INDEPENDENT AUDITORS' REPORT

To the Plan Administrators
Microbac Laboratories, Inc.
Retirement Income Savings Plan
Cranberry Township, PA

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Microbac Laboratories Retirement Income Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Microbac Laboratories, Inc. Retirement Income Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520-103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 9 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section -

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Microbac Laboratories, Inc. Retirement Income Savings Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Micorbac Laboratories, Inc. Retirement Income Savings Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Microbac Laboratories, Inc. Retirement Income Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or event, considered in the aggregate, that raise substantial doubt about Microbac Laboratories, Inc. Retirement Income Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of Assets Held for Investment (at year end) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and is derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion -

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Microbac Laboratories, Inc.
Retirement Income Savings Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2025 and 2024

NOTE 1 - DESCRIPTION OF PLAN AND PLAN BENEFITS

The following description of the Microbac Laboratories, Inc. (the Company) Retirement Income Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution cash or deferred retirement income savings plan with a profit sharing provision covering all employees of the Company who have completed three months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to the maximum amount permitted by law of their annual compensation, as defined by the Plan. Participants who have reached age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into a variety of investment options offered by the Plan. The Plan currently offers various mutual funds and other investments as investment options for participants. The Company may elect annually to make a matching contribution to each participant based on a percentage of his or her elective deferrals. Beginning in 2017, the Company established a matching provision of 1/2% on each 2% of participants' deferrals up to 6% of compensation. The Company may also make qualified non-elective and discretionary contributions in amounts as determined in the sole judgment of the Company. The Company did not make any discretionary contributions for 2025. If eligibility requirements are met, a participant will be automatically enrolled in this plan with a contribution rate of 3% for the 401(k) portion of the Plan unless the Company is notified otherwise.

Participant Accounts

Each participant's account is credited with the amount of the participant's contributions, allocations of Company contributions and Plan earnings, and charged with an allocation of Plan expenses. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective deferrals, rollover contributions, and earnings thereon. Participants become fully vested in the remainder of their accounts after completing five years of service.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate determined by the plan administrator at time of application. Principal and interest is paid ratably through payroll deductions.

NOTE 1 - DESCRIPTION OF PLAN AND PLAN BENEFITS (Continued)

Payment of Benefits

On termination of service a participant may receive, as soon as administratively possible, the value of the vested interest in his or her account as a lump-sum distribution. Benefits are recorded when paid.

Forfeitures

At December 31, 2025, forfeited non-vested accounts totaled $2,092. These accounts will be used to offset Plan expenses and reduce employer contributions. During 2025 and 2024, $136,986 and $67,957, respectively, of forfeited non-vested accounts were used to offset Plan expenses and reduce employer contributions.

Expenses

Trustee administrative fees and investment expenses are paid by the Plan. Certain other plan costs are paid by the Plan sponsor.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

Investment Valuation

The Plan's investments in Mutual Funds are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events

Management has evaluated subsequent events through September 17, 2026, the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). Inputs to level 2 measurements include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in inactive markets, inputs other that quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If this asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2025.

Mutual funds (shares of registered investment companies): Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.
For the Common Collective Trusts, Transamerica uses unit values to perform daily account valuations. Transamerica calculates its account valuations based on the closing stock market price of each of the funds included in the Common Collective Trusts.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31,:

		Measurements Using:	
2025	Fair Value	Significant Other Observable Identical Inputs (Level 1)	Significant Unobservable Inputs (Level 2)
Mutual funds	$ 26,748,658	$ 26,748,658	$ -
Total	$ 26,748,658	$ 26,748,658	$ -
Common/Collective Trusts	5,041,350	Investments measured at NAV	
Stable Value Funds	1,100,116	Insurance Contracts	
	$ 32,890,124		

NOTE 3 - FAIR VALUE MEASUREMENTS (Continued)

		Measurements Using:	
	Fair Value	Significant Other Observable Identical Inputs (Level 1)	Significant Unobservable Inputs (Level 2)
2024			
Mutual funds	$ 28,217,206	$ 28,217,206	$ -
Total	$ 28,217,206	$ 28,217,206	$ -
Common/Collective Trusts	3,898,562	Investments measured at NAV	
Stable Value Funds	975,824	Insurance Contracts	
	$ 33,091,592		

NOTE 4 - TAX STATUS

The Microbac Laboratories, Inc. 401(k) Retirement Income Savings Plan is a tax qualified prototype retirement plan and trust. The Plan Sponsor (Transamerica) is responsible for ensuring that the Plan meets the requirements of the Internal Revenue Code to maintain its qualified status. The Internal Revenue Service has determined and informed the Plan sponsor as a volume submitter that the prototype Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan sponsor and administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 5 - RISKS AND UNCERTAINTIES

The Plan invests in a combination of mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of the risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for plan benefits.

NOTE 6 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS (STABLE VALUE FUND)

Beginning in 2017, the Plan entered into a fully benefit-responsive investment contract with Transamerica Life Insurance Company. Transamerica maintains the contributions in a general account. The account is credited with earnings and charged for participant withdrawals and administrative expenses.

Because the investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract.

The Stable Value Option investment choice is a non-tradable obligation of Transamerica. The investment's contract or proceeds cannot nor will not be assigned or sold to another without the consent of Transamerica. The repayment of principal and interest credited to participants holding the investment is a financial obligation of Transamerica. However, if an event should ever occur such that realization of full contract value for a particular investment contract is no longer probable, for example, a significant decline in creditworthiness of Transamerica, the Stable Value Option investment choice may no longer be considered fully benefit-responsive. The terms of Transamerica's Group Annuity Contract require all permitted participant-initiated transactions involving the investment to occur at contract value with no conditions, limits or restrictions. Permitted participant-initiated transactions are those allowed by the underling defined contribution plan such as withdrawals for benefits, loans or transfers to investment choices within the plan. Since the Stable Value Option investment choice is an obligation of Transamerica, the occurrence of an event that limits the ability of the investment to transact at contract value between Transamerica and a participant holding the investment is not probable. The Stable Value Option investment choice allows a participant reasonable access to their assets.

The average yield earned equals the credited rate, which was 2.00% for 2025 for the Stable Value Focus Option.

NOTE 7 - RELATED PARTIES

The Plan's investments are managed by Transamerica Trust Company, the Trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Transamerica for investment management services amounted to $76,833 and $77,366 for the years ended December 31, 2025 and 2024, respectively.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA, In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 9 - INFORMATION CERTIFIED BY TRUSTEE

Certain information related to the investments disclosed in the accompanying financial statements and supplemental schedule including investments held at December 31, 2025 and 2024, and net appreciation (depreciation) in fair value of investments, interest and dividends for the years ended December 31, 2025 and 2024, was obtained or derived from information certified as complete and accurate by Transamerica Trust Company and Transamerica Life Insurance Company (the trustee).
