Independent Auditors' Report

We were engaged to audit the financial statements and supplemental schedule of Parma Community General Hospital - The Greater Cleveland Hospital Association Retirement Plan (Plan) as of December 31, 2009 and 2008 and for the years then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 and 29 CFR 2520.103-12 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as of December 31, 2009 and 2008 and for the years then ended, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian of The Greater Cleveland Hospital Association Amended and Restated Retirement Plan Trust (Trust) holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2009 and 2008 and for the years then ended, that the information provided to the plan administrator by the custodian is complete and accurate. The plan administrator has been informed by the trustee of the Trust that the Trust reported directly to the Department of Labor on behalf of the plan administrator by the date on which the Plan's annual report was due as of and for the years ended December 31, 2009 and 2008.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Age	Percent Retiring
55-57	5%
58-59	3
60-61	5
62	30
63-64	10
65	70
66-69	50
70 or older	100

An actuarially increased benefit is valued at post-65 retirement ages.

Compensation Increases

For purposes of determining Target Normal Cost, compensation is assumed to increase at a rate of 3.50% per year, compounded annually.

Future Increases in Social Security

For purposes of determining Target Normal Cost, the National Average Wage Index is assumed to increase by 3.25% per annum.

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC Section 415. Plan compensation is limited to the maximum presently allowed under IRC Section 401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Calculation of Lump Sum

90% of the eligible participants are assumed to elect a lump sum form of payment under the plan when eligible. Lump sums are valued using the substitution of annuity form under Proposed IRC §1.430(d)-1(f)(4).

Employees

It is assumed that there will be no new or rehired employees.

Plan Compensation

Compensation assumed paid in the current year beginning on the valuation date is the W-2 pay reported for the prior calendar year, annualized if compensated hours are less than 1,800, and increased in accordance with the compensation increase assumptions.

Asset Method

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date. The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 6.43%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.50%, and the applicable limitation for the plan year, equal to 6.43%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 6.09%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.50%, and the applicable limitation for the plan year, equal to 6.09%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.4. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

For purposes of determining the PBGC Premium Funding Target, the Alternative Premium Funding Target is determined using the assumptions described above.

Nature of Actuarial Calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply a level of precision beyond that which is inherent in actuarial calculations.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

Plan

The Greater Cleveland Hospital Association Retirement Plan

Effective Date and Most Recent Amendment

July 1, 1984. Most recently amended effective April 1, 2008.

Plan Year

January 1 to December 31.

Participation

Age 21 and one year of service. Participants who have 60 points (age and service) or 15 years of service as of April 1, 2008 will continue to accrue benefits under this Plan. Accruals for other participants were suspended as of that date. The plan is closed to future new hires.

Credited Service

One year is credited for each calendar year in which a participant's actual hours (compensated plus noncompensated) are 1,000 or more.

Benefit Service

Determined according to the following schedule based on Compensated Hours of Service in a calendar year:

Compensated Hours	Benefit Service
1,800 or more	100%
1,640 – 1,799	90
1,480 – 1,639	80
1,320 – 1,479	70
1,160 – 1,319	60
1,000 – 1,159	50
0 – 999	0

Average Monthly Compensation

The sum of a participant's compensation (annualized if participant's compensated hours in any calendar year is less than 1,800) during the five highest consecutive completed calendar years out of the last ten years prior to the date of termination, divided by 60.

Compensated Hours

Hours of Service for which a participant was compensated.

Non-compensated Hours

Hours of Service for which a participant was scheduled to work, but did not and was not compensated.

Normal Retirement Benefit

Normal Retirement Date: The first day of the month coincident with or next following attainment of age 65 or 5th anniversary of participation, if later.

Benefit Formula: The Greater of (i), (ii), or (iii):

- (i) 1.20% of Average Monthly Compensation plus 0.65% of Average Monthly Compensation in excess of Social Security Covered Compensation for each year of Benefit Service up to a maximum of 25 years.
- (ii) \$8.00 per month for each year of Benefit Service up to a maximum of 25 years.
- (iii) Accrued benefit under the plan provisions in effect as of June 30, 1989.

