INDEPENDENT AUDITORS' REPORT

To the Participants and Plan Administrator of the
Standard Homeopathic Company, Inc. Profit Sharing 401(k) Plan and Trust

We were engaged to audit the financial statements and supplemental schedule of Standard Homeopathic Company, Inc. Profit Sharing 401(k) Plan And Trust (the "Plan") as of December 31, 2009 and 2008, and for the year ended December 31, 2009, and the supplemental schedules as of December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note D, which was certified by Orchard Trust Company, LLC, the custodian of the Plan, and FASCore, LLC, the recordkeeper of the Plan, on behalf of Great West Life & Annuity Insurance Company (collectively, "Great-West"), except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act (ERISA) of 1974 except as described in the following paragraph.

The Plan is not being operated in accordance with certain provisions of its plan document as further described in Note I of the financial statements. With assistance from ERISA counsel, the plan has filed a VCP submission with the Internal Revenue Service (IRS) under the "*Employee Plans Compliance Resolution System*" (EPCRS) to seek approval by the IRS of proposed retroactive corrections of the operational failures.

STANDARD HOMEOPATHIC COMPANY, INC.
PROFIT SHARING 401(K) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009

NOTE A: **Description Of The Plan** - The following description of the Standard Homeopathic Company, Inc. Profit Sharing 401(k) Plan And Trust provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(1) General - The Plan is a defined contribution plan which was adopted by a resolution of the Board of Directors of Standard Homeopathic Company, Inc. (the "Company") effective July 1, 1970, and is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986, as amended. The purpose of the Plan is to provide retirement benefits for substantially all employees who have completed three months of service and are age 18 or older. An employee is eligible to receive profit sharing contributions after two full years of service.

(2) Contributions - Participants may elect to contribute up to 100 percent of their pretax annual compensation not to exceed the maximum deferral limitation as defined in the Internal Revenue Code. In addition, participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make matching contributions to the Plan equal to a percentage of the participant's deferral, at the discretion of the Board of Directors. The Company may also make an annual profit sharing contribution at the discretion of the Board of Directors. For the plan years ending December 31, 2009 and 2008, matching contributions provided by the Company totaled $61,590 and $63,719, respectively, and profit sharing contributions provided by the Company totaled $0 and $146,062, respectively.

(3) Participant Accounts – Each participant’s account is credited with the participant’s contributions, the Company’s contribution, and allocations of the Plan’s earnings and administrative expenses. Allocations of earnings and expenses are based on the proportion that each participant’s account balance bears to the total of all participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

(4) Vesting – Participants are immediately vested in their contributions and employer matching and profit sharing contributions plus actual earnings thereon.

(5) Forfeitures – There are no forfeitures under the Plan due to all accounts becoming fully vested at the time of the participant’s enrollment.

NOTE A: **Description Of The Plan** - (Continued)

(6) Benefit Payments – Upon termination of employment with the employer, a participant will receive a lump sum disbursement if his or her vested balance is $1,000 or less. If the vested account balance is greater than $1,000, the participant is entitled to receive a lump sum amount or installment payments. In the event of death or total and permanent disability, a participant's beneficiary or the participant is entitled to the total value of the participant's account. Additionally, under certain circumstances of financial hardship or upon attaining the age of 59 ½, participants are allowed to withdraw portions of their funds from the Plan.

(7) Participant Loans - Participants are allowed to borrow against their account balance within Plan guidelines. Loan terms are at the discretion of the borrower but cannot exceed five years. The loan amount can be a minimum of $1,000 but cannot exceed the lesser of (a) one-half of the participant's non-forfeitable interest under the Plan, or (b) $50,000. Interest is charged on the outstanding balance at rates determined by the plan administrator based on the prevailing interest rates. Principal and interest is paid ratably through weekly or bi-weekly payroll deductions depending on the pay schedule of the participant.

(8) Administrative Expenses - Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. The majority of administrative expenses incurred by the Plan are absorbed by the plan sponsor.

NOTE B: **Summary Of Significant Accounting Policies** – The following are the significant accounting policies followed by the Plan:

(1) Basis Of Accounting - The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The "Statements of Net Assets Available for Benefits" presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investments contracts from fair value to contract value. The "Statement of Changes in Net Assets Available for Benefits" has not been adjusted to represent the contract value of investment contracts as of December 31, 2009, as the contract value of the fully benefit-responsive contract approximated fair value at December 31, 2009.

