INDEPENDENT AUDITOR'S REPORT

Plan Administrator
Ameren Retirement Plan
St. Louis, Missouri

Opinion

We have audited the financial statements of Ameren Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and Schedule H, Line 4j - Schedule of Reportable Transactions as of and for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Plan

The following is a summary of the various provisions of the Ameren Retirement Plan (the "Plan"). This summary provides only general information. Participants should refer to the applicable Plan supplement for detailed information on the Plan's provisions.

General
The Plan is a defined benefit plan, which provides retirement benefits to certain retirees of Ameren Corporation and its participating subsidiaries, affiliates, and locations (collectively, "Ameren" or the "Company"). The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan constitutes a single defined benefit plan set forth in a main document that describes provisions common to all employees and in six plan supplements. The plan supplements describe provisions specific to each covered group under the plan such as participation, vesting and benefits provided by the Plan.

Under the Cash Balance Account supplements of the Plan, eligible participants accrue benefits in the form of individual hypothetical account balances. During each year of employment, the participant's account is credited with regular and interest credits. Regular credits are based on the employee's age and pensionable earnings at the end of each year. Interest credits are added to the account at the end of each month and can vary from year to year. The interest crediting rate is determined at the beginning of each calendar year as the greater of (i) the average yield for one-year Treasury Bonds for the previous October, plus one percent, or (ii) five percent. Furthermore, certain cash balance participants earn transition credits and/or enhancement credits, as defined in the plan document.

Under other supplements of the Plan, certain participants accrue benefits as "grandfathered" employees based on hire date and participation in the plan under a covered group. Grandfathered participant benefits are calculated based upon the participant's average compensation, the participant's years of service, and other factors, as defined in the plan document.

Vesting and Payment of Benefits
Cash balance participants are 100 percent vested in their accounts after three years of service. Other participants are fully vested in their benefit after five years of service. If employees terminate before rendering the appropriate years of service, they forfeit the right to receive benefits under the Plan. For participants who reached age 72 in 2022, the Plan began making required minimum distributions ("RMD") no later than April 1, 2023. Beginning in 2023, the SECURE 2.0 Act raised the age that a participant must begin taking RMD to age 73. Effective for Participants who reached age 72 in 2023, the Plan began making RMD no later than April 1, 2025. Beginning January 1, 2034, the Plan will make RMD to participants born in 1959 and later in the year they reach the age of 75.

Vested cash balance participants are entitled to annual pension benefits beginning at termination. Vested-grandfathered participants are entitled to annual pension benefits beginning at normal retirement age (65). Early retirement benefits are available to eligible grandfathered participants beginning at age 55 and may be reduced by a defined percentage based upon the participant's age. Certain participants who become disabled may be eligible for benefits under the Plan, subject to certain conditions. Death benefits are payable to the surviving spouse of a deceased, vested participant. All participants may elect to receive their benefits under various types of annuity payment. Cash balance participants may also elect to receive their benefits in the form of a single lump-sum. Participants should refer to the applicable plan supplement for detailed information on the particular benefit payment types available.

Effective November 21, 2025, the Company completed a contract transfer transaction with a third-party insurance company that transferred $239,915,000 of Plan assets and approximately $254,800,000 of Plan obligations associated with approximately 4,200 former Plan participants from the Plan to the insurance company. The insurance company assumed future and full responsibility to fund and administer the former Plan participants' benefit payments. There was no change to the pension benefits for any participants because of the transfer. In May 2026, the Plan received $1,920,261 from the insurance company which was comprised of a post-closing adjustment to the initial premium payment, including related interest.

Plan Administration
The Company serves as sponsor of the Plan, and consequently, has the authority to amend or terminate the Plan subject to certain restrictions. The Administrative Committee whose chairman is named in the Plan document, serves as administrator of the Plan and has authority and responsibility for overseeing the general administration of the Plan. Other Administrative Committee members are Company employees appointed by the Chairman of the Administrative Committee. The Investment Committee whose chairman is named in the Plan document, has authority and responsibility for the investment strategy and asset allocation guidelines for the Plan. Other Investment Committee members are Company employees appointed by the Chairman of the Investment Committee.

The Plan's assets and the 401(h) account assets are held by The Bank of New York Mellon ("BNY Mellon") in the Ameren Master Retirement Trust ("Master Trust"). BNY Mellon, as Trustee, has the authority and responsibility to hold and protect the assets of the Plan and the 401(h) account in accordance with the Master Trust Agreement.

Plan Termination
The Company intends to continue the Plan indefinitely. However, the Company may at any time and for any reason, subject to ERISA and Internal Revenue Service ("IRS") regulations, suspend or terminate the Plan. In the event the Plan is terminated, assets of the trust fund shall be allocated in the order of preference per Pension Benefit Guaranty Corporation ("PBGC") regulations.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared using the accrual basis of accounting, except that benefit payments to participants are recorded upon distribution.

Reclassifications
Some items in the prior year's financial statements were reclassified to conform to the current presentation. Reclassifications had no effect on the prior year net assets available for benefits or the prior year net increase in net assets available for benefits.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results could differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the actuarial present value of accumulated Plan benefits and the fair values of the Plan's investments.

Risk and Uncertainties
The Plan holds various investments. Investments are exposed to various risks, such as interest rate, market and credit risks, which include global events such as pandemics. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in risks and the fair value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits. The contract transfer transaction described in Note 1 was designed to reduce potential volatility with the Plan assets and liabilities. The Company will continue to evaluate other transactions in the future based on market and other conditions.

Although the Master Trust's securities lending activities are collateralized as described in Note 3, and although the terms of the securities lending agreement with BNY Mellon requires BNY Mellon to comply with government rules and regulations related to the lending of ERISA plan securities, the securities lending program involves both market and credit risk. In this context, market risk refers to the possibility that the borrower of securities will be unable to collateralize the loan upon a sudden material change in the fair value of the loaned securities or the collateral, or that BNY Mellon's investment of collateral received from the borrowers of the Trust's securities may be subject to unfavorable market fluctuations. Credit risk refers to the possibility that counterparties involved in the securities lending program may fail to perform in accordance with the terms of their contracts.

Contributions are funded and the actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, employee demographics, and mortality, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

Investment Valuation and Income Recognition
The Plan's investments consist of its interest in the Master Trust held by BNY Mellon. The remaining assets in the Master Trust are held by the 401(h) account associated with the Plan. Because the Master Trust is comprised entirely of the assets of the Plan and its related 401(h) account, management has elected to report the assets of the Master Trust as direct investments of the Plan and the 401(h) account.

Investments of the Plan are reported at fair value. The fair value of investments is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). See Note 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded either when received or on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses and Investment Management Expenses
All costs incurred to administer the Plan, such as trustee fees and investment management fees, are paid by the Plan and reflected in the financial statements as administrative expenses of the Plan.

Funding Policy
Contributions to the Plan are based on current service costs determined using the projected unit credit actuarial cost method for the Plan year, plus required amortization of unfunded prior service costs. The Company's funding policy is to contribute annually to the Plan an amount which is not less than the minimum amount required by ERISA and not more than the maximum amount deductible for income tax purposes, as determined by the Plan's actuary. The Company satisfied the minimum funding requirement of ERISA for 2025 and 2024.

Postretirement Medical Benefits
The Plan includes a medical benefit component in addition to the normal retirement benefits to fund a portion of the postretirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the Internal Revenue Code ("IRC"). Although assets in the 401(h) account are included in the Master Trust with assets that are available to pay pension benefits, separate accounting for the changes in net assets related to the 401(h) account are maintained. The 401(h) account interest in the Master Trust is shown separately in the statements of net assets available for benefits. In accordance with IRC Section 401(h), the Plan's investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their beneficiaries. Plan participants do not contribute to the 401(h) account. Employer contributions to the 401(h) account are determined annually and are at the discretion of the Company. The related obligations for medical benefits are not included in the Plan's accumulated benefit obligations but are reflected in the financial statements of the Ameren Retiree Welfare Benefit Plan. See Note 9 for further discussion of the investments held by the 401(h) account at December 31, 2025 and 2024.

3. Securities Lending

During 2019, a Securities Lending Authorization Agreement ("SL Agreement") with BNY Mellon was fully executed, in which BNY Mellon was appointed as agent for the Master Trust to lend eligible securities held in Master Trust accounts to third party borrowers. The Master Trust relinquishes its beneficial rights (including voting rights) with respect to securities on loan, which are restored upon return of the loaned securities to the Master Trust by the borrower. BNY Mellon must obtain collateral from the borrower in the form of cash or approved securities. All loans are collateralized by at least 102 percent of the loaned asset's market value and the collateral invested.

Collateral received by BNY Mellon on behalf of the Master Trust consists of cash collateral and non-cash collateral. Cash collateral received is held and maintained in a separately managed Cash Collateral Account. The assets held in the Cash Collateral Account are invested and reinvested in accordance with the SL Agreement. The SL Agreement allows investments in various short-term and fixed-income securities (including repurchase agreements). The non-cash collateral received are approved securities such as U.S. government obligations and U.S. agency obligations and are held in a dedicated BNY Mellon account as agent for the benefit of all BNY Mellon SL clients. The SL Agreement does not permit the Master Trust to sell or repledge non-cash collateral. Both the collateral and the securities loaned are marked-to-market daily, with additional collateral obtained or refunded, as necessary. In the event that the loaned securities are not returned by the borrower, BNY Mellon will, at its own expense, either replace the loaned securities or, if unable to purchase those securities on the open market, credit the Master Trust with cash equal to the fair value of the loaned securities. During 2025 and 2024, there were no borrower defaults.

The following is the aggregate fair value of securities loaned to counterparties and the associated collateral held by the Master Trust at December 31, 2025:

	Market Value of Securities on Loan	Market Value of Collateral Held	Collateral Received
Securities on loan			
Cash loans	$ 465,016,437	$ 476,529,336	$ 476,423,826
Non cash loans	52,305,412	54,630,077	54,630,077
Total	$ 517,321,849	$ 531,159,413	$ 531,053,903

The following is the aggregate fair value of securities loaned to counterparties and the associated collateral held by the Master Trust at December 31, 2024:

	Market Value of Securities on Loan	Market Value of Collateral Held	Collateral Received
Securities on loan			
Cash loans	$ 399,746,246	$ 409,876,060	$ 409,524,202
Non cash loans	53,990,011	53,121,189	53,121,189
Total	$ 453,736,257	$ 462,997,249	$ 462,645,391

The Master Trust is entitled to receive net revenue derived from all securities lending activities and pays BNY Mellon a fee for providing securities lending services. Interest and dividend income reported in the Statement of Changes in Net Assets Available for Benefits includes the net securities lending income earned by the Master Trust, of which $68,432 and $61,129 were receivables at December 31, 2025 and 2024, respectively.

The following is the gross and net earnings on securities lending collateral during the years ended December 31, 2025 and 2024:

	2025	2024
Gross earnings on securities lending activity	$ 22,645,946	$ 16,725,656
Less: Rebates paid to borrowers	21,405,951	15,771,048
Less: Bank fees (BNY Mellon)	477,805	354,922
Net earnings on securities lending activity	$ 762,190	$ 599,686

4. Transactions with Parties-in-Interest and Related Parties

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

At December 31, 2025 and 2024, the Plan held investments managed by investment managers including Mellon Investments Corporation, an affiliate of BNY Mellon, the trustee of the Plan. At December 31, 2025, the fair value of preferred debt securities of Ameren Illinois held by the Plan was $114,840.15. These investments and the Plan's payment of fees to BNY Mellon, investment managers, and their affiliates, qualify as party-in-interest transactions.

BNY Mellon serves as the lending agent for the securities lending program and manages the Collateral Account as described in Note 3. During the year ended December 31, 2025 and 2024, BNY Mellon earned $477,805 and $354,922, respectively, in fees from the Master Trust's securities lending activities.

Fees paid to the Plan's third-party service administrators, Trustee, independent auditor, actuary, consultants, and investment managers or affiliates of Plan investment managers reflect party-in-interest transactions. These transactions are allowable party-in-interest transactions under Section 408(b) (8) of ERISA regulations.

5. Federal Income Tax Status

The IRS has determined and informed the Company by a letter dated June 29, 2021, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, Plan management believes that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2022.

6. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions, to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to active, retired or terminated employees, or their beneficiaries. Benefits may be based on a cash balance formula, years of service, and/or a percentage of final compensation, depending on the eligible group and dates of service for the participant. The accumulated plan benefits exclude all postretirement medical benefits, which are related to the Company's postretirement welfare benefit plans. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation at December 31, 2025 and 2024 were as follows:

Actuarial Assumptions	December 31, 2025	December 31, 2024
Mortality	Pri-2012 "Employees" and "Nondisabled Annuitant" tables, with generational projections using Scale MP-2020	Pri-2012 "Employees" and "Nondisabled Annuitant" tables, with generational projections using Scale MP-2020
Retirement Age Range:		
5% cash balance and 5% annuity formula (Illinois operating company)		
at age 55 to 100% at age 70+	Ages 55-70+	
5% cash balance and 8% annuity formula (Missouri operating company)		
at age 55 to 100% at age 70+	Ages 55-70+	
5% cash balance and 7% annuity formula at age 55 to 100% at age 70+		Ages 55-70+
Assumed interest rate upon benefit settlement	5.75%	5.70%
Cash balance interest crediting rate	5.50%	5.50%

The foregoing actuarial assumptions were based on the assumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Set forth below are the actuarial present value of accumulated plan benefits at December 31, 2025 and 2024:

Actuarial present value of accumulated plan benefits	December 31, 2025	December 31, 2024
Vested benefits:		
Participants and beneficiaries currently receiving payments	$ 2,334,891,410	$ 2,581,927,827
Other participants	1,381,068,959	1,335,315,882
Total vested benefits	3,715,960,369	3,917,243,709
Nonvested benefits	57,520,925	67,605,331
Total actuarial present value of accumulated plan benefits	$ 3,773,481,294	$ 3,984,849,040

The changes in actuarial present value of accumulated plan benefits for the years ended December 31, 2025 and 2024 consist of the following:

	2025	2024
Actuarial present value of accumulated plan benefits at the beginning of the year	$ 3,984,849,040	$ 4,112,180,179
Increase / (decrease) during the year attributable to:		
Additional benefits accumulated	107,187,860	134,950,199
Interest due to decrease in the discount period	217,234,446	213,572,775
Benefits paid	(292,516,166)	(278,125,356)
Annuity purchase	(239,915,000)	-
Change in actuarial assumptions	(3,358,886)	(197,728,757)
Net increase / (decrease)	(211,367,746)	(127,331,139)
Actuarial present value of accumulated plan benefits at the end of the year	$ 3,773,481,294	$ 3,984,849,040

Additional benefits accumulated during 2025 includes an actuarial gain of $14,885,000 resulting from the contract transfer transaction described in Note 1.

The change in actuarial assumptions during 2025 was primarily due to increasing the assumed interest rate upon benefit settlement from 5.70% to 5.75% to reflect the settlement rate based upon bond yields as of December 31, 2025, and change in demographic assumptions resulting from an experience study performed in 2025.

The change in actuarial assumptions during 2024 was primarily due to increasing the assumed interest rate upon benefit settlement from 5.25% to 5.70% to reflect the settlement rate based upon bond yields as of December 31, 2024.

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the Plan's financial statements to Form 5500 at December 31, 2025 and 2024:

	2025	2024
Net assets available for benefits per the financial statements	$ 4,099,014,238	$ 4,180,189,974
Net assets held in 401(h) account included as assets in Form 5500	223,726,579	202,419,038
Net assets available for benefits per the Form 5500	$ 4,322,740,817	$ 4,382,609,012

The net assets of the 401(h) account included in Form 5500 are not available to pay pension benefits but can be used only to pay retiree health benefits.

The following is a reconciliation of the changes in net assets per the Plan's financial statements to Form 5500 for the years ended December 31, 2025 and 2024:

	Amounts per Financial Statements	401 (h) Account	Amounts per Form 5500
2025			
Investment income	$ 464,764,990	$ 23,353,786	$ 488,118,776
Benefits paid to participants	(292,516,166)	(1,520,019)	(294,036,185)
Administrative expenses	(15,429,821)	(526,226)	(15,956,047)
2024			
Investment income	$ 203,447,487	$ 9,482,329	$ 212,929,816
Benefits paid to participants	(278,125,356)	(1,597,646)	(279,723,002)
Administrative expenses	(14,995,148)	(509,964)	(15,505,112)

8. Derivatives

Derivatives, primarily futures and options, are used in the fixed income portfolio for duration and yield curve management, and to hedge or generate income. The use of derivatives is intended to allow portfolio investment risks to be managed more efficiently, flexibly and/or cost-effectively. The use of derivatives also includes additional risks, including counterparty risk and basis risk, which are evaluated and monitored as part of the investment process.

A liability-driven investment ("LDI") strategy was utilized by the Plan to hedge against interest rate risk related to the Plan's benefit obligations. The strategy was intended to mitigate the impact on the funded status of the Plan resulting from decreases in the discount rate used in the calculation of the pension liability. Investments in fixed income securities and derivatives were utilized to more closely align the duration of the Plan's investment portfolio with the duration of its liabilities. Specifically, the fixed income portfolio was invested in a broad range of long duration fixed income securities and treasury future contracts. The Plan's LDI strategy includes a completion portfolio, which holds treasury futures, utilized to further increase the duration of the Plan's investment portfolio to enhance de-risking the Plan and further protecting the Plan's funded status.

