for the Plan. Participants who have attained age 50 or older during the plan year are eligible to make catch-up contributions (up to an additional $5,500 in 2009). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover contributions). In May 2009, the Plan was amended to eliminate the matching contribution requirement of the Company. Prior to May 2009, the Company matched 50% of participant's contributions up to 6% of the employee's eligible compensation. The Company may also elect to make an annual discretionary contribution as determined by the Company. For the plan year ended December 31, 2009, the Company made no discretionary contribution to the Plan. Participants direct the investment of contributions into various investment options offered by the Plan. Participants may change their investment options daily.

Participant accounts: Each participant's account is credited with the participant's elective and, if applicable, rollover contributions, the Company's matching and discretionary contributions, allocations of Plan earnings or losses and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their elective and, if applicable, rollover contributions and earnings thereon. Vesting in the Company's matching and discretionary contributions, plus earnings thereon, is based on continuous years of service and one year of service is defined as a minimum of 500 hours. The Plan's vesting provisions start after two years of service at 20% and increases ratably until six years of service when participants are 100% vested. Participants, who terminate service because of death, total and permanent disability or attainment of normal retirement age, as defined in the Plan, are automatically 100% vested in their account balances.

Participants notes receivable: Participants may borrow from their account balance a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms shall not exceed five years, unless for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a rate determined by the Plan Administrator which is to be comparable to the rate charged by commercial lending institutions for similar loans. Interest rates applicable to outstanding loans ranged from 5.25% to 10.25% as of December 31, 2009. Principal and interest is paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, retirement or termination of employment, participants may elect to receive either a lump sum amount or installments equal to the value of his or her vested account. Withdrawals other than for termination are permitted under circumstances provided by the Plan.

Note 1. Plan Description (Continued)

Forfeitures: Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures are first used to pay administrative expenses of the Plan, and any forfeitures remaining thereafter are added to the Company's discretionary contribution and reallocated to participants. For the year ended December 31, 2009, $2,866 of forfeitures was used to reduce administrative expenses of the Plan and no forfeitures were reallocated to participants. At December 31, 2009 and 2008, the Plan had no forfeitures that had not been applied.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The methods used to estimate the fair value of investments are described in Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain administrative functions applicable to the Plan are performed by employees of the Company. No such employees receive compensation from the Plan. Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

New accounting standards adopted: In June 2006, the Financial Accounting Standards Board (FASB) issued guidance on "Accounting for Uncertainty in Income Taxes," which has been codified in FASB ASC 740. This guidance clarifies the accounting for uncertainty in income taxes in financial statements and prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken. This guidance also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. This guidance became effective and was implemented in 2009 by the Plan. The adoption of this guidance did not have a material impact on the Plan's financial statements.

In April 2009, the FASB issued accounting guidance related to "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly." This accounting guidance provides additional guidance for estimating fair value in accordance with accounting guidance related to "Fair Value Measurements," when the volume and level of activity for the asset or liability have significantly decreased. This accounting guidance also includes guidance on identifying circumstances that indicate a transaction is not orderly. This guidance also expanded disclosures and required that major categories for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments. This guidance is effective for annual reporting periods ending after June 15, 2009, and shall be applied prospectively. The Plan adopted this guidance for the year ended December 31, 2009. The adoption of this guidance did not have a material impact on the Plan's financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

In May 2009, the FASB issued accounting guidance which established general standards of accounting for and disclosure of subsequent events. The guidance defines "recognized subsequent events" as those that give evidence of conditions that existed at the balance-sheet date and "non-recognized subsequent events" as those that provide evidence about conditions that arose after the balance-sheet date but prior to the issuance of the financial statements. Entities must recognize in the financial statements the effect of recognized subsequent events, but cannot recognize the effects in the financial statements of non-recognized subsequent events. This guidance also requires entities to disclose the date through which subsequent events have been evaluated. This guidance was effective for annual periods ending after June 15, 2009. The Plan adopted this guidance for the year ended December 31, 2009. The adoption of this guidance did not have an impact on the Plan's financial statements.

In June 2009, the FASB issued accounting guidance which established the FASB "Accounting Standards Codification™" (the "ASC") as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities. This guidance was effective for financial statements issued for annual periods ending after September 15, 2009. On the effective date, this guidance superseded all then-existing non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the ASC became non-authoritative. The Plan adopted this new guidance effective December 31, 2009. The adoption of this guidance did not have a material impact on the Plan's financial statements.

In September 2009, the FASB issued an amendment to accounting guidance, "Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)" (ASU 2009-12), which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. The Plan adopted this new guidance effective December 31, 2009. The adoption of this guidance did not have a material impact on the Plan's financial statements.

Recent accounting standards: In January 2010, the FASB issued an amendment to accounting guidance, "Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements" (ASU 2010-06), which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting those changes. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010. The Plan is currently evaluating the impact, if any, of this guidance on the Plan's financial statements.

In September 2010, the FASB issued an amendment to accounting guidance, "Plan Accounting - Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans" (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment is effective for periods ending after December 15, 2010, with early adoption permitted, and requires retrospective application to all periods presented. The Plan is currently evaluating the impact, if any, of this guidance on the Plan's financial statements.

Note 3. Information Certified by Principal

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following investments are complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor to not perform any auditing procedures with respect to information in this Note, Note 4, throughout the financial statements and the supplemental schedule related to the investments.

