Note 1 - Plan Description

The following description of Holcim (US) Inc. Retirement Savings Plan for Hourly Employees (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan sponsored by Holcim (US) Inc. (the "Company"). Regular full-time, part-time, and temporary employees paid on an hourly basis are eligible to participate, excluding all employees of the employer whose primary place of employment is one of the following locations: the Everett, Massachusetts Terminal, the Hagerstown Cement Plant, the Baltimore, Maryland Terminal, the Duluth, Minnesota Terminal, the Camden Slag Plant, the Buffalo, New York Terminal, the Albany Regional Office, the Greenport Quarry, the Catskill Cement Plant, the College Point, New York Terminal, the Catskill Terminal, the Tarentum, Pennsylvania Terminal, and the Providence Rhode Island Terminal. Eligible employees are eligible to participate in the Plan on the first day of any month following the completion of one hour of service, as defined in the Plan. Part-time and temporary employees of the Company are eligible to participate in the Plan on the first day of any month following the date on which at least 1,000 hours of service are completed, as defined in the Plan, during the first 12 months of employment. If the part-time or temporary employee does not complete 1,000 hours of service during the first 12-month period of employment, the eligibility requirements differ, as defined in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Subsequent to year end, effective June 20, 2010, the Plan was amended to include the hourly employees included in the collective bargaining agreement between Holcim (US) Inc. as successor to St. Lawrence Cement Co., LLC and the Cement, Lime, Gypsum and Allied Division of the International Brotherhood of Boilermakers Local Lodge D 50, Catskill, New York.

Contributions - Each year, participants may contribute up to 75 percent of their base salary, as defined by the Plan, in 1 percent increments of pretax, after-tax, or a combination of both voluntary contributions. The Company matches 50 percent of the first 6 percent of the participants' compensation deferred, not to exceed 3 percent of the participants' compensation. Once a year, participants may also elect to make a special after-tax contribution, which is not matched by the Company. All contributions are subject to limitations by the Internal Revenue Code.

Note 1 - Plan Description (Continued)

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Transfers - A participant from Holcim (US) Inc. Retirement Savings Plan for Salaried Employees who becomes hourly may transfer his or her account balance to the Plan. In addition, a participant from the Plan who becomes salaried may transfer his or her participant account balance to Holcim (US) Inc. Retirement Savings Plan for Salaried Employees.

Vesting - Participants are immediately vested in employee salary and rollover contributions and any income or loss thereon. Participants who were eligible for the Plan before November 1, 2002 are fully vested in the Company's matching contribution. For participants eligible for the Plan after October 31, 2002, vesting in the Company contributions portion of their accounts plus actual earnings is based on continuous service. A participant is 100 percent vested after three years of service.

Participant Loans - Participants may borrow from their accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50 percent of their account balance, excluding after-tax contributions. Loans must be repaid in five years unless the loan is used to acquire a principal residence of the participant. Repayment of the loan must be made within 10 years. Loans are collateralized by the participant's account balance and bear interest at a market rate, determined by the administrative committee. Principal and interest are paid ratably thorough payroll deductions.

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account or, as the participant may direct, in regular installments over a specified period not to exceed the life expectancy of the participant or the joint life expectancy of such participant and his or her designated beneficiary. Such installments shall not be payable more frequently than monthly.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity Management Trust Company, the trustee, or its affiliates; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 1 - Plan Description (Continued)

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the Trustee shall distribute all assets remaining in the Plan, after payment of any expenses properly chargeable against the Plan, to the participants in accordance with the value of the units credited to such participants as of the date of such termination. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including August 5, 2010, which is the date the financial statements were issued.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value. The fair value of the Plan's interest in the Holcim (US) Inc. Retirement Savings Plan Master Trust (the "Master Trust") is based on the beginning-of-year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses (see Note 5). Common collective trust funds that invest in fully benefit-responsive investment contracts (commonly known as stable value funds) within the Master Trust are adjusted to contract value in the financial statements. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on discounting the related cash flows of the underlying guaranteed investment contracts based on yields of similar instruments with comparable durations. Participant loans are valued at their outstanding balances, which approximates fair value. All other investments are valued based on quoted market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurements at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 3 - Unaudited Investment Information

The trustee of the Plan, Fidelity Management Trust Company (the "Trustee"), holds the Plan's investments and executes all investment transactions. The investment balances and related investment results included in the accompanying financial statements, including the Master Trust information included in Note 5, and the supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated September 5, 2002 indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 5 - Interest in Master Trust

The Plan's investments are held in the Master Trust, which was established for the investment of assets of the Plan and one other Holcim (US) Inc.-sponsored benefit plan. Each participating benefit plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by Fidelity Management Trust Company. At December 31, 2009 and 2008, the Plan's interest in the net assets of the Master Trust was approximately 25 percent and 28 percent, respectively.

The participants can direct their account balances among various investment options in the Master Trust.

Note 5 - Interest in Master Trust (Continued)

The Plan's share of each fund is based on its contributions (or withdrawals) plus the Trustee's allocation of the fund's income, realized gains or losses, and unrealized appreciation or depreciation.

The fair values of investments for the Master Trust at December 31, 2009 and 2008 are as follows:

	2009	2008
Assets at fair value:		
Common collective fund	$ 30,533,653	$ 32,146,820
Mutual funds	112,152,880	81,384,865

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2009 and 2008, and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Note 6 - Fair Value Measurements (Continued)

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant Level 3 inputs include loan principal and interest rate.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
