1. DESCRIPTION OF PLAN

The following description of the Matson Navigation Company, Inc. and Subsidiaries 401(k) Retirement Savings Plan for Bargaining Unit Employees (the "Plan") is provided for general information purposes only. Members should refer to the Plan document for more complete information.

General — The Plan is a defined contribution plan established on July 1, 1995, for Matson Navigation Company, Inc. and subsidiaries. Matson Navigation Company, Inc. (the "Company"), and Matson Terminals, Inc., are members in the Plan. Bargaining unit employees may elect to participate in the Plan on the first day of the following month coinciding with the employee's commencement date.

The assets of the Plan, excluding receivables, are held in the Alexander & Baldwin, Inc. Defined Contribution Plans Master Trust (the "Master Trust"). Fidelity Management Trust Company ("Fidelity") serves as the trustee for the Master Trust.

Member Accounts — Individual accounts are maintained for each Plan member. Each member's account is credited with the member's contribution and allocations of Plan earnings, and charged with an allocation of Plan losses and administrative expenses. Allocations are based on member earnings or account balances, as defined.

Member Contributions — The provisions of the Plan provide each eligible employee with the opportunity of contributing a portion of his or her compensation each year without being taxed on the contribution. Members must designate a percentage (from 1% to 50%, in multiples of 1%) of their compensation to contribute to the deferred account. Under Plan provisions, the member's contribution may not exceed 50% of his or her compensation, up to the maximum permitted by statute.

Catch-Up Contributions — In accordance with the Internal Revenue Code (IRC), this provision, which became effective August 1, 2002, allows members who are over age 50 or reach age 50 during the Plan year January 1 to December 31 to make additional contributions. The maximum annual catch-up contribution is $5,500 and $5,000 in 2009 and 2008, respectively.

Investments — Members direct the investment of their contributions into various investment options offered by the Plan. The investments are held in a master trust for the Company's defined contribution plans. The Plan currently offers 39 mutual funds as investment options for members.

Vesting — Members are vested immediately in their deferred compensation accounts, plus earnings thereon.

Payment of Benefits — On termination of service due to death, disability, retirement, or termination for other reasons, a member may elect to receive distribution in the form of 1) a lump-sum amount equal to the value of the member's vested interest in his or her account or 2) direct rollovers to an eligible retirement plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Valuation of Investment in Master Trust — The Plan's investment in the Master Trust is stated at fair value, which has been determined based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date of the Master Trust. The Master Trust holds investments in the Plan sponsor's common stock, money market funds, and equity and fixed-income funds. The fair values of equity instruments are based on quoted market prices. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investment bought and sold, as well as held during the year.

Expenses — Administrative expenses of the Plan are paid by either the Plan or the Plan's sponsor, as provided in the Plan document.

Payment of Benefits — Benefit payments to members are recorded upon distribution.

New Accounting Standards Adopted — The accounting standards initially adopted in the 2009 financial statements described below affected certain note disclosures but did not impact the statements of net assets available for benefits or the statements of changes in net assets available for benefits.

Accounting Standards Codification — The Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC) became effective on July 1, 2009. At that date, the ASC became FASB's official source of authoritative GAAP applicable to all public and nonpublic nongovernmental entities, superseding existing guidance issued by the FASB, the American Institute of Certified Public Accountants, the Emerging Issues Task Force, and other related literature. The FASB also issues Accounting Standards Updates (ASU). An ASU communicates amendments to the ASC. An ASU also provides information to help a user of GAAP understand how and why GAAP is changing and when the changes will be effective.

Subsequent Events — In May 2009, the FASB issued ASC 855, *Subsequent Events* (originally issued as FASB Statement No. 165, *Subsequent Events*), to establish general standards of accounting for and disclosing events that occur after the balance sheet date, but prior to the issuance of financial statements. ASC 855 provides guidance on when financial statements should be adjusted for subsequent events and requires companies to disclose subsequent events and the date through which subsequent events have been evaluated. ASC 855 is effective for periods ending after June 15, 2009.

For the year ended December 31, 2009, subsequent events were evaluated through October 1, 2010, the date the financial statements were available to be issued.

Updates to Fair Value Measurements and Disclosures — In 2009, FASB Staff Position (FSP) FAS 157-4, *Disclosures Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*, was issued and later codified into ASC 820, which expanded disclosures and required that major category for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments.

In September 2009, the FASB issued ASU No. 2009-12, *Fair Value Measurements and Disclosures: Investments in Certain Entities That Calculate Net Asset per Share (or Its Equivalent)*, which amended ASC Subtopic 820-10, *Fair Value Measurements and Disclosures — Overall*. ASU No. 2009-12 is effective for the first reporting period ending after December 15, 2009. ASU No. 2009-12 expands the required disclosures for certain investments with a reported net asset value (NAV). ASU No. 2009-12 permits, as a practical expedient, an entity holding investments in certain entities that calculate NAV per share or its equivalent for which the fair value is not readily determinable, to measure the fair value of such investments on the basis of that NAV per share or its equivalent without adjustment. The ASU requires enhanced disclosures about the nature and risks of investments within its scope. Such disclosures include the nature of any restrictions on an investor's ability to redeem its investments at the measurement date, any unfunded commitments, and the investment strategies of the investee. The Plan has adopted ASU No. 2009-12 on a prospective basis for the year ended December 31, 2009. The effect of the adoption of the ASU had no impact on the statement of net assets available for benefits and statement of changes in net assets available for benefits.

New Accounting Standards to be Adopted — In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures*, which amends ASC 820, *Fair Value Measurements and Disclosures* (originally issued as FASB Statement No. 157, *Fair Value Measurements*), adding new disclosure requirements for Levels 1 and 2; separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements; and clarification of existing fair value disclosures. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The Plan is currently evaluating the impact ASU No. 2010-06 will have on the financial statements.

On September 16, 2010, FASB approved for issuance of ASU on Reporting Loans to Participants by Defined Contribution Pension Plans, which is effective for plan years ending after December 15, 2010. The new standard will require that participant loans be classified as notes receivable for GAAP purposes and measured at unpaid principal balance, plus accrued but unpaid interest. Adopting this new standard will eliminate the need to calculate fair values and present disclosures for these loans in accordance with ASC 820. Adoption of this ASU will not have a material effect on the net assets of the plan.

3. FAIR VALUE MEASUREMENTS

ASC 820 established a single authoritative definition of fair value, set a framework for measuring fair value, and required additional disclosures about fair value measurements. In accordance with ASC 820, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following tables set forth by level within the fair value hierarchy, a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2009 and 2008.

In accordance with the update to ASC 820 (originally issued as FSP FAS 157-4), the major categorization for debt and equity securities on the basis of the nature and risk of the investments at December 31, 2009 and 2008, is as follows:
