NCL GRAPHIC SPECIALTIES, INC. 401(K) SALARY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS - MODIFIED CASH BASIS

DECEMBER 31, 2009 AND 2008

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of accounting - The accompanying financial statements have been prepared on the modified cash basis of accounting. Under that basis, certain additions and the related assets are recognized when received rather than when earned and certain deductions are recognized when paid rather than when the obligation is incurred. That basis differs from accounting principles generally accepted in the United States of America primarily because the plan has not recognized contributions receivable and the related effect on changes in net assets in the accompanying financial statements.

The Union Bond & Trust Company Stable Value Fund and the Schwab Stable Value Fund Institutional II are fully benefit-responsive investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits - modified cash basis present the fair value of the fully benefit-responsive investment contracts as well as the adjustment of the investment contracts from fair value to contract value. The statements of changes in net assets available for benefits - modified cash basis are prepared on a contract value basis.

Accounting estimates - The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and uncertainties - The plan invests in various investments. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits - modified cash basis.

Subsequent events - The preparation of these financial statements includes the plan administrator's evaluation of the events and transactions occurring subsequent to December 31, 2009 through September 3, 2010, which is the date the financial statements were available to be issued.

Key parties of the plan - NCL Graphic Specialties, Inc. is the plan sponsor/employer and the plan administrator. As of November 1, 2008 SVA Retirement Plan Services, LLC became the third party administrator, began maintaining participant records, performing various compliance tests and acting as tax counsel. Charles Schwab Trust Company ("Schwab") became the asset custodian and agent and SVA Wealth Management, Inc. became the investment advisor. Three board members of NCL Graphic Specialties, Inc. became trustees. Prior to November 1, 2008 Oppenheimer Asset Management was the third party administrator, maintained participant records, performed various compliance tests and acted as tax counsel. Oppenheimer Wealth Management was the investment advisor. Orchard Trust Company, LLC was the asset custodian and trustee.

Investments - The plan sponsor/employer determines the investments available to plan participants. The participants allocate their contributions and transfer existing balances among the available investment options.

At the end of each business day, Schwab determines the fair value of the investments and allocates the fair value to the participants.

The Union Bond & Trust Company Stable Value Fund, with a contract unit value of \$1 and a fair market unit value of \$1.01 and \$0.95 as of December 31, 2009 and 2008 as certified by Schwab, and the Schwab Stable Value Institutional II Fund, with a contract unit value of \$1 and a fair market unit value of \$1.01 as of December 31, 2009 as certified by Schwab are stable value investments that invest directly in common trust funds that hold fully benefit-responsive investment contracts. The net appreciation (depreciation) in the fair value of investments bought, sold and held during the years is reflected in the statements of changes in net assets available for benefits - modified cash basis.

Participants have seven "models" as their investment options. These models allocate a fixed percentage of contributions to the available money market account, common/collective trust investments and mutual funds. Participants should refer to the plan sponsor for a summary of the models and the allocation percentages. Participants may also invest directly in investments without use of the models.

Fair value measurements - Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical investments (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows.

Level 1 - Valuation is based upon quoted prices in active markets for identical investments.

Level 2 - Valuation is based upon other significant observable inputs (including quoted prices for similar investments).

Level 3 - Valuation is based upon significant unobservable inputs (including the plan's assumptions in determining the fair value of investments).

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds and money market account - Valued at the net asset value ("NAV") of shares held by the plan.

Common/collective trust funds - Valued based on the plan's pro rata ownership of the underlying assets held in the common/collective trust funds as certified by the plan agent.

Loans to participants - Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The plan administrator determines by level, within the fair value hierarchy, the plan's investments at fair value as of December 31, 2009 and 2008 as set forth below.

Investments at fair value as of December 31, 2009				
	Level 1	Level 2	Level 3	Total

Total investments at fair value	<u>\$3,497,640</u>	<u>\$ 258,559</u>	<u>\$ 56,853</u>	<u>\$3,813,052</u>

Changes in fair value of loans to participants, a level 3 investment, for the years ended December 31, 2009 and 2008 are as follows.

	2009	2008
Balance, beginning of year	\$102,378	\$ 92,093

2. DESCRIPTION OF PLAN

The following brief description of the plan is provided for general information purposes only. Participants should refer to the plan documents for more complete information.

General - The plan was established as a defined contribution plan on January 1, 1990. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent amendments.

Eligibility - Employees are eligible once they have completed three months of service and have reached age eighteen. An employee can enter the plan on the first day of the month immediately following the date the plan's eligibility requirements are met.

Contributions - Contributions to the plan can be made in the following ways:

- a. Participants may contribute a percentage of their compensation subject to certain limitations (employee elective deferral contributions). The plan also permits Roth elective deferrals.

- b. Rollover contributions are accepted by the plan from other qualified plans.
- c. The employer will make a matching contribution equal to 25% of employee elective deferral contributions up to the maximum amount eligible for matching which is equal to 6% of the participant's compensation.
- d. A profit sharing contribution may be made at the employer's discretion. Participants are required to work 1000 hours during the plan year and be employed on the last day of the plan year to be eligible for a profit sharing contribution. No such contributions were made in 2009 or 2008.

Participant accounts - Each participant's account is credited with the employee's elective deferral contributions, rollover contributions, and an allocation of the employer's contributions. Earnings, including the fair value appreciation or depreciation, are allocated to participant accounts on a daily basis based upon the performance of the investment options selected. Participants are allowed to transfer funds between the various investment options daily and change their deferral percentage on a monthly basis.

Vesting - Participants are always 100% vested in their elective deferral and rollover contributions and related earnings. Participants begin vesting in employer matching and profit sharing contributions upon two full years of service, at which time they are 20% vested. The participant then vests at the rate of 20% for each year thereafter. Upon death, disability or qualified retirement participants become 100% vested.

Forfeitures - Forfeited nonvested accounts, which are held in the money market account, are used to reduce the amount of the employer's matching and profit sharing contributions. Forfeitures of \$465 were used to reduce employer contributions in 2009. During 2008 no employer contributions were reduced by forfeitures. Unapplied forfeitures as of December 31, 2009 and 2008 were \$19,759 and \$14,939.

Payment of benefits - Benefit payments may commence upon termination of employment, death, disability, or attainment of normal retirement age. Distributions may be in the form of a single lump sum or installment payments if in accordance with required minimum distributions. In addition, hardship withdrawals are permitted under the plan. In-service withdrawals of fully vested accounts may commence upon attaining the age of 59 1/2.

Administrative fees - Certain administrative fees of the plan are paid by the employer.

Loans to participants - Participants can take out loans against their accounts with the approval of the plan administrator. The minimum loan amount is \$1,000 and the maximum amount is the lesser of one-half of the participant's vested account balance, or \$50,000. Participants may only have two loans outstanding at any given time. The repayment term generally cannot exceed 5 years except when the loan is for the purchase of a principal residence. As of December 31, 2009, loans outstanding had various repayment schedules through May 2022 and interest rates ranging from 4.25% to 9.5%.

3. RELATED PARTY TRANSACTIONS

Certain plan investments are managed by Schwab. Schwab is the agent and custodian as defined by the plan and therefore, these transactions qualify as party-in-interest transactions.

4. TERMINATION OF PLAN

Although it has not expressed any intent to do so, the company has the right to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

5. INCOME TAX STATUS

The Internal Revenue Service has ruled that the form of the related prototype non-standardized 401(k) profit sharing plan is acceptable under Section 401 of the Internal Revenue Code for use by employers for the benefit of their employees. As a result, the plan administrator has not obtained a separate Internal Revenue Service determination letter for the plan. The plan administrator and tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

6. INFORMATION CERTIFIED BY AGENTS

Orchard Trust Company, LLC served as agent for the plan through November 1, 2008. Schwab served as the agent since November 1, 2008. In that capacity, the agents held the plan's investment assets and executed transactions in those assets. The agents have certified certain information as set forth below to be complete and accurate.

