INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the
Southern Methodist University 403(b) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit
We were engaged to perform audits of the financial statements of Southern Methodist University 403(b) Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institutions).

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Disclaimer of Opinion
We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion
The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 2 to the financial statements, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America (U.S. GAAP) require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements
Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter—Supplemental Schedule Required by ERISA
The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Respectfully submitted,

SOUTHERN METHODIST UNIVERSITY 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024

Note 1 Description of Plan

The following brief description of the Southern Methodist University 403(b) Retirement Plan (the Plan) sponsored by Southern Methodist University (the University or SMU) is provided for general information purposes only. Participants should refer to the Plan Document and Summary Plan Description for a more complete description of the Plan's provisions, which are available from the Plan administrator.

General

The Plan is a defined contribution retirement plan sponsored by the University for the benefit of its eligible employees. All employees of the University are eligible to participate in the Plan, except for certain excluded employees as defined in the Plan document. Eligible employees may begin participation in the Plan on a voluntary basis immediately. The University, as fiduciary and administrator, is responsible for the control and administration of the Plan. Transamerica Retirement Solutions, LLC (Transamerica) and Teachers Insurance and Annuity Association (TIAA) serve as the recordkeepers for the Plan. State Street Bank and Trust Company (State Street) is the custodian and trustee of the Plan assets record kept by Transamerica. TIAA Trust, N.A. is the trustee and custodian of the Plan assets record kept by TIAA. TIAA and CREF are issuers of certain investments and agents for TIAA Trust, N.A. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2026, the Plan was restated to include certain provisions related to the SECURE 2.0 Act.

Contributions

Eligible employees may make pre-tax or Roth contributions into the Plan up to the maximum allowed by the Internal Revenue Code (IRC). All full-time employees are required to contribute five percent of their regular salary upon attainment of age 36. Employees who have attained age 50 before the close of the Plan year are eligible to make "catch-up" contributions in accordance with, and subject to the limitations of the IRC. Employer matching contributions are made for each eligible participant who is at least 21 years of age and contributes five percent of their eligible compensation on either a voluntary or mandatory basis. These matching contributions from the University are equal to eight percent of eligible compensation for participants under age 41 and 10 percent of eligible compensation for participants age 41 or older. In addition, the Plan will accept direct rollovers of eligible rollover distributions from other qualified plans.

Participant Investment Account Options

Each participant has the option of directing contributions into any of the separate investment account options selected by the University and offered in the Plan and may change the allocation to the extent permitted by the individual agreements. Effective January 1, 2012, all contributions are directed to Transamerica.

Note 1 **Description of Plan - Continued**

Participant Accounts
Each participant's account is credited with the participant's contribution, the University's contribution, and an allocation of Plan earnings (losses), and charged with withdrawals and an allocation of administrative expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately and fully vested in all of their contributions plus earnings thereon. Participants hired before June 1, 2010 are fully vested in SMU matching contributions. Participants hired on or after June 1, 2010 are fully vested in SMU matching contributions after three years of SMU employment.

Benefit Payments
A distribution of benefits can only be made upon a participant incurring a disability, incurring a financial hardship, obtaining age 59½, death or having a severance from employment. A participant may elect to receive a lump sum payment, partial payment, installment payments or an annuity contract. Hardship withdrawals are only allowed from certain assets.

Notes Receivable from Participants
Participants may obtain loans of not less than $1,000 but not more than the lesser of $50,000, reduced by the highest loan balance in the previous one year, or 50% of the participant's vested account balance. The period of repayment may not exceed five years unless the proceeds are for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest is paid directly to Transamerica. The maximum number of loans outstanding cannot exceed two.

Expense Budget Account
The Plan has an expense budget account with Transamerica which is a suspense account funded with excess revenue generated by the Plan. These funds may be used to pay Plan expenses. During 2025, $77,313 of Plan expenses were paid from the expense budget account. The balance in the fund as of December 31, 2025 and 2024 was $156,548 and $228,793, respectively. Effective January 1, 2022, the excess revenue generated by the Plan is deposited directly into participant accounts.

Forfeitures
Forfeitures of non-vested University contributions are used to reduce matching contributions. As of December 31, 2025 and 2024, there was $445,643 and $2,331,292, respectively, of unallocated forfeitures. During 2025, approximately $2,500,000 of forfeitures were used to reduce matching contributions.

Note 2 Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Subsequent Events
In preparing the financial statements, management has evaluated events and transactions for potential recognition or disclosure through October 8, 2026, the date that the financial statements were available to be issued.

Use of Estimates
The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Expenses of the Plan can be paid by the Plan or the University.

Plan Records Management
In November 2007, the Department of Labor (DOL) issued amended regulations eliminating an exemption granted to 403(b) plans from the annual Form 5500 reporting and disclosure requirements under Part 1 of Subtitle B of Title I of the Employee Retirement Income Security Act of 1974, as amended. Prior to the amended regulations, the Plan was not viewed as a separate reporting entity. Historically, the Plan was viewed as a collection of individual contracts with which participants could engage in a range of actions with limited involvement, if any, by the University. Accordingly, various accounting records and supporting documents related to the Plan's 403(b) contracts and custodial accounts issued to current and former employees prior to January 1, 2009 were not available from historical custodians. Consequently, the financial statements have been prepared based on available records analyzed by Plan management.

As certain records were not available from the inception of the Plan, the effect, if any, on the completeness or accuracy of the Plan's financial statements cannot be determined.

