Independent Auditors' Report

To the Plan Administrator
Coeur d'Alene Mines Corporation
Defined Contribution and 401(k) Plan
Coeur d'Alene, Idaho

We have audited the accompanying statements of net assets available for benefits of the Coeur d'Alene Mines Corporation Defined Contribution and 401(k) Plan (the "Plan") as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) and schedule of late remittances as of December 31, 2009, are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Defined Contribution and 401(k) Plan**

Notes to Financial Statements

1. Summary of Accounting Policies

Basis of Accounting and Use of Estimates

The financial statements of the Plan are prepared using the accrual method of accounting. The preparation of the financial statements in conformity with the accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could materially differ from those estimates.

Investment Valuation

The Plan's investments in mutual funds are stated at fair value as determined by quoted market prices which are the net asset value of shares held by the plan. Loans to participants are valued at the amortized principal amount, which approximates fair value.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through its common collective trust. As required, the Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits are prepared on a contract basis for investment contracts.

Until January of 1999, the Plan allowed each participant to designate a portion of their account for purchase of life insurance policies. The Plan includes, as an asset, the accumulated cash surrender value of these policies as determined by the reported valuation of the issuing insurer, which includes changes in the market value of the underlying securities less distributions to participants. Insurance premiums are expensed as incurred.

Net Appreciation (Depreciation) in Fair Value of Investments

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits, and is determined as the difference between market value or contract value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or the year-end market value or contract value. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividends are recorded on the accrual basis.

Payment of Benefits

Benefits are recorded when paid.

Notes to Financial Statements

Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk and uncertainty related to changes in the value of the Plan's investments, it is reasonably possible that changes in risks in the near term would be material to the financial statements.

New Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board ("FASB") issued FAS 168, "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles - replacement of FAS 162" (the "Codification"). Updates to the Codification are being issued as Accounting Standards Updates, which will also provide background information about the guidance, and provide the basis for conclusions on changes in the Codification. The Codification became effective for the Plan during the Plan year ended December 31, 2009, and did not have a material impact on the Plan.

In May 2009, the FASB issued guidance on subsequent events that standardizes accounting for and disclosures of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. Refer to Note 10 for further details.

In August 2009, the FASB issued an update to the codification that provided additional guidance on the measurement of liabilities at fair value. This guidance became effective for the Plan during the Plan year ended December 31, 2009, and did not have a material impact on the Plan.

In April 2009, the FASB issued additional guidance in determining fair value when the volume and level of activity for the asset or liability have significantly decreased and identifying transactions that are not orderly. This guidance became effective for the Plan during the Plan year ended December 31, 2009, and did not have a material impact on the Plan.

In January 2010, the FASB issued updated guidance to improve disclosures regarding fair value measurements. This update requires entities to (i) disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers and (ii) present separately (i.e., on a gross basis rather than as one net number), information about purchases, sales, issuances, and settlements in the roll forward of changes in Level 3 fair value measurements. The update requires fair value disclosures by class of assets and liabilities rather than by major category of line item in the statement of financial position. Disclosures regarding the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for assets and liabilities in both Level 2 and Level 3 are also required. For all portions of the update except the gross presentation of activity in the Level 3 rollforward, this standard is effective for interim and annual reporting periods beginning after December 15, 2009. For the gross presentation of activity in the Level 3 roll forward, this guidance is effective for fiscal years beginning after December 15, 2010. As this guidance is only disclosure-related, it will not have a material impact on the Plan's financial statements. Refer to Note 5 for disclosure on fair value investments.

Notes to Financial Statements

2. Plan Description

The following summary of the Coeur d'Alene Mines Corporation Defined Contribution and 401(k) Plan is provided for general information purposes only. For a complete description of the Plan and its specific provisions, a copy of the Plan documents should be obtained directly from the Company.

General

The Plan was adopted by Coeur d'Alene Mines Corporation and its subsidiaries and affiliates (the "Company") effective January 1, 1984. The Plan was amended and restated effective January 1, 2003, and is a defined contribution plan covering all eligible employees of the Company.

Employees of the Company are eligible to participate in the Plan regardless of age or service, except for temporary and leased employees. Eligible employees may elect to participate in the plan beginning the first day of any quarter following employment. Employees are eligible for the employer matching contribution upon participation in the Plan. Certain employees are also eligible for profit sharing employer contributions if they are employed on the last day of the Plan year and they have worked 1,000 hours during the Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 as amended ("ERISA"). Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

Contributions

Participants may elect to contribute to the Plan on a pre-tax or after-tax basis through payroll deductions subject to certain limitations of the Internal Revenue Code (the "IRC") for pre-tax contributions (\$16,500 in 2009 and \$15,500 in 2008). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions as specified by the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

During 2009 and 2008, the Company contributed a discretionary matching contribution equal to 100% of the first 3% of a participant's eligible compensation contributed and 50% of the next 2% of contributed eligible compensation as defined by an amendment to the Plan. For the years ended December 31, 2009 and 2008, the Company made matching contributions of \$524,184 and \$579,710, respectively.

For the 2009 and 2008 Plan years, the Company made profit sharing contributions totaling \$555,502 and \$501,730, respectively, which was equal to 4% of the eligible compensation of all eligible participants during 2009 and 2008, respectively, as approved by the Board of Directors.

Annual additions, which are defined as employer contributions and employee contributions, are limited to the lesser of 100% of eligible compensation or \$49,000 and \$46,000 for the 2009 and 2008 plan years, respectively.

