Independent Auditor's Report

To the Plan Administrator
Berea Children's Home Retirement Savings Plan
Berea, Ohio

We were engaged to audit the accompanying statements of net assets available for benefits of the Berea Children's Home Retirement Savings Plan (the Plan) as of December 30, 2009 and December 31, 2008, and the related statement of changes in net assets available for benefits for the period January 1, 2009 to December 30, 2009. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by The Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (Principal), the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executed investment transactions. As disclosed in Note 3, the plan administrator has obtained certifications from the custodian regarding the completeness and accuracy of the investment information provided to the plan administrator by the custodian as of December 30, 2009 and December 31, 2008, and for the period January 1, 2009 to December 30, 2009.

In addition, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity or custodial accounts which may have been issued to current or former employees without the plan administrator's knowledge prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficiently to determine the extent to which the financial statements may have been affected by these conditions.

Further, as described in Note 9, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts which may have been issued to current and former employees without the plan administrator's knowledge prior to January 1, 2009, as permitted by the United States Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such potential accounts have also been excluded from the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

As discussed in Note 8 to the financial statements, the Board of Directors of Berea Children's Home, the Plan sponsor, adopted an amendment to terminate the plan effective November 1, 2009. In accordance with accounting principles generally accepted in the United States of America, the plan has changed its basis of accounting from the ongoing basis to the liquidation basis of accounting.

Because we were not able to apply auditing procedures to satisfy ourselves as to the appropriateness and completeness of the Plan's net assets available for benefits as of December 30, 2009 and December 31, 2008, and changes in net assets available for benefits for the period January 1, 2009 to December 30, 2009, as described in the third and fourth paragraphs above, and because of the significance of the information in the financial statements related to the Plan's investments that we did not audit as described in the second paragraph above, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on the accompanying financial statements taken as a whole.

Berea Children's Home Retirement Savings Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Berea Children's Home Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is sponsored and administered by Berea Children's Home (the Organization or Company). Under the terms of agreements between Principal Life Insurance Company (Principal) and the Plan, Principal maintains a trust fund on behalf of the Plan. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan is a defined contribution plan covering all regular full-time employees of the Company. To be eligible to participate in employer matching contributions, the participant must be twenty-one or older and have completed one-year of service with the Company. One year of service is defined as having completed 1,000 hours within a twelve-month period.

Contributions: Each year, participants may contribute up to the maximum percentage of pretax annual compensation, as defined by the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who attained age 50 before the end of the Plan year were eligible to contribute additional catch-up contributions. Contributions are subject to certain limitations. Also, any participant who has 15 years of service with a qualified organization may make Special Code Section 403(b) Catch-up Contributions.

The Organization may, at its discretion, make matching contributions to the Plan, as well as additional discretionary contributions. For the period January 1, 2009 to December 30, 2009, the Organization made matching contributions of \$27,776. The Organization did not make an additional discretionary contribution to the Plan during 2009.

Participants' accounts: Each participant's account is credited with the participant's contributions, and the Organization's contributions, plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participants account balances or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants immediately vest in their contributions plus actual earnings thereon. Prior to the Plan termination, vesting in the Organization's matching and discretionary contribution portion of a participants' account plus actual earnings thereon was based on years of service. A participant was 100 percent vested after five years of service, as defined by the Plan.

Effective November 1, 2009 as a result of the Plan termination, the Plan was amended to immediately vest all participants in their employer contributions retroactive to January 1, 2009.

Participant loans: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions

Payment of benefits: Participants are entitled to receive a lump-sum amount equal to the value of their vested account balance upon termination or separation of service. Benefits are recorded when paid.

Berea Children's Home Retirement Savings Plan

Notes to Financial Statements

Note 2. Significant of Accounting Policies

Basis of accounting: Due to the decision in 2009 to terminate the Plan, the 2009 financial statements have been prepared using the liquidation basis of accounting. The 2008 financial statements were prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Generally accepted accounting principles require the statement of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Administrative expenses: Administrative expenses of the Plan are paid by the Plan or by the Organization, at the option of the Organization.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend rate. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 8, 2010, the date the financial statements were available to be issued.

