Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Cooperative Pension/Savings Board
Cooperative Pension Plan No. 336
Indianapolis, Indiana

We were engaged to audit the accompanying statements of net assets available for benefits (modified cash basis) of Cooperative Pension Plan No. 336 as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended and the accompanying supplemental schedules. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, auditing procedures with respect to the information summarized in Note 6, which was certified by Russell Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the Plan Administrator by the trustee is complete and accurate.

As described in Note 2, these financial statements and supplemental schedules were prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements Modified Cash Basis December 31, 2009 and 2008

Note 1: Description of Plan

The following brief description of Cooperative Pension Plan No. 336 (Plan) is provided for general information purposes only. Additional information about the vesting and benefit provisions and the Pension Benefit Guarantee Corporation's (PBGC) benefit guarantee is contained in the Plan Document and *Summary Plan Description*, which are available from the Plan Administrator.

General

The Plan is a defined-benefit pension plan sponsored by the Cooperative Pension/Savings Board (Sponsor) for the benefit of the employees of Countrymark (Company) who are 21 years of age or older and have completed one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Russell Trust Company is the trustee for the Plan.

The Plan is a cash balance plan, whereby an individual account is maintained for each participant. Participants' accounts were credited monthly with regular credits, interest credits and, if applicable, supplemental credits. Interest credits are determined based on certain published rates.

Regular credits were based on the completed years of service as of the beginning of each calendar year and are determined as follows:

Years of Service	Percentage of Compensation
Less than 5	3%
5, but less than 10	4
10, but less than 15	5
15, but less than 20	6
20, but less than 25	7
25, but less than 30	8
30 or more	9

Effective October 1, 2002, benefit accruals under the Plan were frozen.

Benefits

Employees with three or more years of service are entitled to annual pension benefits beginning at normal retirement age (65). If a participant's severance from employment is before January 1, 2008, then full vesting is achieved with five years or more of service. Benefit amounts are calculated using one of the formulas described in the Plan Document, depending on which formula the employer has selected. The Plan permits early retirement beginning at age 55. Employees may receive their pension benefits in the form of a joint and survivor annuity. Employees may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement or termination, or may elect to receive their benefits as a life annuity payable monthly upon retirement. Death and disability benefits are also provided for under the Plan.

Subsequent Events

Subsequent events have been evaluated through October 8, 2010, which is the date the financial statements were available to be issued.

Note 2: Summary of Significant Accounting Policies

Method of Accounting

The Plan maintains its accounts on the basis of modified cash receipts and disbursements, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Consequently, certain revenue such as employer contributions and interest income and the related assets are recognized when received rather than when earned, and certain expenses such as administrative expenses are recognized when paid rather than when the obligation is incurred. The Plan records unrealized appreciation (depreciation) on its investments. As the Plan records purchases and sales on a trade-date basis, the Plan may reflect a receivable or payable related to the amount due from or to their broker when the trade is settled.

Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investments

Investments are valued at estimated fair value as determined by the Plan trustee. Purchases and sales of securities are recorded on a trade-date basis.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan will pay certain expenses of administering the Plan. To the extent that the administrative costs are not paid by the Plan, they will be paid by the participating employers.

December 31, 2009 and 2008

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' average compensation during their employment. The accumulated plan benefits for active employees are based on years of service to the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided by annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. It is at least reasonably possible that the actuarial assumptions used to calculate accumulated plan benefits will change in the near term, and that the effect of such change could be significant. The significant actuarial assumptions used in the valuation were:

Interest rate	8.5%
Mortality basis	1996 Basic GAM Table
Retirement age	55 to 65
Asset valuation	Market adjusted from 20% to 80% for additional returns from 2005 to 2008

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Reclassifications

Certain reclassifications have been made to the 2008 financial statements to conform to the 2009 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

Note 3: Funding Policy

The Company's funding policy is to make annual contributions to the Plan in amounts estimated such that all employees' benefits will be fully provided by the time they retire. The Company's contribution to the Plan for 2009 and 2008 was eliminated due to the application of the Plan's existing credit balance. The Plan made a discretionary contribution of \$1,000,000 and \$750,000 in 2009 and 2008, respectively.

Note 5: Plan Termination

The Sponsor anticipates that the Plan will continue without interruption, but reserves the right to discontinue the Plan. In the event the Plan terminates, the net assets of the Plan will be available in accordance with statutory allocations as prescribed by ERISA and its related regulations. The statutory allocations generally provide for benefits in a descending order of priority.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether, and to what extent, a particular participant's accumulated plan benefits will be paid, should the Plan terminate at some future time, will depend on both the priority of those benefits and the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

The individual cooperative in the Plan is entitled to recover any assets remaining after satisfaction of all claims against the Plan.

Note 6: Investments

The Plan's investments are held by a trust fund. The Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in fair value as follows:

	2009	
	Net Appreciation (Depreciation) in Fair Value During Year	Fair Value at End of Year
Commingled trust funds	\$ 3,014,475	\$ 16,339,545
Hedge funds	(52,792)	123,297

Hedge funds	(191,887)	336,389
	<u>\$ (7,282,981)</u>	<u>\$ 14,736,441</u>

The fair value of individual investments that represented 5% or more of the Plan's assets were as follows:

	2009	2008
Russell Trust Company commingled trust funds		
Fixed Income I Fund	\$ -	\$ 3,618,343
Long Duration Fixed Income Fund	4,198,128	-

The Plan's receivable resulting from due from broker for securities sold was \$118,334 and \$127,465 at December 31, 2009 and 2008, respectively.

Notes to Financial Statements Modified Cash Basis December 31, 2009 and 2008

Alternative Investments

Except as described below, the fair value of alternative investments (describe) has been estimated using the net asset value per share of the investments. Alternative investments held at December 31 consist of the following:

			2009		
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period	
Commingled trust fund (A)	\$ 643,514	\$ -	Quarterly	110 days	
Hedge fund (B)	123,297	-	Quarterly	N/A	

- (A) This category includes a real estate fund that invests primarily in real estate investment vehicles. These underlying fund net asset values are based on the values of the real estate assets as determined by appraisal considering projected income and expenses of the property as well as recent sales of similar properties. The fund is not required to liquidate or burden assets or defer investments in order to redeem units.
- (B) This category includes a hedge fund that pursues multiple strategies to diversify risks and reduce volatility. The fund has received redemption requests for 100% of the investor shares as of June 30, 2008. Redemptions are to be paid as cash becomes available from the sale of underlying portfolio holdings.

The Diversified Alternatives Fund is generally priced by the trustee on a one-month lag; therefore, the value certified by the trustee is approximately \$2,996 and \$15,472 more than the amount reflected in the statements of net assets available for benefits at December 31, 2009 and 2008.

Note 7: Fair Value of Plan Assets

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Cooperative Pension Plan No. 336

Notes to Financial Statements Modified Cash Basis December 31, 2009 and 2008

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. There are no Level 1 securities in the Plan. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include most commingled trust funds. Commingled trust funds are valued at the net asset value of shares held by the Plan at year end. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include a real estate commingled fund and a hedge fund. Level 3 investments are also valued at the net asset value of shares held by the Plan at year end.

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2009 and 2008:

	Fair Value	2009 Fair Value Measurements Using

Realized and unrealized gains and losses included in net increase (decrease) in net assets available for benefits are reported in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits.

Cooperative Pension Plan No. 336

Notes to Financial Statements Modified Cash Basis December 31, 2009 and 2008

Note 8: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, and an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan paid the following fees to parties-in-interest during 2009 and 2008:

Payee	Service	2009	2008
Russell Trust Company	Trust fees	\$ 68,875	\$ 95,853
Nyhart	Actuarial fees	31,692	30,624
Nyhart	Administration fees	26,364	25,476
Pension Benefit Guaranty Corp.	Premiums	65,539	12,969
Various	Administrative expenses	36,737	15,822
		<u>\$ 229,207</u>	<u>\$ 180,744</u>

The participating employer provides certain administrative services at no cost to the Plan.

Note 9: Tax Status

The Plan obtained its latest determination letter on February 13, 2008, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for year before 2006.

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits. Any significant changes would change the assumed rates of return used to discount the benefit obligation and therefore could significantly affect the present value of accumulated plan benefits.

Cooperative Pension Plan No. 336

Notes to Financial Statements

Modified Cash Basis

December 31, 2009 and 2008

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The current economic decline continues to present pension plans with difficult circumstances and challenges, which in some cases have resulted in large and unanticipated declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Cooperative Pension Plan

1. Employee Data Used in Valuation:

The valuation is based on computer disks and lists, provided by the employers, containing pertinent data on all persons who participated in the Plan (i.e., over age 21 with at least one year of service) during the year ending on the valuation date, whether in an active, terminated vested or retired status. Relevant data concerning such persons was provided and reasonable estimates were employed if any data was unavailable. Persons on temporary layoff subject to recall or on an approved leave of absence were treated as actively employed persons. Covered pay, the base from which future wages and salaries are projected, equals the greater of total plan compensation received during the calendar year preceding the valuation date and the pay rate for the current plan year.

