INDEPENDENT AUDITOR'S REPORT

The Administrative Committee
Westinghouse Electric Company LLC
Cranberry Township, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Westinghouse Electric Company Savings Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025 stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- the information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The Supplemental Schedule of Assets (Held at End of Year) and Schedule of Investments in Contracts and Other Securities as of December 31, 2025 are presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that is agreed to or derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that is agreed to or derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Westinghouse Electric Company Savings Plan

Notes to Financial Statements

December 31, 2025 and 2024

1. Description of Plan

The following description of the Westinghouse Electric Company (Company) Savings Plan (Plan) provides only general information. Participants should refer to the Plan document or summary plan description for a complete description of the Plan's provisions.

The Plan was established on April 1, 1999.

On November 7, 2023, Brookfield Business Partners and Brookfield WEC Holdings Sub-Aggregator LP sold the Company to a strategic partnership led by Brookfield Renewable Partners and Cameco Corporation (collectively referred to as the Partnership). The Plan remained unchanged as a result of this transaction.

Effective October 1, 2023, the Plan was amended to reflect the merger of the WECTEC Staffing Services 401(k) Savings Plan (Staffing Plan) and the WECTEC 401(k) Savings Plan (WECTEC Plan) into the Plan. As a result of the merger, eligible Staffing Plan and WECTEC Plan participants are eligible to participate in the Plan.

Employees of the BHI Energy 401(k) and Profit Sharing Plan and Tecnatom USA Corporation 401(k) Profit Sharing Plan & Trust were eligible to participate in the Plan effective January 1, 2024 and May 1, 2024, respectively. Effective June 2025, participants in the BHI Energy 401(k) and Profit Sharing Plan were given the opportunity to transfer their assets and approximately $11,836,000 in net assets were transferred to the Plan. Effective July 2025, the Tecnatom USA Corporation 401(k) Profit Sharing Plan & Trust merged into the Plan and approximately $232,000 in net assets were transferred to the Plan.

Effective January 1, 2024, the Plan adopted the increased required minimum distribution from age 72 to 73 and determined that Roth and Roth rollover accounts are not subject to pre-death required minimum distribution as permitted under the Setting Every Community Up for Retirement Enhancement (SECURE) 2.0 Act of 2022. Effective January 1, 2025, the Plan was amended to provide additional catch-up contributions for participants who are age 60, 61, 62 or 63 in the applicable Plan year.

The Plan is a defined contribution plan covering all full-time, part-time and casual employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may contribute from 2% to 35% of their compensation, in increments of 1%, subject to Internal Revenue Code (IRC) limitations. Newly eligible employees are automatically enrolled in the Plan with investment in the fixed income fund and a 3% deferral of their compensation. Additionally, unless the participant changes his/her deferral percentage, the withholdings will increase by 1% annually on July 1 to a maximum deferral of 6%. For 2025 and 2024, highly compensated employees were limited to a 20% employee contribution cap. All participant contributions above the IRC Section 402(g)(1) limit are on an after-tax basis. Participants may also contribute amounts representing distributions from other defined contribution plans and, in certain cases, defined benefit plans. The Company makes matching contributions to the account of each participant at a rate of 50% of the first 6% of compensation that a participant contributes to the Plan. The Plan also allows for Roth 401(k) contributions.

1. Description of Plan (Continued)

Participants direct the investment of contributions into various options offered by the Plan and may change their investment options daily.

Effective January 1, 2015, in connection with changes to the Westinghouse Electric Company Pension Plan (Pension Plan), a retirement contribution account (RCA) was implemented for all union employees represented by the Association of Westinghouse Salaried Employees (AWSE) and International Brotherhood of Electrical Workers (IBEW) hired on or after January 1, 2015 and existing union employees represented by the AWSE and IBEW who chose to forgo enrollment or discontinue enrollment in the Pension Plan on that date. Effective April 1, 2017, all non-union employees became eligible for the RCA. Effective October 1, 2017, all Newington Boilermaker union employees became eligible for the RCA.

