SSW HOLDING COMPANY RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2009 AND 2008, AND FOR THE YEAR ENDED DECEMBER 31, 2009

1. DESCRIPTION OF THE PLAN

The following description of SSW Holding Company Retirement Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

SSW Holding Company, Inc., is the Plan administrator. The Plan is available to qualifying employees of Straits Steel and Wire Company, Southern Steel & Wire Co., Collis Inc., TCC Management Company, LLC, Alabama Wire Products, Inc., and American Appliance Products, Inc. (collectively, the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). J.P. Morgan Chase Bank, N.A. served as trustee of the Plan as of and for the year ended December 31, 2009. MG Trust Company, LLC served as trustee of the Plan as of December 31, 2008.

General — The Plan is a defined contribution retirement plan established effective January 1, 1997. Eligibility to participate in the Plan and to receive Company contributions varies by Company, by divisions within the Company, and by union and nonunion status of the employee. Participants should refer to the applicable appendix in the Plan agreement for their corresponding division.

Contributions and Earnings Allocations — Participants may contribute to the Plan an amount not to exceed 80% of their annual compensation, subject to certain limitations and collective bargaining agreements. The Plan provides for matching employer contributions. The Company will match a portion of the participant contributions. This match also varies by divisions of the Company and collective bargaining agreements; the participant should refer to the Plan agreement for Company match percentages. The Plan also provides for an additional annual employer discretionary contribution that is determined by the board of directors and applicable collective bargaining agreements. There was no discretionary contribution for the year ended December 31, 2009.

Vesting — Participants are immediately vested in Company contributions and in their voluntary contributions as well as any allocation of net Plan earnings.

Participant Accounts — Each participant's account is credited with the participant's contribution, the Company's matching contribution, and an allocation of the Company's discretionary contribution and Plan earnings and is charged with withdrawals and an allocation of Plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment of Plan Assets — Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 15 mutual fund investment options and a stable asset income fund option.

Loans — The Plan provides for loans to participants, limited to $50,000 or 50% of the amount of the respective participants' vested accounts with a minimum loan amount of $1,000. The loans are secured by the balance in the participant's account and bear interest at rates equal to 1% over the prime lending rate published in *The Wall Street Journal* on the date of the loan. The loans are repaid through payroll deductions over a period of five years or less.

Distributions and Withdrawals — A participant is eligible to receive a distribution from the Plan of his or her total vested account balance when one of the following events occurs: (1) death, (2) total disability, (3) termination of employment, (4) in-service withdrawal of a fully vested balance at age 59 1/2, (5) attainment of the age of 70 1/2, or (6) hardship withdrawals as defined in the Plan agreement. Participants may receive a single lump-sum payment. Certain participants may elect to receive the benefit in installment payments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Investment Valuation and Income Recognition — The Plan's investments are stated at fair value. Quoted market prices are used to value investments in mutual funds. Participant loans are valued at the outstanding loan balance which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments. The stable value fund is stated at fair value and then adjusted to contract value.

The JP Morgan Stable Asset Income Fund is a stable value fund that is a comingled pension trust fund. The stable value fund invests in synthetic guaranteed investment contracts, U.S. Treasury and agency securities, and cash and cash equivalents.

In accordance with GAAP, the stable value fund is included at fair value in participant-directed investments in the statements of net assets available for benefits, and an additional line item is presented representing the adjustment from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Administrative Expenses — Administrative expenses of the Plan are paid by the Plan, unless the Company chooses to do so.

Payments of Benefits — Benefits are recorded upon distribution. No amounts were allocated to accounts of persons who have elected to withdraw from the Plan but have not yet been paid at December 31, 2009 and 2008.

New Accounting Standards Adopted — The accounting standards initially adopted in the 2009 financial statements described below affected certain note disclosures but did not impact the statements of net assets available for benefits or the statement of changes of net assets available for benefits.

Accounting Standards Codification — The Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC) became effective on July 1, 2009. At that date, the ASC became FASB's official source of authoritative U.S. GAAP applicable to all public and nonpublic nongovernmental entities, superseding existing guidance issued by the FASB, the American Institute of Certified Public Accountants, the Emerging Issues Task Force, and other related literature. The FASB also issues Accounting Standards Updates (ASU). An ASU communicates amendments to the ASC. An ASU also provides information to help a user of GAAP understand how and why GAAP is changing and when the changes will be effective.

Subsequent Events — In May 2009, the FASB issued ASC 855 (originally issued as FASB Statement No. 165, *Subsequent Events*) to establish general standards of accounting for and disclosing events that occur after the balance sheet date, but prior to the issuance of financial statements. ASC 855 provides guidance on when financial statements should be adjusted for subsequent events and requires companies to disclose subsequent events and the date through which subsequent events have been evaluated. ASC 855 is effective for periods ending after June 15, 2009.

Updates to Fair Value Measurements and Disclosures — In 2009, FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*, was issued and later codified into ASC 820, *Fair Value Measurements and Disclosures*, which expanded disclosures and required that major category for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments.

In September 2009, the FASB issued ASU No. 2009-12, *Fair Value Measurements and Disclosures: Investments in Certain Entities That Calculate Net Asset per Share (or Its Equivalent)* ("ASU 2009-12"), which amended ASC Subtopic 820-10, *Fair Value Measurements and Disclosures — Overall*. ASU 2009-12 is effective for the first reporting period ending after December 15, 2009. ASU 2009-12 permits, as a practical expedient, an entity holding investments in certain entities that calculate net asset value per share or its equivalent for which the fair value is not readily determinable, to measure the fair value of such investments on the basis of that net asset value per share or its equivalent without adjustment. ASU 2009-12 provides guidance on how investments within its scope are classified in the fair value hierarchy. ASU 2009-12 requires enhanced disclosures about the nature and risks of investments within its scope. Such disclosures include the nature of any restrictions on an investor's ability to redeem its investments at the measurement date, any unfunded commitments, and the investment strategies of the investee. The Plan has adopted ASU No. 2009-12 on a prospective basis for the year ended December 31, 2009. Adoption did not have a material impact on the fair value measurement and disclosure of the Plan's investments. The effect of the adoption of ASU 2009-12 had no impact on the statements of net assets available for benefits and statement of changes in net assets available for benefits.

New Accounting Standards to Be Adopted —

ASU 2010-06, Fair Value Measurements and Disclosures — In January 2010, the FASB issued ASU 2010-06, *Fair Value Measurements and Disclosures*, which amends ASC 820 (originally issued as FASB Statement No. 157, *Fair Value Measurements*), adding new disclosure requirements for Levels 1 and 2; separate disclosures of purchases, sales, issuances and settlements relating to Level 3 measurements; and clarification of existing fair value disclosures. ASU 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The Plan is currently evaluating the impact ASU 2010-06 will have on the financial statements.

3. FAIR VALUE MEASUREMENTS

ASC 820 established a single authoritative definition of fair value, set a framework for measuring fair value, and requires additional disclosures about fair value measurements. In accordance with ASC 820, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2009 and 2008.

In accordance with the update to ASC 820 (originally issued as FSP 157-4), the table below includes the required disclosure by major category of debt and equity securities, determined on the basis of the nature and risk of the investments at December 31, 2009.

4. STABLE VALUE FUND

The stable value fund is a comingled pension trust fund sponsored by JP Morgan Chase Bank. The beneficial interest of each participant is represented by units. The stable value fund's primary goal is to seek current income while maintaining stability of the invested principal.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the stable value fund, plus earnings, less participant withdrawals and administrative expenses. The stable value fund imposes certain restrictions on the Plan, and the stable value fund itself may be subject to circumstances that impact its ability to transact at contract value, such as a complete or partial termination of the Plan or its merger with another plan or a failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Plan management believes that the occurrence of events that would cause the stable value fund to transact at less than contract value is not probable.

The stable value fund invests in synthetic guaranteed investment contracts, U.S. Treasury and agency securities, and cash and cash equivalents. All investment contracts purchased by the stable value fund are benefit responsive. The stable value fund also invests in other commingled trust funds managed by JP Morgan Chase Bank.

5. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company, by a letter dated February 24, 2004, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Company believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.