The following is a summary of the significant accounting policies associated with the use of derivatives:

Futures: Upon entering into a futures contract, the Master Trust is required to pledge to the broker an amount of cash and/or liquid securities equal to the minimum initial margin requirements of the exchange. Pursuant to the futures contract, the Master Trust agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are known as variation margin and are settled daily. The Plan's variation margins are recorded as assets (liabilities), and the Plan's change in variation margin is recorded in the Plan's statements of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments.

Options: Options involve the right, but not the obligation, of the Master Trust to buy or sell an asset at a specific price during a preset period of time. The purchase of an option involves a premium payment, and options are marked to market daily based upon quotations from market makers. The changes, if any, are recorded as unrealized gains (losses), and are included in the net appreciation (depreciation) in the fair value of the option instruments. These changes, as well as the settlements of options, when they are exercised, sold, or have expired, are recorded in the Plan's statement of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments.

The following table presents the fair value of derivative instruments by contract type as included in the Statements of Net Assets Available for Benefits as of December 31, 2025:

	Notional Amount	Gross Derivative Assets	Gross Derivative Liabilities
U.S. Treasury futures and options contracts	$ 1,541,500,000	$ 47,570	$ (10,497,268)
Non - U.S. government futures	56,500,000	160,234	(82,225)
Non - U.S. bond futures	12,000,000	9,431	(15,673)
Total	$ 1,610,000,000	$ 217,235	$ (10,595,166)

The following table presents the fair value of derivative instruments by contract type as included in the Statements of Net Assets Available for Benefits as of December 31, 2024:

	Notional Amount	Gross Derivative Assets	Gross Derivative Liabilities
U.S. Treasury futures and options contracts	$ 1,260,300,000	$ 159,359	$ (17,228,085)
Non - U.S. government futures	54,600,000	288,284	(398,029)
Credit default swaps	22,900,000	128,071	(95,753)
Total	$ 1,337,800,000	$ 575,714	$ (17,721,867)

The following table indicates the derivative income (loss), by contract type, as included in net appreciation in the fair value of investments on the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2025 and 2024:

	For Year Ended December 31, 2025	For Year Ended December 31, 2024
U.S. Treasury future and option contracts	$ 32,485,647	$ (86,999,846)
Non - U.S. government futures	349,963	7,707
Non - U.S. bond futures	122,559	(44,740)
Interest rate and credit default swaps	468,214	(779,625)
Foreign exchange contracts	(2,699)	(1,562)
Total income (loss)	$ 33,423,684	$ (87,818,066)

9. Fair Value Measurement

The authoritative guidance issued by the Financial Accounting Standards Board ("FASB") regarding fair value measurement provides a framework for measuring fair value for all assets and liabilities that are measured and reported at fair value. The guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk or the risks inherent in the inputs to the valuation, were used in the valuation process. Inputs to valuation can be readily observable, market corroborated, or unobservable. Valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs were used. The provisions also establish a fair value hierarchy that prioritizes the inputs used to measure fair value. All financial assets and liabilities carried at fair value were classified in one of the following three hierarchy levels:

Level 1: Inputs based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the reporting date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include the following:

- quoted prices for similar assets and liabilities in active markets,
- quoted prices for identical assets and liabilities in inactive markets,
- inputs other than quoted prices that are observable for the asset or liability, or
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology that is unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for the Plan's assets and the 401(h) account's assets measured at fair value.

- Common stock: The fair values of common stocks are determined by obtaining quoted prices from a nationally recognized exchange (Level 1 inputs).

- American depositary receipts (ADRs): The fair value of ADRs are determined by the closing price reported on the U.S. active markets on which the individual securities are traded (Level 1 inputs).

- U.S. government securities, corporate debt securities (including preferred), non-U.S. government debt securities, and municipal securities: Generally, U.S. government securities, corporate debt securities (including preferred), non-U.S. government debt securities, and municipal securities, are valued based upon recent bid prices or the average of recent bid and asked prices when available (Level 2 inputs) and, if not available, they are valued through matrix pricing models developed by sources considered by management to be reliable. Matrix pricing, which is a mathematical technique commonly used to price debt securities that are not actively traded, values debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs).

- Collateral held under securities lending agreements: Investment holdings in the separately managed Cash Collateral Account are made in accordance with the investment guidelines set forth in the SL Agreement. In accordance with the SL Agreement, approved investments consist of U.S. Government Securities, OECD obligations, obligations issued by certain 'supranational organizations', commercial paper, notes, bonds and other debt obligations, certificates of deposit and other bank obligations, asset backed securities, shares of money market funds registered with the Securities and Exchange Commission, and units of the BNYM SFA Cash Collateral Fund (Fund), a CIT which primarily holds repurchase agreements and time deposits. The fair value of investments held in the Cash Collateral Account (excluding units in the Fund) is based upon recent bid prices or the average of recent bid and asked prices when available (Level 2 inputs) and, if not available, they are valued through matrix pricing models developed by sources considered by management to be reliable. Matrix pricing, which is a mathematical technique commonly used to price debt securities that are not actively traded, values debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities with similar credit risk (Level 2 inputs).

  The Fund's investment objective is to provide current income while maintaining liquidity and stability of principal. The Fund intends to be a "Short Term Investment Fund." The assets of the Fund are invested substantially in instruments issued or fully guaranteed by the U.S. Government, repurchase transactions, short-term debt, bank obligations, and other money market eligible securities. The Fund maintains prudent diversification across instruments, market sectors, industries, and specific issuers. The Trustee does not currently impose liquidity fees or redemption gates on Fund redemptions. The fair value of the units held in the Fund is based on net asset value ("NAV") as a practical expedient reported by the Fund and its administrator.

  The types of investments held in the Cash Collateral Account at December 31, 2025 were repurchase transactions, corporate bonds, commercial paper, certificates of deposit, and the Fund. The types of investments held in the Cash Collateral Account at December 31, 2024 were repurchase transactions, corporate bonds, commercial paper, certificates of deposit, and time deposits.