Effective January 1, 2018, all AWSE and IBEW union employees became eligible for the RCA. Employees eligible for the RCA receive a Company contribution equal to 3% of eligible compensation annually, subject to employment on the last day of the year and IRC limitations for the respective Plan year.

A participant in the Staffing Plan (Staffing Participant) is not eligible to receive any matching contributions.

Employees who attain age 50 by the end of the calendar year may make voluntary catch-up contributions as permitted under the Economic Growth and Tax Relief Reconciliation Act (EGTRRA). Eligible employees can elect to contribute 1% to 20% of compensation as catch-up contributions, subject to limitations of the IRC.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Participants become fully vested in the Company's matching and RCA contribution portions of their accounts plus actual earnings thereon after obtaining three years of service, as defined in the Plan Document.

Participant Accounts and Forfeitures – Each participant's account is credited with the participant's contributions and the Company's contributions and Plan earnings, and is charged with an allocation of administrative expenses. Allocations of Plan earnings are based on account balances. Allocations of administrative expenses are based on a per-participant rate. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. Forfeitures of $1,179,518 were used to reduce the Company's contributions for the year ended December 31, 2025. Available forfeitures were $1,015,465 and $1,289,719 as of December 31, 2025 and December 31, 2024, respectively. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (Continued)

Notes Receivable from Participants – Participants may borrow from their accounts 50% of their vested account balance, with a minimum of $1,000 and a maximum of $50,000, reduced by the highest outstanding loan balance during the preceding 12 months. Loan terms range from six months to five years. The loans are secured by the balance in the participant's account and bear a reasonable interest rate as determined monthly by the Plan administrator. Principal and interest repayments are made ratably through monthly or weekly payroll deductions.

Payment of Benefits – On termination of service, participants may receive a lump-sum amount equal to the vested value of their account, or upon disability or retirement, participants may elect to receive monthly or annual cash installments. Upon death of the participant, the participant's beneficiary may receive a lump-sum amount equal to the vested value of the account.

Plan Termination – Although it has not expressed any intent to do so, the Company has the right under the Plan to amend any and all provisions of the Plan, discontinue its contributions to the Plan or terminate the Plan at any time in the future, subject to the provisions of ERISA. In the event of Plan termination, all accounts will be fully vested.

2. Summary of Significant Accounting Policies

A summary of significant accounting policies consistently applied by the Plan administrator in the preparation of the accompanying statements of net assets available for benefits and related statement of changes in net assets available for benefits and the related notes to the financial statements (financial statements) follows:

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits **–** Benefits are recorded when paid.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Notes Receivable From Participants – Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when earned. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2025 or 2024. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value), which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). (See Note 4 for further discussion of fair value measurement.)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses – Administrative expenses represent fees for Plan services, including legal, trustee, accounting and payment processing. Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments. Expenses paid by the Company are not material.

3. Investments (Unaudited)

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments and notes receivable from participants held at December 31, 2025 and 2024 and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by Voya Institutional Trust Company, the trustee of the Plan.

4. Fair Value Measurement

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820 Fair Value Measurement includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under FASB ASC Topic 820 are described below:

– Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

4. Fair Value Measurement (Continued)

– Level 2 – Inputs to the valuation methodology include:

– Quoted prices for similar assets and liabilities in active markets.

– Quoted prices for identical or similar assets or liabilities in markets that are not active.

– Observable inputs other than quoted prices that are used in the valuation of the asset or liability (e.g., interest rate and yield curve quotes at commonly quoted intervals).

– Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

– Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of input that is significant to the fair value measurement in its entirety. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value:

Registered investment companies: valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Self-managed/brokerage accounts: valued based on the fair value of the underlying investments. The underlying investments are carried at fair value based on quoted market prices.

Money market fund: valued at cost plus accrued interest.

Common/collective trusts: valued at the NAV per unit, as reported by the trustee of the collective trust on the valuation date. The NAV is used as a practical expedient to estimate fair value and is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchase and sales) may occur daily. If the Plan initiates a full redemption of the common/collective trust, the issuer reserves the right to require prior notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

4. Fair Value Measurement (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments carried at fair value as of December 31:

	2025			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 142,555,950	$ –	$ –	$ 142,555,950

Investments measured at net asset value (a)				1,295,105,719
Total investments at fair value				$ 1,767,622,156

(a) In accordance with ASC Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the accompanying statements of net assets available for benefits.

4. Fair Value Measurement (Continued)

The following summarizes the common collective trust funds for which fair value is measured using the net asset value per share practical expedient as of December 31:

5. Fully Benefit-Responsive Insurance Company Investment Contracts

The Plan holds a portfolio of investment contracts that includes a guaranteed investment contract and a portfolio of synthetic guaranteed investment contracts. These contracts meet the fully benefit-responsive investment contract criteria and, therefore, are reported at contract value, which is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants when they initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less withdrawals.

Synthetic guaranteed investment contracts are issued by insurance companies or other financial institutions, backed by a portfolio of bonds. The bond portfolio may be structured as a fixed income separate account or collective fund. The bond portfolio is owned directly by the Plan. The issuer guarantees that all qualified participant withdrawals will be at contract value and that the crediting rate applied will not be less than 0%. Crediting rates are typically reset quarterly to account for the difference between the contract value and the fair value of the underlying portfolio.

If the Plan defaults in its obligations under the contract, including the issuer's determination that the agreement constitutes a nonexempt prohibited transaction as defined under ERISA, and such default is not corrected within the time permitted by the contract, the contract may be terminated by the issuer and the Plan will receive the fair value as of the date of termination. Each contract recognizes certain events of default that can invalidate the contracts' coverage. Among these are investments outside of the range of instruments that are permitted under the investment guidelines contained in the investment contract; fraudulent or other material misrepresentations made to the issuer; changes of control of the investment adviser not approved by the contract issuer; changes in certain key regulatory requirements; or failure of the Plan to be tax qualified.

The contracts also generally provide for withdrawals associated with certain events that are not in the ordinary course of Plan operations. These withdrawals are paid with a market value adjustment applied to the withdrawal as defined in the investment contract. Each contract issuer specifies the events that may trigger a market value adjustment, however such events may include but not be limited to the following:

- material amendments to the Plan's structure or administration;
- complete or partial termination of the Plan, including a merger with another plan;
- the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA;
- the redemption of all or a portion of the interests in the Plan at the direction of the plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the Plan (such as a group layoff or early retirement incentive program); the closing or sale of a subsidiary, employing unit or affiliate; the bankruptcy or insolvency of the plan sponsor; the merger of the Plan with another plan; or the Plan sponsor's establishment of another tax qualified defined contribution plan;

5. Fully Benefit-Responsive Insurance Company Investment Contracts (Continued)

- any change in law, regulation, ruling, administrative or judicial position or accounting requirement applicable to the Plan;
- changes to competing investment options;
- the delivery of any communication to Plan participants designed to influence a participant not to invest in the stable value option.

At this time, the occurrence of any such market value adjustment event is not probable.

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated April 24, 2015, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024 there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions, however there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2022.

7. Risks and Uncertainties

The Plan invests in securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in value will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

8. Related Parties

Certain administrative functions of the Plan are performed by members, officers and employees of the Company at no cost to the Plan.

9. Subsequent Events

Subsequent events are defined as events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are issued or are available to be issued. The Plan has evaluated subsequent events through October 8, 2026, the date that the financial statements were available to be issued, and determined that there have been no events that have occurred that would require adjustments to the disclosures in the financial statements except for the matters described in the following paragraph.

Effective March 2026, participants in the BHI Energy 401(k) and Profit Sharing Plan were given the opportunity to transfer their assets and approximately $3,750,000 in net assets were transferred into the Plan.