Recently adopted accounting pronouncements: The Financial Accounting Standards Board issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance during 2009. The plan administrator has evaluated the Plan's tax position and concluded that the Plan has maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2006.

Note 3. Investments and Information Certified or Provided by Principal

Investment information as of December 30, 2009 and December 31, 2008 and for the period January 1, 2009 to December 30, 2009, included throughout the Plan's financial statements was prepared by or derived from information provided by the custodian and furnished to the plan administrator. The plan administrator has obtained certifications from the custodian that information provided to the plan administrator by the custodian related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements related to the following investments.

The following table presents the fair value of the investments of the Plan as certified by the custodian, except for the Plan's investment in the insurance company group annuity contract which is certified at contract value, as of December 30, 2009 and December 31, 2008. Investments representing more than 5% of the Plan's net assets are separately identified.

Note 4. Fair Value Measurements

Accounting guidance provides a framework that measures fair value and provides a hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 30, 2009 and December 31, 2008:

Mutual funds: Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end.

Insurance company group annuity contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 7).

Participant loans: Valued at amortized cost which approximates fair value.

Note 4. Fair Value Measurements (Continued)

The Plan did not have any investments as of December 30, 2009. The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2008:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 2,043,339	\$ -	\$ -	\$ 2,043,339
Insurance company group annuity contract	-	736,954	-	736,954
Participant Loans	-	-	42,635	42,635
	<u>\$ 2,043,339</u>	<u>\$ 736,954</u>	<u>\$ 42,635</u>	<u>\$ 2,822,928</u>

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the period January 1, 2009 to December 30, 2009:

	Participant Loans
Balance, beginning of year	\$ 42,635
Issuances, repayments and settlements, net	(42,635)
Balance, end of year	<u><u>\$ -</u></u>

Note 5. Tax Status

The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code, and therefore is exempt from income taxes. No provision for income taxes has been included in the Plan's financial statements.

Note 6. Related Party Transactions

The Plan invested in a guaranteed investment contract and certain mutual funds managed by Principal Life Insurance Company or one of their affiliates. Principal is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Principal for the period January 1, 2009 to December 30, 2009 was \$19,592.

Note 7. Contract with Insurance Company

The Plan's investment in the Principal Fixed Income Option (PFIO) Non 401(a) is a benefit-responsive group annuity contract issued by Principal. The methodology for calculating the interest crediting rate is defined in Article I, Section II of the contract under the term "Composite Crediting Rate." Under the terms of the existing contract, the Composite Crediting Rate is currently reset on a semiannual basis and will never be less than 3%.

Note 7. Contract with Insurance Company (Continued)

The PFIO is a single group annuity contract with a fixed rate of interest. It is not a portfolio of contracts whose yields are based on changes in fair value of underlying assets as would be found in a stable value fund. As a result, the average yield earned by the Plan is the yield earned (i.e. interest credited) on the group annuity contract. The interest rate was approximately 3.05% for the period January 1, 2009 to December 30, 2009.

By definition, the PFIO group annuity contract is an insurance contract. As a result, the Plan may transact according to the terms defined in the contract at any time. The contract also defines the circumstances and amounts for which the contract may be determined by the Plan.

Note 8. Plan Amendment and Termination

On September 8, 2009, the Board of Directors of the plan sponsor adopted a resolution to terminate the plan effective November 1, 2009. All participants became fully vested in their account balances as of January 1, 2009. Distributions pursuant to the Plan termination were paid by the participant's election by (a) rollover distribution to an eligible retirement plan or (b) a combination of cash distribution and rollover distribution to an eligible retirement plan. All Plan assets were distributed by December 30, 2009.

Note 9. Excluded Contracts

The plan administrator has elected to exclude from investments certain annuity and custodial accounts which may have been issued to current and former employees without the plan administrator's knowledge prior to January 1, 2009, as permitted by the United States Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such potential accounts have also been excluded from the statement of changes in net assets available for benefits. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements. The plan administrator is not able to determine the amount of these excluded annuity and custodial accounts and the related income and distributions because no records relating to these are available or do not exist.

Note 10. IRS Form 5500 Reconciliation

The following is a reconciliation of net assets available for benefits per the financial statements at December 30, 2009 and December 31, 2008 to the IRS Form 5500:
