Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The Plan Sponsor
Cash Balance Pension Plan for Employees
of UPMC Lee Regional

We were engaged to audit the accompanying statements of net assets available for benefits of the Cash Balance Pension Plan for Employees of UPMC Lee Regional as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 5, which was certified by The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Cash Balance Pension Plan for Employees of UPMC Lee Regional

Notes to Financial Statements

December 31, 2009 and 2008

1. Description of the Plan

General

The Cash Balance Pension Plan for Employees of UPMC Lee Regional (the Plan) is a trusted noncontributory cash balance defined-benefit retirement plan covering employees of UPMC Lee Regional and its subsidiaries and affiliates (the Hospital). The Plan provides retirement, disability, and death benefits to eligible participating employees. The following description provides only general information. Participants should refer to the plan document and the summary plan description for a more complete description of the Plan's provisions.

Effective July 1, 1993, the Plan was amended and converted to become a cash balance plan. In connection with the conversion to the cash balance design, participants' accrued benefits as of July 1, 1993, were converted to a lump-sum present value including interest. Prior to July 1, 2003, participants received an annual contribution allocation based on participants' years of service ranging between 4% to 8% of eligible pay. Retirees through June 30, 2003, had the option of calculating their benefit based on the defined benefit or cash balance formula. For retirees after July 1, 2003, only the cash balance formula will apply, although the June 30, 2003 frozen accrued benefit will remain as a grandfathered minimum benefit payable under the Plan. Effective July 1, 2003, the Plan was amended to offer UPMC Basic Retirement Plan's Community Plan Design in which participants' annual contribution allocations range from 3.5% to 6.0% of eligible pay based on age and benefit service.

On January 27, 2003, the Board of Directors of UPMC Lee Regional approved a resolution that the assets of the Plan be transferred to the UPMC Master Trust, to be invested in the UPMC Master Trust as a separate account. The UPMC Master Trust also holds the assets of another UPMC benefit plan. The transfer of the assets does not constitute a merger of the Plan with the UPMC Basic Retirement Plan. The assets were transferred into the UPMC Master Trust in July 2003.

Effective July 1, 2003, the Plan was amended as follows:

- Plan year-end changed from June 30 to December 31. Effective January 1, 2004, the plan year will then be a calendar year.
- Plan name was changed to the Cash Balance Pension Plan for Employees of UPMC Lee Regional.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

- Definition of one year of service for employees was changed from 950 hours per year to 1,000 hours per year.
- Payment options were expanded to include lump-sum payments, a joint and 75% survivor spouse annuity, a period certain and continuous life annuity for certain periods, and a ten-year period certain.
- Plan adopted the Community Plan Design approach as offered by the UPMC Basic Retirement Plan.

On August 1, 2005, all of the assets of UPMC Lee Regional were sold to Conemaugh Health System. In anticipation of the sale, and effective April 26, 2005, the UPMC Lee Regional Board of Directors passed a resolution to transfer the sponsorship of the Plan to UPMC, to transfer the position of plan administrator to UPMC, and to assign and transfer all the rights, privileges, and obligations held by the plan sponsor and the plan administrator under the Plan to UPMC (Plan Sponsor). Effective July 31, 2005, benefit accruals and contributions for employees of UPMC Lee Regional and its subsidiary, Community Nursing, Inc., were frozen and participants became fully vested regardless of their years of vesting service. Effective December 31, 2005, benefit accruals and contributions for employees of the Walnut Management Group, which were covered by this Plan, were also frozen, and these employees became fully vested regardless of their vesting service.

Contributions from the Plan Sponsor are based on amounts required to be funded under the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and additional amounts at the discretion of the Plan Sponsor.

For the plan year ended December 31, 2009, there was an ERISA minimum funding requirement due in the amount of \$385,000; however, UPMC elected to make a total contribution of \$5,585,555 for the plan year ended December 31, 2009, exceeding the ERISA minimum funding requirement, to maintain the Plan above a 90% funded level of current liability.

There was no minimum funding requirement for the plan year ended December 31, 2008; however, UPMC elected to make a contribution of \$6,413,457 for the plan year ended December 31, 2008, exceeding the ERISA minimum funding requirement, to maintain the Plan at a 90% funded level for current liability.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

UPMC has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. governmental agency, up to the applicable limitations.
- d. All other vested benefits, that is, vested benefits not insured by the PBGC.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Administrative Expenses

All administrative expenses are paid by the Plan, which includes trustee's fees, actuary's fees, and other pension plan related fees.

Subsequent Events

Management evaluated subsequent events for the Plan through October 12, 2010, the date the financial statements were available to be issued.

Investment Valuation and Income Recognition

The Plan's investments, which are held in the UPMC Master Trust (Master Trust), are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 6 for further discussion of fair value measurements.

The interest in Master Trust includes investments in partnership interests, representing investments in hedge funds approximating \$116,987,282 and \$104,246,587 and venture capital funds approximating \$196,912,112 and \$169,707,601 as of December 31, 2009 and 2008, respectively. As of December 31, 2009, UPMC has outstanding commitments to invest up to \$162,075,082 in private capital funds from the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP 157-4). FSP 157-4 amended FASB Statement No. 157 (codified as Accounting Standards Codification (ASC) 820) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities in meeting the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Retroactive adoption of the guidance in FSP 157-4 is not required; thus the Plan did not adopt this guidance for the period ended December 31, 2008. Adoption of FSP 157-4 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events*, which was codified into ASC 855, Subsequent Events, to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

In September 2009, the FASB issued Accounting Standards Update (ASU) 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12). ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009, and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note 6 for these disclosures. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

2. Summary of Significant Accounting Policies (continued)

In January 2010, the FASB issued ASU 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each “class” of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. The ASU also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan’s financial statements.

3. Securities Lending

On January 30, 2009, the UPMC Master Trust ended its engagements in securities lending programs administered by the trustee, The Bank of New York Mellon/BNY Mellon, N.A. The underlying collateral portfolio was liquidated within the following months. When the UPMC Master Trust had engaged in securities lending programs, certain securities of the Plan had been loaned to participating brokers. For domestic securities loaned, these brokers provided collateral, usually in the form of cash, government securities, and letters of credit, valued at 102% of the market value of the securities on loan. For nondomestic securities loaned, these brokers provided collateral, usually in the form of cash and government securities, valued at 105% of the market value of the securities on loan. The collateral was invested on behalf of the Plan and the investment income from the invested collateral was recognized as investment income by the Plan. The trustee retained 25% of the income as compensation for operating the system. The trustee provided for full indemnification to the Plan for any losses that may have occurred in the program due to the failure of a broker to return a security that was borrowed. The Plan and the trustee had economic risk if the return earned on the invested collateral was less than the agreed rebate to the borrower. The risk was managed by investing the collateral in accordance with the investment guidelines established in the Securities Lending Authorization Agreement. The Plan retained ownership of the loaned securities and the right to recall them at any time. Accordingly, loaned securities were included in the net assets of the Plan held in the Master Trust.

Notes to Financial Statements (continued)

3. Securities Lending (continued)

At December 31, 2009 and 2008, debtors provided the trustee with cash collateral totaling \$0 and \$3.9 million, respectively. Cash received by the trustee was invested in short-term securities and accordingly, recorded at fair value in the financial statements with a corresponding obligation to repay the collateral in accordance with the securities borrowing agreements. The income earned by the Master Trust under the securities lending program with the trustee in 2009 and 2008 was \$34,801 and \$399,191, respectively.

4. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the participants to the valuation date. Accumulated plan benefits include benefits expected to be paid to retired or terminated participants or their beneficiaries. Benefits for retired or terminated participants or their beneficiaries are based on plan provisions in effect at the time when the participants terminated service. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included in the calculation of the accumulated plan benefits to the extent they are deemed attributable to employee service rendered to the valuation date.

The Plan's actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Notes to Financial Statements (continued)

4. Accumulated Plan Benefits (continued)

The accumulated plan benefit information is determined by the Plan's actuary as of the beginning of the year. The actuarial present value of accumulated plan benefits as of the end of the previous plan year is as follows:

	December 31, 2008
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 27,062,066
Participants with deferred benefits	<u>17,222,083</u>
Total vested benefits and total actuarial present value of accumulated plan benefits	<u><u>\$ 44,284,149</u></u>

The change in the actuarial present value of accumulated plan benefits is as follows:

Actuarial present value of accumulated plan benefits as of beginning of year, January 1, 2008	\$ 44,250,378
Increase (decrease) during the year attributed to:	
Interest accumulation	3,376,432
Benefits accumulated and the effect of gains and losses for the year	417,246
Assumption change	25,754
Benefits paid	<u>(3,785,661)</u>
Net increase	<u>33,771</u>
Actuarial present value of accumulated plan benefits as of end of year, December 31, 2008	<u><u>\$ 44,284,149</u></u>

Cash Balance Pension Plan
for Employees of UPMC Lee Regional

Notes to Financial Statements (continued)

4. Accumulated Plan Benefits (continued)

Significant assumptions underlying the actuarial computations are:

Actuarial cost method	Standard unit credit cost method
Assumed rate of return on investment	8%
Mortality basis	Healthy: RP-2000 Combined Healthy Mortality Table Projected to 2010 by Scale AA Disabled: RP-2000 Combined Disabled Mortality Table Projected to 2010 by Scale AA
Retirement age	Age 58 for deferred vested participants

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

5. Investments

All investment information, other than the fair value of the partnership interests and related net appreciation (depreciation), disclosed in the accompanying financial statements, including investments held at December 31, 2009 and 2008, net appreciation (depreciation) in fair value and interest and dividend income from interest in the UPMC Master Trust, for the years ended December 31, 2009 and 2008, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee, The Bank of New York Mellon/BNY Mellon, N.A. The Plan Sponsor recorded the fair value of the partnership interests using valuations obtained directly from the partnerships through December 31, 2009 and 2008, in the accompanying financial statements.

5. Investments (continued)

The Plan's investments are held in the Master Trust, which was established for the investment of assets of the Plan and another UPMC-sponsored retirement plan. Each participating retirement plan has an undivided interest in the Master Trust. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust. At December 31, 2009 and 2008, the Plan's interest in the net assets of the Master Trust was approximately 6% and 7%, respectively.

The following table presents the net assets, including investments, of the Master Trust:

6. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

6. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets and liabilities in the Master Trust measured at fair value:

Cash is valued at the closing price reported on an active currency market on which it is traded.

Corporate stocks are valued at the closing price reported on the active market on which the individual securities are traded.

Registered investment companies are valued based on quoted market prices, which represent the Net Asset Value (NAV) of shares held by the Plan at year-end. The NAV is a quoted price in an active market.

Corporate debt instruments are valued at fair value, which is estimated using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. The quoted market prices for the specific securities are not available in an active market.

Common/collective trust funds (funds) are valued at estimated fair values, which have been determined based on the unit values of the funds. Unit values are determined by the issuer sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at the valuation dates.

Private equity and hedge investments are valued using NAV, which approximates fair value. NAV is based on the unit values of the interests. Unit values are determined by the issuer sponsoring such interests by dividing the fund's net assets at fair value by its units outstanding at the valuation dates.

^(a) The investment objective for these funds is to achieve long-term capital growth. Liquidity provisions vary per fund, with most being permitted on valuation date with written notification at least one month prior to redemption. The valuation date varies per fund, but ranges mainly from weekly to monthly. Fund managers can reserve the right to suspend redemptions under certain market conditions.

^(b) The investment objective of these partnerships is to invest in commercial real estate properties and real estate related assets primarily in the industrial, office, hospitality, retail and multi-family sectors that can provide for long-term capital appreciation and a current income component. Each of the underlying funds has an approximate ten-year life and there is no ability for the plan sponsor to redeem prior to the conclusion of the partnerships. The outstanding commitment to invest in these funds is up to \$7,352,416.

- (c) The investment objective of these funds is to acquire energy assets such as oil and natural gas production, oilfield services, power generation, and other natural resources-related industries that have the potential for meaningful capital appreciation. The underlying funds all have an approximate 10-year time horizon and there is no ability for the Plan Sponsor to redeem prior to the conclusion of the partnerships' term. The outstanding commitment to invest in these funds is up to \$20,812,501.
- (d) The investment objective for these funds is to invest with the goal of generating a positive real return without correlation to general markets. While specific liquidity provisions vary by fund, redemptions are generally permitted on a monthly or quarterly basis. While fund managers reserve the right to suspend redemptions under certain market conditions, no such conditions exist as of December 31, 2009 and through October 12, 2010.
- (e) The investment objective for these funds is to invest with the goal of generating a return similar to equity markets with less volatility. Liquidity provisions vary by fund, from monthly redemptions to restrictions on redemptions for up to twelve months. While fund managers reserve the right to suspend redemptions under certain market conditions, no such conditions exist as of December 31, 2009 and through October 12, 2010.
- (f) The investment objective of these partnerships is to achieve long-term capital appreciation through a diversified portfolio of leveraged buyout, growth equity, venture capital, structured equity and distressed debt investment opportunities throughout the globe. Each of the underlying funds has an approximate ten-year life and there is no ability for the plan sponsor to redeem prior to the conclusion of the partnerships. 7. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated February 18, 2010, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan Sponsor believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan, as amended, is qualified and the related trust is tax-exempt.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Notes to Financial Statements (continued)

8. Risks and Uncertainties (continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Related-Party Transactions

Certain plan investments are shares of mutual funds managed by The Bank of New York Mellon, N.A. BNY Mellon, N.A. is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior year, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Trustee Expenses Included in Target Normal Cost

Schedule SB, Part V—Summary of Plan Provisions

Eligibility for Participation

Attainment of age 21 and completion of 1,000 hours of service.

Normal Retirement

Eligibility

Age 65 (for terminations prior to July 1, 2003, age 65 with 5 years of participation).

Monthly Benefit

The greater of (1) and (2):

1. The monthly benefit derived for the cash balance account, including Pay Credits and Interest Credits.
2. The monthly benefit based on the sum of (a) and (b):
 - (a) 1.0% of Frozen Average Monthly Compensation times Service as of June 30, 2003.
 - (b) 0.45% of Frozen Average Monthly Compensation in excess of \$575 times Service as of June 30, 2003.

Benefit accruals for all participants, except Walnut Management, are frozen effective July 31, 2005. Benefit accruals for Walnut Management participants are frozen effective December 31, 2005.

Early Retirement

Eligibility

For benefits accrued prior to July 1, 2003, attainment of one of the following:

1. Age 60
2. 20 years of Service
3. Age 55 and 15 years of Service

Monthly Benefit

Normal Retirement benefit, reduced 3% per year prior to age 65 until age 56, and actuarially reduced prior to age 56. For participants who terminate after June 30, 2003 whose benefit is based on the cash balance account, the early retirement benefit is the actuarial equivalent monthly benefit.

Schedule SB Attachment (Form 5500)—2009 Plan Year
Cash Balance Plan for the Employees of UPMC Lee Regional
EIN: 25-1423657 PN: 010

Disability Retirement

Eligibility

Total and permanent disability and qualify for Social Security disability benefits.

Benefit

Determined from the cash balance developed under the normal retirement formula as of the date of disability.

Preretirement Survivor Benefit

Eligibility

All active participants and deferred vested participants.

Benefit

A monthly benefit equal to the actuarial equivalent of 100% of the participant's cash balance account, payable as an annuity for the life of the spouse. (For terminations prior to July 1, 2003, 50% of a participant's accrued benefit, reduced for early retirement and the 50% joint and survivor option, payable to a beneficiary commencing on the later of the date the participant would have attained age 55 and the date of death.)

Vested Termination Benefits

Eligibility

Five years of Service.

Benefit

Accrued benefit payable at Normal Retirement age, or payable at Early Retirement age with reductions as for early retirement. Pay credits are not granted after termination, but interest credits continue until benefit commencement. For terminations after June 30, 2003, a lump sum benefit is available at termination.

Cost-of-Living Adjustment

Retirees and terminated vested participants as of June 30, 1984 are eligible for future cost-of-living adjustments on their pension benefits. The adjustment will begin on August 31 after the benefit has been in pay status for a full plan year and continue each August 31 thereafter. The amount of the adjustment is the percentage increase in the Consumer Price Index for Urban Wage Earners and Clerical Workers, Revised Series (U.S. City Average—all items) as published by the Bureau of Labor Statistics.