- Registered investment companies: The fair values of registered investment company investments categorized as Level 1 are determined by obtaining quoted prices on nationally recognized securities exchanges. (Level 1 input).

- Limited partnerships: The fair value of units held in real estate investment trusts ("REITs") and private equity limited partnership investments is based on net asset value ("NAV") as a practical expedient reported by the funds and their administrators.

- The objective of the REITs is to acquire, own, hold for investment and ultimately dispose of investments in U.S. real estate and U.S. real estate related assets with the intention to achieve current income, capital appreciation or both. The fair value of the underlying real estate properties held by REIT investments is determined through an independent appraisal process. The Plan Sponsor substantiates the fair values at year-end through a review of the audited financial statements of the partnerships. Generally, REIT investments allow quarterly redemptions with forty-five-day notice by the Plan. All redemptions are subject to cash availability and liquidity of underlying investments.

  In December 2025, the Plan subscribed for limited partnership interest in Harrison Street Canada Alternative Real Estate Fund, L.P., a Cayman Island exempted limited partnership and the Fund qualifies and operates as a Venture Capital Operating Company (VCOC) and Real Estate Operating Company (REOC) which primarily invests in healthcare, education, storage, and digital properties located in Canada. As of December 31, 2025, the Plan's unfunded capital commitments were approximately $50 million. As of December 31, 2024, the Plan's commitment to REIT investments was 100% funded.

- The objective of the private equity limited partnerships is to invest in Portfolio Funds (pooled investment vehicles) managed by investment managers, co-investments, and secondaries with the primary intention to achieve capital appreciation. Under the terms of the agreements, management completed liquidating the remaining assets in the limited partnership, and the plan received its final distribution in 2024. The Plan Sponsor substantiated the fair values at year-end through a comparison of partner's K-1 to the partnerships' undistributed partners' capital as reported in the audited financial statements of the partnerships. As of December 31, 2025 and 2024, the Plan's future private equity capital commitments were $0.

- Limited liability companies (LLC): The fair value of shares held in a limited liability company ("Fund") which elected to be treated as a real estate investment trust ("REIT"), and qualifies as non-ERISA operating company are based on net asset value ("NAV") as a practical expedient reported by the Fund and its administrators. The objective of the open-ended real estate Fund is to achieve current income and long-term capital appreciation by investing in core real estate properties located in the United States. The fair value of the underlying real estate properties held by the Fund is determined through an independent appraisal process. The Plan Sponsor substantiates the fair values at year-end through a review of the Fund's audited financial statements. Generally, the Fund allows quarterly redemptions with notice by the end of the preceding quarter. All redemptions are subject to cash availability and liquidity of underlying investments.

- Common/collective trusts (CIT): The fair values of participation units held in common/collective trusts are based on the NAV as a practical expedient reported by the fund managers as of the financial statement dates and recent transaction prices. Under ordinary market conditions, common/collective trusts except for one Group Trust provide for daily redemptions, as applicable, by the Plan at reported NAV per shares. One Group Trust provides for monthly redemptions by the Plan at reported NAV per shares.

- Pooled separate account: The fair value of units held in an open-ended commingled insurance company separate account is based on the NAV as a practical expedient, provided by the fund and their administrators. The NAV is determined by fair value estimates of the underlying real estate investments based upon property appraisal reports prepared by independent real estate appraisers. Redemptions are allowed on the next valuation date following at least three months written notice. All redemptions are subject to cash availability and liquidity of underlying investments. The Plan Sponsor substantiates the fair values at year-end through a review of the audited financial statements of the real estate fund. As of December 31, 2025 and 2024, the Plan's commitment to the underlying real estate investment was 100% funded.

- 103-12 investment entities: In 2024, the fair values of 103-12 investment entities are based on the NAV as a practical expedient, provided by the funds and their administrators. 103-12 investment entities consist of a Group Trust investment and a private equity investment.
  - Group Trust investment: In December 2025, the Plan transferred its share of the assets held in the Group Trust to a CIT managed by the same manager. As of December 31, 2024, the NAV for the Group Trusts was determined by recent transaction prices of the underlying securities. Under ordinary market conditions, the Group Trusts provide for monthly contributions and redemptions by the Plan at reported NAV per share, with advance notice requirements of 5 - 10 business days.
  - Private equity investment: Under the terms of the agreements, management completed liquidating the remaining assets, and the Plan received its final distribution in 2025. The Plan Sponsor substantiated the fair values at year-end through a comparison of partner's K-1 to the partnerships' undistributed partners' capital as reported in the audited financial statements of the partnerships. As of December 31, 2025 and 2024, the Plan's future private equity capital commitments were $0.

- Other investment trusts: The fair values of the other investment trusts is based on the NAV as a practical expedient, provided by the funds and their administrators. Other investment trusts consist of one Delaware Statutory Trust (DST) investment, which retains a portfolio of investments in equity securities located in countries throughout the world including the United States.
  - The NAV for the DST is determined by recent transaction prices of the underlying securities. Under ordinary market conditions, the Delaware Trust provides for monthly contributions and redemptions by the Plan at reported NAV per share, with advance notice requirements of 10 business days.

- Derivative instruments: The fair values of the derivatives categorized as Level 1 are exchange-traded derivatives with fair market values based upon quoted market prices (Level 1 inputs).

The following table sets forth, by level within the fair value hierarchy, the Plan's assets and liabilities measured at fair value on a recurring basis as of December 31, 2025:

	Quoted Prices in Active Markets for Identified Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Measured at Net Asset Value as a Practical Expedient (a)	Total

SCHEDULE SB ATTACHMENTS

Benefit commencement date:

• Preretirement death benefit	The later of the death of the active participant or the date the participant would have attained age 65.
• Deferred vested benefit	The later of age 62 or termination of employment.
• Disability benefit	Upon disablement.
• Retirement benefit	Upon termination of employment.

Form of payment

• Cash Balance formula	30% lump sum, 70% life annuity.
• Retirement formulas	Life annuity.