INDEPENDENT AUDITOR'S REPORT

The Administrative Committee
Westinghouse Electric Company LLC
Cranberry Township, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Westinghouse Electric Company Savings Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025 stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The Supplemental Schedule of Assets (Held at End of Year) and Schedule of Investments in Contracts and Other Securities as of December 31, 2025 are presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that is agreed to or derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that is agreed to or derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Westinghouse Electric Company Savings Plan

Notes to Financial Statements

December 31, 2025 and 2024

1. Description of Plan

The following description of the Westinghouse Electric Company (Company) Savings Plan (Plan) provides only general information. Participants should refer to the Plan document or summary plan description for a complete description of the Plan's provisions.

The Plan was established on April 1, 1999.

On November 7, 2023, Brookfield Business Partners and Brookfield WEC Holdings Sub-Aggregator LP sold the Company to a strategic partnership led by Brookfield Renewable Partners and Cameco Corporation (collectively referred to as the Partnership). The Plan remained unchanged as a result of this transaction.

Effective October 1, 2023, the Plan was amended to reflect the merger of the WECTEC Staffing Services 401(k) Savings Plan (Staffing Plan) and the WECTEC 401(k) Savings Plan (WECTEC Plan) into the Plan. As a result of the merger, eligible Staffing Plan and WECTEC Plan participants are eligible to participate in the Plan.

Employees of the BHI Energy 401(k) and Profit Sharing Plan and Tecnatom USA Corporation 401(k) Profit Sharing Plan & Trust were eligible to participate in the Plan effective January 1, 2024 and May 1, 2024, respectively. Effective June 2025, participants in the BHI Energy 401(k) and Profit Sharing Plan were given the opportunity to transfer their assets and approximately $11,836,000 in net assets were transferred to the Plan. Effective July 2025, the Tecnatom USA Corporation 401(k) Profit Sharing Plan & Trust merged into the Plan and approximately $232,000 in net assets were transferred to the Plan.

Effective January 1, 2024, the Plan adopted the increased required minimum distribution from age 72 to 73 and determined that Roth and Roth rollover accounts are not subject to pre-death required minimum distribution as permitted under the Setting Every Community Up for Retirement Enhancement (SECURE) 2.0 Act of 2022. Effective January 1, 2025, the Plan was amended to provide additional catch-up contributions for participants who are age 60, 61, 62 or 63 in the applicable Plan year.

The Plan is a defined contribution plan covering all full-time, part-time and casual employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may contribute from 2% to 35% of their compensation, in increments of 1%, subject to Internal Revenue Code (IRC) limitations. Newly eligible employees are automatically enrolled in the Plan with investment in the fixed income fund and a 3% deferral of their compensation. Additionally, unless the participant changes his/her deferral percentage, the withholdings will increase by 1% annually on July 1 to a maximum deferral of 6%. For 2025 and 2024, highly compensated employees were limited to a 20% employee contribution cap. All participant contributions above the IRC Section 402(g)(1) limit are on an after-tax basis. Participants may also contribute amounts representing distributions from other defined contribution plans and, in certain cases, defined benefit plans. The Company makes matching contributions to the account of each participant at a rate of 50% of the first 6% of compensation that a participant contributes to the Plan. The Plan also allows for Roth 401(k) contributions.

1. Description of Plan (Continued)

Participants direct the investment of contributions into various options offered by the Plan and may change their investment options daily.

Effective January 1, 2015, in connection with changes to the Westinghouse Electric Company Pension Plan (Pension Plan), a retirement contribution account (RCA) was implemented for all union employees represented by the Association of Westinghouse Salaried Employees (AWSE) and International Brotherhood of Electrical Workers (IBEW) hired on or after January 1, 2015 and existing union employees represented by the AWSE and IBEW who chose to forgo enrollment or discontinue enrollment in the Pension Plan on that date. Effective April 1, 2017, all non-union employees became eligible for the RCA. Effective October 1, 2017, all Newington Boilermaker union employees became eligible for the RCA.

Effective January 1, 2018, all AWSE and IBEW union employees became eligible for the RCA. Employees eligible for the RCA receive a Company contribution equal to 3% of eligible compensation annually, subject to employment on the last day of the year and IRC limitations for the respective Plan year.

