401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008 (See Independent Auditors' Report)

NOTE 1 - DESCRIPTION OF PLAN

General **-** The following description of the Continental Sales & Marketing, Inc. Profit Sharing 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that was established on January 1, 1995 by Continental Sales & Marketing, Inc. and its affiliate, Crossroad Services, Inc. (collectively referred to as "the Company" or "Plan Administrator") covering all eligible employees, as defined in the Plan agreement. The Plan Administrator believes the Plan is designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration **-** The Company has appointed an Administrative Committee ("the Committee") to manage the operation and administration of the Plan. The Company has contracted with TD Ameritrade Trust Company ("TD Ameritrade"), to act as trustee and custodian and with a third-party administrator to process and maintain certain records of participant data.

Contributions **-** Each year, participants may contribute up to 100% of eligible compensation as defined in the Plan agreement, not to exceed the maximum statutory amount. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, not to exceed the maximum statutory amount. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Plan allows for an employer safe harbor matching contribution. For the year ended December 31, 2009, the Company matched 100% of the first 6% of an eligible participant's compensation. The Company's safe harbor matching contribution for 2009 was $179,741 of which $4,385 was a receivable as of December 31, 2009. The Plan also allows for a discretionary employer profit sharing contribution as determined annually by the Board of Directors; none was made in 2009.

Participant Accounts **-** Each participant's account is credited with the participant's contribution, the Company's safe harbor matching contribution, the Company's discretionary profit sharing contribution (if any), Plan earnings or losses, and charged with an allocation of Plan fees as applicable. Allocations of the Company's discretionary profit sharing contribution to eligible participants are based on a permitted disparity method. Plan earnings and losses are credited or

charged to participant accounts based on individual participant investment selections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All contributions/investments are participant directed.

Certain investment and fund fees are charged by the funds and included in investment income and losses and charged to participant accounts. Participants should refer to the funds' prospectuses for further information on these fees.

Vesting **-** Participants are 100% vested in their contributions, plus employer safe-harbor contributions, plus actual earnings thereon. Effective January 1, 2009, participants vest ratably in the employer's discretionary profit sharing contribution allocated to their accounts as follows: 10% after one year, 25% after two years, 50% after three years, 75% after four years, and 100% after five years. Prior to January 1, 2009, participants vested ratably in the employer's discretionary profit sharing contribution allocated to their accounts as follows: 10% after one year, 25% after two years, 45% after three years, 70% after four years, and 100% after five years. The Company experienced a downturn in business operations in 2009 which resulted in a reduction in force and a partial plan termination. Employees who were employed as of August 18, 2009 and who terminated between August 19, 2009 and October 31, 2009 became 100% vested in their accounts. Participants become fully vested upon death, disability, normal retirement age and Plan termination.

Participant Loans **-** Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. Participants may only have one loan outstanding at any time. Loans are secured by the balance in the participant's account. Effective January 1, 2009, loans interest rates are calculated based on prime + 2%. Outstanding loans carry interest rates which range from 5.25% to 8% as of December 31, 2009, and from 7% to 8.61% as of December 31, 2008. Principal and interest is paid ratably through payroll deductions. Loans must be paid in five years, unless used for the financing of a principal residence in which case the periodic repayment period may be longer. The specific terms and conditions of such loans are established by the Plan Administrator.

Payment of Benefits **-** Distributions from the Plan may only be made after specific events have occurred. Participants are eligible for a distribution upon termination of employment, death, retirement, and disability and are paid in accordance with Plan provisions. Participants may be eligible to receive distributions up to their vested account balance in the case of financial hardship. Participants are eligible to receive in-service distributions upon attaining age $59^{1/2}$.

Forfeitures **-** Forfeitures can be used to pay Plan expenses or reduce employer contributions. The balance in the forfeiture account was $1,068 and $10,739 as of December 31, 2009 and 2008, respectively. Forfeitures in the amount of $10,967 were used in 2009 to reduce employer contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting **-** The accompanying financial statements are prepared on the accrual basis of accounting in accordance with principles generally accepted in the United States of America.

Use of Estimates **-** The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition **-** Investments of the Plan are reported at fair value as determined by TD Ameritrade. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Wells Fargo Galliard Stable Value J fund is a collective trust fund valued at contract value as reported by TD Ameritrade. Collective trust funds held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts. The Wells Fargo Wells Fargo Galliard Stable Value J fund is fully benefit-responsive. The adjustment between contract value and fair value as of December 31, 2009 and 2008 is reported on the Plan's financial statements. The average yield to the Plan was approximately 3.40% and 5.29% for 2009 and 2008, respectively. The average yield to Plan participants was approximately 3.32% and 4.10% for 2009 and 2008, respectively.

Operating Expenses **-** Certain expenses incurred for administering the Plan are paid by the Company. Plan record-keeping and investment advisor fees are paid by the Plan.

Payment of Benefits **-** Benefits are recorded when paid.

Subsequent Events **-** The Plan has evaluated subsequent events through, October 11, 2010, the date the financial statements were available to be issued.

NOTE 3 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4 - CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information certified by TD Ameritrade regarding the current value of assets held as of December 31, 2009 and 2008, and transactions entered into during the year ended December 31, 2009, was used in the preparation of the accompanying financial statements and supplemental schedule. NOTE 5 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the

lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end based on closing market prices.

Stable Value Fund: Valued on a unitized basis based on the underlying fair value of the investments in the fund.

Participant Loans: Fair value of participant loans, if any, is equal to their outstanding balances, less amounts deemed uncollectible as determined by the Plan Administrator.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate

and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:
