INDEPENDENT AUDITORS' REPORT

To the Plan administrator of Midwest Hose & Specialty, Inc. 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2025 Financial Statements
We have performed the audit of the accompanying 2025 financial statements of Midwest Hose & Specialty, Inc. 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2025, and for the year then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the 2025 Financial Statements
In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2025 Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2025 Financial Statements
We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2025 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2025 Financial Statements
Management is responsible for the preparation and fair presentation of these 2025 financial statements in accordance with GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2025 Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the 2025 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditors' Report on the 2024 Financial Statements

Predecessor auditors performed an audit of the 2024 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(c) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to the assets held for investments of the Plan that were certified by a qualified institution. Their report, dated August 25, 2025, indicated that: (1) the amounts and disclosures in the 2024 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with GAAP, and (2) the information in the 2024 financial statements related to the assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103 (a)(3)(c).

1. DESCRIPTION OF THE PLAN

The following description of the Midwest Hose & Specialty, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document and adoption agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution 401(k) profit sharing plan that is intended to satisfy the ADP and ACP test safe harbor requirements of Sections 401(k)(12) and 401(m)(11) of the Internal Revenue Code (IRC). The Plan sponsor and Plan Administrator is Midwest Hose & Specialty, Inc. (the Company). The Company is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings and monitors investment performance. Participants direct the investment of their accounts, and the Plan is intended to comply with ERISA Section 404(c) with respect to accounts subject to participant investment direction. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan’s investments are held under a group annuity contract issued by American United Life Insurance Company (AUL), a wholly owned subsidiary of OneAmerica Financial Partners, Inc. AUL is the insurance carrier that issues the contract and also serves as the Plan’s recordkeeper.

Eligibility

Employees are eligible to participate in the Plan for all contribution types upon attaining age 21 and completing six months of service, as defined (elapsed time method). Eligible employees enter the Plan on the first day of the Plan year or the first day of the seventh month of the Plan year coinciding with or next following the date the eligibility requirements are met. Union employees, nonresident aliens with no U.S. source income, and employees who become employees as the result of an IRC Section 410(b)(6)(C) transaction (during the transition period) are excluded from participation.

Contributions

Participants may elect to defer compensation on a pre-tax basis up to the maximum amount permitted by law under IRC Sections 402(g) and 415. Participants may modify their deferral elections as of the first day of the Plan year or the first day of the seventh month of the Plan year. Participants who have attained age 50 or older before the close of the Plan year may make catch-up contributions in addition to the limits described above. The Plan does not permit Roth elective deferrals or after-tax voluntary employee contributions.

The Company makes a safe harbor matching contribution equal to the sum of 100% of the amount of the participant's elective deferrals that does not exceed 3% of the participant's compensation, plus 50% of the amount of the participant's elective deferrals that exceed 3% of the participant's compensation but do not exceed 5% of the participant's compensation. The safe harbor matching contribution is determined on each payroll period, and no annual true-up is required, and no allocation conditions apply. The Company may also make a discretionary tiered matching contribution and a discretionary nonelective (profit sharing) contribution, in amounts determined by the Company. To share in an allocation of a discretionary nonelective contribution, a participant must complete at least 1,000 hours of service during the Plan year

and be employed on the last day of the Plan year; participants who terminate during the Plan year by reason of death, total and permanent disability or termination of employment on or after normal retirement age share in the allocation without regard to those conditions. There were no discretionary matching or nonelective contributions made for the year ended December 31, 2025.

Rollover contributions are accepted from any eligible employee, including an employee who has not yet satisfied the eligibility conditions to become a participant.

Participant Accounts
Each participant's account is credited with the participant's elective deferrals, the Company's safe harbor matching contribution, any discretionary matching or nonelective contribution allocated to the participant and allocations of Plan earnings (losses). Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings (losses), account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately 100% vested in their elective deferrals, rollover contributions and all employer matching contributions, including the safe harbor matching contribution. Employer nonelective (profit sharing) contributions, if any, vest based on years of service under a six-year graded schedule — 0% for less than two years, 20% after two years, 40% after three years, 60% after four years, 80% after five years and 100% after six years. Regardless of the vesting schedule, a participant becomes fully vested upon death or total and permanent disability or upon termination or partial termination of the Plan.