Percent married	85% of males; 65% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.
Spouse age	Wife three years younger than husband.

Covered pay

• Cash Balance formula	W-2 pay plus the value of deferred compensation for management participants. Pensionable Pay (base salary) for union participants.
• Retirement formulas	Pensionable Pay (base salary).

At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the lump sum form of payment.

SCHEDULE SB ATTACHMENTS

Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.
Funding policy	Ameren's funding policy of the Plan is to fund its pension plan at a level equal to the greater of the pension expense or the legally required contribution.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in

some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Ameren regarding the likelihood that these benefits will be paid.

WTW has reviewed the plan provisions with Ameren and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor through its third-party administrator, furnished participant data as of 1/1/2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions for Contributions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Cash Balance Interest crediting rate

The plan credits interest to cash balance accounts using the 1-year Treasury rate plus 1%, but with a minimum interest crediting rate of 5% and a maximum of 10%. Ameren has selected an assumed interest crediting rate after 2025 of 5.50%. The actual 2025 rate of 5.20% was used in the valuation. After examining historical variability in this rate and considering the increase in interest crediting expected to be caused by the minimum interest credit, we believe that the selected assumption does not significantly conflict with what would be reasonable based on future expectations consistent with other economic assumptions used, other than the discount rate.

SCHEDULE SB ATTACHMENTS

Plan-related expenses	Administrative expenses are estimated by determining the expected actual expenses for the coming year, reflecting items such as expected PBGC premiums and the administrative expenses.

SCHEDULE SB ATTACHMENTS

Rates of increase in:

• Compensation	Assumed compensation increases are based on plan sponsor expectations for near-term years and the effect that the assumed long-term CPI and NAW will have on compensation increases over the longer term. The resulting salary increase assumption is a composite rate that reflects both current conditions and future expectations.
• Assumed return for asset smoothing	The assumed return of 5.59% used for asset smoothing is the third segment rate. Although we have not explicitly determined an expected return on assets, based on an analysis of the plan sponsor's investment policy we believe the rate to be above the third segment rate with the help of their investment advisers for the 2024 plan year under U.S. GAAP. We concurred with that assumption. Although determining the expected rate of return on plan assets was not within the scope of our work, it is the client's best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation.

Assumptions Rationale - Significant Demographic Assumptions

Mortality (Healthy and Disabled)	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2020, with ongoing consideration of whether any conditions have changed that would be expected to produce different results in the future. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.
Retirement	Retirement rates were based on an experience study conducted in 2020, with ongoing consideration of whether any conditions have changed that would be expected to produce different results in the future.

SCHEDULE SB ATTACHMENTS

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

SCHEDULE SB ATTACHMENTS

Form of payment	The percentage of retiring participants assumed to take lump sums is based on an experience study conducted in 2020 and updated based upon observed experience over the period 2020-2021. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law,” as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430 or were selected by the plan sponsor from a range of methods permitted by IRC §430. The effective interest rates used to calculate the funding target and target normal cost was adjusted from using the segment interest rates to the full corporate bond yield curve and updated to the current valuation date as required by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation	The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest base mortality table and mortality improvement scale, as required by guidance issued by IRS under IRC §430. The interest crediting rate was updated to reflect the actual rate of 5.20% for 2025. The salary scale was updated to 4.00%.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V
Summary of Plan Provisions

Ameren Cash Balance Plan Provisions

Effective date	Most recently amended and restated effective January 2024.
Covered employees	Missouri employees covered by a collective bargaining agreement hired on or after July 1, 2013. Generally, all non-union employees, AER Union employees and Ameren Illinois Union employees hired after October 25, 2012.
Participation date	First day of the month following date of employment.

Definitions – Cash Balance

Cash balance account	The notional account maintained on behalf of a participant.
Enhancement account	An additional notional account maintained on behalf of a participant.
Transition date	For participants in the Union Electric Company Retirement Plan or the Central Illinois Public Service Company Retirement Income Plan, the transition date is December 31, 1997. For participants in the CILCO Salaried Supplement Pension Plan ("CILCO") or the IP Salaried Supplemental Pension Plan ("IP"), the transition date is June 30, 2010. For participants in the AER Union groups, the transition date is December 31, 2011.
Years of service	One Year of Service for each Plan Year in which the participant has completed at least 1,000 hours of service as an employee (after the transition to cash balance formula).
Compensation	Any amount paid to an employee during the calendar year for services rendered while a participant. For non-union employees, includes regular salary, regular wages, overtime pay, earned vacation pay, bonuses, overtime, premium pay, deferred compensation and amounts contributed to a 401(k). For union employees, includes the regular basic monthly

	wages or salary, excluding shift components, overtime, premium payments or bonuses. This compensation does not include any pay in excess of the IRC 401(a)(17) limit on compensation.
Deferred vested	Termination for reasons other than death or retirement after completing three years of vesting service or attaining early retirement eligibility.
Normal retirement date (NRD)	First of the month coinciding with or next following attainment of age 65.
Social Security wage base	For a Plan Year, the maximum annual wage base upon which Old-Age, Survivors, and Disability Insurance taxes are based during such Plan Year.
Transition credit service	For participants in either the Union Electric Company Retirement Pension Plan or the Central Illinois Public Service Company Retirement Income Plan as of December 31, 1997, the lesser of the participant's accredited service expected to be earned by the participant if he or she remained an employee until December 31, 1998, rounded up to the next highest year in the event of any partial year, and 10 years. For participants in either the CILCO or the IP plans, 5 years were awarded if the employee had attained age 40 with 10 years of service or had attained age 50 with 5 years of service as of June 30, 2010. Otherwise, 0 years were awarded. For participation in the AER Union plan, 5 years were awarded if the employee had attained age 45 with 5 years of service at December 31, 2011.
Opening balance credit	The actuarial present value of the monthly accrued benefit under the prior plan on the transition date, including a value for early retirement subsidies. At January 1, 2012, AER Union participants are awarded a one-time $6,500 credit to their opening balance.
Opening enhancement account balance	The formula for the opening balance for the enhancement account was: • $1,000 x Years of Service at 1/1/2001 x Discount Factor • The Discount Factor is 1.0 for ages 55 and higher, and is reduced 6.5% for each year under age 55.

