Plan Administrator and Plan Participants
Local Government Corporation Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit
We have performed audits of the financial statements of Local Government Corporation Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in note 3 to the financial statements, is complete and accurate.

Opinion
In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (US GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of US GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with US GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of assets held at year-end - schedule H, line 4i, as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. **Description of Plan**

The following description of the Local Government Corporation Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions. The Plan was established on October 1,1990.

General

The Plan is a tax deferred annuity contract plan under Internal Revenue Code (IRC) Section 403(b) covering eligible employees of Local Government Corporation (the Employer), a tax-exempt organization under Code Section 501(c)(3). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors is responsible for the oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Prior to November 1, 2025, the Plan was funded with a group annuity contract issued by American United Life Insurance Company (AUL). The Plan also included a second custodian, Lincoln National Life Insurance Company (Lincoln), which held investments (group variable annuity contracts) for long-time participants who had not transferred their investments to AUL or taken a distribution. No contributions were allowed to be made to Lincoln. At December 31, 2024, no investment balances remain with Lincoln.

Effective November 1, 2025, Empower Trust Company, LLC became the custodian of the Plan for the investments held by the Plan in custodial accounts which consist of registered investment companies at December 31, 2025. In addition, the Plan entered into a group annuity contract with Empower Annuity Insurance Company of America to provide the Plan with fixed investment options. All assets of the Plan transferred to Empower Trust Company, LLC. See notes 3 and 5. In connection with this change of custodians, the Plan was amended and restated.

Eligibility

Employees who normally work greater than 20 hours per week and are not non-resident aliens are eligible to participate in deferral contributions upon hire. Employees are eligible to receive an employer matching contribution upon completing 12 months of employment with at least 1,000 hours of service during the year. Union employees do not participate in employer contributions.

Effective June 5, 2024, employees normally working less than 20 hours per week became eligible to participate in the Plan but not eligible to receive an employer matching or discretionary nonelective contribution.

Effective November 1, 2025, employees working less than 20 hours per week are eligible to participate in the plan under the long-term part-time employee provisions of the Setting Every Community Up for Retirement Enhancement 2.0 Act of 2022 (SECURE 2.0 Act).

Contributions

Eligible employees may contribute under pre-tax or after-tax Roth salary deferral arrangements up to 100% of annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. In addition, participants age 60 to 63 are eligible to make enhanced catch-up contributions in accordance with the SECURE 2.0 Act. Participants may also contribute amounts representing distributions from other qualified plans.

Note 1. **Description of Plan**

Contributions
Prior to November 1, 2025, the Employer elected, at its discretion, to contribute matching contributions equal to 3% of an employee's eligible compensation. In addition, the Employer contributed a discretionary nonelective contribution of 3%.

Effective November 1, 2025, Employer contributions are no longer discretionary. The matching contribution became a fixed match equal to 100% of a participant's deferral up to a maximum of 3% of an employee's eligible compensation. The additional Employer contribution became a fixed nonelective contribution of 3%. Participant catch-up contributions are not included in the Employer match.

Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to certain IRC limitations.

Participant Accounts
Participant contributions are held in group annuity and custodial accounts. Each participant's account is credited with the participant's contribution and plan earnings and is charged with an allocation of administrative expenses and plan losses. Allocations are based on participant earnings, account balances, or participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting
Participants are immediately vested in their contributions and Employer contributions plus actual earnings thereon.

Participant Loans
Participant loans are not permitted by the Plan.

Payment of Benefits
Upon termination of services due to death, disability, or retirement, a participant may elect to receive the value of their account in the form of a lump-sum or partial distributions. Partial or installment benefits are also permitted to satisfy the required minimum distribution rules of the IRC. In-service distributions are allowed at normal retirement age of 59 ½, disability, and for hardship reasons in accordance with plan provisions. The Plan was amended effective June 5, 2024, to allow hardship distributions from all vested contribution sources of a participant's account.

Effective November 1, 2025, a participant may elect to convert all or any portion of their non-Roth vested account balance to an in-plan Roth conversion account. For a participant to convert they must be eligible to take a distribution from the Plan. Distributions made on or after November 1, 2025, under the involuntary cash-out provisions of the Plan are increased from $5,000 to $7,000. These provisions provide for a lump-sum distribution to a participant who has a severance from employment without the participant's consent.

Forfeited Accounts
Forfeited nonvested accounts are used to pay administrative expenses or reduce future employer contributions. The balances in the forfeiture account at December 31, 2025 and 2024, were $10,032 and $0, respectively. No forfeitures were used during the plan year.

Note 2. **Summary of Significant Accounting Policies**

Basis of Accounting
The financial statements of the Plan are presented in conformity with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates
The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value (except for fully benefit-responsive contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Employer determines the Plan's valuation policies utilizing information provided by the insurance and trust companies.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net change in fair value and contract value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments
Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses paid by the Employer are excluded from these financial statements. Fees related to benefit payments are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net change in fair value and contract value of investments.

Note 3. **Certification**

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information included in the accompanying financial statements, notes, and supplemental schedule was obtained by management and agreed to or derived from information certified as complete and accurate by Empower Annuity Insurance Company of America and Empower Trust Company, LLC, (collectively Empower) as of December 31, 2025, and for the period from November 1, 2025 to December 31, 2025, and by AUL, as of December 31, 2024, and for the period from January 1, 2025 to October 31, 2025. Empower and AUL are custodians of the Plan. The Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this information.

- Investments at fair value and contract value
- Net change in fair value and contract value of investments
- Interest and dividend income

Note 4. **Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and that the Plan has the ability to access.

Level 2 inputs are based on observable inputs corroborated by market data but not quoted on active markets.

Level 3 inputs are based on unobservable inputs and include situations where there is little, if any, market activity for the assets or liabilities and have the lowest priority.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Registered Investment Companies: Valued at the daily closing prices as reported by the fund. These funds held by the Plan are registered with the Securities and Exchange Commission. The funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and are classified as Level 1.

Separate Accounts: Valued at the net asset value (NAV) of units held. NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Pursuant to Accounting Standards Update 2015-07, *Fair Value Measurements*, the separate accounts measured at NAV have not been classified in the fair value hierarchy.

Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the accounts, the investment adviser reserved the right to temporarily delay withdrawal from the trust in order to ensure that security liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There have been no changes in the valuation methodologies used at December 31, 2025 and 2024.

Note 4. **Fair Value Measurements**

The following tables set forth, by fair value hierarchy, the Plan's investments at fair value.

At December 31, 2025:

	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 32,431,389	$ -	$ -	$ 32,431,389

The following tables set forth the Plan's investments at December 31, 2024:

Separate accounts measured at NAV practical expedient	$ 27,015,095

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2024:

	Fair Value	Unfunded commitments	Redemption frequency	Redemption notice period
Separate accounts	$ 27,015,095	None	Daily	Daily

At December 31, 2024, the Plan held various separate accounts. A majority of these accounts sought to mirror the investment objectives and strategies of the underlying mutual fund or category for which the separate account was named. Certain other separate accounts were target date funds which sought capital appreciation and income consistent with asset allocations that become more conservative over time to the specified target retirement date.

Note 5. **Investments at Contract Value**

The Plan entered into two fixed investment options under a group annuity contract issued by AUL. Effective November 1, 2025, the Plan entered into a fixed investment option under a group annuity contract issued by Empower Annuity Insurance Company of America (Empower Annuity). Empower Annuity and AUL maintain the funds in their general account. The options are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The minimum guaranteed interest rate under the contracts cannot be less than 1% to 3% as calculated by Empower Annuity and AUL based on contract provisions.

The group annuity contract with Empower Annuity is a traditional investment contract in which interest rates are established and declared on a semi-annual basis for a six-month guaranteed period. The credit rate is based on a formula agreed upon with the issuer. The rate will not decrease by more than 0.75% from the prior period and will never fall below the guaranteed minimum rate of 1% to 3%. The rate is credited net of annual asset charges. The credited rate at December 31, 2025, was 4%.

Note 5. **Investments at Contract Value**

Under AUL, interest rates were established and declared for new contributions that were received in a calendar quarter. The rates were based on the return expected on new investments made and held within the general account and would always equal or exceed the contractually guaranteed rate. All contributions received during the quarter earned the interest rate declared until the end of the calendar year next following the current year. Each quarter's contributions and the corresponding interest rate were tracked together administratively in a separate quarterly interest rate pocket (Quarterly Pocket). At the end of the calendar year next following the current year, the Quarterly Pockets established in the current year were converted to an annual interest rate pocket (Annual Pocket). At the beginning of each year, a new interest rate was established and declared for each Annual Pocket. This rate was based on past general account investments, adjusted for portfolio turnover and withdrawals for benefit payments.

These investments meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Empower Annuity and AUL, represents contributions made under the contracts, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. There are no reserves against contract value for the credit risk of the issuer or otherwise.

Certain events might limit the ability of the Plan to transact at contract value with the issuer or may allow the issuer to terminate the contract and settle at an amount different from contract value. Under both annuity contracts, such events include (1) full or partial plan termination, (2) insolvency of the plan sponsor, (3) aggregate termination or withdrawals in any contract year exceeding 10% (Empower Annuity) or 20% (AUL) of the full contract value as determined on the first day of that contract year, (4) premature termination of the contract by the Plan, or (5) a material breach of the contract or regulations by the Plan. Total liquidation is a contingent event which cannot be initiated by plan participants and can only be initiated by the plan administrator upon termination of the Plan or complete termination of the contract. No events are probable of occurring that would limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with participants.

There were no AUL contract balances remaining at December 31, 2025. Amounts were transferred to Empower as applicable.

Note 6. **Related Party and Party-in-interest Transactions**

Parties-in-interest are defined under the United States Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Employer, and certain others. Plan investments are managed by the Custodians. These transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction provisions of ERISA. Fees related to the management of investments are recorded against investment returns. Fees paid by the Plan for administrative recordkeeping services amounted to $1,400 during the 2025 plan year. These transactions are exempt from the prohibited transaction provisions of ERISA and the IRC.

Note 6. **Related Party and Party-in-interest Transactions**

Empower, as a plan custodian, receives revenue from underlying plan investment fund service providers for services it provides for the funds. These revenues are used to offset certain fees owed to the custodian for its administrative expenses to the Plan. If this revenue exceeds the amount owed, it is remitted to the Plan by the custodian. Such amounts may be applied to pay plan administrative expenses or allocated to participants. During 2025, $10,000 in excess revenue was received by the Plan and is included in the Plan's forfeiture account balance. No amounts were used to pay plan expenses or were allocated to participants. These transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction provisions of ERISA.

Note 7. **Income Tax Status**

The Plan has been designed to qualify under Section 403(b) of the IRC. Effective November 11, 2025, the Plan adopted a 403(b) volume submitter plan document sponsored by Empower Retirement, LLC. The plan document sponsor has received an opinion letter dated November 14, 2022, from the Internal Revenue Service (IRS) as to the volume submitter plan's qualified status. Prior to November 11, 2025, the Plan adopted a volume submitter pre-approved plan document sponsored by OneAmerica Financial Partners, Inc. The volume submitter sponsor had received an opinion letter dated November 22, 2017, from the IRS as to the volume submitter plan's qualified status. The opinion letters have been relied upon by the Plan. The plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and therefore believes that the Plan maintains the tax-exempt status for plan participants under Section 403(b).

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions that have been taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to IRS examination for years prior to 2022.

Note 8. **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 9. **Plan Termination**

Although it has not expressed any intent to do so, the Employer has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would receive their account balance in accordance with plan provisions.

Note 10. **Subsequent Events**

Management has evaluated subsequent events through October 1, 2026, the date on which the financial statements were available for issuance.
