To the Members of the Audit Committee and Board of Directors of
Tomarco Contractor Specialties, Inc. 401(K) Plan

We have conducted a DOL limited-scope audit of the financial statements of Tomarco Contractor Specialties, Inc. 401(K) Plan (the "Plan") as of and for the year ended December 31, 2009, and has issued our report thereon dated August 17, 2010. As permitted by 29 CR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and schedules taken as a whole. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 29, 2010. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2009. We noted no transactions entered into by the Tomarco Contractor Specialties, Inc. 401(K) Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

The disclosures in the financial statements are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. We are pleased to report that no such known or likely mistakes arose during the course of our audit.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 17, 2010.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of members of the audit committee, board of directors and management of the Tomarco Contractor Specialties, Inc. 401(K) Plan and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Jones & Malhotra

Independent Auditors' Report

To the Plan Administrator of
Tomarco Contractor Specialties, Inc. 401(K) Plan:

We were engaged to audit the accompanying statements of net assets available for benefits of Tomarco Contractor Specialties, Inc. 401(K) Plan (the "Plan") as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental schedule of assets (held at end of year) as of December 31, 2009 (Schedule H, Part IV, Line 4i). These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.104-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the Plan's 2009 and 2008 financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Tomarco Contractor Specialties, Inc. 401(K) Plan

Notes to the Financial Statements

December 31, 2009 and 2008

Note 1 – Description of the Plan

The following brief description of Tomarco Contractor Specialties, Inc. 401(K) Plan (the "Plan") is provided for general information purposes only. The Plan agreement should be referred to for a more complete description of the Plan's provisions.

General

The Plan, adopted as of January 1, 1995, is a defined contribution plan covering substantially all employees of Tomarco Contractor Specialties, Inc., a California corporation (the "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (the "ERISA").

Eligibility

Employees who have completed six months of service are eligible to participate in the Plan and receive an allocation of Employer matching contributions. Participants can enroll in the Plan on the first day of the month following satisfaction of eligibility requirements.

Contributions

Each year participants may contribute a certain percentage of their pre-tax annual compensation as defined in the Plan up to an amount as provided annually by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are also eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified benefit plans. The Employer may match, at its discretion, a fixed amount or a set percentage of each eligible employee's contribution as determined by its board of directors. Additional amounts including a profit sharing contribution may also be contributed at the option of the Employer. For 2008 the Employer matched 100% of participant deferrals subject to a maximum match of $500 per participant. There were no Employer matching contributions for 2009. Employer contributions aggregated $0 and $44,727 for the years ended December 31, 2009 and 2008, respectively.

Note 1 – Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Employer's contribution and, (b) Plan's earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled to is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and the Employer's qualified non-elective contributions plus actual earnings thereon. Vesting in Employer's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested in annual increments of 20 percent, vesting at 20 percent in the second year of credited service, and up to 100 percent in the sixth year of credited service.

Payment of Benefits and Forfeited Accounts

A participant's Plan benefits will be distributed at retirement, death, disability or upon termination of employment. Normal retirement age is 65 years. The Plan does not permit early retirement. The benefits will be paid to the participant or beneficiary in accordance with the provisions of the Plan. That portion of an employee's interest, which is not vested upon the employee's break in service, is forfeited. The non-vested forfeited balances will be reallocated as of the end of the Plan year to the participants in the same manner as Employer's contributions. At December 31, 2009 and 2008 the forfeited account balances were $29,876 and $28,560 respectively.

Participant Loans

Participants may borrow from their fund accounts up to 50 percent of their total vested balance, subject to a minimum of $1,000 and a maximum amount of $50,000. The loans are secured by the vested balance in the participant's account. The Plan provisions require a reasonable interest rate to be charged on the loans and principal and interest to be paid ratably through regular payroll deductions. At December 31, 2009 and 2008 the outstanding participant loan balances were $190,735 and $207,673 respectively. Interest rates on the loans range from 5.25% to 10.25% and the loans mature between January 2010 and June 2019.

Note 1 – Description of the Plan (continued)

Tax Status

The Plan is based on a Prototype Standardized 401(K) and Profit Sharing Plan document prepared by ADP. The Internal Revenue Service has issued an opinion letter dated March 31, 2008 granting approval to the prototype plan document. Under this arrangement the Plan is not obligated to file for a separate determination letter. Although the Plan has been amended, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by State Street Bank & Trust Company who is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the trustee for investment management services aggregated $682 for the year ended December 31, 2009. Fees paid to ADP Retirement Services, the record keeper of the Plan, aggregated $1,200 for the year ended December 31, 2009.

Investment Options, Management and Administration

The Plan has engaged State Street Bank and Trust Company as the Plan trustee and Automatic Data Processing Retirement Services ("ADPRS") as the record keeper of the Plan. The assets of each fund within the Plan are invested under an arrangement with State Street Bank and Trust Company, the trustee. All expenses incurred in maintaining the Plan are paid by the Plan unless the Employer, at its discretion elects to pay all or part of the expenses. These expenses include fees of the Plan trustee, third-party administrators and accountants. Upon enrollment in the Plan, a participant may direct their contributions in the various investment choices, including mutual funds offered by the trustee, an institution affiliated with the Plan Trustee. Participants should carefully read the prospectus before investing in the various funds offered under the Plan.

Note 2 – Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Note 2 – Summary of significant accounting policies (continued)

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Contributions

Contributions from participants are recorded based on payroll withholdings during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Participant loans are valued at cost which approximates fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note on fair value measurements below. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair Value Measurements (continued)

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Registered investment companies (mutual funds): valued at net asset value of shares held by the Plan at year end.

Participant loans: valued at cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
