AD ART COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
For the year ended December 31, 2009

NOTE 1: DESCRIPTION OF PLAN

The Ad Art Company 401(K) Plan (the "Plan") is a defined contribution plan sponsored by R.J. Acquisition Corp. dba The Ad Art Company (the "Company"). The following description of the Plan provides only general plan information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all non-union employees of the Company employed for three months and who have attained age 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Participants may contribute their pretax earnings up to the maximum allowed by law. However, participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. For the first three months of 2009, the Company made matching contributions of 100% of each participant's contributions not to exceed 3% of the participant's compensation plus 50% of the participant's contributions between 3% and 5% of the participant's compensation. Effective April 1, 2009, all employer contributions to the Plan became discretionary. The Company did not make any further contributions to the Plan after April 1, 2009.

Participant accounts:

Each participant's account is credited with the participant's contribution, the Company's matching and discretionary contributions, if any, and an allocation of Plan earnings within the designated investment funds. Each participant's account is charged with an allocation of management fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Until March 31, 2009 participants were immediately vested in all contributions plus actual earnings thereon. Effective April 1, 2009, vesting in the Company's contribution portion of each participant's account plus actual earnings thereon is based on years of service. A participant is 100 percent vested after five years of credited service or after attaining the age of 65, whichever occurs first. Active employees who become totally disabled or die before normal retirement age become fully vested in their accrued benefits.

NOTES TO FINANCIAL STATEMENTS (Continued)
For the year ended December 31, 2009

NOTE 1: DESCRIPTION OF PLAN (Continued)

Participant loans:

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest equal to the prime rate as printed in the Wall Street Journal on the loan date. Loan interest rates range from 3.25% to 5%. Principal and interest are paid ratably through payroll deductions.

Payment of benefits:

On termination of service due to retirement, death, disability, or other reasons, a participant will receive a lump-sum distribution if the participant's account balance does not exceed $5,000. If the balance exceeds $5,000, a participant may elect to receive either a lump sum distribution, transfer the vested balance to a qualified plan, or leave the vested balance in the Plan.

Hardship withdrawals:

A participant may be permitted to withdraw a portion or all of the balance of their account that is attributable to the participant's deferred compensation (without earnings) for the reasons specified by and to the extent permitted under regulations issued by the Internal Revenue Service.

Administration of the plan:

The Plan is being administered by a three-person committee appointed by the board of directors of the Company. The committee has the general authority and responsibility to control the operation and administration of the Plan. Administrative expenses incurred on behalf of the Plan are paid by the Company.

Forfeited accounts:

Forfeited non-vested accounts can be used to reduce the Company's discretionary contributions, if any, or to pay administrative expenses of the Plan. At December 31, 2009, forfeited non-vested accounts were zero.

NOTES TO FINANCIAL STATEMENTS (Continued)
For the year ended December 31, 2009

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and cash equivalents:

The Plan considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Use of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of investments are recorded at their fair value on the date of each transaction.

Payment of benefits:

Benefits are recorded when paid.

Accounting standards codification:

The Company has adopted changes issued by the Financial Accounting Standards Board ("FASB") to the authoritative hierarchy of Generally Accepted Accounting Principles ("GAAP"). These changes establish the FASB Accounting Standards Codification ("ASC") as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. The codification itself does not change GAAP. Other than the manner in which accounting guidance is referenced, the adoption of these changes had no impact on the financial statements.

NOTE 3: INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The Plan assets are held by the Trustee pursuant to the trust agreement which provides that all funds received by the Trustee shall be held, administered, invested, and distributed by the Trustee, and that no part of the corpus or income shall be used for, or directed to, purposes other than for the exclusive benefit of participants or their beneficiaries.

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the Trustee.

NOTE 4: FAIR VALUE MEASUREMENTS

FASB ASC 820, "*Fair Value Measurements and Disclosures*", establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

(Continued)

AD ART COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)
For the year ended December 31, 2009

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Investments in mutual funds are valued at the net asset value of shares held by the Plan at year end.

Participant loans are valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Level 1	Level 3	Total
Investments in mutual funds	$ 1,006,136	$ -	$ 1,006,136
Participant loans	-	65,169	65,169
	$ 1,006,136	$ 65,169	$ 1,071,305

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2008:

	Level 1	Level 3	Total
Investments in mutual funds	$ 636,242	$ -	$ 636,242

NOTE 8: TAX STATUS

The Plan has adopted a prototype plan prepared by the Trustee. This prototype plan obtained its latest determination letter on April 22, 2005, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Trustee believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and accordingly is exempt from income tax.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in investment securities. Investment securities are exposed to risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The Plan invests in securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Securities of many foreign companies and their markets may be less liquid and their prices more volatile than securities of comparable U.S. companies.

NOTE 10: RECONCILIATION OF SCHEDULE H (FORM 5500) TO FINANCIAL STATEMENTS
