These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, auditing procedures with respect to the information summarized in Note 3, which was certified by Charles Schwab Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Note 1. Description of the Plan

The following description of ORIX USA Corporation Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

General and Plan Amendments

The Plan is a defined contribution plan sponsored by ORIX USA Corporation (the "Company") for the benefit of its employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Charles Schwab Trust Company ("Schwab") is the trustee of the Plan. The Plan was restated and amended effective January 1, 2009. During 2009 the Plan was amended to provide for 100% vesting of Company contributions for eligible terminated employees.

Eligibility

All employees of the Company are eligible to participate in the Plan on the first day of the month following their hire date except for: employees covered by a collective bargaining agreement for which retirement benefits have been the subject of good faith negotiation, leased employees, nonresident aliens with no U.S. source income, individuals classified as independent contractors (whether employees or not) and temporary employees for specific projects or limited periods without expectation of future employment.

Contributions

Each year, participants may contribute up to 60% of their eligible compensation, as defined in the Plan. Employee rollover contributions are also permitted. Participants direct the investment of their contributions into various investment options offered by the Plan. In addition, the Plan offers a self-directed brokerage account option. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

Employer matching contributions are equal to 50% of an employee's contributions on the first 12.5% of compensation contributed to the Plan.

Participant Investment Account Options

Investment account options available include various funds and a self-directed brokerage account option. Each participant has the option of directing their contributions and employer matching contributions into any of the separate investment accounts offered by the Plan and may change the allocation daily.

Participant Accounts

Each participant account is credited with the participant's contributions, the Company's matching contributions, and an allocation of plan earnings and expenses thereon. Allocations are based on participant earnings on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. Description of the Plan (Continued)

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. Generally the employer contributions vest 20% for each year of service with 100% vesting after five years of service. The non-vested balance is forfeited upon termination of service.

Payment of Benefits

Upon termination of service, an employee may elect to receive either a lump-sum amount equal to the value of his account or in the form of installments as specified by the Plan. At December 31, 2009 and 2008, no Plan assets were allocated to accounts of terminated or retired participants who have elected to withdraw from the Plan but have not yet been paid.

Participant Loans

The Plan includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the plan administrator.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their account balances.

Forfeited Accounts

Forfeitures result from participants that terminate employment with the Company and are less than 100% vested in their account. Forfeitures are used to reduce future Company contributions and pay administrative expenses. During the years ended December 31, 2009 and 2008, forfeitures of approximately $170,000 and $100,000, respectively, were used to reduce employer matching contributions or to pay plan expenses. Forfeited non-vested accounts totaled $395,808 and $48,638 at December 31, 2009 and 2008, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Note 2. Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Common and preferred stocks and corporate bonds and equity securities are valued at the closing price reported on the active market on which the individual securities are traded. Mutual funds are valued at the net asset value ("NAV") of shares held by the Plan at year end. Participant loans are valued at amortized cost, which approximates fair value. The Plan's interest in common collective and unit investment trusts are valued based on information reported by the investment advisor using the audited financial statements of the collective and unit trusts at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Tax Status

The Plan obtained its latest determination letter on May 23, 2008, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the IRC and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC. With a few exceptions, the Plan is no longer subject to U.S. federal or state income tax examination by tax authorities for years before 2006.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The majority of the administrative expenses of the Plan are paid by the Company.

Reclassifications

Certain reclassifications have been made to the 2008 financial statement to conform to the 2009 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

Note 4. Fair Value Measurements

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities

Level 2 - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies and inputs used for assets and liabilities measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy.

Note 4. Fair Value of Plan Assets and Liabilities (Continued)

Investments

Where quoted market prices are available in an active market, assets are classified within Level 1 of the valuation hierarchy. Level 1 securities include money market funds, mutual funds, corporate bonds, and equity securities. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include common collective and unit investment trusts which are valued based on information reported by the investment advisor using the audited financial statements of the trusts at year end. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include participant loans at amortized cost which approximates fair value.

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2009 and 2008:

	2009

Repayments	(143,421)	(95,005)
Balance, end of year	$ 141,827	$ 231,050

Note 5. Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain funds of Charles Schwab Trust Company, the Plan trustee. The Company provides administrative services at no cost to the Plan.

Note 6. Current Economic Conditions

The current protracted economic environment decline continues to present employee benefit plans with difficult circumstances and challenges, which in some cases have resulted in large and unanticipated declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8. Asset Transfer into the Plan

During 2009, the Plan merged approximately $6 million in assets associated with the merger of the ORIX Financial Services, Inc. Incentive Savings Plan ("OFS Plan") into the Plan. In April 2004, the OFS Plan sponsor had suspended participation in the OFS Plan and OFS Plan sponsor employees began participating in the Plan. At the date of this merger, all OFS Plan participants' vesting percentage under the OFS were carried over to the Plan.

Note 9. Subsequent Event

Subsequent events have been evaluated through October 5, 2010, which is the date the financial statements were available to be issued.