NOTE B: **Summary Of Significant Accounting Policies** – (Continued)

(2) Financial Statement Presentation – The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). On July 1, 2009, the Financial Accounting Standards Board ("FASB") issued a standard that established the FASB Accounting Standards Codification ("ASC" or "Codification"). This standard, known as FASB ASC 105, "*Generally Accepted Accounting Principles*," establishes the Codification as the single source of authoritative nongovernmental U.S. GAAP, and is effective for interim and annual periods ending after September 15, 2009. The ASC does not change current U.S. GAAP, and as such, does not have an impact on the Company's financial statements. References to previous authoritative literature have been changed to coincide with the appropriate section of the ASC. New accounting standards issued subsequent to June 30, 2009, are communicated by the FASB through Accounting Standards Updates ("ASUs").

(3) Investment Valuation And Income Recognition – The Plan's investments are stated at fair value at December 31, 2009 and 2008. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note N for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Dividends are recorded on the ex-dividend rate. Capital gains and/or losses are reported the day after the trade date.

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying "Statement of Changes in Net Assets Available for Benefits" as net realized and unrealized gains (losses) by each major investment type.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

(4) Payment Of Benefits - Benefits are recorded when paid.

(5) Use Of Estimates - The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

NOTE C: **Concentrations, Risks And Uncertainties** – The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the "Statements of Net Assets Available for Benefits."

The Plan held substantially all of its assets with one institution. In the event of the institution's failure, the Plan could be subject to losses in its guaranteed investment contract totaling $1,673,661, and its life insurance annuity contracts totaling $75,547 at December 31, 2009. The Plan is also at risk of loss in any of its mutual funds which could fail to the extent of the dollars invested in the funds.

NOTE D: **Investments**– The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent accountants not to perform any auditing procedures with respect to the following information certified by Great-West for the years ended December 31, 2009 and 2008, except for comparing such information certified by the asset custodian to information included in the Plan's financial statements and supplemental schedules.

The following table presents the fair values of the participant directed investments in this Plan that are certified Great-West. Those investments that represent five percent or more of the Plan's net assets are separately identified.

	2009	2008
Mutual Funds:		
BlackRock Global Resources Inv A	$ 404,447	$ 227,035

NOTE D: **Investments** – (Continued)

	2009	2008
Pooled Separate Accounts	-	98,153
Stable Value Fund	-	1,814,938
Guaranteed Investment Contract	1,673,661	-
Participant Loans	191,267	153,140

Orchard Trust Company, LLC also certified the completeness and accuracy of $847,341 of net appreciation in fair value of investments and $123,390 of interest and dividend income related to the aforementioned investments for the year ended December 31, 2009.

NOTE E: **Investment Contract With Insurance Company –** During the plan year ended December 31, 2009, the Plan entered into a benefit responsive investment contract with Great-West. Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may direct the withdrawal to transfer all or a portion of their investment at contract value.

The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest credit rate is reset quarterly and will never be less than 0%.

The guaranteed investment contract has an average yield, which can be derived by averaging the quarterly gross interest rates for the fund over the year, of 3.16 and 3.55 percent for 2009 and 2008.

The guaranteed investment contract does not include a description of certain events that limit the ability of the Plan to transact at contract value with the issuer. In addition, the guaranteed investment contract does not include a description of events and circumstances that would permit issuers to terminate the contract and settle at amounts differ from contract value.

NOTE F: **Excess Contributions Payable** – EIRSA requires the Plan to satisfy certain nondiscrimination provisions. For the year ended December 31, 2009, the Plan is required to return some contributions to satisfy these provisions. At December 31, 2009 and 2008, the contributions payable are $20,962 and $0, respectively.

NOTE G: **Plan Termination** - Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA.

NOTE H: **Withdrawn Participants** - At December 31, 2009, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid.

NOTE I: **Tax Status** – The Plan is based on the Prototype Defined Contribution Plan with Great-West, the custodian of the Plan, which received a determination letter from the Internal Revenue Service (IRS) dated June 4, 2002, stating that the Prototype Plan was designed in accordance with the provisions of the Internal Revenue Code (IRC). The Plan has not yet filed for its own determination letter from the IRS. However, the plan administrator believes that the Plan is designed in compliance with the applicable requirements of the IRC.

The Plan is currently not being operated in accordance with the certain provisions of its plan document as further described in the following paragraphs. ERISA counsel has been retained to assist the plan sponsor with the correction of these two errors.

The plan sponsor has not made matching contributions on behalf of highly compensated employees (HCEs), although the current plan document does not provide that HCEs are not to receive matching contributions. The plan sponsor believes that this exclusion was erroneously omitted when the plan sponsor adopted a prototype plan document to replace its original individually designed plan document. The plan sponsor has filed a request for authorization from the IRS under "*Employee Plans Compliance Resolution System*" (EPCRS) to retroactively amend the plan document to conform to the way the plan has been administered. The plan sponsor has estimated that the amount of matching contributions not made to HCEs, as adjusted for earnings, that it would be required to contribute to the plan if the IRS does not authorize the retroactive amendment is approximately $258,000.

In addition, elective deferrals were not computed and withheld on certain payments of compensation made outside of the normal payroll process as a result of a payroll processing system error in periods from 1994 to 2008. The plan sponsor has determined the amount of additional contributions that should have been made to the plan to be approximately $61,000. The plan sponsor intends to correct this error in accordance with the EPCRS program pending approval of the proposed correction plan from the IRS.

NOTE J: **Unallocated Plan Assets –** At December 31, 2009 and 2008, the Plan has $84,715 and $82,148, respectively, of unallocated plan assets that are invested in the guaranteed investment contract. These unallocated plan assets exist as a result of extraordinary gains realized from the sale of investments in a former general investment account. The plan sponsor is in the process of determining whether these funds should be allocated to participants or utilized to pay future plan administrative expenses.

NOTE K: **Fidelity Bond** – ERISA requires the Plan be covered by a fidelity bond. The amount of the bond must be equal to the lesser of 10 percent of the funds handled or $500,000. For the years ended December 31, 2009 and 2008, the Plan met the minimum bonding requirement.

NOTE L: **Delinquent Participant Contributions** - During the Plan year ended December 31, 2008, employee withholdings in the amount of $92,353, were not remitted within the appropriate time period by the Company. These transactions constitute prohibited transactions as defined by ERISA. The Company is aware of the occurrence and has appropriately corrected the situation in 2009.

NOTE M: **Party-In Interest** – The investments in the guaranteed investment contract and life insurance annuity contracts are managed by Great-West, which is the custodian, as defined by the Plan, and therefore, these investments qualify as party-in interest transactions.

NOTE N: **Fair Value Measurements** – Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 820, *"Fair Value Measurements and Disclosures,"* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE N: **Fair Value Measurements** - (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end. The value of mutual funds is determined by fair market value for each fund and is based upon quotations obtained from national securities exchanges and over-the-counter associations for the underlying investments in the funds.

Pooled Separate Accounts: The Plan invests in pooled separate accounts consisting primarily of stocks and bonds and does not have guaranteed rates of return. The invested assets are adjusted to market value daily by the Separate Accounts Valuation and Accounting department utilizing unit values. Unit values are calculated using the market value of the assets, net of the investment management fee, of each account and the number of outstanding units.

NOTE N: **Fair Value Measurements** - (Continued)

Stable Value Fund: Value is based on the fair value of the underlying investments as based on information reported by the investment advisor using the audited financial statements of the stable value fund at year end. The stable value fund is a non-benefit responsive contract.

Guaranteed Investment Contract: Value is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (See Note E).

Life Insurance Annuity Contracts: Value is based on the fair value of the basic policy plus paid-up additional insurance and terminal dividend less indebtedness, if any.

Participant Loans: Valued at their outstanding balances, which approximate fair value because assumed market interest rates are estimated to approximate charged interest rates.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$3,870,753	$ -	$ -	$3,870,753

Ending Balance	$ 1,673,661	$ -	$ 75,547	$ 191,267

NOTE O: **Differences On Form 5500 –** The financial statements have been prepared on the accrual basis as required by accounting principles generally accepted in the United States of America. However, for the years ended December 31, 2009 and 2008, the Form 5500 to be filed with the Internal Revenue Service has been prepared on the cash basis.

NOTE O: **Differences On Form 5500** – (Continued)

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2009	2008
Net Assets Available For Benefits