A participant in the Staffing Plan (Staffing Participant) is not eligible to receive any matching contributions.

Employees who attain age 50 by the end of the calendar year may make voluntary catch-up contributions as permitted under the Economic Growth and Tax Relief Reconciliation Act (EGTRRA). Eligible employees can elect to contribute 1% to 20% of compensation as catch-up contributions, subject to limitations of the IRC.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Participants become fully vested in the Company's matching and RCA contribution portions of their accounts plus actual earnings thereon after obtaining three years of service, as defined in the Plan Document.

Participant Accounts and Forfeitures – Each participant's account is credited with the participant's contributions and the Company's contributions and Plan earnings, and is charged with an allocation of administrative expenses. Allocations of Plan earnings are based on account balances. Allocations of administrative expenses are based on a per-participant rate. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. Forfeitures of $1,179,518 were used to reduce the Company's contributions for the year ended December 31, 2025. Available forfeitures were $1,015,465 and $1,289,719 as of December 31, 2025 and December 31, 2024, respectively. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (Continued)

Notes Receivable from Participants – Participants may borrow from their accounts 50% of their vested account balance, with a minimum of $1,000 and a maximum of $50,000, reduced by the highest outstanding loan balance during the preceding 12 months. Loan terms range from six months to five years. The loans are secured by the balance in the participant's account and bear a reasonable interest rate as determined monthly by the Plan administrator. Principal and interest repayments are made ratably through monthly or weekly payroll deductions.

Payment of Benefits – On termination of service, participants may receive a lump-sum amount equal to the vested value of their account, or upon disability or retirement, participants may elect to receive monthly or annual cash installments. Upon death of the participant, the participant's beneficiary may receive a lump-sum amount equal to the vested value of the account.

Plan Termination – Although it has not expressed any intent to do so, the Company has the right under the Plan to amend any and all provisions of the Plan, discontinue its contributions to the Plan or terminate the Plan at any time in the future, subject to the provisions of ERISA. In the event of Plan termination, all accounts will be fully vested.

2. Summary of Significant Accounting Policies

A summary of significant accounting policies consistently applied by the Plan administrator in the preparation of the accompanying statements of net assets available for benefits and related statement of changes in net assets available for benefits and the related notes to the financial statements (financial statements) follows:

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits **–** Benefits are recorded when paid.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Notes Receivable From Participants – Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when earned. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2025 or 2024. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value), which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). (See Note 4 for further discussion of fair value measurement.)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses – Administrative expenses represent fees for Plan services, including legal, trustee, accounting and payment processing. Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments. Expenses paid by the Company are not material.

3. Investments (Unaudited)

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments and notes receivable from participants held at December 31, 2025 and 2024 and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by Voya Institutional Trust Company, the trustee of the Plan.

4. Fair Value Measurement

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820 Fair Value Measurement includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under FASB ASC Topic 820 are described below:

– Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

4. Fair Value Measurement (Continued)

– Level 2 – Inputs to the valuation methodology include:

– Quoted prices for similar assets and liabilities in active markets.

– Quoted prices for identical or similar assets or liabilities in markets that are not active.

– Observable inputs other than quoted prices that are used in the valuation of the asset or liability (e.g., interest rate and yield curve quotes at commonly quoted intervals).

– Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

– Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of input that is significant to the fair value measurement in its entirety. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value:

Registered investment companies: valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Self-managed/brokerage accounts: valued based on the fair value of the underlying investments. The underlying investments are carried at fair value based on quoted market prices.

Money market fund: valued at cost plus accrued interest.

Common/collective trusts: valued at the NAV per unit, as reported by the trustee of the collective trust on the valuation date. The NAV is used as a practical expedient to estimate fair value and is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchase and sales) may occur daily. If the Plan initiates a full redemption of the common/collective trust, the issuer reserves the right to require prior notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

4. Fair Value Measurement (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments carried at fair value as of December 31:

	2025			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 142,555,950	$ –	$ –	$ 142,555,950
Self-managed/brokerage accounts	120,876,070	–	–	120,876,070

Investments measured at net asset value (a)				1,295,105,719
Total investments at fair value				$ 1,767,622,156

(a) In accordance with ASC Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the accompanying statements of net assets available for benefits.