Coeur d'Alene Mines Corporation

Defined Contribution and 401(k) Plan

Notes to Financial Statements

Vesting

Participants are fully vested in their contributions; the Company matching contributions, and earnings thereon at all times. Vesting in the Company profit sharing contribution is based on years of continuous service. Participants employed prior to December 31, 2006, become fully vested upon completion of five years of service with the Company, attaining the Plan's normal retirement age (age 65), death, or disability. The Plan was amended effective January 1, 2007, so that participants employed after December 31, 2006, are subject to a vesting schedule of 20% after two years, and then ratable vesting until 100% is reached after six years of service.

Forfeitures

Forfeitures resulting from the non-vested portions of participants' accounts who terminate prior to becoming fully vested may be allocated to active participant accounts in accordance with the Plan document or used to offset future employer contributions. Forfeited, non-vested accounts totaled \$84,432 and \$129,322 as of December 31, 2009 and 2008, respectively. For the years ended 2009 and 2008, \$129,061 and \$153,759, respectively, were allocated to active participant accounts in accordance with Plan provisions.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participants' contributions and related Company contributions, as well as the participants' allocation of the Plan's earnings, forfeitures and any related administrative expenses. Allocations are determined by the Plan document.

Participants may direct the investment of their account balances into various mutual funds and a common collective trust.

Benefit Payments

When a participant terminates employment with a vested balance less than \$1,000, a lump sum distribution to the participants will be made as soon as administratively practicable. Participants are given the option to receive the lump sum distribution or roll over the distribution into another retirement plan at the time of termination. Account balances greater than \$1,000 are paid in a lump sum or in equal installments, any time after the termination date at the individual's request. The lump sum payments can be cash or a direct rollover to another qualified plan or individual retirement account at the election of the participant. In addition, hardship distributions are permitted if certain criteria are met.

Participant Loans

A participant may borrow from their account the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with market rates. Current interest rates for loans outstanding at December 31, 2009, range from 4.25% to 9.25%. Loans are repaid through payroll deductions over periods ranging up to five years.

Administrative Expenses

The Company pays substantially all administrative expenses associated with the administration of the Plan. Fees paid by the Plan are for Participant requested services.

3. Investments

The following table presents the fair value of the Plan's investments that represent 5% or more of the Plan's net assets available for benefits:

<i>December 31,</i>	2009	2008
MFS Moderate Allocation	\$ 3,327,693	\$ 2,548,549

MFS Aggressive Growth Allocation	\$ 1,007,446	\$ *
MFS Value Fund	\$ *	\$ 718,383

* Less than 5%

4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer profit sharing contributions.

5. Fair Value Measurements

The Plan defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Generally accepted accounting principles establish a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of the fair value hierarchy are as follows:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date. An active market for the asset or liability is a market in which the transaction of the asset or liability occurs with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted market prices in markets that are not active; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Coeur d'Alene Mines Corporation
Defined Contribution and 401(k) Plan

Notes to Financial Statements

- Level 3 - Unobservable inputs for the asset or liability. These inputs reflect the Plan's own assumption about the assumptions a market participant would use in pricing the asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables present the Plan assets that are measured at fair value, on a recurring basis, and the levels of inputs used to measure fair value:

Notes to Financial Statements

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

	Participant Loans
Balance, beginning of year	\$ 155,513
Purchases, sales, issuances and settlements, net	120,587
Balance, end of year	\$ 276,100

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds (registered investment companies)

The shares of registered investment companies are valued at quoted market prices in an exchange and active market, which are the net asset values of shares held by the Plan at year end and are classified as Level 1 investments.

Common/collective trust fund ("CCT")

The CCT is primarily invested in a variety of investment contracts such as guaranteed investment contracts ("GIC") issued by insurance companies and other financial institutions and other investment products (synthetic GIC's and collective investment trusts) with similar characteristics. The fair value calculation is based on unit values reported by investment or managers and is classified as level 2 investments.

Participant loans

Participant loans are valued at their amortized principal amount, which approximate fair value and are classified as Level 3 investments.

6. Tax Status

The Internal Revenue Service has ruled in a determination letter dated May 28, 1996, that the Plan is designed in accordance with applicable sections of the IRC as a tax-exempt organization. The Plan has been amended since receiving this letter, however, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and continues to be operated in compliance with the applicable requirements of the IRC.

7. Related Parties

Certain Plan investments include mutual funds and common collective trusts maintained by The Hartford, the custodian as defined by the Plan, therefore, these investments and investment transactions qualify as party-in-interest transactions.

8. Reconciliation Between Financial Statements and Form 5500

The following schedule reconciles the financial statements with Form 5500 for the years ended December 31, 2009 and 2008:

<i>Year ended December 31,</i>	2009	2008
Increase (decrease) in net assets per the financial statements	\$ 3,080,107	\$ (6,623,860)
Less: Prior year benefits payable	—	497,348
Net, increase (decrease) in assets per Form 5500	\$ 3,080,107	\$ (6,126,512)

There were no benefit obligations currently payable in the December 31, 2009 and 2008, 5500 and as such no reconciliation was required.

9. Delinquent Contributions

During the Plan year ended December 31, 2009, employee with holdings in the amount of \$292, were not remitted within the appropriate time period by the Company. These transactions constitute prohibited transactions as defined by ERISA. The Company is aware of the occurrence and has taken the appropriate steps to correct the situation. During the Plan year ended December 31, 2008, there were no delinquent contributions.

10. Subsequent Events

The plan has evaluated subsequent events through October 11, 2010, which is the date that the financial statements were available to be issued.

Effective January 1, 2010, the Company restated the plan's Summary Plan Description ("SPD") to bring it in compliance with ERISA requirements.
