Report of Independent Certified Public Accountants

To the Participants and Administrator of
Quintairos, Prieto, Wood & Boyer, P.A. 401(k) Plan

We were engaged to audit the financial statements and supplemental schedules of Quintairos, Prieto, Wood & Boyer, P.A. 401(k) Plan (the "Plan") at December 31, 2009 and 2008 and for the year ended December 31, 2009, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Investment Bank and Trust Company, the trustees for the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United State of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following description of the Quintairos, Prieto, Wood & Boyer, P.A. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) Profit Sharing Plan covering all employees of Quintairos, Prieto, Wood & Boyer, P.A. (the "Company") who are age 21 or older as of the Plan entry date and have completed six months of service. The Plan is subject to certain provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute between 1% and 90% of pre-tax annual compensation subject to limitations, as defined by the Plan. In addition, participants over 50 years of age are permitted to make additional catch up contributions of $5,500. Participants may also contribute amounts representing rollover distributions from other qualified plans. Upon enrollment, participants may direct their contributions to any of the Plan's investment options. Additionally, participants may change their investment options at any time.

The Company shall contribute an amount equal to a percentage of each participant's compensation for each plan year as specified by resolution of the Board of Directors. The percentage for the employer contribution was 100% on the first 4% of employees' compensation for the year ended December 31, 2009. The company from time to time may contribute additional amounts on a discretionary basis to the plan. Company contributions shall be calculated and allocated each pay period and invested in accordance with the participant's directed investment options. Effective January 1, 2009, the matching contribution will not exceed $9,800 a year.

Participants' Accounts

Each participant's account is credited with the participant's contributions, and allocations of (a) the Company's contributions and (b) Plan earnings or loss. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Prior to January 1, 2009, vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of credited service. A participant is 100% vested after six years of credited service. Effective January 1, 2009, the Company adopted a Safe Harbor 401(k) Plan and, as a result, all the 2009 Company's contributions are immediately vested. In the event of Plan termination, all participants will be considered fully vested.

Payment of Benefits

On termination of service, normal retirement, attainment of age 59½, death, or disability, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or a monthly annuity (fixed or variable) distributed in accordance with the Plan

Participant Loans
Participants may borrow from their fund accounts a minimum of $500 up to an amount not to exceed the lesser of $50,000 or 50% of their non-forfeitable account balance. The loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with the prime rates at the time the loan is effective, as published in the Wall Street Journal on the 14th of each month, plus two percentage points. Principal and interest is paid ratably through semimonthly payroll deductions. Loan terms range from 1 to 5 years or up to 30 years for the purchase of a primary residence. A participant may not have more than one loan outstanding at a time. At December 31, 2009 and 2008, there was $39,567 and $26,253, respectively, in outstanding participant loans. Such amounts have been included in investments in the statement of net assets available for benefits.

Forfeited Accounts
These amounts will be used to reduce future employer contributions or plan administrative expenses. At December 31, 2009, there were no forfeited non-vested balances.

Plan Termination
Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of any termination of the Plan, or upon complete or partial discontinuance of contributions, the accounts of each affected participant shall become fully vested.

Administrative Expense
The Company pays all of the Plan's administrative expenses.

2. Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America may require management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions in net assets available for plan benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties
The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of such investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and statement of changes in net assets available for plan benefits.

Investment Valuation and Income Recognition
The Plan's investments in mutual funds are valued at fair value (see Fair Value Measurements). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Participant loans are valued at their outstanding values, which approximates fair value.

The Plan presents in the statement of changes in net assets available for plan benefits, the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments. Purchases and sales of securities are recorded on a trade-date basis. Gains or losses on sale of investments are determined by the specific identification method. Investment income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments
Benefits are recorded when paid.

Date of Management's Review
Subsequent events were evaluated through October 8, 2010, which is the date the financial statements were available to be issued.

New Accounting Pronouncements

In April 2009, the FASB issued an accounting standard on determining fair value when the volume and level of activity for an asset or liability have significantly decreased and identifying transactions that are not orderly. The standard emphasizes that even if there has been a significant decrease in the volume and level of activity, the objective of a fair value measurement remains the same. The standard provides a number of factors to consider when evaluating whether there has been a significant decrease in the volume and level of activity for an asset or liability in relation to normal market activity. In addition, when transactions or quoted prices are not considered orderly, adjustments to those prices based on the weight of available information may be needed to determine the appropriate fair value. The standard also requires increased disclosures. The standard is effective for interim and annual reporting periods ending after June 15, 2009. The adoption of this standard did not have a material impact on the financial statements.

