Payment of Benefits
Upon termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive their vested benefit in either a lump-sum distribution or a direct rollover distribution. Participants with a vested account balance greater than $5,000 also have the option to receive installment payments. Participants who are still employed by the Company but have reached age 59 ½ may withdraw all or any part of their vested balance, subject to Plan provisions.

Forfeitures
Forfeitures by non-vested participants are used to reduce employer contributions or pay plan expenses. As of December 31, 2009 and 2008, unallocated forfeitures available for future use were $2,948 and $5, respectively. During the years ended December 31, 2009 and 2008, forfeitures of, $131 and $4,511, respectively, were used to fund a portion of the Companies' contributions.

Participant Loans
Participants may borrow from their fund accounts a minimum of $500 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of prime plus 2% at the time of inception. Rates on loans outstanding as of December 31, 2009 ranged from 5.25% to 10.25%. The loans are repaid ratably through payroll deductions over a period of five years or less, unless such loan is for the purchase of a participant's primary residence. Participants may not have more than one loan outstanding at any given time.

Administrative Expenses
The Company pays certain administrative expenses incurred by the Plan, including recordkeeping, trustee and audit fees. Transaction costs borne by the Plan are charged to the individual participant who initiated the transaction to which the charge relates by reducing the participant's account balance.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

2. Summary of Significant Accounting Policies (continued)

Adoption of Accounting Standards Codification ("ASC")
In June 2009, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles- a replacement of FASB Statement No. 162* (The Codification). The Codification reorganized existing U.S. accounting and reporting standards issued by the FASB and other related private sector standard setters into a single source of authoritative accounting principles arranged by topic. The Codification supersedes all existing U.S accounting standards; all other accounting literature not included in the Codification (other than Securities and Exchange Commission guidance for publicly-traded companies) is considered non-authoritative. The Codification was effective on a prospective basis for interim and annual reporting periods ending after September 15, 2009. The adoption of the Codification changed the Company references to U.S. GAAP accounting standards but did not impact the Company's results of operations, financial position or liquidity.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments in mutual funds are stated at fair value, which is the net asset value, as determined by published market prices, of shares held by the Plan at the end of the year. Participant loans are stated at amortized cost, which approximates their fair value.

The Plan presents, in the Statements of Changes in Net Assets Available for Benefits, the net appreciation or depreciation in the fair value of investments. This consists of the realized and unrealized gains or losses on those investments.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Common Collective Trust
The plan includes a fully-benefit-responsive investment contract with Merrill Lynch Bank USA. ("Merrill Lynch"). Merrill Lynch maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the Statements of Net Assets Available for Benefits at fair value as determined using the market approach based on market prices of similar contracts. The adjustment from fair value to contract value represents contributions made under the contact, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the Trust at December 31, 2009 and 2008 was $856,615 and $799,443, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent.

2. Summary of Significant Accounting Policies (continued)

Common Collective Trust (continued)
Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the plan documents (including complete or partial plan terminations or merger with another plan), 2) bankruptcy of the plan sponsor or other plan sponsor events, such as divestitures or spin-offs of a subsidiary, that cause a significant withdrawal from the Plan, or 3) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transactions exemption under ERISA. The Plan administrator does not believe the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Average yields:

	2009	2008
Based on annualized earnings (1)	**2.35%**	9.49%
Based on interest rate credited to participants (2)	**2.57%**	4.28%

(1) Computed by dividing the annualized earnings of all investments in the Trust on the last day of the year by the fair value of all investments in the Trust.
(2) Computed by dividing the annualized earnings credited to participants in the Trust on the last day of the year by the fair value of all investments in the Trust.

Benefit Payments
Benefits are recorded when paid.

Risks and Uncertainties
The Plan provides for various options in any combination of specified investments. The underlying investments may include stocks, bonds, fixed income securities, mutual funds and other investment securities. Such investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants' accounts will become fully vested and non-forfeitable.

Subsequent Events
In May 2009, the FASB issued accounting guidance related to subsequent events. The guidance establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued. The Company adopted the provisions of this guidance effective May 2009. Subsequent events have been evaluated through the date of the independent auditors' report.

3. Investments

The Plan held the following investments, at fair value, as of December 31, 2009 and 2008, which individually represent 5% or more of net assets available for benefits:

	2009	2008
BlackRock Fundamental Growth Fund	$ **198,108**	$ 186,743
Merrill Lynch Retirement Preservation Trust	**856,615**	799,443
Davis New York Venture Fund	**168,027**	124,783
BlackRock S&P 500 Index Fund	**196,078**	139,032
AllianceBernstein International Value Fund	**161,500**	122,533
BlackRock Balanced Capital Fund	**167,504**	119,834

4. Information Certified by the Plan's Trustee (unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information as of December 31, 2009 and 2008, included in the accompanying financial statements and supplemental schedule has been certified by JPMorgan Chase Bank, the trustee, as complete and accurate:

	2009	2008
Mutual Funds, at fair value	$ **1,440,010**	$ 1,066,079
Common collective trust, at fair value	**856,615**	799,443
Participant loans, at cost	**218,768**	187,454
	2,515,393	2,052,976

The following investment income information for the year ended December 31, 2009 has been certified as complete and accurate by the trustee:

	2009
Interest and dividend income (including interest on participant loans)	$ **34,692**
Net appreciation in fair value of mutual funds	**303,868**
Net appreciation in fair value of common collective trust	**10,404**

As permitted under such election, the Plan's independent auditors did not perform auditing procedures with respect to the information certified to by the Plan trustee except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Fair Value Measurements

FASB accounting guidance related to fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

5. Fair Value Measurements (continued)

The three levels of the fair value hierarchy under the accounting guidance are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds: Valued at the net asset value ("NAV"), as determined by published market prices, of shares held by the Plan at year end.

Common collective trust: Valued at fair value determined using the market approach based on market prices of similar contracts.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,440,010	$ -	$ -	$ 1,440,010
Common collective trust	-	856,615	-	856,615
Participant loans	-	-	218,768	218,768
Total assets at fair value	$ 1,440,010	$ 856,615	$ 218,768	$ 2,515,393

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009.

	Participant loans
Beginning balance	$ 187,454
Loan issuances	120,586
Loan settlements	(81,890)
Other	(7,382)
Ending balance	$ 218,768

6. Tax Status

The Plan uses a prototype plan document sponsored by Automatic Data Processing, Inc. (ADP). ADP received an opinion letter from the Internal Revenue Service (IRS) dated November 6, 2001, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:
