INDEPENDENT AUDITORS' REPORT

We were engaged to audit the financial statements of *Walters Metal Fabrication, Inc. 401(k) Salary and Savings Plan* (the "Plan") as of December 31, 2009 and 2008, and for the year ended December 31, 2009, and the additional information as of December 31, 2009, as listed in the accompanying table of contents. These financial statements and additional information are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 10, which was certified by the Charles Schwab Trust Company ("Schwab") and the John Hancock Life Insurance Company ("Hancock"), the trustees of the Plan for the years ended December 31, 2009 and 2008, respectively, except for comparing the information with the related information included in the financial statements and additional information. We have been informed by the Plan administrator that Schwab and Hancock held the Plan's investment assets and executed investment transactions. The Plan administrator has obtained certifications from Schwab and Hancock as of and for the years ended December 31, 2009 and 2008, respectively, that the information provided to the Plan administrator by Schwab and Hancock is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and additional information taken as a whole. The form and content of the information included in the financial statements and additional information, other than that derived from the information certified by the trustees, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

WALTERS METAL FABRICATION, INC. 401(k) SALARY AND SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 DESCRIPTION OF PLAN

The following description of *Walters Metal Fabrication, Inc. 401(k) Salary and Savings Plan* (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted on January 1, 1997 and last amended on January 1, 2009 by Walters Metal Fabrication, Inc. (the "Corporation"). Collectively, the Plan is a multi-employer plan covering all non-collectively bargained employees of Walters Metal Fabrication, Inc., Metro Marble and Granite of Columbia, Industrial Piping Systems, LLC, Missouri Steel Fabrication, Inc., Metro Marble and Granite, LLC, CDS Engineering Company, and Premiere Hardwoods, LLC. The Plan is a defined contribution plan for the benefit of its employees who are age 21 or older. An employee will become eligible for participation after completing the Plan's eligibility requirements as stated in the Plan Agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). On January 2, 2009, the Company changed administrative service providers.

Contributions

Participants may defer salary up to an annual maximum of the lesser of 100% of eligible compensation or $16,500 and $15,500 for the years ended December 31, 2009 and 2008, respectively. The total of employee and employer contributions for a given year cannot exceed the lesser of $49,000 and $46,000 for the years ended December 31, 2009 and 2008, respectively, or 100% of the employee's annual compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also rollover distributions from other qualified defined benefit or defined contribution plans.

Each year, the Corporation may make matching contributions to be determined annually based on a percentage of employee salary deferrals. For the year ended December 31, 2009, the Corporation did not elect to make matching contributions.

In addition, the Corporation may make a discretionary profit sharing contribution to be determined by the Corporation. The Corporation did not elect to make a discretionary profit sharing contribution for the year ended December 31, 2009.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

Each participant account is credited with the participant's contributions, employer matching contributions and an allocation of the Corporation's discretionary contribution and Plan earnings. Each account is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their account balance is based on years of continuous service. Participants vest in their employer contributions plus actual earnings thereon at a rate of 20% per year and are fully vested after five years of credited service.

Participant Hardship Withdrawals

Participants may withdraw from the Plan that portion of their account resulting from salary deferrals in the event of undue financial hardship. The maximum hardship withdrawal is the total of a participant's vested balance.

Payment of Benefits

The Plan provides for retirement benefits to begin upon retirement. Retirement age for the Plan is 59 1/2. Upon death and total or permanent disability of a participant while employed, the account balance becomes fully vested.

On termination of service, participants with vested account balances less than $5,000 will receive a lump sum amount equal to the value of their vested account balance. The distribution will be made as soon as administratively feasible. Participants may elect to receive the distribution or have the distribution paid as a direct rollover to another qualified plan.

Net assets available for benefits at December 31, 2009 and 2008, include $57,156 and $40,883, respectively, allocated to the accounts of persons who as of or prior to those dates had withdrawn from participating in the operations of the Plan.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Investment Options

Upon enrollment in the Plan, participants may direct contributions in any of the applicable investment options available to Plan participants.

Change in Custodian

On January 2, 2009 the Plan adopted Charles Schwab Trust Company ("Schwab") as the custodian of Plan assets. Prior to that date, John Hancock Life Insurance Company was the custodian.

Plan Termination

Although it has not expressed any intent to do so, the Corporation has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their employer contributions.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting, in conformity with accounting principles generally accepted in the United States of America.

Administrative Expenses

Administrative expenses of the Plan are paid both by the Corporation and the participants of the Plan.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimated amounts.

In accordance with U.S. generally accepted accounting principles, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Plan Benefits presents the fair value of the investment contracts which approximates their contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds held in pooled separate accounts are valued at the net asset value of shares held by the Plan at year-end. Participant loans are valued at their outstanding balances, which approximate fair value. The fair value of the guaranteed investment contract approximates its contract value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

FASB Accounting Standards Codification 820-10, "Fair Value Measurements and Disclosures" defines fair value, establishes a framework for measuring fair value and establishes a fair value hierarchy based on the inputs used to measure fair value and enhances disclosure requirements for fair value measurements. The standard maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from independent sources. Unobservable inputs reflect our assumptions that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. This hierarchy consists of three broad levels:

Level I – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level II – Inputs other than quoted prices included within Level I that are observable for the asset or liability, either directly or indirectly. Level II inputs include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level III – Unobservable inputs for the asset or liability for which there is little, if any, market activity for the asset or liability at the measurement date. Unobservable inputs reflect the Plan's own assumptions about what market participants would use to price the asset or liability. These inputs may include internally developed pricing models, discounted cash flow methodologies, as well as instruments for which the fair value determination requires significant management judgment.

NOTE 3 FAIR VALUE MEASUREMENTS

The Plan records marketable securities held at fair value on the statements of net assets available for plan benefits with unrealized gains and losses reflected in the statement of changes in net assets available for plan benefits. The degree of judgment used in measuring the fair value of investments held generally correlates to the level of pricing observability. Pricing observability is impacted by a number of factors, including the type of investment held, whether the investment held is new to the market and not yet established and the characteristics specific to the transaction. Investments held with readily available active quoted prices for which fair value can be measured from actively quoted prices generally will have a higher degree of pricing observability and a lesser degree of judgment used in measuring fair value.

Conversely, investments held, rarely traded, or not quoted will generally have less or no pricing observability and a higher degree of judgment used in measuring fair value.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for plan benefits.

The following table summarizes the valuation of the Plan's investments that are reported at fair value in the accompanying statement of net assets available for plan benefits as of December 31, 2009 and 2008:

Fair Value Measurement Using:

December 31, 2009	Fair Value	Quoted Prices In Active Markets for Identical Assets (Level I)	Quoted Prices In Active Markets for Similar Assets (Level II)	Significant Unobservable Inputs (Level III)

NOTE 3 FAIR VALUE MEASUREMENTS (CONTINUED)

Fair Value Measurements Using:

December 31, 2008	Fair Value	Quoted Prices In Active Markets For Identical Assets (Level I)	Quoted Prices In Active Markets For Similar Assets (Level II)	Significant Unobservable Inputs (Level III)
Cash	$ 1,083	$ 1,083	$ -	$ -
Pooled separate accounts	989,995	-	989,995	-
Guaranteed investment contract	33,506	-	33,506	-
Total	$ 1,024,583	$ 1,083	$ 1,023,501	$ -

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level I inputs because they generally provide the most reliable evidence of fair value.

Level I Fair Value Measurements

The fair value of funds held in registered investment companies is based on quoted net asset value of the shares for identical assets held by the Plan at year-end.

Level II Fair Value Measurements

The fair value of the common collective trust is based on the market value of its underlying investments. The fund contains guaranteed investment contracts and synthetic guaranteed investment contracts. The fair value of guaranteed investment contracts is based on expected cash flows, discounted by current market interest rates, and the daily communication and crediting of the applicable rate. Furthermore, any marked value adjustments or surrender charges will be based upon the formulas and schedules in the Plan's contract.

