RETIREMENT PLAN**

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the Exacta Aerospace Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement or summary plan description for a more complete description of the Plan's provisions.

General/Eligibility - The Plan, initially adopted January 1, 1997, is a defined contribution plan covering all employees of Exacta Aerospace, Inc. (Company) who have completed six months of service, as defined by the Plan, and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides that active participants may make salary deferral contributions in any percentage from 1% to 75% of eligible compensation up to the maximum amount allowed by Internal Revenue Code (\$16,500 for 2009) as adjusted for applicable percentages of compensation. Compensation includes overtime pay and certain bonuses as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions (\$5,500 for 2009). Participants may also contribute amounts representing distributions from other qualified retirement plans. The Company's matching contributions are based on a discretionary percentage. For the year ending December 31, 2009, the Company matched 50% of the aggregate employee contribution up to 2% of compensation. The employer suspended matching contributions as of March 28, 2009. The Company may also contribute to the Plan out of its current or accumulated net profit such amount as determined by the Company; however, no amounts were contributed for the year ending December 31, 2009.

Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts - Each participant's account is credited with the participant's elective salary deferral contribution, the Company's matching contributions, if any, and allocations of: (a) Company discretionary contributions and (b) Plan earnings. Allocations are based on the ratio that a participant's compensation bears to the total compensation of all eligible participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their elective deferral contributions plus actual earnings thereon. Participants shall be fully vested with respect to Company matching and discretionary contributions upon normal retirement age, disability, death, or termination of the Plan. Otherwise, vesting in the Company's contribution portion of the participants' accounts gradually increases based on years of service. A participant is 100% vested after five years of credited service.

Normal Retirement - Normal retirement age is 65.

Payment of Benefits - Payment to participants with vested balances of less than \$5,000 at retirement, death, disability, or termination is in the form of a lump-sum payment. Participants with vested balances in excess of \$5,000 may elect to receive a lump-sum payment, installments, or a combination thereof.

**EXACTA AEROSPACE
RETIREMENT PLAN**
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (CONTINUED)

Participant Loans - Upon proof, to the satisfaction of the Plan Administrator, of an immediate and financial need, amounts contributed may be withdrawn for a hardship purpose. Hardship loans vary in length from twelve to sixty months with a fixed interest rate for the entire term of the loan. Fees associated with loan issuance are paid by the participant and reflected as administrative fees.

Forfeitures - At December 31, 2009 and 2008, forfeited nonvested accounts totaled \$1,601 and \$2,280, respectively. Forfeitures may first be used to pay administrative expenses and any remaining amounts will be used to reduce any nonelective contribution or matching contribution. During 2009, there were \$2,126 of forfeitures used to fund the matching contribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The accompanying financial statements are prepared under the accrual method of accounting.

As described in Financial Accounting Standards Board (FASB) guidance regarding fully benefit-responsive investments, investment contracts and similar instruments held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in the Key Guaranteed Portfolio Fund, which is guaranteed under assets of Great West Life & Annuity Insurance Company. The statements of net assets available for benefits are required to present the fair value of the investment in the contract as well as the adjustment of the investment in the contract from fair value to contract value relating to the investment contract. As of December 31, 2009 and 2008, fair value approximated contract value for this investment contract and, therefore, no adjustment was required.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect: (1) the reported amounts of assets and liabilities, (2) disclosures such as contingencies, and (3) the reported amounts of revenues and expenses included in such financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value in accordance with the requirements of ASC 820, which is discussed in more detail in Note 4. 4. INVESTMENTS AND FAIR VALUE MEASUREMENTS (UNAUDITED)

Financial Accounting Standards Board (FASB) guidance for fair value establishes a framework for measuring fair value under current accounting pronouncements that require or permit fair value measurement and enhances disclosures about fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

4. INVESTMENTS AND FAIR VALUE MEASUREMENTS (UNAUDITED) (CONTINUED)

The guidance describes three levels of inputs that may be used to measure fair value:

Level 1 - Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 - Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds

These investments are valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Guaranteed Portfolio Fund

These investments are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The guaranteed portfolio fund is classified within level 2 of the valuation hierarchy.

Participant Loans

Loans to participants are valued at cost plus accrued interest, which approximates fair value and are classified within level 3 of the valuation hierarchy.

6. TAX STATUS

Effective March 31, 2009, the Plan adopted a non-standard form of a prototype Plan designed to qualify under Section 401(k) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the prototype plan has received an opinion letter dated January 31, 2006, that this Plan is relying on. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is being operated in compliance with the applicable requirement of the IRC.

The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements related to all open periods. Therefore, no provision or liability for income taxes has been included in the financial statements.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to the provisions of ERISA. In the event of termination of the Plan, the interests of the participants in the Plan shall be fully vested at the time of termination and the Trustee shall liquidate all assets of the Plan and continue to administer the Plan in accordance with its provisions until all obligations have been satisfied.

8. RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds and a guaranteed portfolio fund managed by Great West. Great West is the asset Custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
