(1) Description of the Plan

General

The Plan is a defined contribution plan covering substantially all employees of eCompanyStore, Inc. (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Employees, who have attained the age of 21 and have worked three months, are eligible to enter the Plan. Participants may enter the Plan at any time once they become eligible. All investments are participant-directed and participants can invest in a single fund or may allocate their accounts among several funds. Participants can also periodically change their instructions concerning the allocation of their accounts. All contributions are allocated based on participant investment elections. The Plan's investments are maintained on a pooled basis, and actual investment income is allocated to the participant accounts based on their relative account balance.

Contributions

Eligible employees may make contributions to the Plan of 1% to 100% of their annual compensation, with certain limitations. Prior to 2009, the Company was providing a matching contribution of 50% of the employees' deferral up to 4% for a maximum match of 2%. However, the discretionary employer match was discontinued in April 2009. The Company may make an additional discretionary contribution, which is allocated to each participant based on the proportion of the participant's compensation to total participant compensation. Each participant's account is credited with the participant's contribution, the Company's contribution and investment income or losses. The benefit to which a participant is entitled is the vested balance in the participant's account.

Vesting

Participants are immediately vested in their contributions and earnings thereon. Participants vest in the Company's contributions according to the following vesting schedule:

Years of Service	Percent Vested
Less than 1	0%
1	33%
2	66%
3 or more	100%

Participants become fully vested at retirement (as defined), death, or if they become disabled while still an employee. Participants will also fully vest upon termination of the Plan.

Forfeitures

Upon termination of employment of a participant, amounts not vested will be forfeited and reduce future administrative expenses of the sponsor and future employer contributions. As of December 31, 2009 and 2008, forfeitures remaining to reduce future administrative expenses of the sponsor totaled $6,417 and $1,570, respectively. Forfeitures used during 2009 and 2008 to reduce employer contributions totaled $799 and $352, respectively.

Payment of Benefits

Upon retirement (as defined), a participant is entitled to receive 100% of his or her vested account balance in a lump sum or in installment distributions. Upon the death of a participant, the designated beneficiary is entitled to receive 100% of the participant's account in a lump sum distribution. In addition, disabled participants are entitled to 100% of their account balances. Plan participants who are terminated for reasons other than retirement, death or disability are entitled to receive only the vested portion of their accounts. The Plan also allows for certain hardship withdrawals prior to termination of employment.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The participants affected by any termination or discontinuance of contributions will immediately become fully vested in their accounts. However, as is discussed in Note 7, the company plans to merge the current Plan with the plan of a related business entity.

(1) Description of the Plan, continued

Participant Loans

Participants may borrow from the Plan up to the lesser of $50,000 or 50% of their vested account balance in the Plan. The loans are secured by the vested balance in the participant's account and bear interest at a prime rate. Principal and interest are paid monthly under a level amortization schedule through payroll deductions.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the eCompanyStore, Inc. 401(k) Plan (the "Plan") have been prepared on the accrual basis of accounting.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect those financial statements and disclosures. Actual results could differ from those estimates.

Investments

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Participant loans are valued at their outstanding balances, which approximates fair value.

The Plan provides for investments in various investment securities, which are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The net gain/(loss) from investment activity includes realized and unrealized gains and losses from investment activity as well as earnings on investments. Unrealized gains/(losses) are calculated as the difference between the current value of securities as of the end of the plan year and either the current value at the end of the preceding year or the actual cost if such investments were purchased during the current year. Realized gains or losses on sales of investments are calculated as the difference between sales proceeds and the current value of investments at the beginning of the year or the actual cost if such investments were purchased during the year. Additions to net assets in the plan are generated from contributions (from participants and matching from the employer), interest income, and increases in fair market value of plan investments.

Securities transactions are recorded on the trade date. Dividend income is recorded on the ex-dividend date.

The Plan invests in an investment contract through a group variable annuity contract (Guaranteed Portfolio Funds).

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined-contribution plan attributable to investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value of the investment contract approximates contract value at year-end.

Administrative Expenses

Substantially all administrative expenses of the Plan are paid by the Company.

Subsequent Events

Management has evaluated subsequent events for potential recognition or disclosure in the financial statements through October 4, 2010, the date on which the financial statements were available to be issued.

(3) Tax Status

Effective October 1, 2006, the Plan adopted a non-standardized form of a prototype plan sponsored by the Orchard Trust Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

(4) Investments

The following table represents the fair value of investments that were more than 5% of the Plan's net assets as of December 31, 2009 and 2008, respectively are as follows:

	2009	2008

Changes in net assets available for plan benefits per Form 5500	$ 199,241	(45,728)

(6) Fair Value Measurements and Disclosures

Effective January 1, 2008, the Plan adopted accounting standards, which provide a framework for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2009.

Mutual funds

Investments in mutual funds are valued at the net asset value ("NAV") of shares held by the Plan at year end. The NAV is a quoted market price in an active market and classified within level 1 of the valuation hierarchy.

Participant loans

Investments in participant loans are valued at amortized cost, which approximates fair value and are classified within level 3 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

December 31, 2009		Level 1	Level 2	Level 3	Total
Mutual Funds - Index	$	472,176	-	-	472,176

On March 31, 2010, the Sponsor completed its business combination with the Parent and Merger Sub through a merger of the Company into the Merger Sub.
