Notes to Financial Statements

1. Description of Plan:

The following description of Mayer Bros. Apple Products, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering employees of Mayer Bros. Apple Products, Inc. (the Sponsor) who have attained age 18 and have worked a total of 1000 hours in the previous year. All newly eligible employees are enrolled into the Plan immediately under the Plan's default investment option unless another permitted percentage and/or investment option is selected by the participant. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Contributions are subject to certain limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. The Sponsor contributes 25% of participant contributions, up to 4% of compensation. Additional amounts may be contributed at the option of the Sponsor's board of directors. Participants direct their contributions and the corresponding employer matching contributions into various investment options offered by the Plan.

The Plan allows profit-sharing contributions, determined by the Sponsor's board of directors, and allocated to participants based on eligible compensation. The profit-sharing contribution for 2009 was $318,000.

The Plan also allows safe-harbor contributions. Amounts are determined by the Sponsor's board of directors, and the contributions are based on a percentage of participants' compensation. There was a 3% safe harbor contribution in 2009.

Participant Accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Sponsor's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are vested immediately in their contributions, the Sponsor's matching contributions, and actual earnings thereon. Vesting in the Sponsor's profit sharing contribution portion of accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Investment Options

A participant may direct contributions into a variety of mutual fund and common collective trust accounts offered by Vanguard Fiduciary Trust Company (Vanguard), a trustee of the Plan.

Payment of Benefits:

Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, annual installments, or annuity options. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures:

At December 31, 2009 and 2008, forfeited non-vested accounts totaled $8,545 and $13,706. These accounts will be used to reduce future employer contributions. Also in 2009, employer contributions were reduced by $21,600 from forfeited nonvested accounts.

2. Summary of Significant Accounting Policies:

Basis of Accounting:

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value. Inputs to the valuation methodology for mutual funds are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access. Shares of mutual fund investments are valued at quoted market prices that represent the net asset value of shares held by the Plan at year end. Inputs to the valuation methodology for the common/collective trust are other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, and credit risk). The fair value of the common/collective trust is based on the aggregate fair values of the underlying investments in mutual funds and bond trusts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Unrealized appreciation or depreciation on investments is charged or credited to the net assets of the Plan.

Payment of Benefits:

Benefits are recorded when paid.

Administrative Costs:

Various administrative costs were paid by the Plan.

Risks and Uncertainties:

The Plan provides for various participant directed investment options in any combination of mutual funds or a common/collective trust as offered by Vanguard, a trustee. Investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in the risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Subsequent Events:

The Plan has evaluated events and transactions for potential recognition or disclosure in the financial statements through August 24, 2010 (the date the financial statements were available to be issued).

3. Investments:

Investments as of December 31 are:

	2009	2008
Mutual funds:		
Vanguard Small Cap Value Index Fund	$ 33,512	$ 22,046
Vanguard Mid Capitalization Index Fund	288,381	164,611