2. Method of Valuation:

- a. Actuarial Values – The normal cost under the method is the sum of the individual normal costs for all active participants. An individual normal cost is the sum of the normal costs for the various benefits valued using the method. The normal cost for each benefit is the present value of the portion of the projected benefit at each expected separation date that is allocated to the current plan year.

For Plan 336, the accrued liability is calculated under the projected unit credit method and is the sum of the individual accrued liabilities for each participant. An individual's accrued liability is the sum of the accrued liabilities for various benefits valued using the method. The accrued liability for each benefit at each expected separation date is allocated to prior plan years.

The remainder of this description applies to all other plan participation.

For participants other than active participants, the projected benefit is the accrued benefit under the plan and is allocated to prior plan years. For active participants, the projected benefit related to a particular separation date is the benefit described under the plan's two benefit formulas but determined using the projected salary (and other assumptions as to future events) that would be used in the calculation of the benefit on the expected separation date. The plan has two benefit formulas; one that provides a benefit of 1% or 1.68% times credited service times final five average pay, and the other is a cash balance arrangement. Thus, the projected benefit at each separation date is the greater of the benefit determined under each of the benefit formulas with projections to such date. The unfunded liability equals the total accrued liability less the actuarial value of plan assets. All present values are determined as of the valuation date. If the plan is amended to increase benefits and a portion of such increase is attributable to prior years, then, although the entire benefit may accrue in the current year, the portion of the increases in benefits that is attributable to prior years is considered as accrued in prior plan years and thus is reflected in the accrued liability rather than the current year's normal cost.

- b. Actuarial Value of Assets – For the January 1, 2009 actuarial valuation, the market value is adjusted for the allowed averaging method over 24 months (under the Pension Protection Act of 2006). The Actuarial Value of Assets may not exceed 110% of the market value or be less than 90% of the market value.
- c. Target Liability – The liability measurement under Section 430 of the Internal Revenue Code as added by the Pension Protection Act of 2006 (PPA) is calculated under the unit credit method.

3. Actuarial Assumptions:

- a. Rate of Investment Return – The target liability under IRS § 430 for Plan 336 uses yield curve rates from the October 2008 Citigroup Pension Discount Curve (yielding an effective rate of 8.24%).
- b. Rate of Interest Credit on Cash Balances – 5.50% per annum, compounded annually.
- c. Rates of Mortality – The IRS 2009 Optional Combined Mortality Tables were used for the target liability under IRS § 430 for Plan 336.

4. Rate of Pay Increases:

Wage and salaries were assumed to increase by 4.5% per annum.

5. Rates of Retirement:

It is assumed that normal and early retirements will occur in accordance with the following rates:

<u>Age</u>	<u>Percentage of Eligible Participants at Indicated Age Assumed to Retire In the Next Year</u>
55	1.0%
56	1.1%
57	1.2%
58	1.3%
59	1.4%
60	6.5%
61	8.0%
62	14.1%
63	12.3%
64	11.8%
65	100.0%

The average age (to the nearest whole age) for early, normal, and postponed retirements that results from the application of the above rates is 63. The average is determined for employees who have not yet attained the earliest retirement age of 55, is unweighted (i.e., unrelated to benefit or cost amount) and reflects the other assumed decrements operative at those ages (i.e., disability and mortality).

**Cooperative Pension Plan
Plan Provisions Valued as of January 1, 2009**

6. Rates of Turnover:

A moderate rate of termination of employment was assumed. Such rates vary by sex and attained age. A sample of rates, showing the percentage of participants assumed to terminate in the next year, is as follows:

<u>Age</u>	<u>Percentage of Participants at Indicated Age Assumed to Terminate in the Next Year</u>	
	<u>Males</u>	<u>Females</u>
20	5.8%	17.40%
25	5.02%	13.27%
30	3.60%	8.13%
35	2.44%	4.41%
40	.90%	1.27%
45 and over	0%	0%

7. Rates of Disability:

A rate of disablement was assumed in accordance with the following sample:

<u>Age</u>	<u>Percentage of Participants at Indicated Age Assumed to Become Disabled in the Next Year</u>
20	08%
25	.09%
30	.10%
35	.13%
40	.20%
45	.33%
50	.58%
55	1.02%
60	1.60%
64	2.13%

Participants assumed to be disabled are assumed to concurrently become eligible for Social Security disability benefits.

8. Other

- Marital Status – It is assumed that 80% of the females and 87.5% of the males are married.
- Payment Date – It is assumed that terminating employees will elect lump sums as of date of termination of employment.
- IRS Benefit Limitations – The dollar limitation described in Section 415(b)(1)(A) of the Internal Revenue Code is assumed to remain at the limits in effect for 2009 (\$195,000).
- IRS Compensation Limitation – The dollar limitation described in Section 401(a)(17) of the Internal Revenue Code is assumed to remain at the limit in effect for 2009 (\$245,000).

A. Basic Plan

1. **Effective Date:** Effective as of January 1, 1994, the Pension Plan for Employees of Local Farm Cooperatives (OLP) was re-named the Countrymark Co-op Member Pension Plan (CCMPP). Also effective as of January 1, 1994, Employers participating in the Farm Bureau Employees Retirement Plan – Group B (FBERP) had their assets and liabilities transferred to this Plan. Effective January 1, 1999, the Countrymark Co-op Member Pension Plan was re-named to the Cooperative Pension Plan (CPP). The various provisions below apply to the Employers indicated.
2. **Eligibility:** Regular full-time employees of the Employer compensated on a salaried basis or hourly basis not covered by a collective bargaining unit are eligible to participate following the attainment of age 21 and the completion of one year of Service. All non-union employees of the Employer who were participating in the Plan or FBERP as of December 31, 1993, participate in the Plan as of January 1, 1994. Other non-union employees of the Employer hired before 1994 participate in the Plan as of the later of six months Service or January 1, 1994. Part-time employees of the Employer join the Plan after a year of at least 1,000 hours of employment following attainment of age 21.
3. **Service:** Service is all employment with the Employer after January 1, 1994 plus all periods of Service prior to January 1, 1994 as calculated under the provisions of the applicable prior plan. After the later of January 1, 1994 or date of adoption, a part-time employee earns a year of Service for a Plan Year in which the employee completes at least 1,000 hours. Credited Service is elapsed time after January 1, 1994 plus the Credited Service prior to January 1, 1994 as calculated under the provisions of the applicable prior plan. Part-time employees must complete 83 hours in a month to receive credit for that month. Effective January 1, 1998, Credited Service is elapsed time after plan entry for employees who became participants after 1997.
4. **Employee Contributions:** None. The Employer pays the full cost of the Plan.
5. **Cash Accounts:**
 - (a) Initial Account:
 - (1) Employees who were OLP participants prior to the Conversion Date (01/01/94) – An account is maintained for each participant, to which monthly credits are made. In the case of an active participant who participated in the OLP immediately prior to the Conversion Date, the initial account as of the Conversion Date was determined as the sum of: (A) the equivalent lump sum value of the participant's accrued basic benefit, plus, where applicable, the greatest of (i) the equivalent lump sum value of the participant's accrued supplemental benefit, (ii) the equivalent lump sum value of the participant's accrued benefit derived from employee contributions ("ABDEC"), and (iii) the participant's accumulated contributions with interest. The participant's accrued basic benefit, accrued supplemental benefit, ABDEC and accumulated contributions with interest are as of the Conversion Date under the OLP (this Plan, if the Conversion Date is after January 1, 1994) as in effect on such date. The equivalent lump sum values above [(A), (B)(i), and B(ii)] are the lump sum values of such benefits at age 65 (or current age, if older) based on 8% interest and mortality in accordance with the Unisex Pension 1984 mortality table, discounted from age 65 to the Conversion Date at 8%.

Cooperative Pension Plan
Plan Provisions Valued as of January 1, 2009

- (2) Employees who were FBERP participants prior to the Conversion Date (01/01/94) – An account is maintained for each participant, to which monthly credits are made. In the case of an active participant who participated in FBERP immediately prior to the Conversion Date, the initial account as of the Conversion Date was determined as follows: The participant's accrued benefit as of the Conversion Date under the FBERP as in effect on such date was first converted to a life annuity by increasing the formula benefit by 14% of the pre-1990 benefit (which was subject to up to a 3% three-year deferred cost-of-living provision). That life annuity amount was converted to its equivalent lump sum value at age 65 (or current age, if older) based on 8% interest and mortality in accordance with the Unisex Pension 1984 mortality table. Such lump sum equivalent of the accrued benefit was then discounted from age 65 to the Conversion Date at 8% interest.
- (b) Regular Credits to Accounts: The basic schedule of monthly Regular Credits is based on the completed Years of Service as of the beginning of the respective months, and is equal to the following:

<u>Years of Service</u>	<u>Percentage of Compensation</u>
Fewer than 5	3%
5, but not 10	4%
10, but not 15	5%
15, but not 20	6%
20, but not 25	7%
25, but not 30	8%
At least 30	9%

Regular Credits to accounts generally begin on year prior to plan entry. For full-time employees hired before 01/01/94, who were not participating in the OLP or FBERP as of 12/31/93, Regular Credits begin at date of participation. The Plan was amended effective 01/01/98 to provide that Regular Credits to the accounts begin at plan entry for employees who first enter the Plan after 1997.

- (c) Grandfather Accounts: For employees who were participants in FBERP and who either (i) were age 50 with at least 5 years of employment at the Conversion Date (01/01/94), or (ii) had completed at least 15 years of employment at the Conversion Date, Grandfather Accounts were established, determined as follows:
- (i) A projected value at Normal Retirement Date (NRD) was determined equal to 1.68% of the FBERP Credited Service as of the Conversion Date plus 1% of projected time from the Conversion Date to NRD, multiplied by projected final average pay (FAP) assuming 1993 compensation increased at 5.5% per year [subject to the compensation limit of IRC §401(a)(17)], with the resulting annual benefit converted to a lump sum value at NRD using the UP-84 Mortality Table and 8% interest.
- (ii) The cash balance account was projected to NRD, beginning with the Conversion Date initial account, and assuming that 1993 compensation increased at 5.5% per year [subject to the compensation limit of IRC §401(a)(17)] and that interest credits were 7.5% for each year after 1993.
- (iii) Projected value at NRD was determined equal to 1% of the sum of the FBERP Credited Service as of the Conversion Date plus the projected time from the Conversion Date to NRD, multiplied by projected FAP, with the resulting annual benefit converted to a lump sum value at NRD using the UP-84 Mortality Table and 8% interest.

**Cooperative Pension Plan
Plan Provisions Valued as of January 1, 2009**

- (iv) The excess, if any, of (i) over the greater of (ii) or (iii) is the projected grandfather amount. That amount was discounted from NRD back to the Conversion Date at 8% to become the Grandfather Account as of the Conversion Date.
- (v) The Grandfather Account earned at any point in time is the Grandfather Account as of the Conversion Date, increased with actual interest credits, and multiplied by a fraction equal to M/N , maximum 1, where M is the actual period of Credited Service after the Conversion Date and N is the projected time from the Conversion Date to NRD.
- (d) Interest Credits to Accounts: The account of each participant is increased by the "interest credit percentage" for the applicable calendar year multiplied by the account as of the beginning of the year.
- (e) Interest Credit Percentage: The interest credit percentage for each calendar year is equal to the greater of (i) 4% and (ii) the average, rounded to the nearest .25%, of the weekly average for weeks ending in the month of November of the prior calendar year of the rate on Treasury Constant Maturities, 1-year, as published in the Federal Reserve Statistical Release H.15(519) of the Board of Governors of the Federal Reserve System, plus 1%, except that, to the extent determined by the Committee in its sole discretion, the "interest credit percentage" shall be such other percentage as the Committee may from time-to-time prospectively prescribe and which shall be specified in the Plan.

6. Retirement:

- (a) Normal Retirement: A participant's normal retirement date is the first day of the month coincident with or next following age 65.
- (b) Early Retirement: A participant who has attained age 55 and completed 5 Years of Service may retire at any time prior to normal retirement date.
- (c) Disability Retirement: A participant who, prior to his normal retirement date, becomes totally and permanently disabled and entitled to benefits under a long-term disability plan maintained by the Employer or is eligible for Social Security disability benefits, is treated as if he had continued in active service at his last annual pay rate.
- (d) Late Retirement: A participant may continue in active employment after his normal retirement date.

7. Amount of Retirement Income Payable to Participant: The amount of retirement income available to an employee who retires on his normal retirement date, early retirement date, or later retirement date is the greater of (a) the balance in his account as of such date, determined as described in item 5 above, or (b) the lump sum value of 1% of Final Average Pay times Credited Service, reduced 6% per year benefit commencement precedes age 65. Employees eligible for a Grandfather Account receive their earned portion of that account in addition.

