CAREMARK INTERNATIONAL, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

NOTE 1 - THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General - The following description of the Caremark International, Inc. Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a non-contributory defined benefit pension plan covering all eligible employees of Caremark International, L.L.C., formerly known as Caremark International, Inc. (the Company). Effective March 22, 2007, the Company merged with CVS Corporation. Effective September 24, 2008, sponsorship of the Plan transferred from Caremark International, L.L.C. to CVS Caremark Corporation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Pension benefits - Participants with five or more years of service are entitled to monthly pension benefits beginning at age 65 equal to the ratio of current years of service over years of service projected to age 65 multiplied by the difference of: (a) 1.75% multiplied by average monthly compensation (based on the five highest consecutive years of compensation out of the last ten years of participation) multiplied by years of service projected to age 65; minus (b) 1.75% multiplied by years of service projected to age 65 (the product not to exceed 60%) multiplied by the primary social security benefit.

Early retirement benefits are payable to participants whose years of service plus age upon retirement equal at least 65. Participants become 100% vested in their accrued benefits after completing five years of service or, if earlier, after attaining normal retirement age. Employees receive the value of their benefits as a straight-life annuity payable monthly from retirement or, if married, receive their benefits as a reduced 50% or 75% joint and survivor annuity. Death benefits are paid to spouses of employees if the participant has completed five years of service prior to death.

Effective February 28, 1997, the Plan was frozen. In no event shall any individual's accrued benefit under the Plan be greater than his accrued benefit under the Plan as of February 28, 1997. No new employees are eligible to enter the Plan. All active participants as of February 28, 1997, became fully vested. Effective December 31, 1987, any inactive participants as of that date who subsequently return to work prior to attaining the age of 65 will have pension benefit payments discontinued during the period of reemployment and will have all vesting service and benefit

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

service at the time of previous termination of employment reinstated. An inactive participant who subsequently resumes employment after attaining the age of 65 will have pension benefit payments discontinued during their period of reemployment. The participant must be employed at least 40 hours per month and will continue to accrue further benefits based on the previous election form of payment. Furthermore, a participant who continued employment after attaining the age of 65 will not begin benefit payments during the period of continued employment. The participant will continue to accrue further benefits under the Plan.

Administration - CVS Caremark Corporation has appointed a Benefit Plans Committee (the Committee) to manage the operation and administration of the Plan. Effective January 2009, the Benefit Plans Committee further named an Administrative Sub-Committee and an Investment Sub-Committee, and delegated certain fiduciary duties to each of the committees. A third-party administrator, Hewitt Associates, processes and maintains the records of participant data. CVS Caremark Corporation has also contracted with SunTrust Bank to act as the custodian and trustee. Administrative expenses, including those direct expenses incurred by the trustee and fund managers to administer the Plan and invest funds, are paid by the Plan. Certain other administrative expenses are paid by CVS Caremark Corporation, on behalf of the Plan and are not reimbursed by the Plan.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Basis of accounting - The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America. Benefits withdrawals and distributions are recorded when paid.

Investment valuation and income recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

CAREMARK INTERNATIONAL, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Income taxes - The Plan has been amended since receiving its latest favorable determination letter dated June 10, 2008. CVS Caremark Corporation believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Internal Revenue Code, as amended, and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Reclassifications - Certain reclassifications were made in the 2008 financial statements to conform to the 2009 presentation.

Risks and uncertainties - The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates or other factors in the near term would materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Recent accounting pronouncements not yet effective - In January 2010, the Financial Accounting Standards Board issued Accounting Standards Update 2010-06 which expanded the required disclosures about fair value measurements. In particular, this guidance requires: 1) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, 2) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair

value measurements, 3) expanded fair value measurement disclosures for each class of assets and liabilities and 4) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for 2) above which is effective for fiscal years beginning after December 15, 2010. CVS Caremark Corporation is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

Subsequent events - The Plan has evaluated subsequent events through September 7, 2010, which is the date the financial statements were available to be issued.

NOTE 2 - FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

CAREMARK INTERNATIONAL, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds and common/collective trust: Valued at the net asset value (NAV) of shares held by the Plan at year end. It is not probable that these investments will be sold at amounts that differ materially from the NAV of shares held.

Limited partnership: The underlying investments consist of common stock valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits represent the estimated future periodic payments, including lump sum distributions, under the Plan's provisions that are attributable to services rendered by employees through the valuation date. Accumulated Plan benefits include benefits expected to be paid to: a) retired or terminated employees or their beneficiaries, b) beneficiaries of employees who have died and c) present employees or their beneficiaries. Benefits under the Plan are based on years of service and benefit credit rates. The accumulated Plan benefits for active employees are based on years of service and benefit credit rates on the date at which the benefit information is presented (valuation date). Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by the Plan's actuary, Hewitt Associates, and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2009 (beginning of the Plan year) are as follows:

Actuarial cost method:	Projected Unit Credit Cost Method
Interest rate:	8.5%
Discount rate:	6.25%
Mortality assumption:	PR-2000 Combined Healthy Morality Table with Scale AA to 2009 for healthy and disabled lives
Retirement age:	Age 65 for terminated participants, varying ages assuming 100% retirement at age 65 for active participants

CAREMARK INTERNATIONAL, INC.
PENSION PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

The actuarial present value of accumulated Plan benefits as of January 1, 2009 is as follows:

Actuarial present value of accumulated Plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$14,391,662
Participants with deferred benefits	23,142,499
Other participants	<u>4,585,061</u>
	42,119,222
Nonvested benefits	<u>164,645</u>
Total actuarial present value of accumulated Plan benefits	<u>\$42,283,867</u>

The change in the actuarial present value of accumulated Plan benefits as of January 1, 2009 is as follows:

Actuarial present value of Plan benefits, beginning of year	\$40,196,151
Increase (decrease) during the year attributable to:	
Interest accumulation	3,353,040
Benefit payments	(1,528,415)
Assumption changes (1)	606,471
Other changes (2)	<u>(343,380)</u>
Actuarial present value of accumulated Plan benefits, end of period	<u>\$42,283,867</u>

CAREMARK INTERNATIONAL, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

- (1) Assumption changes include a change in the mortality assumption from the RP-2000 Combined Healthy Mortality Table for healthy and disabled lives to the RP-2000 Combined Healthy Mortality Table projected with Scale AA to 2009 for healthy and disabled lives.
- (2) Other changes represent the normal operation of the pension plan. It consists primarily of the increase due those items of plan experience that are not associated with plan asset performance.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

NOTE 4 - FUNDING POLICY

The Company's funding policy is to make annual contributions at least equal to the minimum funding requirements of ERISA. This funding standard is such that, based on certain assumptions, annual contributions will provide adequate funding to meet benefit claims as they come due. The Company has met these minimum funding requirements in 2009 and 2008.

NOTE 6 - PLAN TERMINATION OR MODIFICATION

CVS Caremark Corporation intends to continue the Plan indefinitely for the benefit of its employees; however, it reserves the right to discontinue its contributions and terminate or modify the Plan at any time by resolution of its Benefit Plans Committee and subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- To retired employees receiving benefits and participants having reached the normal retirement date as of the beginning of the three year period ending on the termination date based on the provisions of the Plan in effect five years prior to the termination date
- To provide all other income guaranteed by Title IV of ERISA
- To provide all other nonforfeitable benefits under the Plan
- To provide all other benefits under the Plan

CAREMARK INTERNATIONAL, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

Certain benefits under the Plan are insured by the Pension Benefit Guarantee Corporation (PBGC). Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of termination. There is a statutory ceiling, which is adjusted periodically, on the amount of a participant's monthly benefit that the PBGC guarantees. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan's sponsor and the level of benefits guaranteed by PBGC.

Interest Rates	Based on the full Yield Curve with a two month lookback (October 2008 yield curve), with sample rates as follows:
Yield Curve	Duration 0.5 - 5.45% Duration 5.5 - 8.25% Duration 10.5 - 8.87% Duration 15.5 - 8.65% Duration 20.5 - 8.11% Duration 25.5 - 7.71% Duration 30.5 - 7.46%
	The target liability was calculated using the full yield curve based on corporate bonds rates for October. As such, "2" was entered on line 21b as the applicable lookback month.

Terminated Vested Participants	Age 65.
Mortality Rates	2009 Static Mortality Table for Annuitants and Non-Annuitants Per §1.430(h)(3)-1(e).

Disability Rates	None.
Surviving Spouse Benefit	It is assumed that 85% of males and 85% of females have an eligible spouse, and that males are three years older than their spouses.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section

Schedule SB, Part V—Summary of Plan Provisions

History of the Plan

The Plan was established November 30, 1992, as a spin-off of active participants from the Baxter International Inc. and Subsidiaries Pension Plan. Caremark International Inc. accepted past service liabilities for the active participants. No terminated or retired participants were spun-off. Assets deemed sufficient to cover the qualified plan accumulated benefit obligation (ABO) for Caremark participants at the time of the spin-off were transferred in 1993. Adjustments to assets and liabilities during a transition period in 1993 were made for participants who terminated from Baxter and were hired by Caremark and vice versa.

Effective December 31, 1993, the Caremark Puerto Rico Plan was merged into the Caremark Pension Plan.

Effective January 1, 1994, when pay allowable for calculation of benefits decreased to \$150,000, the “wear-away” transition alternative was elected. The December 31, 1993, benefit using prior pay limits and service through 1993 will be a minimum to all future benefit calculations.

