Board of Trustees and Plan Administrator
Capitol Lighting 401(K) Plan

We were engaged to audit the financial statements and supplemental schedules of Capitol Lighting 401(K) Plan (the "Plan") as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years ended December 31, 2009 and 2008. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in NOTE 3, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and execute investment transactions. The Plan administrator has obtained a certification from the trustee as of December 2009 and 2008 and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following description of the Capitol Lighting 401(K) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan's sponsor is Capitol Lighting of East Hanover (the "Company").

General

The Plan, established on January 1, 1996 and restated on January 1, 2007, is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Employees of the Company who are at least twenty-one years of age and have completed 1,000 hours of service in a twelve month consecutive period are eligible to participate in this Plan. Effective January 1, 2007, the Plan was amended to change the effective minimum and maximum deferral percentages.

Contributions

Contributions to the Plan are made by the participants. Participants may elect to defer their annual compensation, as defined by the Plan and consistent with the Internal Revenue Service guidelines. Additionally, participants may rollover or transfer to the Plan any portion or all of the property received from another qualified employee benefit trust (rollover contribution). The minimum percentage of compensation a participant may elect to defer is 1% and the maximum percentage of compensation a participant may elect to defer is 90%.

In addition, the Company may make a matching and/or discretionary contribution, at the option of the Company. There were no matching contributions made for the plan years ended December 31, 2009 and 2008.

Plan Benefits and Participants Accounts

Each participant's account is credited with the participant's elective deferrals, employer contributions, if any, allocations of the Company's discretionary contributions, if any, and Plan earnings and losses. Each participant's account is reduced by any withdrawals or distributions and investment transaction costs. Allocations are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions into any of several investment options including guaranteed interest accounts and mutual funds. Participants may change their investment options at their discretion.

Vesting

Participants are immediately vested to the extent of their contributions plus actual earnings or losses thereon. Vesting in the Company's contributions is based on years of continuous service as follows:

Vested Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participant Loans

Participants may borrow from their fund accounts a minimum of $500 up to the lesser of $50,000 or 50% of their vested account balance. The maximum loan term is 5 years, except in limited circumstances, such as the purchase of a principal residence, for which the maximum loan term is 30 years.

1. DESCRIPTION OF PLAN (CONTINUED)

Participant Loans (Continued)

The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 10.25%, which commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through regular payroll deductions.

Payment of Benefits

Upon termination of service, due to employment termination, death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or through installment payments over a period not to exceed the life expectancy of the participant or beneficiary of the participant.

Forfeitures

There were no forfeitures for the years ended December 31, 2009 and 2008. Forfeitures would be used to first pay for plan expenses. Any remaining forfeitures are then used to reduce future employer contributions.

Plan Expenses

Investment transaction costs and certain administrative expenses are charged to the Plan and allocated among the participants in accordance with the Plan document. Substantially all administrative expenses incurred in relation to the maintenance of the Plan are absorbed by the Plan's Sponsor.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

FASB Accounting Standards Codification

On July 1, 2009, the Financial Accounting Standards Board ("FASB") issued "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles," which establishes the FASB Accounting Standards Codification (the "ASC") as the source of authoritative principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"). This standard is effective for financial statements issued for interim and annual periods ending after September 15, 2009.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. Management has determined that the fair value of the Plan's indirect investments in its fully benefit-responsive contracts as of December 31, 2009 and 2008 approximates contract value. Therefore, no adjustments from fair value to contract value were included in the accompanying financial statements.

Valuation of Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See NOTE 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant loans are valued at amortized cost which approximates fair value. Purchase and sales of securities are recorded on a trade-date basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain report amounts and disclosures. Accordingly, actual results could differ from those estimates.

Adoption of Accounting Pronouncements

Subsequent Events

In May 2009, the FASB issued an accounting standard which establishes general standards of accounting for and disclosure of events that occur after the statement of net assets available for benefits date but before financial statements are issued or available to be issued. The standard was adopted for the year ending December 31, 2009. The Plan has evaluated subsequent events through October 6, 2010, which is the date the financial statements were available to be issued.

Accounting for Uncertainty in Income Taxes

On January 1, 2009, the Plan adopted the provisions of an accounting standard, which clarifies the accounting for uncertainty in income taxes recognized in a plan's financial statements in accordance with existing accounting guidance on income taxes, and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This standard also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Interest and penalties on tax liabilities, if any, would be recorded in administrative expenses. No liability for unrecognized tax benefits was recorded as a result of implementing this standard.

Recent Accounting Pronouncements

Fair Value Measurements

In September 2009, the FASB issued an accounting standard update which amends existing guidance on fair value measurements and disclosures. The update allows an entity to measure the fair value of an investment that has no readily determinable fair market value, on the basis of the net asset value per share as provided by the investee. The update is effective for annual and interim periods beginning after December 15, 2009, with early adoption permitted, and is not expected to have an effect on the Plan's financial statements.

In January 2010, the FASB issued an accounting standard update on fair value measurements and disclosures. The update requires more robust disclosures about (1) the different classes of assets and liabilities measured at fair value, (2) the valuation techniques and inputs used, (3) the activity in Level 3 fair value measurements, and (4) the transfers between Levels 1, 2, and 3. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. This update is not expected to have an effect on the Plan's financial statements.

Reporting Loans to Participants

In September 2010, the FASB issued an accounting standard to clarify how loans to participants should be classified and measured by defined contribution benefit plans. The standard requires most investments held by a plan, including participant loans, to be presented at fair value; therefore, requiring that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The accounting standard is effective for fiscal years ending after December 15, 2010 with early adoption permitted. The impact on the Plan's financial statements is currently being evaluated.

3. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee, State Street Bank and Trust Company, as of December 31, 2009 and 2008, has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

	2009	2008
Interest-bearing cash	$ 264,586	$ 249,637
Participant loans	63,930	45,082
Interest in common/collective trusts	903,588	763,048
Interest in registered investment companies	870,099	749,921
	$ 2,102,203	**$ 1,807,688**
Net appreciation (depreciation) in fair value of investments, including dividends, interest and other income	**$ 449,947**	**$ (885,743)**

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

4. FAIR VALUE MEASUREMENTS

The FASB ASC, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB ASC are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Investment in common/collective trusts: Valued at the fund's net asset value reflecting all investments at contract value, including direct and indirect interests in fully benefit-responsive contracts, as reported by the fund manager, on the last day of the Plan year. The fund's net asset value is determined by the bank or entity sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at the valuation date.

4. FAIR VALUE MEASUREMENTS (CONTINUED)

Investment in registered investment companies: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008, respectively.

	Assets at Fair Value as of December 31, 2009			
Description	**Fair Value 12/31/2009**	**Quoted Prices In Active Markets for Identical Assets (Level 1)**	**Significant Other Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**

4. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009 and 2008.

	Level 3 Assets Year Ended December 31, Participant Loans	
	2009	2008
Balance, beginning of year	$ 45,082	$ 28,768
Issuances	38,300	29,522
Settlements, net	(19,452)	(13,208)
Balance, end of year	**$ 63,930**	**$ 45,082**

5. INVESTMENTS

The following presents investments that represent five percent or more of the Plan's net assets:

	2009	2008
SSGA Life Solutions Balance Growth	$ 111,877	$ 115,737
SSGA Life Solutions Growth	113,443	90,966
SSGA Government Money Market	264,586	249,637
SSGA S & P 500 Index	406,276	354,425
SSGA S & P 400 Midcap Index Fund	149,230	106,701
PIMCO Total Return	*	113,737
Allianz NFJ Small Cap Value Fund	117,229	100,208
Neuberger Berman Partners	265,631	174,379
Templeton Growth Fund	144,215	163,943

* Investment does not represent 5% or more of the Plan's net assets of the applicable plan year.

6. TAX STATUS

The plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in their employer contribution.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