- For employees who transferred prior to 7/1/2013 the same formula applies using Years of Service as of the end of the month before transfer.

For CILCO/IP Management and AER Union employees, there is no enhancement opening account balance.

Annual cash balance contribution credits

A percentage of compensation for each Year of Service according to the following schedule:

Age as of 12/31	Cash Balance Credit	Transition Credit*			
		UE/CIPS	IP	CILCO	AER Union
Less than 30	3.0%	1.0%	0.0%	0.0%	0.0%
30-34	4.0%	1.0%	0.0%	0.0%	0.0%
35-39	4.0%	2.0%	0.0%	0.0%	0.0%
40-44	5.0%	3.0%	4.0%	6.0%	0.0%
45-49	6.0%	4.5%	6.0%	8.0%	6.0%
50-54	7.0%	4.0%	5.0%	7.0%	5.0%
55 and Over	8.0%	3.0%	4.0%	6.0%	4.0%

*Credited for a period equal to the participant's Transition Credit Service. Transition credits end 6/30/2015 for Management participants and 12/31/2016 for Union participants.

An additional 3% is credited on pay in excess of the Social Security Wage Base for management and Calloway Security officers.

Contribution credits will be credited to the participant's account each year at the earlier of termination or December 31.

Enhancement account contribution credits

An annual credit of $500 will be added to the enhancement account at the end of each year for those who worked 1,000 hours or more.

For AER Union, there are no enhancement account contribution credits.

Interest credits

The beginning-of-year account balance will be accumulated with interest each year to the earlier of payment or December 31. Interest is credited at the average yield on 1-year Treasuries for the month of October preceding the first day of the plan year plus 1%. In no event will the interest credit be less than 5%.

SCHEDULE SB ATTACHMENTS

Accrued benefit	Sum of account balances at determination accumulated with interest credits only to age 65, divided by an age 65 annuity factor (based on the yield on 30-year Treasuries).
Early retirement benefit	The sum of the current cash balance account and the enhancement account divided by an annuity factor (based on 1983 GAM and 7.5% interest) at the determination age, but not greater than the accrued benefit. In no event is the accrued benefit less than the prior plan accrued benefit.
Social Security supplement	An amount payable to a retiree who has attained age 55, but not age 62, designed to compensate for the Social Security Benefit until the participant reaches age 62. The supplement can be taken instead of the enhancement account if desired. The formulas for determining the supplement amount follow:
• Union Electric	The sum of age and years of service at December 31, 1998, minus 55, multiplied by $50. This amount cannot be greater than $1,000, but not less than the Social Security supplement calculated under the prior plan as of December 1, 1998.
• Central Illinois Public Service Company	The sum of age and years of service at December 31, 1998, minus 55, multiplied by $30. This amount cannot be greater than $600, but not less than the Social Security supplement calculated under the prior plan as of December 31, 1998.
• AER Union (former CIPS Union Local 148)	Participants who were age 55 or older at January 1, 2012 are entitled to receive their Social Security Supplement as calculated under the prior plan at December 31, 2011.
• Central Illinois Light Company/ Illinois Power	N/A

Definitions – Prior Plan

Covered compensation (Union Electric)	The average of the Social Security taxable wage bases in effect for each calendar year during the 35-year period ending with the last day of the calendar year in which the participant attains Social Security Retirement Age (as defined in Section 415(b)(8) of the Internal Revenue Code), assuming no changes in the Social Security Wage Base after the participant's termination.

SCHEDULE SB ATTACHMENTS

Social Security Benefit (SSB) (CIPS)	The projected amount of the participant's primary Social Security benefit payable at the later of age 62 or termination (age 65 for deferred vested terminations), including reductions for early retirement, according to the law in effect at the date of termination of employment assuming no earnings after termination of employment.

SCHEDULE SB ATTACHMENTS

AmerenIP Management Plan:

- Covered compensation

Average of the Social Security wage bases for the 35-year period ending with the year of attainment of Social Security Normal Retirement Age (SSNRA). The current wage base is assumed for all future years in computing the average.

- Social Security benefit

(A) times (B) times (C)

(A) Social Security Normal Retirement Age (SSNRA) factor:

SSNRA	Factor
65	0.3312
66	0.3036
67	0.2760

(B) Ratio factor: Ratio of final average compensation to year-of-birth covered compensation (interpolated for interim values):

Ratio	Factor
1.00 or less	1.0000
1.25	0.8696
1.50	0.7681
1.75	0.6812
2.00 or more	0.6812

(C) Final average compensation: Average of earnings up to Social Security wage base average over the last 36 months of credited service.

Final Average Earnings (FAE):

- Union Electric

The average of the final five consecutive calendar years of monthly plan earnings ending on the earlier of the participant's termination date or retirement date.

- Central Illinois Public Service Company

The average of the highest 48 consecutive calendar months of plan earnings during the 120-month period ending on the earlier of the participant's termination date or retirement date.

- CILCO MOT Pension Plan

The highest average monthly pensionable pay for any 60 consecutive calendar month period of the participant's employment ending on the earlier of the participant's termination date or retirement date.

SCHEDULE SB ATTACHMENTS

• AmerenIP Management Plan	Highest monthly average of 60 consecutive months out of the last 120 months of credited service.