Effective March 1, 1995, the Plan was amended to incorporate the interest rates for lump sum purposes permitted by The Retirement Protection Act of 1994.

During 1995, the following three divisions covering Plan participants were divested:

- CMS on March 31, 1995
- Clorazil on June 2, 1995
- Orthopedic Services on December 31, 1995

Clorazil and Orthopedic Services participants were granted immediate vesting.

Effective January 1, 1996, the Plan was amended and restated including a deemed cash-out provision.

Effective December 31, 1996, a minimum benefit of \$10 times Benefit Service was added to the benefit formula.

Effective February 28, 1997, the benefit formula and Participation in the Plan were frozen. All active participants as of that date became fully vested. Inactive participants as of that date who subsequently return to work must earn five years of vesting service to become fully vested.

In March of 1998 the Puerto Rico group was divested. Frozen benefits for all active and inactive employees remained in the Plan.

A more detailed summary of the current plan provisions is on the following pages.

Schedule SB, Part V—Summary of Plan Provisions

History of the Plan

The Plan was established November 30, 1992, as a spin-off of active participants from the Baxter International Inc. and Subsidiaries Pension Plan. Caremark International Inc. accepted past service liabilities for the active participants. No terminated or retired participants were spun-off. Assets deemed sufficient to cover the qualified plan accumulated benefit obligation (ABO) for Caremark participants at the time of the spin-off were transferred in 1993. Adjustments to assets and liabilities during a transition period in 1993 were made for participants who terminated from Baxter and were hired by Caremark and vice versa.

Effective December 31, 1993, the Caremark Puerto Rico Plan was merged into the Caremark Pension Plan.

Effective January 1, 1994, when pay allowable for calculation of benefits decreased to \$150,000, the “wear-away” transition alternative was elected. The December 31, 1993, benefit using prior pay limits and service through 1993 will be a minimum to all future benefit calculations.

Effective March 1, 1995, the Plan was amended to incorporate the interest rates for lump sum purposes permitted by The Retirement Protection Act of 1994.

During 1995, the following three divisions covering Plan participants were divested:

- CMS on March 31, 1995
- Clorazil on June 2, 1995
- Orthopedic Services on December 31, 1995

Clorazil and Orthopedic Services participants were granted immediate vesting.

Effective January 1, 1996, the Plan was amended and restated including a deemed cash-out provision.

Effective December 31, 1996, a minimum benefit of \$10 times Benefit Service was added to the benefit formula.

Effective February 28, 1997, the benefit formula and Participation in the Plan were frozen. All active participants as of that date became fully vested. Inactive participants as of that date who subsequently return to work must earn five years of vesting service to become fully vested.

In March of 1998 the Puerto Rico group was divested. Frozen benefits for all active and inactive employees remained in the Plan.

A more detailed summary of the current plan provisions is on the following pages.

CAREMARK INTERNATIONAL, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

NOTE 1 - THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General - The following description of the Caremark International, Inc. Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a non-contributory defined benefit pension plan covering all eligible employees of Caremark International, L.L.C., formerly known as Caremark International, Inc. (the Company). Effective March 22, 2007, the Company merged with CVS Corporation. Effective September 24, 2008, sponsorship of the Plan transferred from Caremark International, L.L.C. to CVS Caremark Corporation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Pension benefits - Participants with five or more years of service are entitled to monthly pension benefits beginning at age 65 equal to the ratio of current years of service over years of service projected to age 65 multiplied by the difference of: (a) 1.75% multiplied by average monthly compensation (based on the five highest consecutive years of compensation out of the last ten years of participation) multiplied by years of service projected to age 65; minus (b) 1.75% multiplied by years of service projected to age 65 (the product not to exceed 60%) multiplied by the primary social security benefit.

Early retirement benefits are payable to participants whose years of service plus age upon retirement equal at least 65. Participants become 100% vested in their accrued benefits after completing five years of service or, if earlier, after attaining normal retirement age. Employees receive the value of their benefits as a straight-life annuity payable monthly from retirement or, if married, receive their benefits as a reduced 50% or 75% joint and survivor annuity. Death benefits are paid to spouses of employees if the participant has completed five years of service prior to death.

Effective February 28, 1997, the Plan was frozen. In no event shall any individual's accrued benefit under the Plan be greater than his accrued benefit under the Plan as of February 28, 1997. No new employees are eligible to enter the Plan. All active participants as of February 28, 1997, became fully vested. Effective December 31, 1987, any inactive participants as of that date who subsequently return to work prior to attaining the age of 65 will have pension benefit payments discontinued during the period of reemployment and will have all vesting service and benefit

CAREMARK INTERNATIONAL, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

service at the time of previous termination of employment reinstated. An inactive participant who subsequently resumes employment after attaining the age of 65 will have pension benefit payments discontinued during their period of reemployment. The participant must be employed at least 40 hours per month and will continue to accrue further benefits based on the previous election form of payment. Furthermore, a participant who continued employment after attaining the age of 65 will not begin benefit payments during the period of continued employment. The participant will continue to accrue further benefits under the Plan.

Administration - CVS Caremark Corporation has appointed a Benefit Plans Committee (the Committee) to manage the operation and administration of the Plan. Effective January 2009, the Benefit Plans Committee further named an Administrative Sub-Committee and an Investment Sub-Committee, and delegated certain fiduciary duties to each of the committees. A third-party administrator, Hewitt Associates, processes and maintains the records of participant data. CVS Caremark Corporation has also contracted with SunTrust Bank to act as the custodian and trustee. Administrative expenses, including those direct expenses incurred by the trustee and fund managers to administer the Plan and invest funds, are paid by the Plan. Certain other administrative expenses are paid by CVS Caremark Corporation, on behalf of the Plan and are not reimbursed by the Plan.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Basis of accounting - The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America. Benefits withdrawals and distributions are recorded when paid.

Investment valuation and income recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

CAREMARK INTERNATIONAL, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Income taxes - The Plan has been amended since receiving its latest favorable determination letter dated June 10, 2008. CVS Caremark Corporation believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Internal Revenue Code, as amended, and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Reclassifications - Certain reclassifications were made in the 2008 financial statements to conform to the 2009 presentation.

Risks and uncertainties - The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates or other factors in the near term would materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Recent accounting pronouncements not yet effective - In January 2010, the Financial Accounting Standards Board issued Accounting Standards Update 2010-06 which expanded the required disclosures about fair value measurements. In particular, this guidance requires: 1) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, 2) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair

value measurements, 3) expanded fair value measurement disclosures for each class of assets and liabilities and 4) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for 2) above which is effective for fiscal years beginning after December 15, 2010. CVS Caremark Corporation is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

Subsequent events - The Plan has evaluated subsequent events through September 7, 2010, which is the date the financial statements were available to be issued.

NOTE 2 - FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

CAREMARK INTERNATIONAL, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds and common/collective trust: Valued at the net asset value (NAV) of shares held by the Plan at year end. It is not probable that these investments will be sold at amounts that differ materially from the NAV of shares held.

Limited partnership: The underlying investments consist of common stock valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits represent the estimated future periodic payments, including lump sum distributions, under the Plan's provisions that are attributable to services rendered by employees through the valuation date. Accumulated Plan benefits include benefits expected to be paid to: a) retired or terminated employees or their beneficiaries, b) beneficiaries of employees who have died and c) present employees or their beneficiaries. Benefits under the Plan are based on years of service and benefit credit rates. The accumulated Plan benefits for active employees are based on years of service and benefit credit rates on the date at which the benefit information is presented (valuation date). Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by the Plan's actuary, Hewitt Associates, and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2009 (beginning of the Plan year) are as follows:

Actuarial cost method:	Projected Unit Credit Cost Method
Interest rate:	8.5%
Discount rate:	6.25%
Mortality assumption:	PR-2000 Combined Healthy Morality Table with Scale AA to 2009 for healthy and disabled lives
Retirement age:	Age 65 for terminated participants, varying ages assuming 100% retirement at age 65 for active participants

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

- (1) Assumption changes include a change in the mortality assumption from the RP-2000 Combined Healthy Mortality Table for healthy and disabled lives to the RP-2000 Combined Healthy Mortality Table projected with Scale AA to 2009 for healthy and disabled lives.
- (2) Other changes represent the normal operation of the pension plan. It consists primarily of the increase due those items of plan experience that are not associated with plan asset performance.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

NOTE 4 - FUNDING POLICY

The Company's funding policy is to make annual contributions at least equal to the minimum funding requirements of ERISA. This funding standard is such that, based on certain assumptions, annual contributions will provide adequate funding to meet benefit claims as they come due. The Company has met these minimum funding requirements in 2009 and 2008.

NOTE 6 - PLAN TERMINATION OR MODIFICATION

CVS Caremark Corporation intends to continue the Plan indefinitely for the benefit of its employees; however, it reserves the right to discontinue its contributions and terminate or modify the Plan at any time by resolution of its Benefit Plans Committee and subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- To retired employees receiving benefits and participants having reached the normal retirement date as of the beginning of the three year period ending on the termination date based on the provisions of the Plan in effect five years prior to the termination date
- To provide all other income guaranteed by Title IV of ERISA
- To provide all other nonforfeitable benefits under the Plan
- To provide all other benefits under the Plan

CAREMARK INTERNATIONAL, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

Certain benefits under the Plan are insured by the Pension Benefit Guarantee Corporation (PBGC). Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of termination. There is a statutory ceiling, which is adjusted periodically, on the amount of a participant's monthly benefit that the PBGC guarantees. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan's sponsor and the level of benefits guaranteed by PBGC.
