## 1. DESCRIPTION OF THE PLAN

The following description of the California Box Company 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

### *General*

The Plan began January 1, 2005. The Plan is a defined contribution plan covering all full-time employees of California Box Company and its affiliates, California Box Company II, CB Sheets, Tucson Container and West Texas Container (the "Company"), who have completed one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

### *Contributions*

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. The Company may make matching contributions equal to a discretionary percentage to be determined by the employer of the first 6% base compensation that a participant contributes to the Plan. Contributions are subject to certain limitations.

### *Participant Accounts*

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### *Vesting*

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited services.

## 1. DESCRIPTION OF THE PLAN (continued)

### *Participant Loans*

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 1% above the prime rate. The prime rate at December 31, 2009 is 3.25% and interest charged on the outstanding loans ranges from 4.25% to 8.75%. Principal and interest are paid ratably through weekly payroll deductions.

### *Payment of Benefits*

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

### *Forfeited Accounts*

Forfeited accounts are used to reduce future employer contributions. Forfeited non-vested accounts at December 31, 2009 and 2008 are $3,511 and $3,250, respectively.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### *Basis of Accounting*

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

### *Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

***Investment Valuation and Income Loss Recognition***

The Plan's assets are stated at fair value. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Current accounting standards generally require investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by current accounting standards, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts which approximates contract value.

***Payment of Benefits to Participants***

Benefits are recorded when paid.

***Plan Administrative Expenses***

Certain administrative expenses are paid by the Company and accordingly are not reflected in the accompanying financial statements of the Plan. Certain transaction processing fees are charged to the participants and therefore, are reflected in the accompanying statement of changes in net assets available for benefits as administrative expenses.

***Subsequent Events***

Management has evaluated subsequent events through October 8, 2010, which is the date the financial statements were available for issuance, and noted no events which require adjustments to, or disclosure in the 2009 financial statements.

***Reclassifications***

Certain prior year amounts have been reclassified to conform to current year presentation.

## 3. INVESTMENTS

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As of December 31, 2009 and 2008, and for the year ended December 31, 2009, Transamerica Life Insurance Company ("Transamerica"), held the Plan's investment assets and executed investment transactions. Accordingly, as permitted under such election the following information as of December 31, 2009 and 2008 and for the year ended December 31, 2009 was certified by Transamerica and was not subjected to any auditing procedures performed by the independent public accountants:

a) Total investments shown in the accompanying statements of net assets available for benefits of $813,620 and $620,047 as of December 31, 2009 and 2008, respectively.

b) Net appreciation in fair value of investments of $123,754 and interest of $7,854 as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2009.

c) All Investment-related information in the accompanying supplemental schedule H, Line 4i – Schedule of Assets (Held at year end), as of December 31, 2009.

The individual investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2009 and 2008 are as follows:

| | 2009 | 2008 |
|---|---|---|
| Transamerica Stable Value Fund | $ 196,946 | $ 212,985 |
| Transamerica Loomis Sayles Bond | $ 42,941 | $ * |
| Vanguard Target Ret 2035 | $ 76,465 | $ 49,619 |
| Vanguard Target Ret 2015 | $ 60,088 | $ 39,680 |
| Vanguard Target Ret 2025 | $ 120,156 | $ 73,192 |

* Balance represents less than 5% of net assets available for benefits at year end.

## 4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1—Inputs to the valuation methodology are based on unadjusted quoted market prices for identical assets or liabilities in an active market that the fund has the ability to access.

- Level 2—Inputs to the valuation methodology include:
    - Quoted prices for similar assets or liabilities in active markets;
    - Quoted prices for identical or similar assets or liabilities in inactive markets;
    - Inputs other than quoted prices that are observable for the asset or liability;
    - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

    If the assets or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3—Inputs to the valuation methodology are both unobservable and significant to the overall fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

***Mutual Funds***

Valued at the net asset value (NAV) of shares held by the Plan at year end as listed on various trading exchanges.

**4. FAIR VALUE MEASUREMENTS** (continued)

***Stable Value Fund***

Fair value is the amount Plan sponsors would receive currently if they were to withdraw or transfer funds within the Plan. This fair value represents contribution made under contract, plus earnings, less participant withdrawals and administrative expenses and is classified as Level 2 investment.

***Participant Loans***

Participant loans are valued at amortized cost, which approximates fair value and are classified as a Level 3 investment.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008.

| | Fair Value Measurements at December 31, 2009 | | | |

### Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year end December 31, 2009:

| | January 1, 2009 | Issuances and settlements, net | December 31, 2009 |
|---|---|---|---|
| Participant loans | $ 26,535 | $ (2,196) | $ 24,339 |

## 5. INVESTMENT CONTRACT WITH INSURANCE COMPANY

As of December 31, 2009 and 2008, the Plan's investment options included stable value fund contracts with Transamerica which were determined to be fully-benefit responsive. Based on this determination, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the contracts. Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

## 5. INVESTMENT CONTRACT WITH INSURANCE COMPANY (continued)

The contract is included in the financial statements at contract value as reported to the Plan by Transamerica. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is applied to the Plan.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value approximates contract value. The average yield and crediting interest rate was approximately 3.16% and 3.53% for the year ended December 31, 2009 and 2008, respectively, based on a formula agreed upon with Transamerica. Under the terms of the contract, the crediting rate is reset on a monthly basis.

## 6. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Transamerica Life Insurance Company (Transamerica). Transamerica is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Plan paid $7,595 to Transamerica for investment management services in 2009 and the Plan sponsor (California Box Company) pays most of the other administrative costs.

## 7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

## 8. TAX STATUS

The prototype and volume submitter documents offered through Transamerica are in compliance with all current legislation and have received a favorable Internal Revenue Service (“IRS”) opinion. The Company utilizes an IRS approved prototype for the Plan. Although the Plan has been amended, it did not alter the provisions offered in that IRS approved document. The Plan administrator and the Plan’s tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

## 9. RISK AND UNCERTAINTIES

The Plan provides for various investment options in any combination of stocks, bonds, fixed-income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.
