REPORT OF INDEPENDENT AUDITORS

To the Administrative Committee of the
FleetPride Inc. Retirement & Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the FleetPride Inc. Retirement & Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note D to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of Form 5500, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or was derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or was derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

A. Description of the Plan

General

The following brief description of the FleetPride Inc. Retirement & Savings Plan (the "Plan") is provided for general information purposes only. The Plan is sponsored by FleetPride, Inc. (the "Company"). Participants should refer to the Plan document for more complete information. The Company's corporate offices are located in Irving, Texas.

The Plan is a defined contribution plan and was effective September 1, 1984, restated effective May 26, 2015, and most recently amended April 12, 2022. All employees of the Company are eligible to participate in the Plan, except for those employees covered by a collective bargaining agreement. The Plan is administered by the Administrative Committee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

During 2024, the Company acquired four new companies whose participants became eligible to participate in the Plan. None of these companies merged their retirement plan balance into the Plan's balance.

During 2025, the Company acquired one new company whose participants will become eligible to participate in the Plan in 2026.

Contributions

Participants may contribute up to 75% of pre-tax annual compensation, as defined by the Plan. In addition, participants are also permitted to make Roth (after-tax) contributions. Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code (the "Code") as defined in the Plan document. Eligible participants may make rollover contributions to the Plan.

Participants who are eligible to make salary deferral contributions under the Plan and who have attained age 50 before the close of the year may make catch-up contributions in accordance with, and subject to, the limitations imposed by the Code.

Effective January 1, 2025, the Plan permitted eligible participants who attained ages 60 through 63 during the Plan year to make additional elective deferrals in excess of the standard age 50 catch-up contribution limit, as permitted under section 109 of the SECURE 2.0 Act of 2022 ("super catch-up contributions"). Super catch-up contributions are subject to annual limits established by the Code and are advertised periodically for inflation. The availability of super catch-up contributions is optional, and the Plan elected to adopt this provision with the 2025 Plan year.

A. Description of the Plan – continued

Contributions – continued

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rates set at six percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. Effective November 22, 2024, existing employees who are eligible and not contributing, or contributing less than five percent, have 30 days to opt out, otherwise they will be auto enrolled at five percent.

The Plan allows for non-discretionary matching employer contributions, which are calculated based on 25% of the first 6% of the eligible participant's compensation contributed to the Plan, not to exceed 1.5%. In 2025 and 2024, the Company's non-discretionary matching contributions totaled approximately $3,741,000 and $2,963,000, respectively. In 2025 and 2024, the Company applied forfeitures of approximately $641,000 and $536,000, respectively, to reduce matching contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's non-discretionary contributions, plus actual earnings thereon, is as follows:

Years of Service	Vested Percentage
Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

In the event of disability, early retirement, or death, the participant will become fully vested.

A. Description of the Plan – continued

Notes Receivable from Participants

Participants may borrow from their accounts, at the discretion of the plan administrator, a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of the vested account balances. Loan terms range from one to five years, or up to ten years for the purchase of a primary residence. The notes receivable from participants are secured by the balances in the participants' accounts and bear interest at a fixed rate established at the time of the loans. For the years ended December 31, 2025 and 2024, interest rates range from 3.25% to 8.50%. Principal and interest are paid ratably through weekly or biweekly payroll deductions. All outstanding loan balances will become due and payable in their entirety upon severance of employment unless directly rolled over to another employer's plan, if permitted.

Benefit Payments

Participants withdrawing during the year for reasons of service, disability, retirement, death, or termination are entitled to their vested account balances. Benefits may be paid as a lump-sum distribution or, in accordance with procedures established by the Administrative Committee, in substantially equal installments to the participant. If withdrawing participants are not entitled to their entire account balances, the amounts not received are forfeited.

Certain in-service withdrawals are allowed. A participant may also elect to withdraw all or a portion of his/her vested account balance while employed after reaching the age of 59 ½. A participant may receive a hardship distribution from salary reduction contributions if the distribution is: (1) on account of uninsured medical expenses incurred by the participant, his/her spouse, or dependents; (2) to purchase (excluding mortgage payments) a principal residence of the participant; (3) for the payment of post-secondary tuition expenses; (4) needed to prevent eviction of the participant from his/her principal residence or foreclosure upon the mortgage of the participant's principal residence; (5) for the payment of funeral or burial expenses for the participant's deceased parent, spouse, child, or dependent; (6) expenses for the repair of damage to the participant's principal residence that would qualify for the casualty deduction under Section 165 of the Code; or (7) or for expenses or losses on account of a disaster declared by the Federal Emergency Management Agency.

During 2026, the Plan was formally amended to allow in-service distributions of all or a portion of a participant's vested account balance for specified qualifying events, for various effective dates ranging from January 1, 2020 through January 1, 2024, including qualified birth or adoption expenses, domestic abuse, terminally ill treatment, qualified disaster expenses, and emergency personal expenses.

Participants who have severed employment and have balances less than $5,000 are automatically rolled over into an individual retirement plan designated by the plan administrator.

A. Description of the Plan – continued

Forfeitures

Forfeited balances of terminated participants' non-vested accounts are used to offset employer non-discretionary contributions and pay any administrative expenses of the Plan. Participants forfeited approximately $626,000 and $660,000 of non-vested account balances during the years ended December 31, 2025 and 2024, respectively. In 2025 and 2024, Plan expenses were reduced by forfeited balances by approximately $34,000 and $12,000, respectively. There were approximately $702,000 and $476,000 of forfeitures used to reduce Company contributions during the years ended December 31, 2025 and 2024, respectively. The unallocated forfeited balances as of December 31, 2025 and 2024, were approximately $151,000 and $244,000, respectively.

Investment Options

Upon enrollment in the Plan, a participant may direct his/her salary deferrals in 1% increments into any of the Plan's investment options.

B. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

Contributions

Contributions from the Company and participants are accrued as they become obligations of the Company, as determined by the Plan's administrator, and in the period in which they are deducted, in accordance with salary deferral agreements.

Investment Valuation and Income

The investments of the Plan are stated at fair value as of the end of the year and are subject to market or credit risks customarily associated with equity investments. Fair value measurements are determined in accordance with GAAP, which defines fair value, establishes a framework for measuring fair value, and requires certain disclosures about assets and liabilities measured at fair value. See Note C for information related to the Plan's valuation methodologies under GAAP.

B. Summary of Significant Accounting Policies – continued

Investment Valuation and Income – continued

Investment gains and losses are accounted for using the average cost basis of the securities sold. The net realized and unrealized gains and losses on investments include realized gains and losses on sales of investments during the year and unrealized increases or decreases in the market value of investments held at year-end. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are recorded at the unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

Employees of the Company perform certain administrative functions with no compensation from the Plan. In accordance with Plan provisions, the Company pays substantially all costs relating to asset charges and recordkeeping. All significant administrative expenses are paid by the Company and are not reflected in the accompanying financial statements.

C. Fair Value Measurements

GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a three-tier hierarchy that is used to identify assets and liabilities measured at fair value. The hierarchy focuses on the inputs used to measure fair value and requires that the lowest level input be used.

The three levels defined in GAAP are as follows:

- Level 1 — observable inputs that are based upon quoted market prices for identical assets or liabilities within active markets.

- Level 2 — observable inputs other than Level 1 that are based upon quoted market prices for similar assets or liabilities, based upon quoted prices within inactive markets, or inputs other than quoted market prices that are observable through market data for substantially the full term of the asset or liability.

C. Fair Value Measurements – continued

- Level 3 — inputs that are unobservable for the particular asset or liability due to little or no market activity and are significant to the fair value of the asset or liability. These inputs reflect assumptions that market participants would use when valuing the particular asset or liability. The Plan held no Level 3 assets as of December 31, 2025 or 2024.

GAAP requires that management describe the methodologies used to measure the fair value of assets and liabilities. The methodologies used to measure the fair value of the Plan's investments are as follows:

- Mutual funds are measured using quoted market prices available on an active market and classified within Level 1 of the valuation hierarchy.

- Money market funds are valued at amortized cost, which approximates fair value, and are classified within Level 2 of the valuation hierarchy.

- Common/collective trust is valued at the net asset value ("NAV") of the fund. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily.

The following table details the Plan's investments by level, within the fair value hierarchy, as of December 31, 2025 and 2024.

	2025		
	Level 1	**Level 2**	**Total**
Mutual funds	$77,464,369	$ -	$ 77,464,369
Money market fund	-	164,126	164,126
Total investments in the fair value hierarchy	$77,464,369	$ 164,126	77,628,495
Investments measured at NAV [(a)]			131,877,615
Total investments, at fair value			$209,506,110

C. Fair Value Measurements – continued

	2024		
	Level 1	**Level 2**	**Total**
Mutual funds	$175,695,748	$ -	$175,695,748
Money market fund	-	250,748	250,748
Total investments in the fair value hierarchy	$175,695,748	$ 250,748	175,946,496
Investments measured at NAV [(a)]			6,761,029
Total investments, at fair value			$182,707,525

(a) In accordance with GAAP, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

These items are classified in their entirety based on the lowest priority level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the placement of assets and liabilities within the levels of the fair value hierarchy.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2025 and 2024. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2025	**Fair Value**	**Unfunded Commitments**	**Redemption Frequency (If Currently Eligible)**	**Redemption Notice Period**
Mellon Stable Value Fund	$ 6,274,327	N/A	Daily	12 months
Great Gray Target Date Funds	$125,603,288	N/A	Daily	12 months

December 31, 2024	**Fair Value**	**Unfunded Commitments**	**Redemption Frequency (If Currently Eligible)**	**Redemption Notice Period**
Mellon Stable Value Fund	$ 6,761,029	N/A	Daily	12 months

D. Certified Investment Information

Certain information in the accompanying financial statements and ERISA-required supplemental schedule related to investments and notes receivable from participants held as of December 31, 2025 and 2024, and net realized and unrealized gains on investments, interest and dividends, and interest income from notes receivable from participants for the years ended December 31, 2025 and 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company (the trustee of the Plan), a qualified institution.

E. Tax Status

The Plan has adopted the Fidelity Non-Standardized Pre-Approved Profit Sharing Plan with CODA, which has received a favorable advisory letter dated June 30, 2020. The advisory letter states that the form of the prototype plan is acceptable under Section 401 of the Code. The Company may rely on this letter with respect to the qualification of the Plan under Code Section 401(a) with certain limitations. The plan administrator believes the Plan has been operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

F. Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, all amounts credited to participants' accounts will become 100% vested.

G. Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee organization, or relatives of such persons.

G. Party-in-Interest Transactions – continued

The Plan invests in shares of mutual funds and a money market fund managed by Fidelity Management Trust Company, the trustee, and its affiliates. Transactions in such investments, as well as notes receivable from participants, qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. The Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are party-in-interest transactions under ERISA.

H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

I. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits as of December 31, 2025 and 2024, per the accompanying financial statements to the Form 5500:

	2025	2024
Net assets available for benefits per the financial statements	$214,781,868	$187,634,487
Contributions receivable	-	(287,333)
Deemed distributions of participant loans as reflected in the Form 5500 for the current year	(356,892)	(333,570)
Net assets available for benefits per the Form 5500	$214,424,976	$187,013,584

I. Reconciliation of Financial Statements to Form 5500 – continued

The following is a reconciliation of the net change in net assets available for benefits for the years ended December 31, 2025 and 2024, per the accompanying financial statements to the Form 5500:

	2025	2024
Net change in net assets available for benefits per the financial statements	$ 27,147,381	$ 24,491,679
Prior year participant contributions receivable per the financial statements	287,333	243,666
Prior year employer contributions receivable per the financial statements	-	50,797
Current year participant contributions receivable per the financial statements	-	(287,333)
Deemed distributions of participant loans as reflected in the Form 5500 for the current year	(23,322)	(19,381)
Net change in net assets available for benefits per the Form 5500	$ 27,411,392	$ 24,479,428

The reconciling items noted above are due to the difference in the method of accounting used in preparing the Form 5500 as compared to the Plan's financial statements. Additionally, there are differences between the reporting of certain investment line items within the fair value hierarchy in Note C and the Form 5500 for the Mellon Stable Value Fund because the Mellon Stable Value Fund is not a direct filing entity and thus required to be reported at the underlying investment level in the Form 5500 and supplemental schedule.

J. Subsequent Events

In preparing the accompanying financial statements, management of the Company has evaluated all subsequent events and transactions for potential recognition or disclosure through October 9, 2026, the date the financial statements were available for issuance.

Effective January 1, 2026, the Plan implemented the Roth catch-up contribution provisions of the SECURE 2.0 Act of 2022. Under these provisions, participants whose prior-year FICA wages exceed the applicable statutory threshold are required to make eligible catch-up contributions on a Roth basis.