Normal Form of Benefit: The normal form of payment is a monthly life annuity. However, a married participant shall normally receive an actuarially reduced 50% Joint and Survivor form with a 50% continuation after the participant's death to his or her spouse, if surviving.

Accrued Benefit

The Normal Retirement Benefit multiplied by the Credited Service Ratio. In determining the Normal Retirement Benefit, Benefit Service is computed as the sum of:

- (i) Benefit Service at determination date; and
- (ii) The ratio of (i) to elapsed time from date of plan entry to the determination date, multiplied by number of years from the date of determination to Normal Retirement Date.

Early Retirement Benefit

Eligibility: The first day of any month following the attainment of age 55 and the completion of 5 years of Credited Service.

Benefit: The Accrued Benefit reduced actuarially for commencement prior to age 65 in accordance with the following:

Age	Early Retirement Factor
65	1.000
64	0.894
63	0.800

Disability Benefit

Eligibility: Any age with 10 years of Credited Service upon total and permanent disability.

Benefit: The Accrued Benefit commencing without reduction on the first of the month following five months of disability.

Vested Benefits Upon Termination of Service

Vesting: Any age with 5 years of Credited Service.

Termination Benefit: Same as early retirement benefit above.

Death Benefits for Participants in Active Service

Eligibility: Any participant eligible for a vested retirement benefit who has been married for at least one year.

Benefit: 50% of the participant's Accrued Benefit reduced for both 50% Joint and Survivor form and early receipt and payable at the participant's earliest retirement age.

Optional Forms of Retirement Income in Lieu of Normal Form

A participant may elect one of the following forms of payment of equivalent value:

- 60 months certain and life option.
- 120 months certain and life option.
- Joint and 50%, 66-2/3%, 75% or 100% to contingent annuitant option.
- Lump Sum equal to the actuarial present value of the Normal Retirement Benefit available to participants who terminate after age 55 with ten years of Credited Service.

Social Security Covered Compensation

The average of the maximum taxable wage bases for the 35 calendar years ending with the year an individual attains Social Security Retirement Age. In determining an individual's Covered Compensation in any given year, the current year's wage base is assumed to remain level in future years.

Schedule SB, Line 25 Change in Method

This valuation is based on full yield curve for the month of October. Results for the 2008 plan year were also based on the full yield curve, but used the month of December for determining the interest rate. For 2009, a change in the timing of selecting the interest rate does not require IRS approval.

The 2009 funding results reflect a smoothed asset value based on the annual asset values as of the current and two prior valuation dates. This method was adopted effective January 1, 2009 pursuant to IRS Notice 2009-22 which grants automatic approval for this change.

As required by WRERA, the Target Normal Cost includes expenses assumed to be paid from the plan during 2009.

The valuation software used to produce the actuarial information submitted on this schedule has been refined to reflect evolving understanding of PPA requirements, and such modifications may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following brief description of Parma Community General Hospital - The Greater Cleveland Hospital Association Retirement Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

A. General

The Plan is a defined benefit pension plan, covering essentially all employees of the participating institution who have one year of service and are age twenty-one or older, except for certain members of religious organizations, students, interns, and residents. Effective April 1, 2008, participation in the plan was frozen to new employees. Participants in the plan hired prior to April 1, 2008 will continue to accrue benefits in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Participants become 100% vested in their pension benefits after completing five years of credited service.

B. Pension Benefits

Participants are eligible for normal retirement benefit payments upon reaching age 65. The amount of individual pensions is based upon several factors including compensation, years of service, age, and the estimated Social Security benefit. Compensation is based upon the average of the highest five consecutive calendar years of employment out of the last ten years prior to the date of termination. The Plan also provides for the payment of early and disability retirement benefits, as well as the payment of benefits to the surviving spouse of a participant.

Note 2. Summary of Significant Accounting Policies

A. Basis of Presentation – The accompanying financial statements have been prepared on an accrual basis and in accordance with accounting principles generally accepted in the United States of America.

B. Plan Administration – Parma Community General Hospital (Parma) is the plan administrator and Northern Trust Company is plan trustee.