- a. Investments held by the agents for the plan and the fair values of such as of December 31, 2009 and 2008;
- b. The contract values of the Union Bond & Trust Company Stable Value Fund and the Schwab Stable Value Fund Institutional II as of December 31, 2009 and 2008;
- c. Investment income and net appreciation (depreciation) in fair values for the years ended December 31, 2009 and 2008;
- d. Purchases and sales of investments for the years ended December 31, 2009 and 2008;
- e. Contributions to, investment income credited to, benefits paid from and transfers between investment accounts for the years ended December 31, 2009 and 2008; and

- f. The report of individual participant accounts (which includes beginning account balances, contributions, net investment income, withdrawals, transfers and ending account balances) for the years ended December 31, 2009 and 2008.

Since the agents certified the above investment information, Department of Labor regulations allow these investments and related activity to be excluded from the scope of the independent auditors' auditing procedures. All noninvestment activity for the plan, including contributions, benefit payments and participant account activity, has been subject to the independent auditors' auditing procedures. See the independent auditors' report.

NOTES TO FINANCIAL STATEMENTS - MODIFIED CASH BASIS

DECEMBER 31, 2009 AND 2008

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of accounting - The accompanying financial statements have been prepared on the modified cash basis of accounting. Under that basis, certain additions and the related assets are recognized when received rather than when earned and certain deductions are recognized when paid rather than when the obligation is incurred. That basis differs from accounting principles generally accepted in the United States of America primarily because the plan has not recognized contributions receivable and the related effect on changes in net assets in the accompanying financial statements.

The Union Bond & Trust Company Stable Value Fund and the Schwab Stable Value Fund Institutional II are fully benefit-responsive investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits - modified cash basis present the fair value of the fully benefit-responsive investment contracts as well as the adjustment of the investment contracts from fair value to contract value. The statements of changes in net assets available for benefits - modified cash basis are prepared on a contract value basis.

Accounting estimates - The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and uncertainties - The plan invests in various investments. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits - modified cash basis.

Subsequent events - The preparation of these financial statements includes the plan administrator's evaluation of the events and transactions occurring subsequent to December 31, 2009 through September 3, 2010, which is the date the financial statements were available to be issued.

Key parties of the plan - NCL Graphic Specialties, Inc. is the plan sponsor/employer and the plan administrator. As of November 1, 2008 SVA Retirement Plan Services, LLC became the third party administrator, began maintaining participant records, performing various compliance tests and acting as tax counsel. Charles Schwab Trust Company ("Schwab") became the asset custodian and agent and SVA Wealth Management, Inc. became the investment advisor. Three board members of NCL Graphic Specialties, Inc. became trustees. Prior to November 1, 2008 Oppenheimer Asset Management was the third party administrator, maintained participant records, performed various compliance tests and acted as tax counsel. Oppenheimer Wealth Management was the investment advisor. Orchard Trust Company, LLC was the asset custodian and trustee.

Investments - The plan sponsor/employer determines the investments available to plan participants. The participants allocate their contributions and transfer existing balances among the available investment options.

At the end of each business day, Schwab determines the fair value of the investments and allocates the fair value to the participants.

The Union Bond & Trust Company Stable Value Fund, with a contract unit value of \$1 and a fair market unit value of \$1.01 and \$0.95 as of December 31, 2009 and 2008 as certified by Schwab, and the Schwab Stable Value Institutional II Fund, with a contract unit value of \$1 and a fair market unit value of \$1.01 as of December 31, 2009 as certified by Schwab are stable value investments that invest directly in common trust funds that hold fully benefit-responsive investment contracts. The net appreciation (depreciation) in the fair value of investments bought, sold and held during the years is reflected in the statements of changes in net assets available for benefits - modified cash basis.

Participants have seven "models" as their investment options. These models allocate a fixed percentage of contributions to the available money market account, common/collective trust investments and mutual funds. Participants should refer to the plan sponsor for a summary of the models and the allocation percentages. Participants may also invest directly in investments without use of the models.

Fair value measurements - Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical investments (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows.

Level 1 - Valuation is based upon quoted prices in active markets for identical investments.

Level 2 - Valuation is based upon other significant observable inputs (including quoted prices for similar investments).

Level 3 - Valuation is based upon significant unobservable inputs (including the plan's assumptions in determining the fair value of investments).

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds and money market account - Valued at the net asset value ("NAV") of shares held by the plan.

Common/collective trust funds - Valued based on the plan's pro rata ownership of the underlying assets held in the common/collective trust funds as certified by the plan agent.

