Independent Auditor's Report

Participants and Plan Administrator
California Academy of Sciences Defined Contribution Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of California Academy of Sciences Defined Contribution Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

RSM US LLP is the U.S. member firm of RSM International, a global network of independent assurance, tax, and consulting firms.
Visit rsmus.com/aboutus for more information regarding RSM US LLP and RSM International.

Further, as described in Note 8 to the financial statements, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America (U.S. GAAP) require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements
Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter—Supplemental Schedule Required by ERISA
The supplemental schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Note 1. Plan Description

General: The following description of California Academy of Sciences Defined Contribution Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that was established in 1989 by California Academy of Sciences (the Academy or Employer) to provide benefits to eligible employees, as defined in the plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (IRC) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration: The Academy has appointed a Plan Administrative Committee to manage the operation and administration of the Plan. The Administrative Committee also determines the appropriateness of the Plan's investment offerings, monitor investment performance and reports to the Academy's Board of Directors.

Participant contributions: Participants are eligible to contribute and may elect to have the Academy contribute their eligible pretax compensation to the Plan up to the amount allowable under the plan document and current income tax regulations. Participants who have the Academy contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable compensation. Contributions withheld are invested in accordance with the participant's direction. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer contributions: The Academy may make discretionary matching contributions to the Plan, as defined in the plan document. Participants who have attained the age of 21 and have completed one year of credited service are eligible for the employer match. The Academy matched 100% of each eligible participant's contribution from 3% to a maximum of 5% deferral rate for the year ended December 31, 2025.

Vesting: Participants are immediately vested in their contributions and discretionary employer-matching contributions, plus actual earnings thereon.

Participant accounts: Each participant's account is credited with the participant's contributions and employer matching contributions, if any, and an allocation of Plan earnings/losses and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant investment options: Participants direct their investments into various investment options offered by the Plan, as more fully described in the plan document. Participants may change their allocation on a daily basis.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account. The loan interest rate, determined at the time of the loan origination, is set at 1% above the prime rate. Principal and interest is paid ratably through payroll deductions.

Note 1. Plan Description (Continued)

Payment of benefits: Upon termination, retirement or certain other situations further described in the plan document, participants or beneficiaries may elect to leave their account balance in the Plan or receive their total benefits in a lump-sum amount, partial payment, annuity payments or installments over a period of years equal to the value of the participant's interest in their account. The Plan allows for the automatic distribution of participant account balances that do not exceed $7,000. A terminated participant's account balance is automatically rolled into an individual retirement plan if the account is less than $7,000, unless otherwise elected.

Forfeitures: Forfeited nonvested accounts may be used to fund employer contributions or pay administrative fees. For the year ended December 31, 2025, the Plan used $137,821 to reduce employer matching contributions. Forfeitures available for future use as of December 31, 2025 and 2024, were $0 and $134,863, respectively.

Revenue sharing account: Fees received from the Plan investments in the form of 12b-1 fees, subtransfer agency fees and administrative servicing fees are paid into a Revenue Credit Account within the Plan. Contractual fees for record-keeping services and for other allowable Plan administrative expenses are paid from this account or may be allocated to participants at the direction of the Employer. For the year ended December 31, 2025, revenue sharing income received totaled $84,959 and expenses paid totaled $97,715, which are reported net in the statement of changes in net assets available for benefits within the net appreciation in fair value of investments. The balance of revenue sharing funds at December 31, 2025 and 2024, was $87,722 and $100,478, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates: The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

Valuation of investments and income recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies using information provided by investment advisors and custodians. See Note 4 for discussion of fair value measurements.

Contract value is the relevant measurement for the portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2025 and 2024. Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes, and accordingly, have been included as an investment in the supplemental schedule of assets (held at end of year).

Payment of benefits: Benefits are reported when paid.

Contributions: Contributions from plan participants and matching contributions, if any, from the Academy are recorded in the year in which the employee contributions are withheld from compensation.

Administrative expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Academy. Expenses that are paid by the Academy are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

Subsequent events: The Plan has evaluated subsequent events through October 5, 2026, the date on which the financial statements were available to be issued.

Note 3. Information Certified or Provided by Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF), as Issuer and as Agent for TIAA Trust, N.A., the Trustee

The following is a summary of the Plan's asset information as of December 31, 2025 and 2024, and for the year ended December 31, 2025, included throughout the Plan's financial statements and ERISA-required supplemental schedule, obtained by management and agreed to or derived from information certified as complete and accurate by TIAA and CREF, qualified institutions:

	2025	2024
Investments at fair value:		
Registered investment companies	$ 92,075,495	$ 82,384,883
Pooled separate account	299,248	297,934
Self-directed brokerage accounts	155,596	106,814
Nonfully benefit-responsive guaranteed investment contracts	8,554,232	8,614,034
	$ 101,084,571	$ 91,403,665
Investments at contract value:		
Fully benefit-responsive guaranteed investment contracts	$ 3,389,448	$ 3,157,729
Notes receivable from participants	$ 130,250	$ 161,411

TIAA and CREF also certified to the completeness and accuracy of $11,132,375 of net appreciation in fair value of investments, $2,618,919 of interest and dividends and $12,993 of interest income on notes receivable from participants, related to the aforementioned Plan's assets for the year ended December 31, 2025.

Note 4. Fair Value Measurements

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the standard are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

***Registered investment companies*:** Valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The funds held by the Plan are deemed to be actively traded.

***Pooled separate account*:** The TIAA Real Estate Account is a pooled separate account for which daily unit values are published on NASDAQ. The fund is not traded on this exchange. The value of the unit holder's investment rises and falls with the return on the underlying assets in the account.

***Fixed annuity contract (not fully benefit responsive)*:** The fixed annuity contract is reported at contract value which approximates fair value. This determination is based on TIAA's credit rating and yield during 2025 and 2024 being comparable to similar alternative investments and the interest rate which resets annually being comparable to a 10-year treasury bond.

***Self-directed brokerage accounts*:** Self-directed brokerage accounts mainly consist of mutual funds and common stocks which are valued at the closing price reported on the active market on which the individual securities are traded.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	2025			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 92,075,495	$ -	$ -	$ 92,075,495
Self-directed brokerage accounts	155,596	-	-	155,596
Pooled separate account	-	299,248	-	299,248
Nonfully benefit-responsive guaranteed investment contracts	-	-	8,554,232	8,554,232
Total assets in the fair value hierarchy	$ 92,231,091	$ 299,248	$ 8,554,232	$ 101,084,571

	2024			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 82,384,883	$ -	$ -	$ 82,384,883
Self-directed brokerage accounts	106,814	-	-	106,814
Pooled separate account	-	297,934	-	297,934
Nonfully benefit-responsive guaranteed investment contracts	-	-	8,614,034	8,614,034
Total assets in the fair value hierarchy	$ 82,491,697	$ 297,934	$ 8,614,034	$ 91,403,665

Changes in fair value of levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2025, there were no transfers in or out of Level 3. During the year ended December 31, 2025, there was approximately $408,000 of purchases for Level 3 investments.

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements is as follows:

	Fair Value		Principal Valuation	Unobservable	Range of Significant
Name	2025	2024	Technique	Inputs	Input Values
Teachers Insurance and Annuity Association (TIAA):					
Nonfully benefit-responsive investment contracts	$ 8,554,232	$ 8,614,034	Theoretical transfer (exit value)	Risk-adjusted discount rate	1% to 3%

In determining the reasonableness of the fair value of the Level 3 investment, Plan management reviews the terms of the contracts and information provided by TIAA and CREF.

Note 5. Guaranteed Investment Contracts

The fully benefit-responsive TIAA Traditional Annuity Fund (the TIAA Traditional) of $1,928,627 and $1,845,569 at December 31, 2025 and 2024, respectively, which is a fully benefit-responsive fixed-annuity contract, is fully and unconditionally guaranteed by TIAA. TIAA maintains the contributions in a general account. During the accumulation phase, the TIAA Traditional provides a guarantee of principal, a guaranteed 3% minimum rate of interest and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the declaration year and is not guaranteed for future years. When the accumulation in the TIAA Traditional is converted to an annuity based on life expectancy, the present value of the stream of payment is equal to the accumulation.