Schedule SB Attachment (Form 5500)—2009 Plan Year

Form of Payment

Life annuity for single participants. Actuarial equivalent 50% joint and survivor annuity for married participants. Participants with benefit accruals after July 1, 2003 may also elect several optional forms of payment, including 50%, 66-2/3%, 75%, and 100% contingent annuitant options; 36-, 60-, 120-, 180-, and 240-month certain and continuous options; an age 62 Social Security adjustment option; an immediate single life annuity; a full cash refund annuity; and a 10-year certain only option. Other participants may elect 50%, 66-2/3%, 75%, and 100% joint and survivor options.

Lump Sum Optional Form

A lump sum form of payment is available after July 1, 2003. The amount of the lump sum is limited to the account balance. If the present value of the accrued benefit is greater than the account balance, the excess benefit is paid in the normal form or any available optional form.

Definitions

Service

A year of service is credited for each calendar year during which a participant is paid for at least 1,000 hours.

Compensation

Total compensation, plus elective contributions and deferrals, less long-term bonuses, taxable fringe benefits, and severance or change in control payments.

Average Monthly Compensation

The average of the highest 5 consecutive calendar years out of the last 10 calendar years preceding the date of determination.

Frozen Average Monthly Compensation

Average Monthly Compensation as of June 30, 2003.

Pay Credits

Prior to July 1, 2003, based on Service and the following table:

Service	Percent of Pay Allocation
1 to 5	4.0%
6 to 10	5.0%
11 to 19	6.0%
20+	8.0%

Beginning July 1, 2003, based on the sum of age and Service, as of December 31 of the prior year, and the following table:

Age + Service	Percent of Pay Allocation
Less than 36	3.5%
36 to 49	4.0%
50 to 69	5.0%
70+	6.0%

Eligible participants also received an additional 2% Pay Credit per year through 2005.

Interest Credits

The account balance accrued prior to July 1, 2003 increases each year based on the 3-month Treasury bill rate as of each July 1, plus 1%. The minimum interest crediting rate is 4%.

Effective July 1, 2003, the account balance increases based on the 30-year Treasury bond rate, updated each quarter. The rate for each quarter is determined based on the rate in effect two months prior to the beginning of each quarter.

Changes in Plan Provisions Since the Prior Year

The January 1, 2009 funding valuation reflects the following plan changes:

- An increase in the annual maximum benefit limit under IRC section 415 from \$185,000 in 2008 to \$195,000 in 2009.
- An update to the mortality and interest rates for determining minimum lump sum payments under IRC section 417(e)(3) to the applicable rates for the current plan year.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

The target liability was calculated using the full yield curve based on corporate bonds rates for October. As such, "2" was entered on line 21b as the applicable look-back month.

Schedule SB Attachment (Form 5500)—2009 Plan Year
Cash Balance Plan for the Employees of UPMC Lee Regional
EIN: 25-1423657 PN: 010

Schedule SB, line 24—Change in Actuarial Assumptions

The January 1, 2009 funding valuation reflects the following assumption changes:

- The mortality assumption changed from the 2008 Static Mortality Table for Annuitants and Non-Annuitants Per §1.430(h)(3)-1(e) to the 2009 Static Mortality Table for Annuitants and Non-Annuitants Per §1.430(h)(3)-1(e).
- The cash balance interest crediting rate assumption was changed from 4.85% to 4.75% to better reflect anticipated future interest rates.

The mortality assumption change is prescribed, so approval of the Commissioner is not required. The cash balance interest crediting rate assumption change did not reduce the funding shortfall by more than \$50 million or 5% of the Funding Target. Therefore, approval of the Commissioner is not required for this change.

Schedule SB Attachment (Form 5500)—2009 Plan Year

EIN: 25-1423657 PN: 010

Schedule SB, line 25—Change in Funding Method

The January 1, 2009 funding valuation reflects the following method changes:

- A change in the asset valuation method from an Average Value method to the 2-point smoothed value method as of January 1, 2009.
- A change in the interest rate assumption from segment rates as of January 2008 to the full yield curve with a two-month look-back (October 2008 yield curve).
- An addition to the Target Normal Cost of assumed expenses payable from the trust, as required by WRERA.

These changes have automatic approval under final regulations, Notice 2009-22 or other IRS guidance.
