NOTE 1 - PLAN DESCRIPTION

The Sloan Valve Company Savings and Investment Plan ("the Plan") is a contributory defined contribution plan established by Sloan Valve Company ("the Company") to provide a savings and investment plan for the benefit of substantially all employees. The following description of the Plan provides only general information; participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Administration: In accordance with the plan agreement, the Plan is administered by a committee appointed by the Board of Directors of the Company. Principal Life Insurance Company and Delaware Charter Guarantee & Trust Company, conducting business under the trade name Principal Trust Company, a member of the Principal Financial Group ("the Custodians"), hold Plan assets in pooled separate, general fund, and mutual fund accounts. Bankers Trust Company is the trustee of the Plan.

Participation: Employees of the Company are eligible to participate in the Plan upon completing one year of eligible service as defined in the plan agreement and attaining the age of 21.

Contribution Policy: Participants may elect to make basic participant contributions of not less than 1% or more than 40% of a participant's total compensation. The Company is required by the plan agreement to match 20% of a participant's contribution up to a maximum of 5% of a participant's total compensation, subject to the maximum contribution permitted under the applicable section of the Internal Revenue Code.

Additionally, the Company may make a discretionary contribution in such amount as the Company's Board of Directors may determine. For the year ended December 31, 2009, no such contributions have been made.

Participant Accounts: Each participant's account is credited with the participant's contributions, the Company's contributions, and an allocation of plan earnings.

Vesting: Contributions made by participants and the Company's matching contributions are always fully vested and nonforfeitable. All amounts are fully participant directed.

Participant Loans: Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans bear interest at a rate determined under the provisions of the Plan, and each participant loan is considered an investment of that participant's account. Accordingly, principal and interest payments are credited to the respective participant's account. The interest rate on outstanding loan balances range from 4.25% to 9.25%.

Withdrawals: The Plan allows participants to withdraw amounts for reason of financial hardship and after attaining the age of 59½. Except for reasons of hardship and withdrawal at or after the age of 59½ or qualified loans as described above, participants may not elect withdrawals on their accounts until they terminate employment, at which time participants may elect to receive distributions as a lump-sum amount.

(Continued)

NOTE 1 - PLAN DESCRIPTION (Continued)

Investment Funds: The Plan offers the following investment fund alternatives from the custodians into which participants may direct their account balances:

- Guaranteed Interest Account – This fund invests in guaranteed insurance contracts where money earns a guaranteed interest rate for a five-year period. A charge may apply to early withdrawals or transfer of money from this account before the guarantee period ends.

- Mutual Funds – A variety of mutual fund options are provided under the Plan, managed by multiple registered investment companies.

- Pooled Separate Accounts – These are investments managed by Principal Life Insurance Company where each participating plan shares in a pooled fund on a participation unit basis. The participation unit value is adjusted periodically to reflect market value changes. The separate account invests in a variety of investment types including common stock, preferred stock, government bonds, and money market funds.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Payment of Benefits: Benefits are recorded when paid.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is defined as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Pooled separate accounts: The fair values of participation units held in pooled separate accounts other than those invested in commercial real estate, are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (level 2 inputs). With the exception of the Principal U.S. Property separate account, each of the pooled separate accounts invests in a single, open-ended mutual fund which is generally identified in the name of the pooled separate account, multiple securities, or other separate accounts. With the exception of the Principal U.S. Property separate account, each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit. Due to illiquidity of the underlying assets of the Principal U.S. Property separate account, which consists primarily of commercial real estate, Principal Financial Group (Principal) has imposed a freeze upon all withdrawals and loans from the Principal U.S. Property separate account other than distributions upon death or disability. The duration of the blackout period for such withdrawals is uncertain; however Principal has reported that the backlog of withdrawal requests will eventually be processed as funds become available, in accordance with the order in which the requests have been received. While the fair value of the Plan's interest in the Principal U.S. Property separate account has been determined based upon the net asset value of the Principal U.S. Property separate account, this fair value measurement is reported as including level 3 inputs because of the nature of the redemption restrictions.

Investment contracts: The fair values of investment contracts are estimated based upon the contract value, adjusted for contractual withdrawal charges upon contract liquidation. Such values are not materially different than the values that would be determined using a discounted cash flows method, as the interest rates are reset on a frequent basis to market rates of interest (level 3 inputs).

Participant loans: Participant loans are reported at their outstanding balances, as the fair value of the loans is not practicable to estimate due to restrictions placed on the transferability of the loans.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Contributions: Participant contributions and the matching company contributions are recognized during the period in which the related compensation is earned.

Expenses of the Plan: All expenses of the Plan are paid from the assets of the Plan, except to the extent paid by the Company. Expenses paid by the Plan in 2009 were $17,203.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates. Certain investments are particularly subject to change in the near term.

Risks and Uncertainties: The Plan provides for various investment options in several investment securities. Investment securities are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3 - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated May 9, 2002 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

During 2009, the Plan's custodians have certified that the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value as follows:

Pooled separate accounts	$ 2,227,908
Mutual funds	304,114
Unallocated investment contracts	(11,811)
Total net appreciation	$ 2,520,211

The Plan earned interest and dividend income of $84,127 during 2009.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain professional fees paid by the Plan to the Custodians in the amount of $17,203 during 2009 qualify as party-in-interest transactions. The Plan invests in guaranteed interest contracts and pooled separate contacts managed by the Principal Life Insurance Company, a custodian of the Plan. Accordingly, these investments qualify as party-in-interest investments. Participant loans of $1,076,796 and $1,129,801 at December 31, 2009 and 2008, respectively, also qualify as party-in-interest investments.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event the Plan is terminated, the Plan's assets will be distributed to participants or their beneficiaries in accordance with the Plan's provisions.

NOTE 7 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 7, 2010, which is the date the financial statements were available to be issued.