The TIAA Traditional contract is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Because the fixed-annuity contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fixed-annuity contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their fixed-annuity contract at contract value. Accordingly, this TIAA Traditional contract was not included in the fair value disclosure.

The fully benefit-responsive TIAA Stable value and TIAA Plan Loan Default Fund of $1,460,821 and $1,312,160 at December 31, 2025 and 2024, respectively, which are fully benefit-responsive fixed-rate group annuity contracts, are fully and unconditionally guaranteed by TIAA. TIAA maintains the contributions in a nonunitized separate account. The contracts provide a guaranteed minimum rate of interest between 1% and 3%. Although the liability to provide contract guarantees and accumulations is backed by the assets in the separate account, any amount to be credited above the minimum guaranteed rate is determined by TIAA.

Certain events limit the ability of the plan participants to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of TIAA that cause insufficient availability of funds for annuity payments or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. The total of these fully benefit-responsive investments, as noted above, that are reported at contract value is $3,389,448 and $3,157,729 at December 31, 2025 and 2024, respectively.

Investment contracts that are not fully benefit-responsive are included in the financial statements at fair value. TIAA indicates that fair value of the not fully benefit-responsive contracts approximates contract value for this investment. Contract value for the not fully benefit-responsive portion of the fixed annuity contract and reported as Level 3 investments totals $8,554,232 and $8,614,034 at December 31, 2025 and 2024, respectively.

Note 6. Related-Party and Party-in-Interest Transactions

Certain Plan investments are managed by TIAA and CREF, the investment issuer of the Plan. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments as they are paid through revenue sharing rather than direct payments. The Plan pays directly any other fees related to the Plan's operations. These transactions qualify as party-in-interest transactions under ERISA.

Note 7. Plan Termination

The Academy intends to continue the Plan indefinitely for the benefit of its participants; however, it reserves the right to terminate or modify the Plan at any time by resolution of its board of trustees and subject to the provisions of ERISA.

Note 8. Excluded Contracts

The Plan Administrator has elected to exclude from investments certain annuity and custodial accounts that may have been issued to current and former employees without the Plan Administrator's knowledge prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such potential accounts have also been excluded from the statement of changes in net assets available for benefits. U.S. GAAP requires that these accounts and the related income and distributions be included in the accompanying financial statements. The Plan Administrator is not able to determine the amount of these excluded annuity and custodial accounts and the related income and distributions because records relating to these are not available or do not exist.

Note 9. Plan Loans

Participants may borrow directly from TIAA and CREF an amount of $1,000 up to a maximum equal to the lesser of 45% of their vested account balance or $50,000. Loan terms range up to five years, or up to 10 years for the purchase of a primary residence, as established by TIAA and CREF at the time of the loan. The loans are collateralized by the vested balance in the participant's account and bear interest at a rate based on terms provided by TIAA and CREF. Principal and interest are paid ratably by the participant directly to TIAA and CREF. The Plan Administrator has concluded that these loans are not plan assets and that such arrangements are exempt transactions. The balance of plan loans as of December 31, 2025 and 2024, is $14,368 and $25,923, respectively.

In the event of default, such loans are reportable to plan participants as taxable income but remain outstanding and continue to accrue interest until repaid by the plan participant or the participant becomes eligible to receive a distribution under the terms of the Plan. During 2025, there were no loans that went in to default. At December 31, 2025 and 2024, loans in default amounted to $6,694 and $6,361, respectively. Such amounts include the principal and accumulated interest.

Effective January 1, 2022, TIAA and CREF stopped issuing plan loans.

Note 10. Tax Status

The Plan has adopted a preapproved plan document that has received an opinion letter from the IRS dated August 7, 2017, stating that the form of the preapproved plan document was in compliance with applicable requirements of the IRC. The Plan has been amended since adopting the preapproved plan document. However, the Plan Administrator believes the Plan is designed, and is being operated, in conformity with the applicable requirements of the IRC and therefore, believes that the Plan is qualified.

U.S.GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 11. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.