SCHEDULE SB ATTACHMENTS

Prior Plan Accrued Benefit:

• Union Electric	1.25% of monthly FAE up to Covered Compensation multiplied by years of service (45-year maximum), plus 0.35% of monthly FAE above Covered Compensation multiplied by years of service (35-year maximum) up through 12/31/98.
• Central Illinois Public Service Company	1.50% of monthly FAE reduced by 1.25% of monthly SSB multiplied by years of service (45-year maximum) up through 12/31/98.
• CILCO MOT Pension Plan	1.425% of Average Monthly Earnings times service up to 35 years, plus .3% of Average Monthly Earnings for service over 35 years. Benefit is reduced by benefit under MOT Retirement plan.
• CILCO Union Pension Plan	1.425% of Average Monthly Earnings times service up to 35 years, plus .3% of Average Monthly Earnings for service over 35 years. Benefit is reduced by benefit under MOT Retirement plan.
• Ameren CILCO NCF&O Pension Plan	Greater of 1) or 2) below: 1) 1.425% of Average Monthly Earnings (AME) times service up to 35 years plus .3% of AME times service over 35 years. 2) Prior plan accrued benefit at June 30, 1992.
• AmerenIP Management Plan	Base Benefit less Offset Benefit. Base Benefit: 2% of final average earnings times credited service (maximum 30 years). Offset Benefit: 1.67% of Social Security benefit times credited service (maximum 30 years).
• CILCO QSERP	Certain participants at CILCO have a QSERP benefit included in their cash balance accounts.

Eligibility for Benefits

Normal retirement	Retirement on NRD.
Early retirement	Retirement before NRD.

SCHEDULE SB ATTACHMENTS

Postponed retirement	Retirement after NRD.
Deferred vested	Terminate for reasons other than death or retirement after completing three or more years of vesting service. Participants with at least three years of service as of December 31, 1998, or who have attained age 55 by December 31, 1998 are fully vested.
Preretirement death benefit	Die while eligible for deferred vested, early, normal, or postponed retirement benefits.
Disability	Eligible to receive disability payments under the employer's long term disability plan.

Monthly Benefits Paid Upon the Following Events

Normal retirement	The account balance converted to an annuity.
Early retirement	The account balance converted to an annuity.
Postponed retirement	The account balance converted to an annuity.
Termination with deferred vested benefit	The account balance converted to an annuity.
Preretirement spouse benefits	The account balance converted to an annuity.
Disability	The account balance converted to an annuity.
Forms of payment	Monthly pension benefits are payable for life, with a lump-sum option available. If married, they will be paid in the form of a 50% joint-and-survivor annuity, or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 100% joint-and-survivor annuity and a 75% joint-and-survivor annuity.
Maximum on benefits	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing dollar limits automatically as such changes become effective.

Average earnings	The average of the highest 48 consecutive calendar months of pensionable pay during the 120-month period ending on the earlier of the participant's termination date or retirement date.
Participant's accumulation	The total of a participant's contributions to the plan as of a specified date, plus interest at the rate specified in the plan up to that date.
Social Security benefit	The projected amount of the participant's primary Social Security benefit payable at the later of age 62 or termination (age 65 for deferred vested terminations), including reductions for early retirement, according to the law in effect at the date of termination of employment assuming no earnings after termination of employment.
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65.

SCHEDULE SB ATTACHMENTS

Monthly pension benefit

Benefit amounts are determined by the following formulas, both of which are based on some percentage of Final Average Pay less the Social Security offset, plus the Flat Benefit, plus an additional benefit based on the participant's accumulated contributions (if applicable).

	IBEW
Percentage of Final Average Pay	1.5% x Pension Service up to 45 years
Social Security Offset	1.25% x Pension Service up to 45 years multiplied by primary Social Security Benefit
Flat Benefit	$5 x Pension Service

Monthly postretirement spouse benefit

For active participants, 50% (plus/minus 0.5% for each year the spouse is older/younger than the participant) of the monthly pension benefit as of the date of death, reduced for payment as early as the employee's 55th birthday. For terminated vested participants, 50% of the monthly pension benefit reduced to account for the 50% joint and survivor form of payment, and further reduced for payment as early as the participant's 55th birthday.

Eligibility for Benefits

Normal retirement

Retirement at age 65.

Early retirement

Retirement before age 65 and on or after attaining age 55.

Postponed retirement

Retirement after age 65.

Deferred vested

Termination for reasons other than death or retirement after completing five years of vesting service or attaining early retirement eligibility.

Preretirement spouse benefit

Death while eligible for normal, early, postponed or deferred vested retirement benefits, with a surviving spouse.

Disability benefit

Total disablement after completing 15 years of pension service, and remaining disabled to age 65.

SCHEDULE SB ATTACHMENTS

Monthly Benefits Paid Upon the Following Events	
Normal retirement	Monthly pension benefit determined as of age 65.
Early retirement	Monthly pension benefit determined as of early retirement date, reduced 3% for each year that commencement of payment precedes age 62. For those that retire from active status, the Flat Benefit and Social Security Offset are unreduced.
Postponed retirement	Monthly pension benefit determined as of actual retirement date.
Termination with deferred vested benefit	Monthly pension benefit determined as of termination date, reduced 6% for each year that commencement of payments precedes age 65.
Death with preretirement spouse benefits	Monthly preretirement spouse benefit is payable.
Disability retirement	Monthly pension commencing as of age 65 and determined assuming constant pensionable earnings and accrual of pension service during the period of disability.
Refund of employee contributions	If an active participant dies or terminates without being eligible for any other benefits under the plan, the Participant's Accumulation will be paid to his or her beneficiary. If an active participant terminates while eligible for a vested benefit, the Participant's Accumulation may be refunded upon request, with a corresponding reduction in his or her benefit. If total retirement benefits paid to a participant and his or her surviving spouse are less than the Participant's Accumulation at retirement, the balance will be paid to his or her beneficiary.
Forms of payment	Monthly pension benefits will be paid as described above, if the participant has no eligible spouse as of the date payments begin. Otherwise, retirement benefits are paid in the form of a qualified 50% (plus/minus 0.5% for each year the spouse is older/younger than the participant) joint and survivor annuity option. Vested termination benefits are payable as a life annuity if the participant has no eligible spouse, otherwise as an actuarially equivalent 50% joint and survivor annuity. For IBEW, a 75% or 100% survivor option is also available, along with a 50% non-spouse survivor option.