The following table presents the fair values of the investments as of December 31, 2009 and 2008, which were certified by the custodian. Single investments representing more than 5% of the Plan's net assets as of December 31, 2009 and 2008, are separately identified:

	2009	2008
Investments, at fair value:		
Pooled separate accounts with Principal Life Insurance Company:

* Did not meet 5% threshold as of December 31, 2008.

** Did not meet 5% threshold as of December 31, 2009.

Participants notes receivable of $183,621 and $143,705 as of December 31, 2009 and 2008, respectively, were not certified by Principal.

Principal also certified to the completeness and accuracy of $218,037 of net appreciation in fair value of pooled separate accounts, $2,107 of net depreciation in fair value of guaranteed interest accounts and $22,200 of interest earned on guaranteed interest accounts related to the Plan's investments for the year ended December 31, 2009.

Note 4. Fair Value Measurements

FASB ASC 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2009.

Pooled separate accounts: Valued at the net asset value as reported by the investment manager of the fund.

Guaranteed interest contracts with insurance company: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Participants notes receivable: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

Note 4. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Level 1	Level 2	Level 3	Total

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share as of December 31, 2009:

Investments	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts:				
Fixed Income (a)	$ 390,735	$ -	Immediate	None
Large U.S. equity (b)	471,064	-	Immediate	None
Small/mid U.S. equity (c)	480,322	-	Immediate	None
International equity (d)	117,894	-	Immediate	None
Real estate (e)	105,595	-	Immediate	See (e)
Balanced funds (f)	326,524	-	Immediate	None
Common Stock (g)	23,646	-	Immediate	None
Total pooled separate accounts	$ 1,915,780			

(a) This group of pooled separate accounts seeks a high level of current income consistent with preservation of principal and maintenance of liquidity. Investments include high quality, short-term money market instruments, public and private corporate bonds, commercial and residential mortgages, asset backed securities and securities issued by the U.S. government.

Note 4. Fair Value Measurements (Continued)

(b) This group of pooled separate accounts seeks long-term growth of capital and normally invests in common stocks and other equity securities of large capitalization companies similar to those in the S&P 500 and Russell 1000 Growth Index.

(c) This group of pooled separate accounts seeks long-term growth of capital and normally invests in common stocks and other equity securities of small to medium capitalization companies similar to those in the Russell MidCap Index and the Russell 2000 Index.

(d) This group of pooled separate accounts seeks long-term growth of capital and normally invests in stocks and other equity securities of non-U.S. companies.

(e) This pooled separate account invests the majority of assets in U.S. commercial real estate holdings including multifamily, office, warehouse, manufacturing and retail properties. It focuses on properties that return both lease income and appreciation of the buildings' marketable value. As of December 31, 2009, this separate account had a temporary withdrawal limitation related to turmoil in the credit markets that resulted in sharp slowdown in the sale of commercial real estate assets. The uncertain environment led to significantly increased requests for withdrawals. To allow for orderly administration and management benefiting all separate account investors, Principal implemented a pre-existing contractual limitation to delay certain withdrawal requests. Currently, certain high need payments such as death, disability, certain eligible retirements, and hardship withdrawals are not subject to the withdrawal limitation. Other withdrawal requests are subject to the limitation until certain liquidity levels are achieved, mainly via proceeds from sales of underlying properties, rents from tenants and new investor contributions. Since the inception of the withdrawal limitation, all sources of cash are first used to satisfy cash requirements at the properties, meet debt maturities maintain compliance with debt covenants and meet upcoming separate account obligations. Outstanding withdrawal requests will be paid in multiple payments. Except for certain de minims payments, payments will be made proportionately among all other outstanding withdrawal requests, based upon available liquidity. All withdrawals are being transacted at the NAV price at the date of distribution. Currently, there is no estimate of when this restriction will end. The restriction has been in place since September 26, 2008.

(f) This group of pooled separate accounts seeks a total return consisting of long-term growth of capital and current income. The funds invest in underlying Principal domestic and foreign equity, hybrid, and fixed income funds according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. It allocates the assets more conservatively over time.

(g) This pooled separate account invests in Principal Financial Group, Inc. common stock.

Note 5. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2009 and 2008:

	2009	2008
Net assets available for benefits per the financial statements	$ 2,846,853	$ 2,785,431
Less: Employer contributions receivable	-	(3,450)
Less: Participant contributions receivable	-	(11,297)
Net assets available for benefits per the Form 5500	$ 2,846,853	$ 2,770,684

The following is a reconciliation of changes in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2009:

Net increase in net assets available for benefits per the financial statements	$ 61,422
Add: Employer contributions receivable at December 31, 2008	3,450
Add: Participant contributions receivable at December 31, 2008	11,297
Net increase in net assets available for benefits per the Form 5500	$ 76,169

Note 6. Guaranteed Interest Contracts with Insurance Company

The Plan entered into a number of guaranteed interest contracts with Principal. Principal maintains the investments in unallocated insurance general accounts, which are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The crediting contract rates on the GICs ranged from 1.17% to 4.10%, as of December 31, 2009. The average yield for the GICs ranged from 1.29% to 3.64%, for the year ended December 31, 2009. The investments in GICs are not fully benefit responsive as surrender charges may apply to transfers or withdrawals from those contracts prior to maturity.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8. Tax Status

The Plan adopted a standardized form of a prototype plan sponsored by Principal. The prototype plan has received an opinion letter dated March 31, 2008, from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 8. Tax Status (Continued)

Management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal tax authorities for years before 2006.

Note 9. Related Party Transactions

The Plan invests in shares of pooled separate accounts and guaranteed interest accounts managed by Principal, the custodian of the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 11. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 7, 2010, the date the financial statements were available to be issued.