In September 2009, the FASB issued an accounting standard which permits, as a practical expedient, a reporting entity to measure the fair value of an investment on the basis of the net asset value per share of the investment under the condition that the measurement is calculated in accordance with established fair value measurement principles provided in the FASB ASC. The standard provides factors to consider when determining fair value on the basis of net asset value per share such as restrictions on the Plan's ability to redeem the investment and the measurement date of the investee. The standard also requires increased disclosures. The standard is effective for interim and annual reporting periods ending after December 15, 2009. The Plan does not expect the adoption of this standard to have a material impact on the financial statements. The Plan does not have any investments with unfunded commitments or with any redemption restrictions.

In June 2009, the Financial Accounting Standards Board ("FASB") established the FASB Accounting Standards Codification™ ("ASC") as the single source of authoritative U.S. GAAP. While this codification does not change U.S. GAAP, it changes the way the company refers to U.S. GAAP in the financial statements and notes. This standard is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The adoption

of this standard did not have a material impact on the financial statements. References to authoritative accounting literature contained in these financial statements are made in accordance with the ASC.

3. Information Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Investment Bank and Trust Company, the trustees for the Plan, as of December 31, 2009 and 2008, has certified to the completeness and accuracy of all investments and investment related information including net appreciation and depreciation in fair value of investments and interest and dividend income. Information certified by the trustee does not include the following:

- Determination of the amounts to be contributed by the Company and participants;
- Determination of the amounts of benefits and distributions paid to participants;
- Tax status of Plan; and,
- Plan description and Plan amendments.

4. Related Party Transactions

There are $39,567 and $26,253 in outstanding participant loans as of December 31, 2009 and 2008, respectively. The participants are related parties and these transactions qualify as party-in-interest transactions.

5. Tax Status

The Plan is an adoption of the standardized prototype plan written by Automatic Data Processing Prototype 401(k) and Profit Sharing Plan. The prototype sponsor has received a favorable determination letter dated November 6, 2001 in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code ("IRC"). The Plan administrator may rely on this letter, and believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC.

In 2009, the Plan adopted the provisions of ASC 740-10, Accounting for Income Taxes. The Plan records a liability for uncertain tax positions when it is probable that a loss has been incurred and the amount can be reasonably estimated. As of December 31, 2009, the Plan has no liabilities for uncertain tax positions. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and has no income subject to unrelated business income tax.

6. Investments

The following table presents the Plan's investments at December 31, 2009 and 2008 that represent 5% or more of the Plan's net assets available for benefits.

	2009	2008
Growth & Income Strategy Portfolio - Class A	$ 1,014,647	$ 646,582
Growth Strategy Portfolio - Class A	518,589	275,485
Capital Growth Fund	516,401	239,926
Financial Square Prime Obligation Fund	483,795	266,245
Equity Growth Strategy Portfolio - Class A	343,706	208,089
Concentrated International Equity Fund	162,712	99,681
Core Fixed Income Fund - Class A	159,586	119,983

7. Fair Value Measurement

The Plan adopted ASC 820 (formerly FASB Statement No. 157, *Fair Value Measurements)*, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include 1) quoted prices for similar assets or liabilities in active markets, 2) quoted prices for identical assets or liabilities in inactive markets, 3) inputs other than quoted prices that are observable for the asset or liability, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds and Company Stock – Valued at the net asset value (NAV) of shared held by the plan at year end.

Participant Loans – Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's Level 1 assets as of December 31, 2009 consisted of mutual funds totaling $3,412,662, while the Plans Level 3 assets consisted of participant loans totaling $39,567. The Plan holds no Level 2 assets.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

	Participant Loans
Beginning balance	$ 26,253
Purchases, sales, issuances, and settlements (net)	13,314
Ending balance	$ 39,567

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2009 and 2008:

	2009	2008
Net assets available for benefits per the financial statements	$ 3,474,560	$ 2,030,511
Less: Contributions receivable accrued at year-end	(22,331)	(20,567)
Less: Deemed distributed loans *	(1,031)	-
Net assets available for benefits per the Form 5500	$ 3,451,198	$ 2,009,944

The following is a reconciliation of the contributions per the financial statements to the Form 5500 for the year ended December 31, 2009:

Contributions per financial statements:	$ 935,326
Less: December 31, 2009 accrual of contributions receivable	(22,331)
Plus: December 31, 2008 accrual of contributions receivable	20,567
Contributions per the Form 5500	$ 933,562

Contributions are recorded on the Form 5500 using the cash basis of accounting.

* Deemed distributed loan occurs when a participant misses a loan payment and fails to make it up by a specified date or the terms for repaying a loan expire without full payment. The plan will continue to treat the DDL as an outstanding loan, while the plan's Form 5500 will exclude the DDL from the assets reported.
