Schedule SB, line 25 - Change in Method

Plan Name: Greenfield & Goodman, LLC Defined Benefit Pension Plan
EIN/PN: 54-1934962 / 003

The discount rate definition was changed from segment rates to the full yield curve for the month of October. This change in method is automatically approved for the 2009 plan year.

As permitted, the Plan's asset valuation method was changed from market value to an actuarial value that is determined using a 24-month average of the expected market value of assets (limited by the 90% / 110% corridor), and the Plan's interest rate assumption was changed from segment rates to the full yield curve.
