Report of Independent Auditors

To the Plan Administrator and Participants of the
Nisivoccia LLP 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Nisivoccia LLP 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Nisivoccia LLP 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Nisivoccia LLP 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Nisivoccia LLP 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we—

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Nisivoccia LLP 401(k) Plan's internal controls. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Nisivoccia LLP 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

THE CJ GROUP
CPAs AND ADVISORS

Auditors' Responsibilities for the Audit of the Financial Statements (continued)

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule, including the Schedule H, Line 4i— Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of the Nisivoccia LLP 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1992, available to qualifying employees of Nisivoccia LLP (the "Company" or "Plan Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act ("ERISA") of 1974.

SECURE 2.0 Act

On December 23, 2022, Congress passed the Consolidated Appropriations Act of 2023, which included the Setting Every Community Up for Retirement Enhancement ("SECURE") 2.0 Act. The SECURE 2.0 Act contains over 90 new retirement provisions, with varying effective dates through 2033. Since the provisions of the SECURE 2.0 Act include both required and optional elements, applicable provisions will be evaluated and implemented in accordance with accompanying regulations and guidance prior to the deadline, December 31, 2026. Effective January 1, 2025, the Plan implemented increased catch-up limits for participants who attain ages 60 through 63 during the calendar year. The adoption of these provisions had no material effect on the Plan's 2025 financial statements.

Eligibility

Employees of the Company who are at least 21 years of age are eligible to participate in the Plan on the first day of the month following meeting the eligibility requirements. The Plan does not have a service requirement for plan participation.

Employees become eligible for non-elective employer contributions on the first day of the month coinciding with or next following the date they reach 1,000 hours of service and satisfy the age requirement. Employees must be employed on the last day of the plan year to receive a non-elective employer contribution for that year. An employee becomes eligible for employer matching contributions on the first day of the plan year in which the employee completes 1,000 hours of service.

Contributions

Participant Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined by the Plan, not to exceed limits as set by the Internal Revenue Service ("IRS"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans ("rollover"). Participants have the option of designating a portion of their elective deferral contributions as after-tax "Roth" contributions. Participants direct the investment of their contributions into various investment options offered by the Plan.

Contributions (continued)

Discretionary Profit-sharing Contributions
At the discretion of the Company, the Plan Sponsor may choose to make a discretionary profit-sharing contribution. For the year ended December 31, 2025, the Company authorized a discretionary profit-sharing contribution of $832,045. The contribution was remitted to the Plan after year-end and is included in employer contributions receivable on the statements of net assets available for benefits, net of $17,228 of forfeitures applied to reduce the contribution.

Employer Matching Contributions
At the discretion of the Company, the Plan Sponsor may choose to make an employer matching contribution equal to a uniform percentage of plan compensation. During the year ended December 31, 2025, the Company authorized no such employer matching contributions.

Contributions from plan participants and the associated matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Participant Accounts
Each participant's account is credited with the participant's contributions and Company's contributions. Plan earnings are allocated based on participant account balances. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participant accounts are valued daily to reflect income earned.

Investment Options
Participants direct both employee and employer contributions to be invested amongst various investment options as made available and determined by the plan administrator, which are more fully described in the Plan literature.

Vesting
Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's profit sharing and matching contribution portion of their accounts is based on years of continuous service. A participant vests in 20% increments annually after their second year of service, until 100% vested after six years of continuous service.

Notes Receivable from Participants
Participants may borrow from their fund accounts up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Participants may not have more than one loan outstanding at any time. The loans are secured by the balance in the participant's account. The interest rates for loans are established by the Plan Sponsor in a nondiscriminatory manner. The loans are repaid ratably through payroll deductions over a period of five years or less, unless such loan is for the purchase of a participant's primary residence.

1. Description of Plan (continued)

Payment of Benefits
Upon termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in the form of a lump sum payment. A participant may withdraw part of the vested interest in his or her account upon attainment of age 59 ½, subject to the Plan's provisions. For account balances less than $7,000, a single lump sum payment will be made automatically into an individual retirement account upon termination. The Plan also permits hardship distributions to participants that can demonstrate an immediate and heavy financial need.

Forfeited Accounts and Unallocated Accounts
The Plan allows for nonvested amounts forfeited by participants to be used to reduce the Company's matching contributions or to pay expenses associated with the operation and administration of the Plan. As of December 31, 2025 and 2024, forfeited nonvested accounts totaled $15,347 and $25,522, respectively. During the year ended December 31, 2025, participants forfeited $14,467 in previously contributed nonvested amounts. These amounts will be used to reduce future expenses incurred by the Plan or employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates
The preparation of financial statements in conformity with U.S. GAAP requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value, except for variable annuity contracts, which are reported at cash surrender value. Pooled separate accounts are stated at net asset value ("NAV") as determined by the insurance carrier at the end of the plan year; the NAV is used as a practical expedient to estimate fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies using information provided by the investment advisers, custodians, and insurance carriers. Refer to Note 4 for discussion of fair value measurements and to Note 6 for discussion of the Plan's variable annuity contracts.

2. Summary of Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain investment and administration fees are deducted directly from participants' investment returns. Transaction costs borne by the Plan are charged to the individual participant who initiated the transaction to which the charge relates by reducing the participant's account balance.

Reclassifications
The Plan's variable annuity contracts are measured at cash surrender value rather than fair value and, accordingly, are not classified within the fair value hierarchy. The December 31, 2024 fair value hierarchy disclosure has been conformed to the current-year presentation to exclude these contracts. The reclassification had no effect on previously reported net assets available for benefits or on the change in net assets available for benefits.

Subsequent Events
Subsequent events have been evaluated through the date of the report of independent auditors, which is the date these financial statements were available to be issued. Other than the matter disclosed in Note 11, there were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. Information Prepared and Certified by the Trustee and Custodian (unaudited)

The following information related to investments and activities related to these investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule was obtained by management and agreed to or derived from information certified as complete and accurate by Voya Retirement Insurance and Annuity Company ("Voya"), a custodian of the Plan:

As of December 31,	**2025**	2024
Money market funds	**$ 15,347**	$ 25,522
Pooled separate accounts	**34,616,985**	28,140,551
Guaranteed interest contract	**789,531**	698,973

For the Year Ended December 31,	**2025**
Investment income, net	**$ 5,240,160**
Interest and dividend income	**6,526**

The Plan's remaining investments, totaling $4,773,366 and $5,399,289 at December 31, 2025 and 2024, respectively, are held by Transamerica Life Insurance Company, Jackson National Life Insurance Company, Equitable Financial Life Insurance Company, National Financial Services, and Brighthouse Life Insurance Company and are not covered by the Voya certification. Those investments were subject to the auditing procedures applied in the audit of the financial statements.

4. Fair Value Measurements

The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB accounting guidance are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

4. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Cash (interest bearing): Valued at cost, which approximates fair value.

Money market fund: Valued at the daily closing price as reported by the fund. The money market fund held by the Plan is an open-end money market fund that is registered with the Securities and Exchange Commission. This fund is required to publish its daily NAV and to transact at that price. The money market fund held by the Plan is deemed to be actively traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission ("SEC"). These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Exchange traded funds: Valued at their latest sale price as reported by the fund. The exchange traded funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Valued at the NAV (or "unit value") of the units held by the Plan at year-end based on information reported by the custodian. The NAV is used as a practical expedient to estimate fair value. The NAV of each of the separate accounts is calculated in a manner consistent with the U.S. GAAP for investment companies and represents the price at which the Plan would be able to initiate a transaction. Several of the separate accounts invest in publicly quoted mutual funds or actively managed stocks. Some of the separate accounts also invest in fixed income securities. The fair value of the underlying mutual funds or stocks and of the underlying securities, which is based on quoted prices of similar assets, is used to determine the NAV of the separate account which is not publicly traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Municipal bonds: Valued at fair value determined by reference to quoted market prices and other relevant information generated by market transactions.

U.S. Treasury securities: Valued at fair value determined by reference to quoted market prices and other relevant information generated by market transactions.

Guaranteed interest contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations, considering credit-worthiness of the issuer.

Brokered certificates of deposit: Traded on a secondary market, which generally values these instruments by discounting the related cash flows based on current yields of similar instruments with comparable durations, as reported by the custodian.

4. Fair Value Measurements (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025:

	Level 1	Level 2	Level 3	Total
Cash (interest bearing)	**$ 6,737**	**$ -**	**$ -**	**$ 6,737**
Money market fund	**27,744**	**-**	**-**	**27,744**

Investments measured at NAV (a)				**34,616,985**
Total investments, at fair value				**$ 36,369,588**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

	Level 1	Level 2	Level 3	Total
Cash (interest bearing)	$ 102,072	$ -	$ -	$ 102,072
Money market fund	30,382	-	-	30,382
Mutual funds	551,696	-	-	551,696

Total assets in fair value hierarchy	$ 1,939,782	$ 769,557	$ -	$ 2,709,339
Investments measured at NAV (a)				28,140,551
Total investments, at fair value				$ 30,849,890

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amount presented in the table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

4. Fair Value Measurements (continued)

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

As of December 31, 2025:

Investment	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled separate accounts	$34,616,985	N/A	Daily	12 months

As of December 31, 2024:

Investment	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled separate accounts	$28,140,551	N/A	Daily	12 months

5. Guaranteed Interest Contract with Voya Retirement Insurance and Annuity Company

The Plan holds a guaranteed interest contract issued by Voya. Voya maintains Plan contributions in a pooled unallocated account within its general account. The account is credited with interest at a rate of 1.00% and is charged for Plan withdrawals and for administrative expenses charged by Voya. The contract has no stated maturity date.

