NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2009 AND 2008

NOTE 1: DESCRIPTION OF PLAN:

The Seco Tools Inc. Employees' Pension Plan (the "Plan") is a non-contributory defined benefit plan sponsored by Seco Tools Inc. (the "Company"). The Plan's investments are managed by Principal Life Insurance Company. The Plan provides for retirement, death and disability benefits for its participants.

An employee hired prior to July 1, 2007 became eligible for participation in the Plan after the employee completed one year of service as long as the employee was employed in the United States and the employee was not covered by a collective bargaining agreement. Employees hired on or after July 1, 2007 are excluded from the Plan. Employees who have vested five years or more of service in the Plan are entitled to annual pension benefits in full beginning at normal retirement age of 65 or in a reduced amount for early retirement. An employee may elect early retirement after attaining age 60 and having ten vested years of employment.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and related statutes and regulations. Detailed information regarding the Plan is contained in the Summary Plan Description. Copies of the Summary Plan Description are available upon request from the Company.

AMOUNTS DEDICATED FOR RETIREE MEDICAL BENEFITS -

The Plan provides for the accumulation of assets to pay future medical benefits for retirees, their spouses and their dependents and the spouses and dependents of deceased retired members in accordance with Section 401(h) of the Internal Revenue Code. Contributions to provide these medical benefits are made by the employer. Assets of the 401(h) Plan and the Pension Plan are commingled. The Plan's investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing medical benefits to retirees and their beneficiaries. The related obligations for medical benefits are not included in the Plan's obligations in the Statements of Accumulated Plan Benefits but are reflected as obligations in the Statements of Net Assets Available for Plan Benefits.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Accrual Basis - The accounting records of the Plan are maintained on the accrual basis method of accounting.

Investment Valuation - The reporting value of the Plan investments in the Principal Life Insurance Company Trust Funds are adjusted to fair value and certified as to value by Principal Life Insurance Company at year end.

The Plan presents in the Statements of Changes in Net Assets Available for Plan Benefits the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments. The gain or loss on sale of investments is the difference between the proceeds received and the average cost of the investment sold.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees and their beneficiaries, beneficiaries of deceased employees, and present employees and their beneficiaries. Benefits for all Plan participants are based on their credited service earned prior to the valuation date. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2009 and 2008 are described in detail in Note 5. The actuarial assumptions are based on the presumption that the Plan will continue to exist. If the Plan were to terminate, then different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 2, SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

Contributions - The Company contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefit obligations to be paid to the Plan participants. The interest on investments of the Plan serves to reduce future contributions that would otherwise be required to provide for the level of benefits defined under the Plan. While the Company has not expressed any intent to discontinue its contributions and to terminate the Plan, it is free to do so at any time, subject to the provisions set forth in ERISA. The discontinuance of contributions would result in the termination of the Plan.

Plan Termination - In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its regulations, to provide benefits in the following order:

1. Benefits attributable to employee contributions, taking into account those paid out prior to termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire during that three-year period would have been receiving had they retired with benefits in the normal form of annuity under the Plan.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations, as explained below.
4. All other vested benefits (that is, vested benefits not insured by PBGC).
5. All non-vested benefits.

NOTE 2, SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

Plan Termination, continued -

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. Whether all participants receive their benefits should the Plan terminate in the future will depend on the sufficiency, at the time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Benefit Payments - Benefit payments to participants are recorded upon distribution.

Vesting Requirements - Employees hired prior to July 1, 2007 are vested after five years of service, during which a minimum of 1,000 hours have been worked each year. Employees hired on or after July 1, 2007 are not eligible to participate in the Plan.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Plan Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term could be material to the financial statements.

NOTE 2, SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

Other - Contract Administrator fees of \$900 for the year ended December 31, 2009 were paid to the custodian of the Plan. Investment related fees and expenses of \$7,074 for the year ended December 31, 2008 were paid to the prior custodian from the assets of the Plan. Certain administrative expenses of the Plan were paid directly by the Company.

NOTE 3: FAIR VALUE MEASUREMENTS - The Plan's investments are reported at fair value on the Statements of Net Assets Available for Plan Benefits.

Financial Accounting Standards Board Accounting Standards Codification 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

Level 1 Fair Value Measurements

The fair values are based on quoted prices in active markets for identical assets that the Plan has the ability to access at year end.

Level 2 Fair Value Measurements

Fair values are based on inputs other than quoted price included within Level 1 that are observable for valuing the asset or liability, either directly or indirectly (i.e., interest rate and yield curves observable at commonly quoted intervals, default rates, etc.). Observable inputs include quoted price for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market observable inputs.

Level 3 Fair Value Measurements

Fair values are based on unobservable inputs used for valuing the asset or liability. Unobservable inputs are those that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing the asset, based on the best information available in the circumstances. An example could be real estate valuations, which require significant judgment.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
SECO TOOLS INC. EMPLOYEES PENSION PLAN
EIN 382756676 Plan No. 003

Methods Prescribed by Law	
Liability Measure	Funding target is the present value of the benefits accrued on the valuation date. Target Normal Cost is based on benefits expected to accrue during the current plan year.
Asset Allocation for Retiree Medical	Balance of retiree medical account as of December 31, 2008.

Methods Selected by Plan Sponsor	
Asset Measure	<p>The asset valuation method is prescribed by law for plans that elect to use a value other than market value.</p> <p>For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.</p> <p>The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the Maximum Allowable Rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.</p> <p>When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.</p>
Yield Curve Rates	Full yield curve. Use the rates from the 3 rd month preceding the valuation date.
PBGC Premium Basis	Premiums are calculated using the funding target rates used for the plan year. Once elected, must continue on this basis for 5 years before a change can be made.
Administrative Expenses	The contractholder pays administrative expenses separately.

Methods Elected by Actuary	
Retirees	Assets and liabilities for current and future retirees are included.
HCE Benefit Payment Restrictions	<p>A ratio of the market value of assets and funding target is used to determine if restrictions apply. Assets and Funding Target are as of the valuation date and are reduced by:</p> <ul style="list-style-type: none"> • any retiree benefit index or floor • amounts for HCEs who were previously restricted • an amount for the retiring HCE

Benefit Liability	Long-Term Contribution Level reflects: <ul style="list-style-type: none">• Service and compensation projected to the age benefits are assumed to be paid.• Compensation and benefit limits projected at 2.50% per year.
