Report of Independent Auditors

Administrative Committee
Hitachi Metals America, Ltd.
401(k) Savings Plan

We were engaged to audit the accompanying statements of net assets available for benefits of Hitachi Metals America, Ltd. 401(k) Savings Plan as of December 3l, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Fidelity Retirement Money Market Fund – Funds are invested in short-term money market securities, to seek a high current income, preservation of capital and liquidity from money market instruments.

Participants may change their investment allocations daily and contribution percentages monthly.

Investments are stated at fair value. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Participants' loans are valued at their outstanding balances, which approximate fair value. Purchases and sales of all investments are recorded on the trade dates. Realized gains or losses on the disposal of investments are determined on the basis of the average cost of investments sold. Dividends are recorded on the ex-dividend date. Interest is recorded as earned.

Administrative Expenses

Administrative expenses related to the Plan are paid by the Plan's sponsor, HMA.

Plan Termination

Although it has not expressed any intent to do so, HMA has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants will become 100% vested in their accounts.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued ASC 820, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (ASC 820). ASC 820 was to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. ASC 820 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in ASC 820 for the reporting period ended December 31, 2009. Adoption of FSP ASC 820 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events,* which was codified into ASC 855, *Subsequent Events,* to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

In September 2009, the FASB issued Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12), ASU 2009-12 provides amendments to ASC 820 that permit, as a practical expedient, a reporting entity to estimate the fair value of an investment that is within the scope of ASU 2009-12 using the net asset value per share (or its equivalent) of the investment if the net asset value of the investment (or its equivalent) is calculated in a manner consistent with the measurement principles of ASC 946, *Financial Services – Investment Companies*, as of the reporting entity's measurement date. ASC 946 requires investment companies to report their investment assets at fair value in accordance with the principles of ASC 820. The amendments also require disclosures regarding the attributes of investments within the scope of ASU 2009-12, such as the nature of any restrictions on the investor's ability to redeem its investments at the measurement date, any unfunded capital commitments, and the investment strategies of the investees. The disclosures are required (by major category) for all investments within the scope of ASU 2009-12 regardless of whether the fair value of the investment is measured using the practical expedient. The amended guidance is effective for periods ending after December 15, 2009. The adoption of ASU 2009-12 did not have a material effect of the Plan's financial statements.

New Accounting Pronouncements (continued)

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements,* (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

2. Plan Description

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

The Plan is a defined contribution plan that provides benefits to participants upon retirement and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Under such a plan, the participant is not provided with any fixed benefit. Plan contributions are made at specific rates and are credited to an individual account in the name of each participant. Account activity is recorded in terms of investment units.

Each participant files an election designating the proportion in which contributions on his or her behalf are to be allocated among investment funds. Participants may make a pretax contribution up to an annual maximum of 60% of eligible compensation in a calendar year. The Plan is subject to the annual deferral limitation under the Internal Revenue Code (the "IRC"), which is $16,500 and $15,500 for 2009 and 2008, respectively. Post-tax voluntary contributions are not permitted under the Plan.

The Plan provides that participants who are projected to be age 50 or older by the end of the calendar year and who are making deferral contributions to the Plan may also make a catch-up contribution of up to $5,500 and $5,000 for 2009 and 2008, respectively. Eligible employees may roll over distributions from a qualified plan pursuant to the terms of the Plan. The amount of the investment match provided by the employers is 100% of the first 3% of compensation invested by the participant.

2. Plan Description (continued)

Employees become eligible for participation in the Plan after one month of service. Service with HMA, Hitachi Magnetics Corp., Ward Manufacturing, Inc., AAP St. Mary's Corp., Hitachi Metals North Carolina, Ltd. and Central Coating & Assembly will be counted for eligibility.

The employees who are covered by a pension plan in Japan or covered by a collective bargaining agreement are excluded. All rotating expatriates from Japan are excluded from eligibility.

Benefits provided by the Plan are paid by Fidelity from net assets available for benefits from each participant's account.

The participant's interest in his or her account is fully vested and nonforfeitable at all times except for the employer's matching contributions, which vest 100% upon completion of three years of service. If a participant terminates employment prior to completing three years of service, the matching benefits are forfeited. The nonvested portion of the accrued benefit of any terminated participant will be used to reduce employer contributions in the following plan year. Amounts forfeited by participants during 2009 and 2008 were $9,632 and $0, respectively. There was approximately $60,000 and $53,000 of unapplied forfeiture credits at December 31, 2009 and 2008, respectively. Approximately $3,000 and $0 forfeitures were used during 2009 and 2008, respectively, to reduce HMA's contributions.

A participant's vested interest in the Plan's assets is distributable generally upon retirement, death, disability or termination of employment. Payment is made under the form as permitted by the Plan, which includes a lump-sum amount.

A participant is allowed to borrow up to one half of his or her vested interest up to a maximum of $50,000 pursuant to the Plan agreement. All loans shall bear a reasonable rate of interest as determined by the plan administrator based on the prevailing market interest rates. The actual interest is at a rate ranging from 3.25% to 8.25% at December 31, 2009 and from 4.0% to 8.25% at December 31, 2008, respectively. Loan terms shall not exceed five years from the date of the loan unless such loan is for the purchase of a primary residence, in which case the repayment period may not extend beyond ten years.

3. Investments

All investment information disclosed in the accompanying financial statements and schedule, including investments held at December 31, 2009 and 2008, net appreciation (depreciation) in fair value of investments, and interest and dividends for the years then ended, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity.

4. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 - Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability.

Level 2 inputs include the following:

- quoted prices for similar assets and liabilities in active markets
- quoted prices for identical or similar assets or liabilities in markets that are not active
- observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based upon the lowest level input that is significant to the fair value measurement in its entirety.

The investments in the money market funds and mutual funds are valued at quoted market prices in an active market.

4. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2009 and 2008:

Assets at Fair Value as of	**Level 1**	**Level 2**	**Level 3**	**Total**

5. Related Party Transactions

All of the Plan's investments, except for Artisan Mid Capital Value, Baron Small Capital Fund, Davis NY Venture, Neuberger Berman International Fund Trust, Oakmark Select I, Pimco Total Return Fund Administrative Class, and RS Partners are shares of mutual funds managed by Fidelity's affiliates. Fidelity is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

6. Income Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008 stating that the form of the plan is qualified under Section 401 of the Internal Revenue Code, and therefore, the related trust is tax exempt. In accordance with Revenue Procedures 2009-6 and 2008-16, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the participants' account balances and amounts reported in the statements of net assets available for benefits.

8. Subsequent Events

The Plan's management has evaluated subsequent events for the Plan through September 25, 2010, the date the financial statements were available to be issued.
