Independent Auditors' Report

We were engaged to audit the financial statements and supplemental schedule of the Ledwell & Son Enterprises, Inc. 401(k) Plan and Trust as of December 31, 2009 and 2008, and for the year ended December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by Frontier Trust Company, the Trustee of the Plan, except for comparing such information with the related information included in the 2009 and 2008 financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of and for the years ended December 31, 2009 and 2008 and for the period ended December 31, 2009, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplementary information taken as a whole. The form and content of the information included in the financial statements and supplementary information, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets Held for Investment Purposes as of December 31, 2009, is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

LEDWELL & SON ENTERPRISES, INC. 401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

1. Description of Plan

Effective April 1, 1995, Ledwell & Son Enterprises, Inc. (the "Company") established the Ledwell & Son Enterprises, Inc. 401(k) Plan and Trust (the "Plan"). The following description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General. The Plan is a profit sharing plan covering substantially all of the employees of the Company. Employees are eligible to participate in the Plan once they have attained the age of twenty-one and have completed one year of service. The Plan provides for normal retirement, disability retirement and death benefits, and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended, ("ERISA").

(b) Contributions. Each year, participants may elect to defer 100% of pretax annual compensation, as defined in the Plan document. Participants may change their contribution percentage on the anniversary date of the Plan and on the first day of the seventh month of the Plan year. The Company may match the first 6% of base compensation that a participant contributes to the Plan annually. Employer matching contributions will only be made on employee contributions not withdrawn prior to the end of the Plan year. The Company may make an additional discretionary contribution which is allocated to each eligible employee using a cross tested formula, which is unrelated to any employee contributions. Contributions are subject to certain limitations.

(c) Participant's Account. Each participant's account is credited with the participant's contribution and an allocation of (1) the Company's contribution, (2) Plan earnings or losses, and (3) forfeitures of terminated participants' non-vested accounts and charged with an allocation of administrative expenses. Allocations are based on participants earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting. Participants are fully vested in their voluntary contributions, plus actual earnings or losses thereon. Vesting in the employer's matching and discretionary contribution portion of their account plus actual earnings or losses thereon is based on years of continuous service. A participant is 100% vested in the employer profit sharing and matching contributions after six years of credited service.

(e) Payment of Benefits. If employees terminate before rendering six years of service, they forfeit the right to receive some or all of the benefits they have accumulated based upon their percentage of vesting at the date of termination. Employees may elect to receive the current value of their accumulated benefits as a lump-sum distribution upon retirement or early termination, or they may elect to receive cash payments in annual or more frequent installments, over the life of the employee or beneficiary.

(f) Forfeited Accounts. Forfeitures by non-vested participants are used to reduce future company contributions. Forfeited amounts at December 31, 2009 and 2008 were not material to the financial statements.

1. Description of Plan (Continued)

(g) Administrative Expenses. The majority of the administrative expenses of the Plan are paid from the Plan assets.

(h) Loans. Participant loans are carried at amortized cost. Participants may apply for loans from their vested balances in the Plan. The amount the Plan may loan is limited by rules under the Internal Revenue Code (IRC). Loans are limited to 50% of the participant's vested balance, up to a maximum of $50,000, with a minimum of $1,000. Loans generally have terms of one to five years. The Plan Administrator will determine a reasonable interest rate by reviewing interest rates charged for similar types of loans by other lenders.

2. Significant Accounting Policies

(a) Basis of Accounting. The financial statements of the Plan are prepared on the accrual basis of accounting. Certain prior period amounts have been reclassified to conform to the current period's presentation.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

(b) Investment Valuation and Income Recognition. The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(c) Payment of Benefits. Benefits are recorded when paid.

(d) Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and change therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(e) Subsequent Events. The Plan has evaluated subsequent events through July 23, 2010, the date the financial statements were available to be issued.

3. Investments

The fair market value of individual investments that represent 5% or more of the Plan's net assets are as follows:

* The fair value of the Plan's investment in the Regions Stable Principal Fund was $2,470,853 and $2,327,720 at December 31, 2009 and 2008, respectively.

4. Information Certified by the Trustee

All investment information, except participant loans, disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2009 and 2008 and net change in fair value of mutual funds and net change in contract value of common collective trust for the year ended December 31, 2009, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Plan's trustee.

5. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. FASB ASC 820 established a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

- Level 1 – Quoted prices in active markets for identical assets or liabilities.
- Level 2 – Observable inputs other than the quoted prices included in level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The asset of liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

- *Mutual funds* – Measured at quoted market prices for identical securities in an active market.

5. Fair Value Measurements (Continued)

- *Stable value funds* – Measured based on the fair value of the fund's underlying investments reported by the investment advisor in the audited financial statements of the fund at year-end.

- *Participant loans* – Measured at their outstanding balance, including any accrued but unpaid interest, which approximates fair value.

The fair values of investments as of December 31, 2009 and 2008 are summarized in the tables below:

	Assets at Fair Value as of December 31, 2009

6. Investment in Regions Stable Principal Fund

The Plan invests in a benefit-responsive common collective trust fund, the Regions Stable Principal Fund, which distributes income in the form of units and provides a constant unit redemption value. The Regions Stable Principal Fund invests in a variety of investment contracts such as traditional guaranteed investment contracts (GICs) and synthetic GICs issued by insurance companies and other financial institutions and other investment products such as stable asset funds, all with similar characteristics.

Because the common collective trust fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The common collective trust fund is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Regions, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the common collective trust fund at December 31, 2009 and 2008 was $2,470,853 and $2,327,720, respectively. The crediting interest rate of the associated guaranteed investment contracts are based on a formula agreed upon by the issuer. Such interest rates are reviewed for resetting. The crediting interest rates were 4.05% and 4.32% for 2009 and 2008, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that causes a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

8. Tax Status

The Plan is based on the Prototype Defined Contribution Plan and Trust Plan Document of Regions Bank which received a determination letter from the Internal Revenue Service dated June 28, 2002, stating that the Prototype Plan was designed in accordance with the provisions of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements. Tax periods for all fiscal years after 2006 remain open to examination by the federal and taxing jurisdictions to which the Plan is subject.

9. Related-Party Transactions

Certain Plan investments are shares of mutual funds managed by Regions Bank, the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions.
