1. DESCRIPTION OF PLAN

The following description of the MADO Management 401(k) Retirement Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established effective January 1, 1994. Employees become eligible to participate upon completing one year of service and are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Act of 1974 ("ERISA").

Contributions

Participants may contribute an amount equal to not less than 1 percent nor more than 20 percent of their compensation for the contribution period. The Company will make a matching contribution in an amount equal to $.10 for each $1.00 contributed by an employee, up to a maximum of 4 percent of the participant's compensation. The Company may make a discretionary contribution under the Plan in an amount out of its net profit that shall be determined by resolution of the Company's Board of Directors.

Participants Accounts

Each participant's account is credited with the participant's contribution and allocation of the Company's contribution and Plan earnings. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investment in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. The balance of vesting in the participant's accounts is based on years of service. A participant becomes 20 percent vested after two years of service, 40 percent vested after three years of service, 60 percent after four years of service, 80 percent vested after five years of service and 100 percent vested after six years of service. However, if an active participant dies prior to obtaining the normal retirement age, the participant becomes 100 percent vested.

Investment Options

Upon enrollment in the Plan, a participant may currently direct contributions among various investment options provided by Great-West Life & Annuity Insurance Company. Participants may change their investment options on any normal business day subject to the rules of the investment funds in which the participant's account is to be invested.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, a distribution in the form of an annuity, or a combination of both. All distributions are subject to the provisions of the Plan agreement.

Participant Loans

Participant may borrow up to the lesser of $50,000 or 50 percent but not less than $1,000 of the vested portion of their account balance, subject to certain restrictions, in accordance with interest rates and collateral requirements established by the Company.

Forfeitures

At December 31, 2009 and 2008, forfeited non-vested accounts totaled $5 and $0, respectively. These accounts will be used to reduce future employer contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Subsequent events were evaluated through August 31, 2010, which is the date the financial statements were available to be issued.

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for

benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Employee contributions are recorded in the period during which the Company makes payroll deductions from the Plan participant's earnings. Matching Company contributions are recorded in the same period.

Benefits

Benefit claims are recorded as expenses when they have been approved for payment and paid by the Plan.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

3. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of

net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

		Fair Value Measurements Using:	
	Fair Value	Quoted prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
December 31, 2009			
Pooled separate accounts	$ 714,097	$ 714,097	$ -
Investment contract with insurance co.	111,847	-	111,847
Participant loans	24,654	-	24,654
Total	$ 850,598	$ 714,097	$ 136,501
December 31, 2008			
Pooled separate accounts	$ 529,613	$ 529,613	$ -
Investment contract with insurance co.	96,364	-	96,364
Participant loans	18,196	-	18,196
Total	$ 644,173	$ 529,613	$ 114,560

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The Fair value of pooled separate accounts is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stock, corporate bonds, and U.S. Government securities are based on quoted market prices.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations, and the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

6. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a benefit-responsive investment contract with Great-West Life & Annuity Insurance Company (Great-West). Great-West

maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by Great-West. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 and 2008 was $111,847 and $96,364, respectively. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Great-West. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2009	2008
Average yields:		
Based on actual earnings	2.96%	3.33%
Based on interest rate credited to participants	2.96%	3.33%

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. INCOME TAXES

The Internal Revenue Service has determined and informed the Company by a letter dated March 19, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The plan administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. RECONCILIATION OF PLAN FINANCIAL STATEMENTS TO THE FORM 5500

Certain balances included in line 2 of the Annual Return/Report of Employee Benefit Plans (the Form "5500, Schedule H, Part II") have been reclassified for purposes of presentation in these financial statements to provide additional disclosure.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. ADMINISTRATIVE EXPENSES

The Company has elected to pay for the administrative expenses of the Plan.
