CAPRIS FURNITURE INDUSTRIES, INC.
EMPLOYEE STOCK OWNERSHIP AND SAVINGS PLAN
Ocala, Florida
NOTES TO FINANCIAL STATEMENTS
December 31, 2009

NOTE A - DESCRIPTION OF PLAN

The following is a brief description of Capris Furniture Industries, Inc. Employee Stock Ownership and Savings Plan, (the "Plan"), and is provided for general information purposes only. Participants should refer to the Plan agreement for a more detailed description of the Plan.

General - The Plan is a defined contribution plan designed to provide benefits to eligible employees of Capris Furniture Industries, Inc. (an S corporation) (the "Company") upon retirement, disability, death or termination of employment and was established on January 1, 1993 and amended and restated on January 1, 2003 and again on January 1, 2004.

The Plan was organized as a profit sharing plan under §401(a) and §401(k) of the Internal Revenue Code (the "Code") until January 1, 2004. Capris Furniture Industries, Inc. established the Capris Furniture Industries, Inc. Employee Stock Ownership and Savings Plan effective as of January 1, 2004. At that time, the Plan was amended and operates, in relevant part, as a leveraged employee stock ownership and savings plan (ESOP) that contains a cash or deferred feature, and is designed to comply with Section 4975(e) and the regulations there under of the Code, as amended and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is administered by an Employee Benefits Administration Committee comprised of not less than two nor more than seven persons appointed by the Capris Furniture Industries, Inc.'s Board of Directors. Nationwide Financial Services, Inc., an independent third-party, is the Plan's Custodian for the 401(k) plan assets and the ESOP allocated investments. The Trustees, Pedro R. Interian and Donald R. Beaudet, are custodians of the Company stock (ESOP plan asset) and all other ESOP plan assets are being held at Lincoln Financial Securities. The Plan covers substantially all eligible employees of the Company.

The Plan purchased Company common shares using the proceeds of a loan granted by the Company (Note I) and collateralized by the common stock of the Company, held in a trust established by the Plan. The borrowing is to be repaid over a period of ten years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code. Shares vest fully upon allocation.

NOTE A - DESCRIPTION OF PLAN (continued)

The borrowing is collateralized by the unallocated shares of stock. The lender has no rights against shares once they are allocated under the ESOP, nor does it have rights against the 401(k) assets. Accordingly, the financial statements of the Plan as of December 31, 2009 and 2008 and for the year-ended December 31, 2009 present separately the assets and liabilities and changes therein pertaining to:

1. the accounts of employees with vested rights in allocated ESOP stock and allocated match stock

2. stock not yet allocated to employees (Unallocated) and

3. 401(k) assets.

Contributions and Funding Policy - Employees are permitted to defer the lesser of 100 percent of allowable compensation within the meaning of section 415(c)(3) of the Code for the limitation year or $40,000 as adjusted for increases in the cost-of-living under section 415(d) of the Code. The employer matching contribution is discretionary; however, in 2009, the Company matched employees' elective deferral contributions up to a maximum of four percent, with allocated stock, if the employee was an active participant as of December 31, 2009. Other qualified, non-elective contributions may be made to the Plan at the Company's discretion. It is the Company's policy to remit the employees' contribution with each weekly payroll.

Employer discretionary contributions are made at the Company's discretion and are not required to be made every year. Qualified participants will be entitled to a share of the contributions. Qualified participant means any participant who is an active employee on the last day of the plan year in question or who is credited with more than 1,000 hours of service during the plan year in question or whose retirement or death occurred during the plan year in question.

Participant Accounts - The Plan is a deferred contribution plan under which a separate individual account is established for each participant.

Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation and years of service.

NOTE A - DESCRIPTION OF PLAN (continued)

Each participant's account is credited with the participant's contribution and an allocation of the employer matching contribution and Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Plan does not accept rollover contributions.

Vesting - Employee contributions and the related allocated net income or loss are fully vested upon contribution. Vesting in the employer discretionary matching and employer discretionary contributions, plus actual earnings thereon, is based upon years of service as follows:

Years of Service	Nonforfeitable Percentage
Less than 1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Participants are 100% vested upon attaining normal retirement age (age 65), or death or disability.

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance attributed to elective deferrals, qualified non-elective contribution and employer matching contributions (where such employer matching contributions were made prior to January 1, 2007). Loan terms will not exceed five years except for loans used to purchase primary residences. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. The interest rate for 2009 ranged from 4.25% to 9.25%. Principal and interest is paid ratably through payroll deductions.

Eligibility - Employees of the Company who have completed twelve months of eligible service and have attained 21 years of age are eligible to participate in the Plan. The entry date is the first day of the first and seventh month of the plan year following the date eligibility requirements have been met.

CAPRIS FURNITURE INDUSTRIES, INC.
EMPLOYEE STOCK OWNERSHIP AND SAVINGS PLAN
Ocala, Florida
NOTES TO FINANCIAL STATEMENTS
December 31, 2009

NOTE A - DESCRIPTION OF PLAN (continued)

Put Option - Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each of these eligible participants over a six-year period. In each of the first five years, a participant may diversify up to 25% of the value of the participant's account balance, attributable to Company stock, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review - Subsequent events were evaluated through October 4, 2010, which is the date the financial statements were available to be issued.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

The common shares of the Company are valued at estimated fair value. See Note C for a discussion of fair value measurements.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on a settlement date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Operating Expenses - Expenses of the Plan are paid by the Company and participants. Participants paid $15,126 of expense which is included in the amount of gain reported on registered investments. These expenses do not include indirect fees charged by mutual funds and other service providers.

NOTE C - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements - The fair value of mutual funds is determined by Nationwide Financial Services, Inc.'s unit value formula.

Level 3 Fair Value Measurements - The fair value of Capris Furniture Industries, Inc. common stock is based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of company assets and liabilities.

The fair value of participant loans is the amortized cost, which approximates fair value.