4. Fair Value Measurement (Continued)

The following summarizes the common collective trust funds for which fair value is measured using the net asset value per share practical expedient as of December 31:

5. Fully Benefit-Responsive Insurance Company Investment Contracts

The Plan holds a portfolio of investment contracts that includes a guaranteed investment contract and a portfolio of synthetic guaranteed investment contracts. These contracts meet the fully benefit-responsive investment contract criteria and, therefore, are reported at contract value, which is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants when they initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less withdrawals.

Synthetic guaranteed investment contracts are issued by insurance companies or other financial institutions, backed by a portfolio of bonds. The bond portfolio may be structured as a fixed income separate account or collective fund. The bond portfolio is owned directly by the Plan. The issuer guarantees that all qualified participant withdrawals will be at contract value and that the crediting rate applied will not be less than 0%. Crediting rates are typically reset quarterly to account for the difference between the contract value and the fair value of the underlying portfolio.

If the Plan defaults in its obligations under the contract, including the issuer's determination that the agreement constitutes a nonexempt prohibited transaction as defined under ERISA, and such default is not corrected within the time permitted by the contract, the contract may be terminated by the issuer and the Plan will receive the fair value as of the date of termination. Each contract recognizes certain events of default that can invalidate the contracts' coverage. Among these are investments outside of the range of instruments that are permitted under the investment guidelines contained in the investment contract; fraudulent or other material misrepresentations made to the issuer; changes of control of the investment adviser not approved by the contract issuer; changes in certain key regulatory requirements; or failure of the Plan to be tax qualified.

The contracts also generally provide for withdrawals associated with certain events that are not in the ordinary course of Plan operations. These withdrawals are paid with a market value adjustment applied to the withdrawal as defined in the investment contract. Each contract issuer specifies the events that may trigger a market value adjustment, however such events may include but not be limited to the following:

- material amendments to the Plan's structure or administration;
- complete or partial termination of the Plan, including a merger with another plan;
- the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA;
- the redemption of all or a portion of the interests in the Plan at the direction of the plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the Plan (such as a group layoff or early retirement incentive program); the closing or sale of a subsidiary, employing unit or affiliate; the bankruptcy or insolvency of the plan sponsor; the merger of the Plan with another plan; or the Plan sponsor's establishment of another tax qualified defined contribution plan;

5. Fully Benefit-Responsive Insurance Company Investment Contracts (Continued)

- any change in law, regulation, ruling, administrative or judicial position or accounting requirement applicable to the Plan;
- changes to competing investment options;
- the delivery of any communication to Plan participants designed to influence a participant not to invest in the stable value option.

At this time, the occurrence of any such market value adjustment event is not probable.

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated April 24, 2015, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024 there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions, however there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2022.

7. Risks and Uncertainties

The Plan invests in securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in value will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

8. Related Parties

Certain administrative functions of the Plan are performed by members, officers and employees of the Company at no cost to the Plan.

9. Subsequent Events

Subsequent events are defined as events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are issued or are available to be issued. The Plan has evaluated subsequent events through October 8, 2026, the date that the financial statements were available to be issued, and determined that there have been no events that have occurred that would require adjustments to the disclosures in the financial statements except for the matters described in the following paragraph.

Effective March 2026, participants in the BHI Energy 401(k) and Profit Sharing Plan were given the opportunity to transfer their assets and approximately $3,750,000 in net assets were transferred into the Plan.

(a) The Moody's Investors Service (Moody's) and the Standard & Poor's (S&P) ratings are current assessments of the contract issuer's overall financial capacity (its creditworthiness) to pay its financial obligations. Ratings shown for security-backed contracts are assessments on the issuer of the contract wrapper and not the underlying securities.
(b) Interest rate resets or fluctuates periodically. Rate shown is the current rate as of December 31, 2025.