Loans to participants - Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The plan administrator determines by level, within the fair value hierarchy, the plan's investments at fair value as of December 31, 2009 and 2008 as set forth below.

Investments at fair value as of December 31, 2009				
	Level 1	Level 2	Level 3	Total

Changes in fair value of loans to participants, a level 3 investment, for the years ended December 31, 2009 and 2008 are as follows.

	2009	2008
Balance, beginning of year	\$102,378	\$ 92,093
Purchase, sales, issuances, and settlements, (net)	(45,525)	10,285

- b. Rollover contributions are accepted by the plan from other qualified plans.
- c. The employer will make a matching contribution equal to 25% of employee elective deferral contributions up to the maximum amount eligible for matching which is equal to 6% of the participant's compensation.
- d. A profit sharing contribution may be made at the employer's discretion. Participants are required to work 1000 hours during the plan year and be employed on the last day of the plan year to be eligible for a profit sharing contribution. No such contributions were made in 2009 or 2008.

Participant accounts - Each participant's account is credited with the employee's elective deferral contributions, rollover contributions, and an allocation of the employer's contributions. Earnings, including the fair value appreciation or depreciation, are allocated to participant accounts on a daily basis based upon the performance of the investment options selected. Participants are allowed to transfer funds between the various investment options daily and change their deferral percentage on a monthly basis.

Vesting - Participants are always 100% vested in their elective deferral and rollover contributions and related earnings. Participants begin vesting in employer matching and profit sharing contributions upon two full years of service, at which time they are 20% vested. The participant then vests at the rate of 20% for each year thereafter. Upon death, disability or qualified retirement participants become 100% vested.

Forfeitures - Forfeited nonvested accounts, which are held in the money market account, are used to reduce the amount of the employer's matching and profit sharing contributions. Forfeitures of \$465 were used to reduce employer contributions in 2009. During 2008 no employer contributions were reduced by forfeitures. Unapplied forfeitures as of December 31, 2009 and 2008 were \$19,759 and \$14,939.

Payment of benefits - Benefit payments may commence upon termination of employment, death, disability, or attainment of normal retirement age. Distributions may be in the form of a single lump sum or installment payments if in accordance with required minimum distributions. In addition, hardship withdrawals are permitted under the plan. In-service withdrawals of fully vested accounts may commence upon attaining the age of 59 1/2.

Administrative fees - Certain administrative fees of the plan are paid by the employer.

Loans to participants - Participants can take out loans against their accounts with the approval of the plan administrator. The minimum loan amount is \$1,000 and the maximum amount is the lesser of one-half of the participant's vested account balance, or \$50,000. Participants may only have two loans outstanding at any given time. The repayment term generally cannot exceed 5 years except when the loan is for the purchase of a principal residence. As of December 31, 2009, loans outstanding had various repayment schedules through May 2022 and interest rates ranging from 4.25% to 9.5%.

3. RELATED PARTY TRANSACTIONS

Certain plan investments are managed by Schwab. Schwab is the agent and custodian as defined by the plan and therefore, these transactions qualify as party-in-interest transactions.

4. TERMINATION OF PLAN

Although it has not expressed any intent to do so, the company has the right to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

5. INCOME TAX STATUS

The Internal Revenue Service has ruled that the form of the related prototype non-standardized 401(k) profit sharing plan is acceptable under Section 401 of the Internal Revenue Code for use by employers for the benefit of their employees. As a result, the plan administrator has not obtained a separate Internal Revenue Service determination letter for the plan. The plan administrator and tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

6. INFORMATION CERTIFIED BY AGENTS

Orchard Trust Company, LLC served as agent for the plan through November 1, 2008. Schwab served as the agent since November 1, 2008. In that capacity, the agents held the plan's investment assets and executed transactions in those assets. The agents have certified certain information as set forth below to be complete and accurate.

- f. The report of individual participant accounts (which includes beginning account balances, contributions, net investment income, withdrawals, transfers and ending account balances) for the years ended December 31, 2009 and 2008.

All noninvestment activity for the plan, including contributions, benefit payments and participant account activity, has been subject to the independent auditors' auditing procedures. See the independent auditors' report.