Investment assets of the Plan attributable to Parma are pooled with the investment assets of other employers in the Greater Cleveland Hospital Association Amended and Restated Retirement Plan Trust (Trust). The Northern Trust Company is the custodian for the Plan and the Trustee. Transactions in investment assets are made at the direction of the Trust's custodian and Parma. The investments and changes therein of the investment accounts have been reported to the Plan and Trust by the custodian as having been determined through the use of fair values for all assets of the accounts, as measured by quoted values in an active market. Purchases and sales of securities are recorded on a trade-date basis.

C. Funding Policy – Parma Community General Hospital, the Plan's sponsor, has agreed to make contributions to the Plan based upon actuarial computations. The contributions for the years ended December 31, 2009 and 2008 met the minimum funding requirements for ERISA.

PARMA COMMUNITY GENERAL HOSPITAL -
THE GREATER CLEVELAND HOSPITAL
ASSOCIATION RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 2. Summary of Significant Accounting Policies (Continued)

- D. Investments – Valuation and Income Recognition – The Northern Trust Company, custodian of the Plan, manages all funds and has been granted non-discretionary authority concerning purchases and sales of investments in the funds. The investments, investment income, and net (depreciation) appreciation in fair value of investments of these funds (as disclosed in the accompanying financial statements) have been reported to the Plan by the custodian as having been determined at their fair values as of the close of business on December 31, 2009 and 2008.
- E. Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.
- F. Payment of Benefits – Benefit payments to participants are recorded upon distribution.

Note 3. Unaudited Information

Under the terms of the agreements between the Plan, the Trust, and the custodian, the assets of all employers participating in the Trust are pooled for investment purposes. The allocation of assets to the individual sponsors participating in the Trust is determined by the custodian according to a defined methodology. The related earnings from these investments are allocated specifically to the Plan. The custodian holds the following Trust investment assets and executes transactions therein. Financial information relating to the Plan's share of the pooled investment assets is included in the accompanying financial statements and supplemental schedule based on information provided by the custodian. As permitted by 29 CFR 2520.103-12, the plan administrator has been informed by the trustee of the Trust that the Trust will report directly to the U.S. Department of Labor on behalf of the plan administrator no later than the date on which the Plan's annual report is due as of and for the year ended June 30, 2009. Therefore, the Plan's investment in the Trust has not been audited by independent accountants. The Trust's assets (modified cash basis) are summarized below as of December 31, 2009 and 2008:

Net investment gain (loss) in the Trust during the years ended December 31, 2009 and 2008 includes the following:

	<u>2009</u>	<u>2008</u>
Net appreciation (depreciation) in fair value of investments:		
Common stock	\$ 14,698,438	\$ (10,519,587)

Interest and dividends	<u>\$ 628,838</u>	<u>\$ 645,970</u>

Note 4. Fair Value Measurements

The Financial Accounting Standards Board established a framework for measuring fair value and expands disclosures about fair value measurements by establishing a fair value hierarchy that prioritizes the inputs and defines valuation techniques used to measure fair value. The hierarchy gives highest priority to Level 1 inputs and lowest priority to Level III inputs. The three levels of the fair value hierarchy are described below:

Level 1 – Uses unadjusted quoted prices that are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 – Uses inputs other than Level 1 that are either directly or indirectly observable as of the reporting date through correlation with market data, including quoted prices for similar assets or liabilities in active markets and quoted prices in markets that are not active. Level 2 also includes assets and liabilities that are valued using models or other pricing methodologies that do not require significant judgment since the input assumptions used in the models, such as interest rates and volatility factors, are corroborated by readily observable data.

Level 3 – Uses inputs that are unobservable and are supported by little or no market activity and reflect the use of significant management judgment. These values are generally determined using pricing models and market assumptions.

PARMA COMMUNITY GENERAL HOSPITAL -
THE GREATER CLEVELAND HOSPITAL
ASSOCIATION RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Reference Note 2 for a description of the valuation methodologies used for assets of the Plan measured at fair value at December 31, 2009 and 2008. The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2009 and 2008:

Assets at Fair Value as of December 31, 2009

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions for service rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits under the plan are based on employees' compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the actuary, Watson Wyatt, at January 1, 2009, see Note 7 – Party-In-Interest Transactions. The present value amount is determined by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as death, disability, withdrawal, or retirements) between the valuation date and the expected date of payment.