The fair value of the pooled separate accounts is based on the market value of the underlying investments. The funds contain synthetic investment contracts comprised of both underlying investment and contractual components which have observable Level I or Level II pricing inputs, including quoted prices for similar assets in active or non-active markets.

NOTE 4 INVESTMENTS

NOTE 5 CONTRACTS WITH INSURANCE COMPANY

Guaranteed Investment Contract

The Plan entered into a benefit-responsive investment contract with Schwab in the form of a common collective trust. Schwab maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Schwab, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a monthly basis for restating.

NOTE 5 CONTRACTS WITH INSURANCE COMPANY (CONTINUED)

Guaranteed Investment Contract (Continued)

The contract has three different subaccounts and the average yield based on actual earnings for each account was 2.77%, 3.24%, and 3.50%, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events included the following: (1) amendments to the Plan Agreement (including complete or partial plan termination or merger with another plan), (2) change to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE 6 CONCENTRATION OF CREDIT RISK

As of December 31, 2009, the Plan had more than 10% of its net assets available for Plan benefits in the following investment vehicles: Schwab Managed Retirement TR 2020, Schwab Managed Retirement TR 2030, and Schwab Managed Retirement TR 2040.

As of December 31, 2008, the Plan had more than 10% of its net assets available for Plan benefits in the following investment vehicles: John Hancock Lifestyle Balanced and John Hancock Lifestyle Growth.

NOTE 7 RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Schwab and Hancock for the years ended December 31, 2009 and 2008, respectively. Retirement Plan Services, LLC is the third party administrator for the Plan and is therefore also considered a party-in-interest. The fees paid by the Plan for the investment management services are netted with the investment income (loss) on each investment option of the Plan.

NOTE 8 EXCESS PARTICIPANT CONTRIBUTIONS PAYABLE

The Plan failed the discrimination test for the year ended December 31, 2009. Excess contributions amounting to $13,531 are recorded as a liability in the accompanying statement of net assets available for plan benefits and as a deduction from net assets for the year. The Plan reimbursed these excess contributions to its participants during 2010.

NOTE 9 TAX STATUS

On January 31, 2006, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Internal Revenue Code ("IRC") Section 401(a). The Plan has not received a determination letter specific to the Plan itself; however, the Plan Administrator and the Plan's tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 10 INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and additional information was obtained from data that has been prepared and certified to be complete and accurate by Schwab as of December 31, 2009 and Hancock as of December 31, 2008:

	2009	2008
Investments, at Fair Value		
Registered investment companies	$ 463,202	$ -
Common collective trust	1,030,385	-
Other assets	31,151	34,589
Pooled separate accounts	-	989,995
Net appreciation in fair value investments in registered investment companies	$ 111,873	
Net appreciation in fair value of investments in common collective trust	192,064	
Interest income and other income	819	

NOTE 11 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 12 RECONCILIATION OF THE FINANCIAL STATEMENTS TO THE FORM 5500

The following is a reconciliation of net assets available for Plan benefits per the financial statements to the Form 5500 for the year ended December 31, 2009:

Net assets available for Plan benefits per the financial statements	$ 1,514,918
Corrective distributions	13,531
Net Assets Available for Plan Benefits Per Form 5500	$ 1,528,449

The following is a reconciliation of the net increase per the statement of changes in net assets available for plan benefits for the year ended December 31, 2009 to Form 5500:

Net increase per financial statements	$ 490,549
Corrective distributions payable for 2009	13,531
Net increase per Form 5500	$ 504,080

The Plan's common collective trust was not a direct filing entity for the year ended December 31, 2009. As such, the Form 5500 shows the investment broken out by the underlying investments. For 2009, these values are interest-bearing cash of $4,211 and other investments of $21,007.

NOTE 13 SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 5, 2010, the date which the financial statements were available to be issued and did not note any items which require disclosure.