The contract is reported at fair value rather than contract value because it is not fully benefit-responsive. While the contract provides for payment at contract value upon a participant benefit event such as termination, disability, retirement, or death, amounts withdrawn at the direction of the Plan prior to maturity are subject to a market value adjustment. Because the Plan does not have unrestricted access to the contract at contract value, the contract does not meet the definition of a fully benefit-responsive investment contract.

The contract is a general account obligation of Voya, and the Plan's ability to realize the recorded amount is dependent on Voya's financial condition.

6. Variable Annuity Contracts

The Plan holds deferred variable annuity contracts issued by Transamerica Life Insurance Company, Jackson National Life Insurance Company, Equitable Financial Life Insurance Company, and Brighthouse Life Insurance Company. The Plan is the owner of each contract, and selected participants are named as annuitants. Each contract is allocated to the account of the related participants named as annuitants.

6. Variable Annuity Contracts (continued)

The contracts are reported at cash surrender value, which represents the amount determined by the issuing carrier as realizable upon surrender as of the reporting date, net of any applicable surrender charges. In accordance with ASC 962-325-35-6, plan investments in insurance contracts are presented in the same manner as in the annual report filed under ERISA; the Plan reports these contracts at amounts determined by the insurance carriers. Cash surrender value is not a fair value measurement and, accordingly, these contracts are not classified within the fair value hierarchy presented in Note 4. Cash surrender value totaled $3,825,641 and $3,414,445 at December 31, 2025 and 2024, respectively.

Certain of the contracts include optional guaranteed benefit riders for which the Plan pays additional contract charges. These include a guaranteed minimum income benefit, which provides a guaranteed minimum level of annuity income if the contract is annuitized after a specified waiting period, and an enhanced death benefit, which provides a minimum death benefit payable upon the death of the annuitant. The benefit bases under these riders increase at a contractual annual rate and are subject to periodic optional step-ups.

At December 31, 2025, the aggregate enhanced death benefit payable under the contracts was $4,159,576, exceeding the aggregate cash surrender value by $333,935. Upon the death of an annuitant, the death benefit is payable to the Plan and is allocated to that participant's account for distribution to the designated beneficiary in accordance with the Plan's provisions. No amount has been recognized in the accompanying financial statements for the excess of the guaranteed death benefit over cash surrender value. The guaranteed minimum income benefit does not represent an amount payable to the Plan and is not reflected in the accompanying financial statements.

The contracts are obligations of the issuing carriers, and the Plan's ability to realize the recorded amounts and the guaranteed benefits is dependent on the financial condition of those carriers.

7. Related-Party and Party-in-Interest Transactions

Voya Retirement Insurance and Annuity Company ("Voya") is the custodian and recordkeeper of the Plan and is therefore a party-in-interest as defined by ERISA. At December 31, 2025 and 2024, the Plan held investments issued or managed by Voya consisting of pooled separate accounts, a guaranteed interest contract, and a money market fund. Transactions in these investments qualify as party-in-interest transactions and are exempt from the prohibited transaction provisions of ERISA.

Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. The Plan also made direct payments to the custodian and third-party administrator totaling $7,828. These costs incurred by the Plan are included in administrative expense on the statement of changes in net assets available for benefits. The Plan Sponsor pays directly any other fees related to the Plan’s operations.

8. Income Tax Status

The Plan is a pre-approved plan document that received a favorable opinion letter from the Internal Revenue Service dated June 30, 2020, stating that the form of the plan document is designed in accordance with the applicable sections of the IRC. Adopting employers are entitled to rely on that opinion letter as provided in Revenue Procedure 2017-41.

8. Income Tax Status (continued)

Although the Plan has been amended since that letter was issued, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt. Accordingly, no provision for federal income taxes has been made in the accompanying financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2022.

9. Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

10. Risks and Uncertainties

The Plan invests in a variety of investments. Investments in general are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such change could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

11. Subsequent Events

Effective January 1, 2026, in accordance with the SECURE 2.0 Act, catch-up contributions made by participants whose Social Security wages from the Plan Sponsor for the preceding calendar year exceeded $150,000 must be designated as Roth contributions. The Plan Sponsor has implemented the required change with the Plan's recordkeeper effective January 1, 2026 and intends to adopt a conforming plan amendment within the remedial amendment period.