Final Average Pay is the highest consecutive five-year average Compensation in the last 10 years of employment.

8. Special Retirement Provisions Applicable to Certain "Grandfathered" Employees:

- (a) Former participants of the OLP receive the greater of (i) the benefit described in item 7 or (ii) a frozen monthly benefit determined as of the day preceding the Conversion Date. If

**Cooperative Pension Plan
Plan Provisions Valued as of January 1, 2009**

such frozen benefit commences prior to age 65, the early commencement factors are 6-2/3% per year for each of the first five years prior to age 65 and 3-1/3% for each of the next five years prior to age 65.

- (b) Former participants of the FBERP receive the greater of (i) the benefit described in item 7 or (ii) a frozen monthly benefit determined as of the day preceding the Conversion Date. If such frozen benefit commences prior to age 65, the early commencement factors are 6% per year prior to age 62. The portion of the benefit earned prior to 1990 is subject to a cost-of-living feature of up to 3% per year (simple interest), commencing on the third anniversary of benefit commencement.
- (c) If a former participant of the FBERP who was actively employed by the Employer on the Conversion Date elects a lump sum form of distribution, the minimum lump sum is that which would have been paid of the Conversion Date.

9. **Death Benefit Prior to Commencement of Benefits:** A participant who dies and is not married is entitled to have his account balance paid to his beneficiary.

The benefit payable to the spouse of a married participant who dies prior to commencement shall be a single life annuity that is the actuarial equivalent of the benefit such employee would have been entitled to had he terminated employment on his day of death, survived to his normal retirement date, or, at the election of the spouse, the date the participant would have attained age fifty-five and commenced to receive a benefit as of such date. In lieu of any other benefits, the spouse may elect a distribution of the account balance as of the date of the participant's death.

Upon retirement, the death benefit depends on the form of payment elected by the employee (and spouse, where applicable).

10. **Termination of Employment:** Effective January 1, 2008, a participant is 100% vested after three Years of Service.
11. **Forms of Pension:** The normal form of benefit payable to a participant is the Qualified Joint and Survivor Annuity, if married; if single, an annuity for the life of the participant. Various optional forms of pension of actuarial equivalent value are permitted.
12. **Discontinuance Provisions:** Upon termination of the Plan or complete discontinuance of Employer contributions, the funds of the Plan are allocated for the benefit of each employee, beneficiary, and joint or survivor annuitant, if any, in accordance with applicable law. If there is an excess of assets under the former-OLP pool, such excess is then allocated to the participants.
13. **Benefit Limitation:** In no event will the annual pension benefit exceed the amount described in Section 415(b)(1)(A) of the Internal Revenue Code (\$195,000 for 2009) (a) actuarially increased for benefit commencement later than Social Security Normal Retirement Age, (b) reduced according to Social Security early retirement factors between Social Security Normal Retirement Age and age 62, (c) actuarially decreased for the benefit commencement before age 62, (d) actuarially decreased for the benefit payment other than as a life annuity, unless a joint and surviving spouse option has been elected, and (e) decreased to the extent required to limit the sum of the employee's defined benefit plan fraction and defined contribution plan fraction is 100%.
14. **Compensation Limitation:** In no event will annual plan compensation exceed the amount described in Section 401(a)(17) of the Internal Revenue Code (\$245,000 for 2009).

Cooperative Pension Plan
Plan Provisions Valued as of January 1, 2009

- 15. Variation to Plan Provisions:** The provisions of this Variation apply to the following Employers participating in the CPP: **Countrymark Cooperative, Inc.** (with a Merger Date of January 1, 1999). No benefit will accrue after October 1, 2002.
- 5.(a) Initial accounts were transferred from the Regional Pension Plan (the Prior Plan).
 - 5.(b) Salaried participants from the Regional Pension Plan receive a minimum of 5%. Hourly-paid participants shall receive a minimum of \$30 for each month in which 83 Hours of Service is compensated.
 - 5.(c) The employees of the Employer eligible for the Grandfather Accounts were employees who were participants in FBERP and were born before 1944 and had 5 Years of Service as of December 31, 1993, or had 15 Years of Service as of December 31, 1993 and were actively employed with CCI on January 1, 1994.
10. Effective January 1, 2008, a participant is 20% vested in his Account Balance after one Year of Service, 40% after two Years of Service and 100% after three Years of Service.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