Note 2 **Summary of Significant Accounting Policies - Continued**

Risks and Uncertainties
The Plan invests in investment securities which are exposed to various risks such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as inflation, a pandemic or international conflict. Due to the level of risk associated with these securities, it is at least reasonably possible that changes in their values will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 3 **Investment Valuation and Income Recognition**
Except for certain contracts described in Note 4 and Note 5, investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan follows the fair value measurement guidance required by accounting principles generally accepted in the United States of America for financial and non-financial assets and liabilities. That guidance defines fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 3 **Investment Valuation and Income Recognition - Continued**

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Fixed Annuity Contracts - Non Fully Benefit Responsive: Fixed annuity contracts are reported at contract value, which approximates fair value (see Note 4). This determination is based on TIAA's credit rating and yield during 2025 and 2024 being comparable to similar alternative investments and the interest rate which re-sets annually being comparable to a 10 year treasury bond. In subsequent periods, if market conditions change, such as the insurance company credit rating or interest rate environment, the difference between contract value and fair value could become significant.

Insurance Company Separate Account: The Insurance Company Separate Account is a pooled separate account in which daily unit values are published on NASDAQ. The fund is not traded on this exchange. The value of the unit holder's investment rises and falls with the returns on the underlying assets in the fund.

Variable Annuity Contracts: Valued at the daily unit value published on NASDAQ. The funds are not traded on this exchange. The value of the unit holder's investment rises and falls with the returns on the underlying assets in the fund. The underlying investments consist principally of equity securities, fixed-income instruments and short-term investments.

Registered Investment Companies: Valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Note 3 **Investment Valuation and Income Recognition - Continued**

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	Investments, at Fair Value as of December 31, 2025

Purchases of Level 3 investments totaled $13,881,214 for the year ended December 31, 2025.

Note 3 **Investment Valuation and Income Recognition - Continued**

The following table presents information about significant unobservable inputs related to the Plan's investment in assets categorized as Level 3 in the ASC 820 fair value hierarchy at December 31, 2025 and 2024:

Type	Fair Value at December 31, 2025	Valuation Method	Significant Unobservable Inputs	Discount Rate Range
Fixed Annuity Contracts - Non Fully Benefit Responsive	$ 84,082,872	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate	RA - 3.55% - 6.50% GRA - 3.55% - 6.50%

Type	Fair Value at December 31, 2024	Valuation Method	Significant Unobservable Inputs	Discount Rate Range
Fixed Annuity Contracts - Non Fully Benefit Responsive	$ 87,830,396	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate	RA - 3.65% - 6.50% GRA - 3.65% - 6.50%

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 4 **Investment Contracts with TIAA**

The Plan holds fixed annuity investment contracts with TIAA. Under these contracts are sub-contracts, some of which are fully benefit-responsive while others are not. TIAA maintains the contributions into these contracts in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Each premium allocated to the fixed annuity investment contract buys a guaranteed minimum amount of lifetime income based on the rate schedule in effect at the time the premium is credited.

Note 4 **Investment Contracts with TIAA - Continued**

For investment contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. These contracts are included in the financial statements at contract value, as reported to the Plan by TIAA. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than an effective rate of 3.00%. Such interest rates are reviewed and re-set by the issuer on an annual basis. The crediting interest rate for accumulating Retirement Annuity (RA) and Group Retirement Annuity (GRA) contracts was 4.75% as of December 31, 2025. The crediting interest rate for accumulating Supplemental Retirement Annuity (SRA) and Group Supplemental Retirement Annuity (GSRA) contracts was 4.00% as of December 31, 2025.

Under RA contracts, distributions from the TIAA Traditional Annuity are restricted in form to either a life annuity or a ten-installment annuity paid evenly over nine years. Under the GRA contracts, distributions may be withdrawn in a single lump sum within 120 days of termination, subject to a 2.50% surrender charge. All other withdrawals and transfers must be spread over 10 annual installments (or five annual installments for withdrawals after termination of employment).

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 5 **Guaranteed Interest Account with New York Life**

The Plan has a guaranteed interest account with New York Life Insurance Company (New York Life). The account is a stable value product that guarantees the return of principal and accumulated interest, guaranteed by New York Life. New York Life maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest account issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed interest account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by New York Life, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based upon a formula agreed upon with the issuer, but will always be subject to a range between 1.00% and 3.00%. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

In addition, certain events allow New York Life to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

Note 6 **Income Tax Status**

The Plan Administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS). The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 **Certified Financial Information**

TIAA, CREF and State Street have certified to the completeness and accuracy of certain investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2025 and 2024, schedule of assets (held at end of year) as of December 31, 2025, and the related investment income and interest on notes receivable from participants reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2025. TIAA and CREF's assets amounted to $226,136,323 and $218,754,373 as of December 31, 2025 and 2024, respectively, and the related investment income amounted to $24,813,477 for the year ended December 31, 2025. State Street's assets, excluding the accrued interest receivable, amounted to $1,059,400,424 and $928,573,388 as of December 31, 2025 and 2024, respectively, and the related investment income and loan interest, excluding the accrued interest receivable, amounted to $144,026,845 for the year ended December 31, 2025.

Note 8 **Plan Termination**

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 9 **Party-in-Interest Transactions**

Certain Plan investments are managed by entities related to TIAA, CREF and State Street and, therefore, transactions involving these investments qualify as party-in-interest transactions. Notes receivable from participants also quality as party-in-interest transactions.