Actuarial Assumptions

Significant assumptions used by the actuary in determining the actuarial present value of accumulated plan benefits as of January 1, 2009 are as follows:

Actuarial Cost Method	Unit Credit Actuary Cost Method
Discount Rate	8.5%, 8.0% for determining lump-sum amounts
Mortality Rate	RP-2000 Mortality Tables for Males and Females
Average Retirement Age	65
Investment Return Percentage	8.10%

Distributions are assumed to be paid in a lump-sum to participants who retire from active status. For participants who retire from terminated vested status, half are assumed to elect a lump-sum and half are assumed to elect an annuity.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Actuarial Assumptions (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of January 1, 2009 and 2008 is as follows:

Accumulated Plan Benefits	<u>2009</u>	<u>2008</u>
Vested benefits:		
Participants currently receiving payments	\$ 4,299,000	\$ 3,318,000
Other participants	<u>36,287,000</u>	<u>33,744,000</u>
	40,586,000	37,062,000
Nonvested benefits	<u>1,618,000</u>	<u>3,068,000</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 42,204,000</u>	<u>\$ 40,130,000</u>

Changes in accumulated plan benefits for the year ended December 31, 2009 are as follows:

Changes in Accumulated Plan Benefits	For the Year Ended January 1, 2009
Actuarial present value of accumulated plan benefits at beginning of year	\$ 40,130,000
Increase (decrease) during the year attributable to:	
Benefits accumulated	3,102,000
Actuarial losses	957,000
Decrease in the discount period	3,618,000
Actual benefits paid	(1,333,000)
Plan amendment	(980,000)
Change of assumptions	<u>(3,290,000)</u>
Net Increase	<u>2,074,000</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 42,204,000</u>

The changes in actuarial assumptions relate to the following:

- The valuation is based on full yield curve for the month of October. Results for the 2008 plan year were also based on the full yield curve, but used the month of December for determining the interest rate. For 2009, a change in the timing of selecting the interest rate does not require IRS approval.
- The 2009 funding results reflect a smoothed asset value based on the annual asset values as of the current and two prior valuation dates. This method was adopted effective January 1, 2009 pursuant to IRS Notice 2009-22 which grants automatic approval for this change.
- As required by WRERA, the Target Normal Cost includes expenses assumed to be paid from the plan during 2009.
- The compensation increase assumption was changed from an age-graded schedule to 3.50%, per year, for all ages.
- The annual increase in the Social Security national average wage index assumption was changed from 4.00% to 3.25%.
- For the PBGC premium Funding Target, the method was changed from the Standard in 2008 to the Alternative in 2009.
- For SFAS 35, there was a change in the lump sum interest discount rate from 6.30% to 8.00%, which is the current plan year PPA effective interest rate minus 10 basis points.

Note 6. Income Taxes

The Internal Revenue Service has determined and informed the Plan by a letter dated February 11, 2009 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7. Related Party Transactions

Certain plan investments are managed by The Northern Trust Company. As The Northern Trust Company is the trustee and custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions. In addition, the Plan appointed Watson Wyatt to serve as the actuary and investment manager and CHAMPS Management Services Retirement Resource Center to serve as the third party administrator of the Plan. The Plan also incurs plan expenses, which are all paid by the Trust.

Note 8. Plan Termination

Although it has not expressed any intention to do so, the Plan's sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- A. Annuity benefits former employees or their surviving spouses have been receiving for at least three years or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding Plan termination.
- B. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. Government agency, up to the applicable limitations that are discussed more fully below.
- C. All other vested benefits (that is, vested benefits not insured by the PBGC).
- D. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination; however, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination, whichever comes later. For younger annuitants or for those who elect to receive their benefits in some form other than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by, and the financial condition of, the PBGC.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 10. Evaluation of Subsequent Events

The Plan has evaluated subsequent events and transactions for potential recognition and presentation through the date the financial statements were available to be issued, September 23, 2010.