Forfeitures
A forfeiture of the nonvested portion of a participant's account occurs as of the earlier of the last day of the Plan year in which the former participant incurs five consecutive one-year breaks in service, or the distribution of the entire vested portion of the participant's account. Forfeitures may be used at the direction of the Company to pay Plan administrative expenses or to reduce or increase any employer contribution. There were no forfeitures in 2025 or 2024.

Payment of Benefits
Payment of the vested portion of a participant's account at retirement, death, disability or termination of employment is made in a single lump sum, in cash. Installment payments are permitted only for participants and beneficiaries who must receive required minimum distributions under IRC Section 401(a)(9). Distributions are made as soon as administratively feasible following severance of employment. Participant consent is required only if the distribution exceeds $5,000; amounts attributable to rollover contributions are excluded in determining whether the $5,000 threshold is met.

In-Service Distributions
Participants who have attained age 59½ may request an in-service distribution from all accounts, provided the distribution is made only from accounts that are 100% vested.

Hardship Distributions
Participants who are current employees may withdraw amounts from accounts that are 100% vested, other than accounts attributable to safe harbor contributions, on account of an immediate and heavy financial need if they satisfy the conditions of the Plan. Deemed immediate and heavy financial needs include expenses for medical care; costs directly related to the purchase of a principal residence; tuition, related educational fees and room and board for the next 12 months of post-secondary education for the participant, the participant's spouse or dependents; amounts necessary to prevent eviction from or foreclosure on the participant's principal residence; funeral or burial expenses for the participant's deceased parent, spouse, child or dependent; expenses for the repair of damage to the participant's principal residence that would qualify for the casualty deduction under the IRC; and expenses and losses incurred as a result of a federally declared disaster. Hardship distributions may be made only from accounts that are 100% vested. Hardship distributions are not permitted from accounts attributable to safe harbor contributions. Salary deferrals are not suspended following a hardship distribution.

Loans
Loans are not permitted under the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation
The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of estimates
The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition
The Plan's investments are held under group annuity contract issued by American United Life Insurance Company (AUL). Investments are reported at fair value, except for fully benefit-responsive investment contracts held in the general account of AUL, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract

value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 6 for a discussion of fair value measurements and Note 7 for a discussion of the Plan's fully benefit-responsive investment contracts.

The Plan does not hold shares of mutual funds directly. Amounts directed to the variable investment options are invested in AUL American Unit Trust (Separate Account II), a separate account of AUL. The mutual funds are held by the separate account, and the Plan's interest is in units of the separate account subaccounts. That interest is reported at fair value based on the unit value determined by AUL at year end, which is derived from the net asset value of the underlying registered mutual fund shares held by each subaccount, adjusted for contract-level asset charges.

Amounts allocated to the AUL Fixed Account and the AUL Stable Value Account are maintained in the general account of AUL and are obligations of AUL. Because these options are fully benefit-responsive investment contracts, they are reported at contract value, which represents contributions and transfers made to the accounts, plus interest credited by AUL, less participant withdrawals, transfers and administrative charges.

Management determines the Plan's valuation policies using information provided by AUL, the trustee, and the Plan's investment advisor. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) in the fair value of investments includes realized gains and losses on investments sold during the year and unrealized gains and losses on investments held at year end.

Payment of Benefits
Benefit payments are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Administrative expenses include certain recordkeeping fees paid by the Plan. Investment related expenses are included in net appreciation in fair value of investments.

3. TAX STATUS

The Company has adopted a pre-approved non-standardized defined contribution plan with a cash or deferred arrangement sponsored by OneAmerica Financial Partners, Inc. The pre-approved plan received an opinion letter from the Internal Revenue Service (IRS) dated August 19, 2020 , stating that the form of the plan is acceptable for use by employers for the benefit of their employees under Section 401 of the Internal Revenue Code (IRC). In accordance with Revenue Procedure 2017-41, the Plan Administrator has determined that it is eligible to, and has chosen to, rely on the current IRS opinion letter. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, the Plan is qualified, and the related trust is tax-exempt. Accordingly, no provision for income taxes has been included in the Plan’s financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has concluded that there are no uncertain tax positions requiring recognition or disclosure. The Plan is subject to examination by taxing jurisdictions; however, there are currently no examinations in progress for any tax period.

4. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are held under a group annuity contract issued by AUL. AUL is the issuer of the contract and the Plan's recordkeeper and therefore is a party-in-interest as defined by ERISA. Accordingly, investments in the AUL Fixed Account and the AUL Stable Value Account, and transactions in the AUL separate account subaccounts, qualify as party-in-interest transactions.

During the year ended December 31, 2025, the Plan paid administrative fees of $1,100 to AUL. These transactions qualify as exempt party-in-interest transactions under ERISA Section 408(b)(2).

5. INFORMATION PREPARED AND CERTIFIED CUSTODIAN

Certain information related to investments disclosed in the accompanying financial statements and the ERISA-required supplemental schedule, including investments at December 31, 2025 and 2024, and net appreciation in fair value of investments, interest income for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by AUL.

6. FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurement*, establishes a framework for measuring fair value and a hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3):

- **Level 1 —** Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

- **Level 2 —** Inputs other than quoted prices included in Level 1 that are observable, either directly or indirectly, including quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable or corroborated by observable market data.

- **Level 3 —** Unobservable inputs that are significant to the fair value measurement**.**

The level in the fair value hierarchy within which a fair value measurement falls is based on the lowest level of any input that is significant to the measurement in its entirety. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Separate account investment options. The Plan's variable investment options are units of subaccounts of the AUL separate account. Each subaccount invests in shares of an open-end mutual fund registered with the Securities and Exchange Commission. The Plan does not hold the mutual fund shares directly; its interest is valued at the unit value reported by AUL at year end, which is determined from the published net asset value of the underlying mutual fund shares held by the subaccount, less contract-level asset charges. Because that unit value is derived from observable prices for the underlying funds but is not itself a quoted price in an active market for the Plan's interest, these investments are classified within Level 2 of the fair value hierarchy.

The methods described above may produce a fair value calculation that is not indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value at December 31, 2025 and 2024. The fully benefit-responsive investment contracts described in Note 7 are reported at contract value and are therefore excluded from the fair value hierarchy tables.

	Fair Value Measurements as of December 31, 2025			
Investment	**Level 1**	**Level 2**	**Level 3**	**Total**
Separate Account, at fair value	$ -	$ 16,562,418	$ -	$ 16,562,418
Total investments, at fair value	$ -	$ 16,562,418	$ -	$ 16,562,418

	Fair Value Measurements as of December 31, 2024			
Investment	**Level 1**	**Level 2**	**Level 3**	**Total**
Separate Account, at fair value	$ -	$ 14,160,426	$ -	$ 14,160,426
Total investments, at fair value	$ -	$ 14,160,426	$ -	$ 14,160,426

7. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan holds two investment options within the general account of AUL under the group annuity contract: the AUL Fixed Account and the AUL Stable Value Account. Under each option, AUL maintains the amounts deposited in its general account, credits interest at a rate that it declares and pays participant-directed withdrawals and transfers at contract value. Because the contract is a fully benefit-responsive investment contract, it is reported at contract value in the statements of net assets available for benefits. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the contract because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Contract value, as reported by AUL, represents contributions and transfers made to each account, plus interest credited, less participant withdrawals, transfers and administrative charges. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

AUL declares the interest crediting rate for the AUL Fixed Account and the AUL Stable Value Account in accordance with a formula specified in the contract, based principally on the investment earnings of the general account portfolio supporting the contract, the duration and credit quality of the underlying assets, and AUL's spread requirements. The rate is reset quarterly. The crediting rate may not be less than the contractually guaranteed minimum rate of 3.0%. For the year ended December 31, 2025, the crediting rate was 3.0%.

Certain events limit the ability of the Plan to transact at contract value with AUL. Such events include, but are not limited to:

- amendment of the plan documents, including the establishment or elimination of a competing investment option;
- complete or partial termination of the Plan, or its merger with another plan;
- bankruptcy, receivership or other insolvency of the plan sponsor, or any other sponsor event, such as a divestiture, plant closing or early retirement program, that causes a significant withdrawal from the Plan;
- the failure of the Plan to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code; and
- the delivery of any communication to participants designed to influence a participant to transfer out of the general account options.

Plan management does not believe that the occurrence of any event that would limit the Plan's ability to transact at contract value with participants is probable.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination or partial termination, participants would become 100%

vested in their employer contributions and the accounts would be distributed in accordance with the terms of the Plan.

9. SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 24, 2026 which represents the date the financial statements are issued. There are no items which require adjustment or disclosure in the accompanying financial statements.
